FY 2022 4th Quarter Business Plan Update

Manager's Message

INTRODUCTION

New Opportunities, New Challenges

The FY 2023 Budget presents possibilities for the future that have rarely been seen in the City's history. After two years of caution in preparing budgets that were constrained by the economic effects of the pandemic and uncertainty surrounding the City's major revenues, the outlook for FY 2023 is brighter than even our most optimistic projections would have suggested a year ago. Although many challenges remain, our financial prospects for the coming year will allow us to pursue new program initiatives and continue fulfilling the promises and commitments we have made to our citizens.

The most encouraging aspect of the City's revenue outlook continues to be the strong resurgence of sales taxes. After a sharp downturn in FY 2020, the growth in sales tax revenue has far exceeded expectations. In FY 2021, sales tax receipts in the General Fund were \$73.8 million, an increase of \$9.6 million (14.9%) over the pandemic year of 2020. The most recent projection for FY 2022 shows total receipts of \$83.6 million, which would be \$9.8 million (13.3%) higher than FY 2021. It has become increasingly clear in recent months that this growth is more than could be solely attributed to recovery from the pandemic. The Supreme Court's 2018 decision in the *South Dakota v. Wayfair* case, which codified destination-based sales tax collections and became effective in Texas just as the pandemic was beginning, along with the continuing surge in online retail activity, are both significant contributing factors. The adopted budget for General Fund sales tax revenue in FY 2023 is \$86.4 million, which is \$22 million (34%) higher than receipts from three years ago.

The growth in sales taxes, most of which are paid by visitors to Arlington, has provided the opportunity to continue reducing the property tax burden on our residents. The adopted budget for FY 2023 includes a two-cent reduction in the property tax rate, which will be the seventh consecutive year in which the tax rate was reduced. The adopted rate for FY 2023 is \$0.5998 per \$100 of assessed value, 4.82 cents (7.4%) lower than the \$0.6480 rate in effect before the annual rate reductions began.

Recent economic news has increasingly focused on inflation. After almost two decades of inflation hovering in the 2 percent range, the most recent data shows inflation spiking to approximately 9 percent in the DFW region, largely driven by rising costs for food and gasoline. While part of the increase may be attributable to temporary supply chain delays and the conflict in Ukraine, the resulting upward pressure on prices is forcing consumers to reevaluate their spending behavior and has also imposed upward pressure on wages, as organizations focus on hiring and retaining outstanding employees. The adopted budget for FY 2023 includes an average 6 percent compensation increase for City staff in October 2022 and an additional 2 percent increase in April 2023; coupled with the 3 percent increase provided in FY 2022, these adjustments will help restore market competitiveness and redress the loss of purchasing power that has resulted from a year of 9 percent inflation. Most economic experts are predicting inflation to reach its peak in the current year, with a gradual return to historically normal inflation rates in 2023 and beyond.

Promises Made, Promises Kept

Despite the challenges brought about by the pandemic era, the City has many successes to celebrate. Promises made to our community have been kept, showing our enduring commitment to public health, safety, and expanded opportunities for our citizens.

FY 2023 will be the final year of a three-year program to purchase a second set of bunker gear for Arlington's firefighters, which protect first responders from harmful chemicals and other contaminants that may be encountered during emergency responses. The second set of gear will allow fire personnel to immediately decontaminate this equipment following exposure to contaminants while having a second set of protective gear cleaned and ready for use.

FY 2023 will be the final year of a four-year initiative to convert the City's streetlights to LED fixtures. The conversion will improve safety through better illumination, will save on electricity costs, and will reduce maintenance costs as the new fixtures require less frequent replacement than incandescent or fluorescent components.

Manager's Message

Among the benefits of sales tax revenue growth has been increased resources available for street maintenance, which since 2003 has received ¼ cent of total sales tax receipts. These additional resources have provided opportunities to improve aging road infrastructure faster than would otherwise have been possible. In June 2022, the City Council amended the FY 2022 operating budget in the Street Maintenance Fund to add \$8 million in authorized spending, appropriating money available from the fund's beginning balance and from larger-than-expected sales tax receipts during the year. While sales tax revenue in the Street Maintenance Fund is spent on curb-to-curb resurfacing and repairs, strong growth in the City's property tax base has provided additional opportunities for bond programs to build new road infrastructure.

The City has maintained its exemplary bond ratings through our long-standing commitment to systematic and careful debt issuance. In the most recent review of the City's creditworthiness in the spring of 2022, the three credit rating agencies all reaffirmed the City's high ratings for another year: AAA from Fitch and Standard and Poor's, and Aa1 from Moody's. These favorable ratings mean lower interest rates for debt issuance, ensuring stable long-term funding for strategic investments in the future. The sale of pension obligation bonds in 2020, which was the first arrangement of its type in the state completed in cooperation with the Texas Municipal Retirement System, has essentially eliminated the unfunded portion of our long-term pension liabilities and resulted in substantial savings for the City compared to the previous pension funding model.

In addition to these achievements, the City has maintained financial reserves that are well above the levels specified in the Financial Policies adopted each year by the City Council. In FY 2022, our reserves totaled \$53.0 million, which is 20 percent of recurring General Fund expenditures for the year and \$13.2 million more than the 15 percent level required by the Financial Policies. This approach also assists the City in maintaining high credit quality.

Without the sustained efforts of the City Council, the citizens of Arlington, and the City staff working together, fulfilling the promises and commitments noted above would not have been possible. These achievements, particularly during a major health crisis and uncertainty throughout the financial markets, are well worth celebrating.

PLANNING FOR THE FUTURE

Advancing Our Goals of Social Equity

The Unity Council was established in July 2020 to promote greater equality and opportunities throughout the City, and to "create an exemplary, safe environment in which to live, learn, work and play for all residents - regardless of race, ethnicity or national origins." After extensive research and discussions, the Unity Council identified five core areas on which to focus its future work: Economic Disparities, Education and Workforce Training, Housing, Health and Wellness, and Policing and Criminal Justice. In February 2021, the Unity Council submitted a 132-page report to the City Council with recommendations for short-, mid- and long-term goals in these areas after interviews with multiple focus groups and town hall meetings held during the fall and winter of 2020 and 2021. The City Council conferred standing committee status for the Unity Council in June 2021.

The February 2021 report provides a framework for expanding economic opportunities and promoting greater social equity throughout the City. Our focus now moves into the operational phases to make these goals a reality. Our new Chief Equity Officer will be working closely with the Unity Council and City staff to implement the recommendations outlined in the report with measurable outcomes and identify additional action items to further our social equity goals.

The American Rescue Plan and One-Time Funding Opportunities

The American Rescue Plan Act of 2021 (ARP) provided state and local governments with federal funding to address the budgetary shortfalls brought about by the pandemic. Arlington's share of this funding is \$81.5 million, which must be fully obligated by December 2024 and fully spent by December 2026. In FY 2021, \$12.0 million of this funding was spent to remove the staff hiring freeze that had been in effect since the outset of the pandemic, restore the suspended compensation increase for employees, and provide additional funding for street maintenance. In FY 2022, \$19.7 million

Manager's Message

is being spent to restore budget cuts and service reductions implemented during FY 2021 and provide significant new investments in public safety. These investments included the addition of 45 sworn positions and 2 new civilian positions in the Fire Department to meet the rising demand for EMS services. The Police Department also received new Investigative Sergeants and Geographic CID Detectives, resulting in the addition of 9 new sworn positions and 2 civilian positions, including a Police Chaplain.

In FY 2023, the City will begin the phased-in transition of ARP-funded recurring expenses back to the General Fund, leaving \$11.0 million in expenditures in the grant for FY 2023 to continue to fund the investments made in FY 2022. An average of an additional \$3.8 million will be moved from the grant to the General Fund each year through FY 2026, when the grant expires, and the expenditures will be fully absorbed in the General Fund. The remaining \$27.3 million of previously unallocated grant funds will be invested in new projects including inflationary increases in the cost of construction of the Active Adult Center and partial funding for a significant Pierce Burch Treatment Plant construction project. Investing in Water Infrastructure frees up funds to invest in other strategic initiatives that will benefit the community including the City-wide broadband (SiFi) Plan Review and Inspection Program, investment in the International Corridor project, and funding for a collaboration with partners in Tarrant County to invest in early childhood development programs, among other future opportunities.

