STATUS OF EXISTING VENUES

• Globe Life Park completed in 1994
  • Original debt issue of $135M
  • Paid off in 2001
  • 10 years ahead of schedule

• AT&T Stadium completed in 2009
  • Original debt issue of $298M
  • At current rate of debt service, planned payoff in 2021
  • 14 years ahead of schedule
• Current Ballpark lease expires April 2024

• Rangers have expressed desire for facility with a retractable roof

• Adding retractable roof to Globe Life Park is not a viable option for the Rangers

• Value to both entities to begin new ballpark sooner rather than later
SPORTS AND COMMUNITY VENUES STATUTE

- Delineates clear path for governmental entities to ask voter approval for dedicated funding streams for venue projects
- While other funding sources can be used, only the following taxes and fees allowed by statute may be utilized for this project:
  - Up to ½ cent Sales Tax
  - 2% Hotel Occupancy Tax
  - 5% Car Rental Tax
  - Parking and Admissions Taxes for Venue Events
- Majority of these revenue streams are tourism-based
- Property Taxes will not be used to fund a proposed ballpark complex
- All land necessary for the project is assembled
November 8, 2016 Arlington residents will vote on the proposed venue project

- If approved by voters, existing venue taxes approved in 2004 for AT&T Stadium—a half cent sales tax, 5% car rental tax and 2% hotel occupancy tax—would be extended to help publicly finance a new ballpark for the Texas Rangers.

- A tax on vehicles parked for events at the new ballpark and a tax on tickets for patrons attending events at the new ballpark could be levied in the same way parking and ticket taxes were handled for AT&T Stadium. In accordance with the terms of the Master Agreement, these taxes would only be levied if requested by the Rangers, and would be utilized for the Rangers’ debt.

- Data on VISA cardholder transactions in Arlington shows that 52% of sales to Arlington merchants are from visitors to Arlington.

- Venue taxes are largely tourism-based taxes; our visitors pay for a large share of the venues they come to visit.

- ORIGINAL PAYOFF

OPPORTUNITY
If Rangers defease existing venue debt to advance the new Ballpark earlier than 2021, the City would repay the Rangers using excess tax revenue and base rent payments not necessary for City debt service on bonds for a new ballpark.
Alternatively, the City can decelerate venue debt payments to make room for issuance of debt for a new ballpark. This would extend the payoff date for venue debt, but is achieved using existing venue tax rates in effect today.
OTHER KEY POINTS

• If cost of Complex is less than $1B, Team will contribute to Entertainment District development to ensure their total investment matches the City contribution

• Team will host, sponsor, and participate in community events in Arlington

• Team will participate in Major Event Trust Fund event bids

• Team Headquarters will be in Arlington

• MWBE goal of 25% with Community Advisory Committee and Benefits Plan

• Team will incorporate elements into Complex to recognize contributions of former leaders

• Team and City will explore opportunities for repurposing portions of Globe Life Park; Team has final determination on future of structure
