

SCOPE OF WORK

Annual Requirements Contract for Ammunition for the Police Department.

1.0 INTENT

The intent and of this invitation to bid is to establish an annual requirements contract for the purchase and delivery of both lethal and practice ammunition for the Arlington police department.

The City reserves the right to make an award to either one vendor whose proposal is the best value for the City, or to multiple vendors, at the City's discretion.

2.0 DELIVERY

Due to the long lead times of new factory ammunition, it will be the responsibility of the successful bidders to adhere to the delivery times as specified on the individual orders. Manufacturer and distributors that continually miss their delivery dates are to contact the ordering department to keep them informed of "why" the delivery dates have been missed. If ammunition is shipped from the distributors address because of missed shipment and an emergency has occurred because of late.

Failure to deliver within the time specified may be grounds for considering a successful bidder(s) in default. This may be grounds for cancellation of an agreement resultant from award of this invitation to bid and rejection of future bids on the basis that the bidder is not responsible.

In the event successful bidder shall be unable to make the delivery as required, the City shall reserve the right to obtain new factory ammunition from an alternate source. Note: The delivery location(s) does not have dock or freight elevator. **Prices quoted are to be inclusive of all delivery charges.**