In addition to the ARP funding, the City has various sources of one-time funding totaling \$13.6 million available for use. This amount includes \$2.2 million of fund balances in the General Fund, Information Technology Fund, and Fleet Services Fund, \$4.2 million from the Parks Gas Fund (includes \$1.2 million for TRGC debt reimbursement), \$5.5 million in CARES Act savings, and \$1.4 million from the Liquidated Damages Fund (planned for fire apparatus replacements). One-time resources present timely opportunities for the City to make strategic investments that enhance our service delivery without having to commit recurring expenditures in future years.

Progress Through Partnerships

The City has recently expanded collaborative efforts with Tarrant County organizations to provide access to affordable housing and childcare services. Since the spring of 2021, the County's Home Investment Partnership (HOME) Program "provides formula grants to states and localities that communities use -- often in partnership with local nonprofit groups -- to fund a wide range of activities that build, buy and/or rehabilitate affordable housing for rent or homeownership." Although the County administers the program for areas outside of Arlington, Fort Worth and Grand Prairie, those three cities directly receive and administer HOME funds to create and expand access to affordable housing for their residents.

In March 2022, the Tarrant County Commissioners Court approved a \$45 million investment of American Rescue Plan Act (ARP) funds for childcare across the County. The funding will strengthen childcare businesses and quality (\$2 million); stabilize quality childcare and increase whole child support (\$15 million); and expand infant-toddler access and infrastructure for highest-need families (\$28 million). To implement the investment in childcare, the County partnered with Childcare Associates (CCA), a non-profit supported with ongoing guidance from the Blue-Ribbon Action Committee on Childcare. The Action Committee was recently formed in partnership with Tarrant County and the cities of Fort Worth and Arlington.

In the spring of 2005, the City leased its sanitary landfill and contracted garbage collection and recycling services to Republic Waste Services. Over the years, the resulting partnership has been one of the most beneficial collaborations the City has ever entered. However, challenges are emerging that will bring unavoidable changes to the collection services program. The rising costs of fuel and the increasing upward pressure on labor costs have reduced the cost-benefit effectiveness of manual collection service to the point where the market can no longer provide this service. Automated collection processes are currently being developed, but these are still in the future and will likely result in significant changes to the services offered. It will become necessary to provide educational outreach and detailed information for our residents and businesses about the anticipated changes to these services in order to manage expectations for the future.

Manager's Message

New and Expanded Programs for FY 2023

Departments in the General Fund will receive a total of \$20.0 million in additional funding (of which \$12.1 million is one-time funding) and 26 additional full-time positions in FY 2023 for the items listed below. The restoration of budget cuts taken in FY 2021 is funded by resources available from the American Rescue Plan Act of 2021.

- Asset Management: \$2.9 million in one-time funding for replacement generators and provide additional resources for the Levitt Hospitality Suite, 101 Center Parking Garage, City Tower improvements, and consulting services for the Public Safety Training Center; and \$1.6 million to restore FY 2021 budget cuts, increase resources for janitorial services and facility maintenance, provide for increases in software maintenance, and 5 new full-time positions (Architect Technician, Plumber, Painter and 2 HVAC Technicians)
- Audit: \$55,245 to restore FY 2021 budget cuts, upgrade the TeamMate software, and one-time resources for peer review services
- Business Diversity Office: \$43,775 for B2GNOW software implementation
- City Attorney's Office: \$73,468 to restore FY 2021 budget cuts and expand legal case files
- Communication and Legislative Affairs: \$20,268 to restore FY 2021 budget cuts
- Code Compliance: \$295,494 to restore FY 2021 budget cuts, convert two part-time positions in Animal Services to full time, expand the Commercial Inspections Program, and add one part-time Veterinarian Technician position
- Court: \$75,110 to restore FY 2021 budget cuts
- Economic Development: \$155,389 to restore FY 2021 budget cuts and add one ROW Technician Supervisor position
- Finance: \$169,783 to restore FY 2021 budget cuts, increase funding for external audit costs, and add one Payroll Assistant position
- Fire: \$3.78 million (of which \$3.25 million is one-time funding for replacement apparatus and bunker gear; \$1.4 million of this funding will come from the Liquidated Damages Fund) to restore the FY 2021 budget cuts, 3 additional EMS Lieutenant positions, and one Fire Prevention Inspector position
- Human Resources: \$542,557 to restore FY 2021 budget cuts, property and casualty insurance premium increases, contracting costs for recruiting and insurance/risk consulting, additional resources for employee development (offset by funding provided by the Arlington Higher Education Finance Corporation), one-time costs for ERP implementation, and one part-time HR Assistant in Risk Management
- Judiciary: \$2,000 to restore FY 2021 budget cuts
- Library: \$409,061 to restore FY 2021 budget cuts, provide one-time funding (\$90,000) to repair fixtures and finishes at the Southeast Branch, and increase funding for library collection materials
- Non-Departmental: \$1.46 million, of which \$1.2 million is one-time, to continue implementation of the Enterprise Resource Program
- Office of Strategic Initiatives: \$14,500 to restore FY 2021 budget cuts
- Parks and Recreation: \$6.83 million, of which \$5.18 million is one-time funding, to restore FY 2021 budget cuts, and add resources for mowing and janitorial contracts, pond dredging, reclassification of an Administrative Aide position, erosion control initiatives, park development operation and maintenance costs, equipment replacement, irrigation system expansion, playground replacements, and parking lot renovations
- Planning and Development Services: \$334,683 to restore FY 2021 budget cuts, International Accreditation Services building certification, one Senior Combination Inspector position, and one Principal Planner position
- Police: \$1.47 million to restore FY 2021 budget cuts, add 8 full-time positions starting in July 2023 to complete the staffing for the Behavioral Health Unit, add two new storefront locations, expand the Blue Chip program, additional forensic services, K-9 and aviation unit expenses, and software at the Real Time Crime Center
- Public Works: \$365,331 to restore FY 2021 budget cuts, reclassification of Administrative Aide, Office Assistant, and Traffic Technician positions, and provide increased compensation for School Crossing Guards
- Transportation: \$204,839 to add one Senior Management Analyst position and one Transportation Planner position

Manager's Message

Departments outside the General Fund will receive additional resources and staff positions as outlined below. Again, the restoration of budget cuts taken in FY 2021 is funded by resources available from the American Rescue Plan Act.

- Convention and Event Services: \$1.46 million, of which \$600,000 is one-time funding, to increase resources for the Arts, Convention and Visitors Bureau, Fielder Museum, new controls for access doors, and replacement of eSports seating
- Dispatch Services: \$139,052 to restore FY 2021 budget cuts and increase funding for the radio tower lease, CAD system maintenance and updates, and radio system maintenance
- Fleet Services: \$3.3 million for the fleet maintenance contract, fuel costs, replacement vehicles, and removal of underground tanks (\$105,680 in one-time funding)
- Information Technology: \$2.9 million, of which \$1.1 million is one-time funding, to restore FY 2021 budget cuts, add funding for software licensing and lease agreements, fund the implementation of various enterprise-wide technology projects, fiber optic cable location services, and add three new full-time positions: Applications Specialist II, GIS Application Developer, and IT Project Manager
- Park Performance Fund: \$652,845 to add resources for the golf programs, add three new positions (Catering Sales Assistant, Lifeguard, and Customer Service Representative), and fund improvements at the Tennis Center (\$295,000 of one-time funding)
- Storm Water Utility Fund: \$997,865, of which \$705,875 is for debt principal, interest, and payment-in-lieu-of-taxes (PILOT) expenses, and reclassification of selected staff positions
- Street Maintenance Fund: \$9.46 million, of which \$8.0 million is for contracted street maintenance, to restore FY 2021 budget cuts, reclassification of Field Operations and Traffic Operations staff positions, improvements to the North and South Field Operations facilities (\$325,000 in one-time funding), and new 10GB uplink switches for the traffic signal network
- Water Utilities Fund: \$6.4 million, of which \$3.8 million is one-time funding, for debt and PILOT payments (\$1.3 million), water and sewer line repairs and maintenance, street repairs, concrete replacement, treatment chemicals, software maintenance, pay equity adjustments, four part-time meter readers, and two new full-time staff positions for the lead and copper rule revision program

CONCLUSION

The average household in Arlington will see the following increases in FY 2023:

- Property taxes on the average home will increase by \$8.44 per month
- Water and Sewer rate increase of \$1.18 per month (the average residence uses about 7,000/3,000 gallons of water/sewer per month)
- Garbage and recycling rate increase of \$3.29 per month, including taxes and fees
- Storm water rate increase of \$0.50 per month

The average household will pay \$160.90 more per year (\$13.41 per month) for property taxes, water, sanitation, and storm water services provided by the City.

