General Fund Revenues

Property Taxes (Ad Valorem Taxes)

Responsible Department: Finance

Property taxes are assessed on real estate and personal property as of January 1 each year. The taxes provide funding for general government operations and debt requirements. The basis for the assessment is the value of the property. Taxes are billed on October 1 and the delinquency date is February 1 of the year following the levy. **Current taxes** are those that are paid prior to the delinquency date. **Delinquent taxes**, along with **penalties and interest**, are incurred on taxes paid on or after the delinquency date.

The total property tax rate is split between the General Fund and Debt Service Fund. Debt service requirements are satisfied first, with the rest going to operation and maintenance (O&M) in the General Fund. The maximum property tax rate in Texas is \$2.50 per \$100 value, but there are certain restrictions associated with tax increases.

Exemptions are authorized for homesteads owned by citizens 65 and over, and for fully and permanently disabled persons. Disabled American Veterans may also claim exemptions. A general homestead exemption amounting to 20% of the assessed value has been authorized by the City Council.

Revenue Codes:

- 1000-40001 - General Fund, Current Taxes
- 1000-40002 - General Fund, Delinquent Taxes

Sewer Charges - Other

Responsible Department: Water Utilities

These charges are assessed for providing wastewater system access to the cities of Pantego, Dalworthington Gardens, Kennedale, and Mansfield, payment of which gives these cities the right to discharge their wastewater into Arlington’s system. Rates are reviewed and adjusted annually in accordance with changes in the cost of operating Arlington’s wastewater system, and changes in the amount the City of Arlington is charged by the Trinity River Authority for wastewater treatment services.

The enabling documentation is contained in the contracts (and accompanying City Resolutions) between the City and the individual cities noted above: Resolutions 09-032 (for Pantego), 02-438 (for Dalworthington Gardens), 02-445 (for Kennedale), and 10-015 (for Mansfield).

Sewer Pro Rata Charges

Responsible Department: Water Utilities

A front footage fee is assessed when a customer requests connection to an existing sanitary sewer line that was constructed, purchased or financed by the City, including offsite and/or oversized mains for which the owner is being reimbursed. The fee is calculated by pro-rating the cost to a lot parcel based on a customer's front footage along a sanitary sewer line, and is based on a two-year rolling average cost for extending sewer service across a property's frontage.

The enabling documentation is contained in Ordinance 04-001 and Resolution 15-211.

Sewer Surcharges

Responsible Department: Water Utilities

These monthly surcharges are assessed for any wastewater customer discharging abnormal wastewater or industrial waste, in addition to their regular monthly wastewater service charges. The computations of surcharges are based on the following formula: **Ci = (so) (is) + (bo) (Bi)**

- Ci = surcharge to industrial users in dollars to be added to monthly bills for water and wastewater service.
- so = unit cost of treatment (including sludge treatment) chargeable to suspended solids.
- bo = unit cost of treatment chargeable to BOD.
- bi = amount of BOD from industrial users, lb./month in excess of normal allowable limits.
- is = amount of suspended solids from industrial users, lb./month in excess of normal allowable limits.

The rate for each user may be re-calculated once every 12 months or as necessary to accurately reflect the operations of the user. Customers in the Class Rate System of charges are billed using a separate formula and are exempt from this fee.

The enabling legislation is the federal Clean Water Act of 1976, the City Code's Industrial Waste and Water Pollution Control Chapter, Section 5.05, Ordinance 03-045 and Resolution 15-211.