Although it might be tempting to think of the global pandemic as being completely behind us now, new variants of the virus continue to emerge, and despite nationwide successes in public education and vaccination efforts, the possibility of new threats to public health cannot be dismissed. The pandemic taught valuable lessons about the importance of preparedness and flexibility in responding to a health crisis. As our fulfilled promises and commitments demonstrate, the City has learned those lessons well.

Manager's Message

There are many reasons for optimism as we begin the new fiscal year. Strong revenue growth, substantial federal funding from the American Rescue Plan Act, and the availability of one-time funding have converged to create multiple opportunities to address our current needs while making enduring investments in our future, even as we continue to reduce the property tax burden on our citizens.

I am honored to present the FY 2023 Proposed Budget for consideration by the Mayor and City Council and look forward to finalizing our plan of work to serve the City's residents in the coming year.

Sincerely,

A handwritten signature in black ink, appearing to read "Trey Yelverton". The signature is written in a cursive, flowing style.

Trey Yelverton

Transfers & Fund Balances	\$17,488,302	2.8%
Park Performance	\$17,381,941	2.8%
Convention and Event Services	\$11,681,711	1.9%
Storm Water Utility	\$12,765,873	2.1%
Total FY 2023 Expenditures	\$614,232,352	100.0%

Budget In Brief

FY 2023 ADOPTED GENERAL FUND REVENUES

The City's revenue outlook has improved dramatically over the past year, particularly for property and sales tax revenues. The downturn experienced during the pandemic was far shorter in duration than originally expected, and sales taxes have surged beyond what we had projected for FY 2023 in our long-range forecasts even without the public health crisis. The Supreme Court's 2018 decision in the *South Dakota v. Wayfair* case, along with the overall growth in online retail activity that shows no signs of slowing, has resulted in sales tax growth rates that the City has rarely experienced before. Property values, often a trailing indicator of economic stress, did not show the declines that were expected as the City emerged from the pandemic, with current growth largely driven by increases in residential values due to the robust housing market. For FY 2023, assessed property values increased by 13.2% from last year, and sales taxes are projected to grow by 3.3% above the current FY 2022 estimate of \$83.6 million, which is \$10.2 million above the budget for the year. The following table provides a summary of General Fund revenues by major category for FY 2021 Actuals, FY 2022 Estimates, and FY 2023 Adopted revenues.

	<u>FY 2021 Actuals</u>	<u>FY 2022 Estimates</u>	<u>FY 2023 Adopted</u>
Property Taxes	\$ 109,405,180	\$ 115,235,768	\$ 125,399,016
Sales Taxes	73,778,424	83,612,502	86,368,836
Franchise Fees	37,070,166	37,527,561	37,114,177
Service Charges	15,409,315	15,792,946	17,634,909
Fines and Forfeitures	7,787,969	7,049,359	7,218,390
Other Revenues	14,721,086	15,616,379	16,532,005
Total Revenues	\$ 258,172,140	\$ 274,834,515	\$ 290,267,333

Revenue projections determine the level of resources that can be allocated for programs and projects to support the City Council's goals and objectives. The revenue graph below shows the decline in sales tax revenues during FY 2020, the decline in property tax revenues in the following year, then exceptional growth for sales taxes in FY 2021 and 2022 and growth for property taxes in FY 2022 and 2023.

Budget In Brief

PROPERTY TAXES \$125.4 MILLION, 43.2% OF GENERAL FUND REVENUES

The largest single revenue source for the General Fund is the Property Tax. In FY 2023, this revenue represents 43.2% of General Fund revenues, up from 43.1% in FY 2022. The total appraised value of property in Arlington is \$51.6 billion of which the assessed value of taxable property is \$35.74 billion.

The adopted ad valorem tax rate in FY 2023 is \$0.5998 per \$100 of assessed value, which is 2.0 cents lower than the FY 2022 rate. The General Fund's portion of the adopted rate is 40.30 cents per \$100 of assessed value, which represents 67.2% of the total tax rate. As the

	FY 2022	FY 2023	Increase (Decrease)
General Fund Tax Rate	40.98	40.30	(0.68)
Debt Service Tax Rate	21.00	19.68	(1.32)
Total Property Tax Rate	61.98	59.98	(2.00)

chart to the right indicates, the allocation of the property tax rate between Debt Service and the General Fund shifts in FY 2023, with the General Fund's portion decreasing by 0.68 cents and the Debt Service portion decreasing by 1.32 cents. As shown in the accompanying bar chart, the property tax base grew by 13.2% in FY 2023, much better than anticipated after the small

increase in FY 2021 and moderate increase last year. General Fund revenues from this growth are anticipated to increase in FY 2023 by approximately \$10.2 million from the FY 2022 estimates.

The 13.2% growth in the property tax base reflects an increase in values of \$4.16 billion from the certified roll received in July of last year, as shown below.

Certified Roll, July 2021:	\$31,585,577,528
Increase in values:	<u>4,158,136,102</u>
Certified Roll, July 2022:	\$35,743,713,630

The graph to the right shows the tax rate history in the City since FY 2012. The proposed rate of \$0.5998 per \$100 of assessed value represents the seventh consecutive year in which the City has lowered its ad valorem tax rate.

Budget In Brief

SALES TAXES \$86.4 MILLION, 29.8% OF GENERAL FUND REVENUES

The City's portion of the total 8.25-cent sales tax rate is 2.00 cents. Six and one-quarter cents is retained by the state, the General Fund receives one cent, one-half cent provides funding to repay the City's portion of the debt on sports venues, one-quarter cent provides funding for street maintenance, and one-quarter cent (approved by the voters in November 2020 and becoming effective in April 2021) supports the activities of the Arlington Economic Development Corporation. General Fund sales tax revenue for FY 2023 is projected at \$86,368,836. These taxes represent 29.8% of General Fund revenue in FY 2023, up from 27.6% in the FY 2022 budget. The following chart shows the sales tax revenue history in the City for the past 12 years.

Budget In Brief

OTHER REVENUES – \$78.5 MILLION, 27.0% OF GENERAL FUND REVENUES

Franchise Fees are paid by utilities for the use of City streets, rights-of-way, and property in providing utility service to citizens. These revenues represent 12.8% of General Fund revenues in FY 2023, down from 13.9% in the FY 2022 budget. The electric utility pays the most in franchise fees and is expected to pay \$12.56 million in FY 2023. Other franchise fees include telephone, cable television, garbage collection, and water and gas utilities.

Service Charges are collected by the City for the use of facilities or services. These include pool and recreation center fees, various inspections and reviews conducted by City personnel, and transfers from other City funds to reimburse the General Fund for services provided to those funds. In FY 2023, these revenues represent 6.1% of General Fund revenues, down from 6.4% in the FY 2022 budget.

Fines and forfeitures are obtained primarily from fines assessed by the City's Municipal Court. In FY 2023, these revenues represent 2.5% of General Fund revenues, down from 3.2% in the FY 2022 budget. Revenues received by the Municipal Court are expected to be \$1.03 million lower than the FY 2022 budget.

Other revenue sources for the General Fund include interest, leases and rents, licenses and permits, and taxes on bingo, liquor, and criminal justice. In FY 2023, these revenues represent 5.6% of General Fund revenues, down from 5.8% in the FY 2022 budget.

OTHER OPERATING FUNDS

Although each of the funds below is discussed in more detail in the following sections of the Adopted Budget, this section provides a brief financial summary for each of the City's operating funds in FY 2023.

- The **Water Utilities Fund** is projecting available resources (beginning balance, revenues, and net interfund transfers) of \$156.3 million and total expenditures of \$156.2 million.
- The **Storm Water Utility Fund** is projecting available resources of \$12.8 million and total expenditures of \$12.8 million.
- The **Convention and Event Services Fund** is projecting available resources of \$11.9 million and total expenditures of \$11.7 million.
- The **Park Performance Fund** is projecting available resources of \$17.4 million and total expenditures of \$17.4 million.
- The **Street Maintenance Fund** is projecting available resources of \$30.6 million and total expenditures of \$30.4 million.
- The **Document Services Fund** (internal service fund) is projecting available resources of \$2.4 million and total expenditures of \$2.4 million.
- The **Fleet Services Fund** (internal service fund) is projecting available resources of \$11.2 million and total expenditures of \$10.7 million.
- The **Information Technology Support Fund** (internal service fund) is projecting available resources of \$19.5 million and total expenditures of \$19.3 million.
- The **Communication Services Fund** (internal service fund) is projecting available resources of \$13.7 million and total expenditures of \$12.5 million.
- The **Debt Service Fund** is projecting available resources of \$75.4 million and total expenditures of \$72.2 million.

Budget In Brief

Organization Chart

City of Arlington Organization Chart

Rev. 07.22

Organization Chart

Business Plan

The City of Arlington develops an annual Business Plan to highlight specific projects and activities directly reflected in the City's Budget. These projects are determined by departments and the City Manager's Office, approved funding requests, and Council priorities. The Business Plan runs on a fiscal year, beginning October 1st and ending September 30th of the following year.

Each year, the Arlington City Council has a retreat to strategize on priorities for the next fiscal year based on needs within the community. These needs are determined by various means including citizen satisfaction ratings, feedback from residents and businesses, and development trends. Once Council establishes their priorities for the following year, the City as an organization develops the Budget and Business Plan to address the adopted priorities.

For FY 2023, those priorities are:

- Build Unity
- Champion Great Neighborhoods
- Enhance Regional Mobility
- Invest in Our Economy
- Put Technology to Work
- Support Youth and Families

In addition to the priorities, the City has four core service areas represented in the Business Plan:

- Culture/Education/Recreation
- Financial/Economic Development
- Infrastructure
- Public Safety

The Business Plan Projects are represented by departments in the ten categories defined above. All projects theoretically could be represented in the core service areas because all core services are represented. However, projects related directly to a Council priority are elevated to reflect the respective priority.

Scorecards for the Council priorities and the core service areas have been developed to represent the day-to-day business operations in departments. The activity measures are represented on scorecards in the back of each section in the project portion of the Business Plan.

The Business Plan and scorecards are updated quarterly, reviewed by the City Manager's Office, and provided to the City Council. They are also available on the City's website.

Business Plan

SERVICE DELIVERY

One of the City's primary functions is service delivery. The following information provides a brief narrative of each department and the primary functions of the departments. Also included are some recent awards received.

Asset Management includes Building Design and Construction, Facility Services, Fleet Services and Solid Waste & Recycling. AM is responsible for assets owned and controlled by the City, including libraries, recreation centers, public safety facilities and sanitary landfill. AM works in partnership with departments to ensure effective stewardship of assets to deliver services. AM also oversees revenue collection for two landfill contracts and the garbage and recycling franchise agreement.

Building Design and Construction manages vertical construction. In the last five years, the team has managed 59 capital projects valued at about \$89 Million. Currently, the team is overseeing design for Fire Station No. 1 Rebuild, Active Adult Center, and Police North Substation/Evidence Storage & Crime Lab. For FY 2022, other projects include City Hall Window System Replacement; COVID-19 Engineering Controls; and Eunice Senior Center Remodel.

Facility Services is responsible for 181 facilities totaling over 2.3 million square feet. The team repairs and maintains building interior and exteriors, and major building components such as electrical systems, elevators, fire alarm systems, generators, HVAC, and plumbing. An in-house carpentry shop builds custom cabinetry, furniture, and specialty fixtures. Of about 3,000 service requests annually, the team completes 2,500 on average.

Fleet Services is responsible for the purchase, maintenance, repair, and disposal of fleet assets. The Fleet team manages the City's fleet maintenance contract of about 1,000 vehicles and pieces of equipment. The contractor averages about 10,000 work orders a year. The contractor is also responsible for upfitting and decommissioning vehicles and equipment. In FY 2022, 9 new electric vehicles (Chevy Bolts) went into service, including for the Police and Code Compliance Departments. Also, Level 2 Electric Charging Stations were installed at the North Fleet and South Fleet Shops.

Solid Waste Management & Recycling manages contracts for the City's 800-acre landfill and a gas-to-energy facility. The landfill accepts over 900,000 tons of waste a year which the gas facility processes into natural gas; this is enough to power over 5,000 homes. Mulching and concrete recycling produces over 200,000 tons of concrete and over 45,000 cubic yards of green waste per year. In FY 2021, the landfill contract generated about \$6.9 million in revenue for the city, and the landfill gas-to-energy plant generated about \$700,000 for the City.

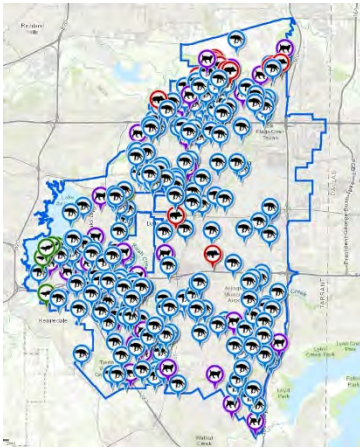

AM also manages the contract for garbage and recycling collection for about 100,000 homes and 4,500 businesses. Over 300,000 tons of waste generated from residents and businesses are collected, while over 20,000 tons of residential recycling are diverted from the landfill. In FY 2021, the contract generated about \$2.3 million.

In FY 2022, AM began overseeing deployment of a citywide fiber network which will be owned, maintained, and operated in the right-of-way by broadband developer as part of a license agreement. This network will bring high-speed Internet to all households and businesses. Once complete in five to seven years, the City will receive revenue from subscriber accounts.

Code Compliance Services consists of Animal Services and Code Compliance working as a team with Arlington citizens, partners in the community and nationwide, and with other city departments in support of youth and families while building and protecting thriving neighborhoods.

Animal Services' award-winning team encourages responsible pet ownership and provides for the humane care of stray and unwanted animals. Programs offered include animal care operations, pet adoptions, pet licensing, field enforcement services, bite/dangerous animal investigations and a veterinary clinic that provides health, and sterilization / vaccination services.

Business Plan

In supporting the Council's Environmental Task Force (CETF), Animal Services focused efforts to provide and preserve a community and wildlife coexistence through wildlife education and reporting. In partnership with River Legacy, Animal Services staff promoted the "Keep Wildlife Wild" program by participating in the River Legacy's Earth Day celebration and educating future wildlife enthusiasts attending River Legacy's summer camps. Furthermore, native wildlife reporting increased by 32% from FY 2021 through extensive GIS mapping and social media campaigning.

In April 2022, Animal Services was awarded a generous grant from Petco Love in the amount of \$20,000 for life-saving efforts. This grant will be used to continue the Trap-Neuter-Return Feral Cat Sunday Program, providing sponsored heartworm treatment for adopted dogs, assisting the community in preventative care, promoting responsible pet ownership and improving new and existing programs that directly contribute to life-saving efforts and keeping families together.

Code Compliance focuses on education to gain compliance with city ordinances pertaining to maintenance, sanitation, rehabilitation, conservation, and safety of existing residential and commercial properties. Code Compliance Officers inspect single-family residential properties, multi-family properties, commercial properties and public swimming pools. Code Compliance works closely with property owners until compliance is achieved or it becomes necessary to mitigate a hazard and take additional enforcement measures.

In FY 2022, two additional Code Compliance Officer positions were approved by City Council. One position was added to the Multifamily Inspection Program to assist with annual property inspections with an emphasis on landscape and curb appeal. The other position implemented a pilot program as a Hybrid Inspector working with commercial properties. The goal of the position is to utilize as many data points as possible available to increase compliance administratively rather than the traditional "door-to-door" inspections. Code Compliance Services believes this will foster better business relationships.

In FY 2022, Code Compliance Services was awarded the 2022 International Code Council (ICC) Community Service Award for their programs, initiatives and educational efforts that promote public health, safety, and welfare in support of the City Council's priority to Champion Great Neighborhoods. The thriving success of programs such as the Dangerous and Substandard Structures (DSS) program, Neighborhood Enhancement Team (NET) and Tool Sharing Program were recognized for their achievements that strengthen Arlington communities and build public trust.

Communication and Legislative Affairs has divisions in Executive Support, City Secretary's Office, Vital Statistics, Office of Communication, Action Center, Intergovernmental Relations and Document Services. Due to the varying types of work, Communication and Legislative Affairs collaborates with departments throughout the City for communication efforts, open records requests, customer service, intergovernmental relations, City Council agenda management, legal postings, revenue enhancement, records management, administration for boards and commissions and managing special projects. The department also directly serves the City Manager's Office and the Office of Mayor and Council. The Communication and Legislative Affairs Department not only facilitates interdepartmental projects to enhance cooperation within the organization, but also takes the lead in connecting City government to Arlington's residents through City Council meetings, City-wide and district-specific tele-townhalls, social media, the City's website, answering calls from residents on a variety of topics and writing articles that tell the story of the work that the organization does. The City's Intergovernmental Relations Division develops the state and federal legislative agendas, monitors legislation and activities at the state and federal levels, collaborates with other local governments and non-governmental organizations on area legislative needs and projects, and manages the City's state and federal lobbyists. The department also manages resources such as printers and copiers as well as distributes mail throughout the organization with the goal of improving work efficiencies and effectiveness.

Business Plan

The **Office of Economic Development (OED)** strives to support the growth of Arlington's existing businesses and to recruit new businesses that are consistent with the City's adopted Economic Development Strategy. The primary goal of the OED is to develop opportunities and attract businesses that will increase the City's revenue, provide high-quality employment opportunities for Arlington residents, and contribute to the overall prestige and future growth of the City of Arlington.

The Economic Development Strategy, first implemented in 2015 and comprehensively updated in 2022, guides both the Office of Economic Development and the City's Economic Development Corporation towards the overarching goals related to economic development within the city. Consequently, the OED now also works closely with the EDC on projects that are consistent with the ED strategy.

During the past year, there have been a number of firms that have been successfully recruited to establish themselves within the City of Arlington. These include Bowery Farming, a high tech indoor/vertical farming company; Wallbox, a Spanish manufacturer of charging stations for electric vehicles; Ann's Health Food Center, the first downtown grocery store; Pregis, an eco-friendly packaging and protective products manufacturing company, as well as major expansions of Canales Furniture, P&H Casters and Texstars.

In November of 2020, Arlington voters approved the adoption of an additional quarter-cent City sales and use tax during the general election. The quarter-cent sales and use tax will fund Arlington's Economic Development Corporation to undertake such projects as authorized by Chapter 505 of the Texas Local Government Code. The fund is estimated to generate \$15-17 Million per year.

The fund was used to develop the city's new economic development strategic plan in partnership with TIP Strategies, an economic development consulting firm out of Austin that was adopted in early 2022, and is currently being used to guide staff on future project initiatives and set goals. The EDC Board of Directors

hold regular monthly meetings to receive relevant updates from a newly hired Executive Director and other city staff as needed. To date, the EDC Board has approved two new incentive agreements to support growth at Bell Helicopter, located at the City's Municipal Airport and enhancements for the Town North Shopping Center. There are also other projects in the pipeline that will be presented at future meetings for consideration.

The Unity Council of Arlington recommended the OED utilize existing relationships with banks to make introductions and increase funding opportunities for minority owned businesses. In addition to making introductions, we have also created a resource guide of alternative funding options that may have better racial equity outcomes compared to traditional bank loans, such as fintech loans. Fintech (short for "Financial Technology") loans are open to anyone but tend to have more equitable approval rates. You may have heard of fintech companies like Cash App and PayPal. Some fintech companies exist for the purpose of providing loans to small businesses. Additional funding options in the guide include entrepreneur competitions, crowd funded loans, and diversity bank loans, which are only open to minority applicants.

The **Esports Stadium Arlington + Expo Center** is organized into divisions consisting of Administration, Event Services, and Facility Operations and offers catering and audio/visual services to accommodate small and large groups for expositions, public events, trade shows, meetings, special events, and esports competitions.

The Arlington Expo Center operates a 50,000 square-foot expo hall. The facility also is home to Esports Stadium Arlington – a 30,000 square-foot esports competition showroom, a state-of-the art broadcast and live-event production suite, as well as 8,500 square-feet of esports training, office, and team hospitality spaces.

Business Plan

The department administers the City's contracts with the Arlington Convention and Visitors Bureau (ACVB) and Esports Venues, LLC, and works together with these partners to help increase tourism and promote attractions and events in the Entertainment District and the City. Esports Venues, LLC, a division of Optic Gaming, operates and markets Esports Stadium Arlington as the premier facility in the United States for esports events. The company also organizes and produces esports events in the venue. The Arlington CVB is the official Destination Management Organization for Arlington. The ACVB functions include strategic planning and leadership, advocate for tourism product development, hospitality & tourism workforce development, arts and cultural heritage of the destination; oversee, create, and implement marketing campaigns and promotions to

inspire leisure travelers to visit; the recruitment and securing of large and small scale conventions, meetings, and special events, such as: PBR Global Cup and PBR World Finals, 2020 National Finals Rodeo, WrestleMania 38, FIFA World Cup 2026, Cotton Bowl Classic, Esports Awards, and many more. Both partners' sales efforts will focus on increasing the number of bookings that utilize the ESA+EC, continuing to grow hotel room demand, increasing hotel occupancy throughout the city, and furthering the development of the amateur sports and esports markets.

The ESA+EC is located in Arlington's Entertainment District, and is close to Globe Life Park and Globe Life Field (Rangers), Texas Live!, AT&T Stadium (Cowboys), Six Flags and Hurricane Harbor, and is easily accessible from Interstate 30.

The **Finance Department** provides support and information to assist the City Manager and the Mayor and City Council in management decision-making. The department facilitates the development and tracking of the City's business plan and performance-based budget and acts as a strategic partner with departments to provide financial expertise and guidance with City-wide impact. The department is also responsible for preparing the City's Annual Comprehensive Financial Report, processing payments to City vendors, preparing City payroll, procuring goods and services, monitoring consolidated tax collection efforts, and directing the City's cash and debt portfolio management activities. Divisions in the department include Administration, Accounting and Payroll/Payables, Purchasing, Treasury Management, and the Office of Management and Budget. The Office of Management and Budget has received the Distinguished Budget Presentation Award for the past 36 years. Under the department, Arlington was the third Municipality to be awarded all five of the State Controller's Traditional Finance Transparency Stars.

The Fire Department consists of Fire/Rescue Operations, Fire Prevention Inspections/EOD Services, Medical Operations/Public Health, Fire Training, Resource Management, the Office of Emergency Management, 9-1-1 Dispatch/Public Safety Communication Services, Office of Special Events, Special Operations Groups, and Business Services. The Arlington Fire Department's mission is to meet and exceed our community's needs and expectations by providing high quality emergency response, life safety, and community support services.

The Arlington Fire Department (AFD), Tarrant County College, and the Arlington Independent School District (AISD) collaborated to provide a two-year college credit program for high school students who wish to pursue a Firefighter/EMT career. The program allows students to graduate with a certifiable status in Basic Fire Suppression from the Texas Commission on Fire Protection (TCFP) and a National Registry EMT certification, with college credits and increased job opportunity potential. This initiative has served as a model for future AISD

Business Plan

vocational credit career programs. For the 2022-2023 school year, AISD will provide funding support for a dedicated Fire Academy Officer to coordinate the program. To date, the Fire Academy has completed 10 total classes and 10 alumni have been hired by the Fire Department.

In FY 2022, AFD was challenged to respond to a wide range of community service demands beyond typical structure fires and emergency medical services. The department continued to meet the demands created by COVID-19, by administering testing and recommending strategies to minimize the spread of the virus. To further help the increasing demand, AFD added seven additional Squad units, increased daily minimum daily staffing levels by 18%, added three Deputy Chiefs, 18 Apparatus Operators, 24 Firefighters, and implemented a third Battalion.

AFD held three consecutive Basic Training Schools that trained nearly 60 new Firefighters. FY 2022 saw AFD beginning several capital improvement projects, including the construction of new Fire Station 1, a flagship station with five drive-through bays, and the addition of a community center.

AFD's Special Events team hosted multiple large events including WrestleMania, Commander's Classic, the Cotton Bowl, the American Rodeo, and Monster Jam.

The City of Arlington's **Office of Grants Management** is committed to building and sustaining working relationships with citizens, neighborhood organizations, schools, businesses, and community service agencies. Annually, using federal entitlement funds from the United States Department of Housing and Urban Development (HUD), the Grants Management team is charged with providing financial support while continuously evaluating the efficiency and cost effectiveness of community services.

Using funds from the Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG) and HOME Investment Partnerships, the Office of Grants Management administers funding annually for housing rehabilitation assistance, public service programming, and new housing developments. This collaborative outreach effort ensures equitable and essential services are provided throughout the City of Arlington. Funds are used to improve quality of life and create economic opportunities for the citizens of Arlington. In addition to local funds for neighborhood improvement programs and activities, federal funds are invested annually in Arlington's neighborhoods for housing preservation and development, neighborhood revitalization, public services, and capital improvements. Being open, responsive, and invested in new approaches, the Office of Grants Management strives to meet the needs of Arlington citizens and to improve their quality of life.

The Office of Grants Management takes the lead in developing the following plans, assessments and reports on behalf of the City of Arlington:

- Five-Year Consolidated Plan
- Annual Action Plan/Budget
- Housing Needs Assessment
- Consolidated Plan Annual Performance Report (CAPER)

Business Plan

The **Human Resources Department** is comprised of five strategically focused divisions, which include Civil Service, Employee Operations, Employee Services, Organizational Development and Risk Management. The department's partnership with the organization's workforce drives the City's mission, purpose and core values, while building a thriving community and maintaining our vision as a pre-eminent city. The department is charged with developing and maintaining innovative organizational strategies in the areas of human capital management, while minimizing organizational and community risk measures. In previous years, the department has been recognized with awards and accolades for wellness programming, volunteer coordination, training and development, proactive drug/alcohol programs. Recently, the HR Risk Manager was awarded Risk Professional of the Year by Texas PRIMA. Prior accomplishments include the Right-of-Way Contractor Damage Collections, Volunteer Appreciation Event, Badging Software Implementation, and the Texas Employer Traffic Safety exemplary award recognized by the National Safety Council for the City's ongoing commitment to promoting safety on our roadways.

The **Information Technology Department** is dedicated to being a strategic business partner that can work with departments to select and deliver the right technologies. By improving the ways we engage, serve, and benefit our community, the effective planning of our resources will be aligned to overcome challenges, as we continue to lead into the future by utilizing emerging technologies which support our Core Services. As an internal service department providing reliable technology solutions supporting our City's ability to conduct daily business operations, our IT services are centered around four operational areas:

- Project Management Office and Governance
- Business Relationship and Customer Support
- Software Services
- Technology Infrastructure

The Library Department's mission is to open doors to ideas, information, and imagination for our diverse community. Our goals align and support the City's strategic initiatives focusing on supporting youth and families, championing great neighborhoods, and building unity. The Library team strives to meet these goals through collaboration, innovation, passion, and hard work.

Arlington has a network of six library branches strategically located throughout the City and, our flagship location with the George W. Hawkes Downtown Library in the heart of Downtown Arlington. Each of these library locations offers unique spaces, including a variety of public meeting and study areas for collaboration, discussion, and gathering spaces for the community.

In FY 2022, the community became more comfortable venturing out after many months of Covid-19 necessary restrictions on their everyday lives. The Library adopted a hybrid service model to respond to the community's differing levels of comfort while providing services such as curbside pick-up, virtual programs along with in-person services. By the 3rd quarter of FY 2022, 495,702 visitors came to one of the Arlington Public Library locations, 26,532 community members enjoyed programs for all ages, and guests used 63,566 computer sessions on the public computers. Over 1,154,502 physical library items were checked out. Downloadable circulation of e-books, downloadable audiobooks, and e-magazines remained steady, with 213,378 items circulating from this collection. The total number of items in the library collection is 547,714 physical items and 56,716 e-content items. There are 175,705 registered library account holders.

To further the City's FY 2022 Council Priorities to support youth and families and champion great neighborhoods, the Library offers a wide array of programs for all ages, often in partnership with other organizations. These events enhance the quality of life and civic involvement, increase appreciation for the literacy and the arts, and improve vocational skills for Arlington residents. It is another avenue for people to connect with their community through the Library's innovative and engaging programs. Examples of unique Library partnerships in FY 2022 include:

Business Plan

- To help people in our community bridge the digital divide the Library made Chromebooks and hotspots available for check out at the end of FY 2021. The Library continued to seek grants to increase the number of Chromebooks and hotspots available to adult library users. In FY 2022, the Library received a \$38,952 grant from the Institute of Museum and Library Services and a \$149,558 grant from the Emergency Connectivity Fund to fund even more Chromebooks and hotspots. Since this resource became available, hotspots were checked out 1,031 times, and the Chromebooks 620 times.
- In FY 2022 the George W. Hawkes Downtown Library partnered with the U. S. Department of State Passport Services to serve as a Passport Acceptance Facility. This new service complements the services already available by providing the community with quick and convenient access to obtaining a passport, even during evenings and weekends. By the 3rd quarter of FY 2022, the library had processed 2,579 new passport applications.
- The TSLAC Special Projects grant funded the expansion of “Books on Wheels,” an existing collaborative book delivery service between the Arlington Public Library and local retirement and senior centers. The grant funded the enhancement of this service as the Library worked closely with the centers to identify ways to serve retirement community residents best.
- The adult education team at the Library began exciting new partnerships with Anton Cabinetry and Canales Furniture to provide free ESL class to all their employees at their Arlington locations. These classes are specifically tailored to their industry and work environment.
- The Arlington Public Library system has maintained membership in the Tarrant County Adult Education Literacy Consortium (TCAELC) for several years. In FY 2022, APL received a \$282,282 grant to fund a wide range of adult education opportunities such as High School Equivalency, English as a Second Language (ESL), Adult Basic Education, and Citizenship classes.
- The Library joined CitySquare and other Arlington institutions for the 5th year to provide free summer meals to children providing meals through the “Food on the Move,” a federally funded nutrition program that meets the needs of children who might go hungry outside of school.
- The TSLAC Texas Read grant funded the project “One Book, One Arlington,” a month-long reading event for the community to read and discuss the same book, *Channel Kindness: Stories of Kindness and Community*. Participants also engaged in a variety of kindness activities designed to strengthen our community which will inspire the people of Arlington to be good neighbors, and to look out for each other, ourselves, and our City.

The Library Department is present outside of the confines of the library locations. The Library team is out and about connecting with members of our community at a variety of virtual and in-person outreach programs and events.

The Arlington Public Library is accredited through the Texas State Library and Archive Commission and is a certified member of ProLiteracy Worldwide and the Tarrant Literacy Coalition for Adult Education.

The Library services offered are many and varied, and we hope that we have whatever it is you are looking for, from books, magazines, DVDs, eBooks, downloadable audio books, lendable technology, and streaming videos to programs, spaces, and experiences for people of all ages and stages of life.

Business Plan

The **Municipal Court** is a state trial court that operates at the municipal level of government and has jurisdiction over Class C misdemeanors, city ordinances, and civil violations in Arlington. Municipal courts serve the important function of preserving public safety, protecting quality of life, and deterring future criminal behavior. The Arlington Municipal Court departmental units are comprised of the following divisions: Administration, Citation Entry, Dockets, Records, Warrants, Customer Service, Mailroom, and Collections. Municipal court clerks have the authority to perform ministerial and administrative duties. These duties include processing the clerical work of the court, administering daily operations, maintaining court records and dockets, and processing fine payments and bonds.

More people come into contact with municipal courts than with all other Texas courts combined. As such, the Arlington Municipal Court implements best practices in court management and performance assessment in our processes and procedures. Court personnel serve an important role in promoting procedural justice, public confidence and integrity, and impartiality of the justice system in Arlington.

The **City of Arlington Parks and Recreation Department (APRD)** is dedicated to its mission of providing quality facilities and services that are responsive to a diverse community and sustained with a focus on partnerships, innovation and environmental leadership.

APRD oversees a diverse range of programs, projects and services with one thing in common: people. We work with the community to create and operate beautiful, accessible public spaces and facilities for all to enjoy. We also produce programs and events that enrich the lives of community members – culturally, socially, and physically.

With more than 4,700 acres of parks, recreation facilities, open spaces, natural trails, and playgrounds, there are many opportunities for open play and exercise in Arlington – The American Dream City.

Current major capital projects for the parks department include the Active Adult Center (anticipated completion in Winter 2024), Phase II development of Richard Simpson Park, Rotary Dream Park, greens and bunker renovation at Tierra Verde Golf Club, Mineral Well Public Plaza at Arlington City Hall, and the Korean Defense Memorial and Memorial to the Fallen at Veterans Park. These capital projects align with the City Council priorities to Champion Great Neighborhoods and Support Our Youth and Families.

Texas Rangers Golf Club played host to the Veritex Bank Championship in 2022, welcoming some of the best golfer's in the world to Arlington for the Korn Ferry Tour event.

The parks department developed a public-facing dashboard to display the most recent pool chemistry readings at all City splash pads and aquatics facilities. Guests can view those readings by scanning a QR code at each facility, or at the hyperlink on the COA website.

AWARDS AND HONORS: APRD earned reaccreditation status in 2019 through the Commission for Accreditation of Park and Recreation Agencies (CAPRA). Through compliance with the standards of excellence, CAPRA accreditation assures policy makers, department staff, the general public and taxpayers that an accredited park and recreation agency has been independently evaluated against established benchmarks as delivering a high level of quality. The parks department first became a nationally accredited agency in 2014.

Business Plan

APRD brought home the prestigious Gold Medal from the National Recreation and Parks Association in 2018, the top honor in the parks and recreation industry. The Gold Medal Award honors communities throughout the United States that demonstrate excellence in long-range planning, resource management and innovative approaches to delivering superb park and recreation services with fiscally sound business practices.

The Arbor Day Foundation selected Arlington for its Tree City USA award (23-year honoree), by meeting four core standards of sound urban forestry management: maintaining a tree board or department, having a community tree ordinance, spending at least \$2 per capita on urban forestry and celebrating Arbor Day.

Planning and Development Services strives to make Arlington a premier City by engaging in visionary planning, building vibrant neighborhoods, and serving our residents, businesses, and visitors. Customer service is the core focus of this department. Since the launch of the One Start Center and the AMANDA permitting software in 2006, the Planning and Development Services department in Arlington has continuously enhanced customer service by innovative process improvement. The One Start Development Center assists homeowners, business owners, and the development community with the permitting process that includes payments, business registrations, permit issuance, as well as provides guidance to walk-in customers by three over-the-counter professionals: development planner, engineer, and plans examiner.

The Land Development Division's primary role is to effectively communicate the regulations of the City to the development community and work closely with developers to bring their visions to fruition. This is mainly handled through pre-submittal meetings, where development planners and engineers discuss the project with the developer, provide key information based on applicable research specific to the project prior to the meeting, and then guide them through the development processes as needed. This could include the rezoning, platting, and site plan processes. On average, staff conduct anywhere from 150 to 200 of these meetings annually with the development community. Additionally, this team reviews a myriad of permits ranging from fence permits, residential and commercial building permits, public improvement plans, and landscape plans to ensure compliance with applicable ordinances.

The Building Inspection Division is responsible for the plan review of residential and commercial building permits, as well as the inspections of those structures during construction and before issuing certificates of occupancy. The team ensures that structures are constructed to adhere to the current building codes to ensure the safety of those who utilize the structures. On average, this division handles 15,000 permits and 40,000 building inspections annually. The Building Inspection team aims to complete all building inspections within 24 hours of request.

The department also handles sign permits and inspections as well as health services provided through food establishment and childcare permits, inspections, and plan review. *The Health Services team* also manages the mosquito mitigation program, responds to citizen's health and COVID-19 complaints, and conducts annual hotel property inspections. *The Gas Well team* is responsible for the land development, permitting, and inspections of gas well drilling and production in the City of Arlington.

The department takes pride in the pursuit of excellence in the advancement of safe and sustainable living, community inclusion, and economic growth. In recognition to the importance of cultivating and strengthening buildings and infrastructure, and to honor the building safety professionals dedicated to creating safe neighborhoods, Mayor J. Ross proclaimed May 2022 as Building Safety Month. This proclamation was accepted by Rick Ripley, Building Official, along with the Building Inspection team.

In May of 2022, Assistant Director, Richard Gertson, achieved the planning profession's highest honor by being named to the prestigious American Institute of Certified Planners (AICP) College of Fellows for his outstanding achievements in urban planning.

Business Plan

The Police Department (APD) is responsible for providing public safety for an estimated population of over 400,000 residents and millions of visitors who come to the city to enjoy the many amenities and entertainment venues the city has to offer. Public safety is accomplished through a shared responsibility between community members and the police department. Through a variety of community outreach programs and initiatives, officers and professional staff team members connect with all segments of the community to build long-lasting and positive relationships. Officers are assigned to geographic areas (beats) and are expected to provide excellent services to those they serve. As a result of the department's efforts APD provides protection, support and services for world class sporting events, concerts, entertainment, universities, business communities, and all the wonderful mix of cultural communities those who call Arlington their hometown.

One of APD's signature collaborations in 2021 and 2022 was our participation in the Faith & Blue Initiative. The National Faith & Blue initiative was developed to help law enforcement create strong relationships built on mutual trust with houses of worship throughout the entire city. APD was able to facilitate community meetings with more faith-based partners over the designated weekend than every city in the country except New York. Building on the success of those efforts APD brought the OneCOP initiative to Arlington to develop a more long-term strategy with very specific goals. Improve public safety through collaboration and information sharing, combat crime and violence by leveraging the resources of faith-based institutions and increase community engagement with patrol to decrease biases and increase mutual respect and trust.

For the second straight year the Arlington Police Department was awarded First Place in the National Association of Town Watch's award program which recognizes community and department participation during National Night. The department also once again passed all three assessments that are part of the Commission on Accreditation for Law Enforcement Agencies to maintain the prestigious TRI-ARC certification representing Communications, Training Center and Law Enforcement.

In 2022 the department took a huge step forward in how it addresses mental health challenges with the implementation of the Behavioral Health Law Enforcement Unit. This unit is committed to improving how officers address behavioral health challenges they encounter in the field through proper identification, intervention, referral, and education. It consists of a Lieutenant, a Sergeant, a Behavioral Health Initiative Officer, a Community Outreach Officer, four sworn Behavioral Health Response Officers, and four professional staff Crisis Intervention Specialists. They will respond to needs across the city.

Arlington continues to be a destination for major entertainment events. WrestleMania 38 was held in Arlington in April 2022 and was successful planned and operated by the joint public safety team which included resources from around the entire region. The 156,352 two-day attendance total at AT&T Stadium for WrestleMania 38 was the largest WWE wrestling event in their history. The Special Events Unit along with its Public Safety partners, continue to showcase its ability to professionally handle the ever-changing and diverse events that come to Arlington.

The **Department of Public Works** is comprised of the following divisions: Business Services, Construction Services, Engineering Operations, Environmental Management, Floodplain Management, Information Services, Operations Support, Stormwater Engineering, Stormwater Operations, Street Maintenance, Traffic Engineering, and Traffic Operations. These divisions function together to design, build, and maintain street and drainage infrastructure and are responsible for mobility optimization through traffic engineering and technological innovation, and provision of signals, streetlights, and regulatory signs

Business Plan

and markings. Public Works staff are also responsible for the quality of surface water in the City of Arlington by inspecting private construction activities, municipal and industrial facilities that have the potential to impact surface water quality; and enforcement of local, state, and federal water quality and environmental regulations.

In support of City Council's priorities to Enhance Regional Mobility and Champion Great Neighborhoods, the department's Capital Improvement and Street Maintenance Programs are responsible for the infrastructure improvements and maintenance for a roadway network of over 3,000 lane miles, 22,899 streetlights, 45,574 roadway signs, and 5,174,407 linear feet of roadway pavement markings. This is accomplished by resurfacing roadways in poor condition and beyond maintenance. Through the efforts of the capital improvement and street maintenance programs, approximately 85 percent of the City's roadways have a satisfactory or better condition rating.

The Field Operations group was once again called upon to provide emergency operations in response to two winter storm events. Crews and support staff worked multiple twelve-hour shifts applying salt brine, sand, and ice chat to city streets and bridge decks. During these events, employees from six department divisions worked together to overcome staffing level challenges to provide service to primary and secondary roadway locations as well as responding to emergency calls from the public, Arlington Fire Department, and Arlington Police Department.

During FY 2022, the department completed construction of eight capital improvement roadway projects valued at \$44.1M. Among the projects completed is Calender Road, between Curry and Harris Roads. In addition to rebuilding Calender Road from a two-lane county-type road to a three-lane undivided concrete roadway with a 50-year life, the project also included installation of stormwater infrastructure to mitigate flood concerns, installation of sidewalks and on-street bike lanes, renewal of water and sanitary sewer infrastructure, streetlight improvements, and installation of two roundabouts. Completion of this project provides the full buildout of Calender Road as established in the City's Thoroughfare Development Plan.

The Stormwater Engineering group worked to implement the Comprehensive Stormwater Plan, which was approved in FY 2021, by awarding or completing over 25 stormwater mitigation projects and beginning design on an additional 15 projects. Many projects include multiple locations or phases, depending on the size of the drainage issue. In FY 2022, stormwater drainage infrastructure improvements were being studied, designed, or constructed in over 70 neighborhoods.

The Stormwater Floodplain Management group continued work to mitigate flood prone structures through the City's Voluntary Flood Mitigation Buyout Program. Through the program, the City successfully acquired two flood prone structures identified as buyout properties in watershed studies developed by the City. The continued reclamation of the Special Flood Hazard Areas provides additional stormwater conveyance and flood protection in the watersheds. The group also awarded a new construction CCTV contract. This contract will increase efficiency by videoing and providing locations of newly constructed stormwater infrastructure, which will allow the Stormwater Maintenance group to focus on and improve the response time for maintenance and other internal requests.

The **Office of Strategic Initiatives** manages special projects on behalf of the City Manager's Office. OSI is made up of three divisions – Strategic Initiatives, Research and Analytics, and the Arlington Urban Design Center.

The Strategic Initiatives team is responsible for implementation of special projects in support of City Council and City Manager's Office priorities and neighborhood engagement. Neighborhood engagement includes the Neighborhood Matching Grant program, the Block Party Trailer, and the Arlington Home Improvement Incentive Program among other efforts.

The Research and Analytics Group works towards the efficient and transparent use of data to provide timely and effective analytical support to City programs, services, and its citizens. This team is responsible for the

Business Plan

growing and maintaining the Open Arlington data portal, which serves as a central clearinghouse for accessing, visualizing, and interacting with public open data sets. The R&A team also produces quarterly and annual city Development Profiles and manages initiatives such as the What Works Cities Certification Program, which aims to provide cities with a roadmap for data-driven decision making.

The Arlington Urban Design Center aims to create public awareness about the importance of urban design and its impact on the quality of life, environment, and economic investment. This Design Center was established in June 2009 through a creative collaboration between the City of Arlington and the University of Texas at Arlington. Graduate students and professors from UTA's College of Architecture, Planning, and Public Affairs (CAPPA) work closely with City staff on business and neighborhood development projects in Arlington. Students "learn by doing" as they work with City planning staff and benefit from the opportunity of working on real-world projects. The Design Center seeks to provide urban design solutions and innovative ideas, and present before and after images, at no cost to the general public.

The **Transportation Department** is responsible for managing mobility options and quality of service for the City of Arlington through transportation programming, planning, policy development and operations. The Transportation Department is made up of three divisions – Transportation Planning and Programming, Handitran, and the Municipal Airport.

The Transportation Planning and Programming division is responsible for long-range transportation planning efforts including Connect Arlington, the City's transportation framework, the Thoroughfare Development Plan and the Hike and Bike System Master Plan. The division also manages the City's contracted public transportation service, Via On-Demand Rideshare. Acquisition and management of grant funding in addition to planning, programming and operations for autonomous vehicle services, urban air mobility and other innovative transportation programs also come from this division.

The Handitran division provides provide door-to-door, rideshared, demand-response transportation for eligible residents who are 65 years of age or older or disabled. The service is operated with City employees and a fleet of City-owned cut-away buses. The buses are supplemented with a contracted taxi service. Handitran operates Monday through Friday from 7:00 a.m. to 10 p.m. and Saturday's from 8:00 a.m. to 9:00 p.m. The service area includes the Arlington city limits plus an additional 1.5 miles from the City's border.

The Arlington Municipal Airport is a full-service general aviation airport that is owned by the City of Arlington. Designated as a Reliever Airport, it provides an alternative to DFW Airport and Love Field, for flight training, corporate, cargo, charter, and private aviation. Approximately 230 aircraft and 18 businesses are based at the Airport, including Bell's Flight Test Research Center, Van Bortel Aircraft, Inc., Harrison Aviation, and Airline Transport Professionals (ATP). The Airport provides fifty-six T-hangars, two commercial hangars, and 52 tie-downs for lease, in addition to those offered by FMF and Airport Properties, Inc. The terminal building (LEED Gold certified) houses Airport Operations and six businesses. Runway 16/34 is 6,080 ft. long by 100 ft. wide, with east and west parallel taxiways. Air Traffic Control services are provided through the FAA's Federal Contract Tower program.

Business Plan

Arlington Water Utilities provides safe, high-quality drinking water to Arlington's more than 394,000 residents, 14.5 million yearly visitors, and thousands of people served by the department's wholesale water customers in Tarrant County. Arlington operates two water treatment plants with a combined daily production capacity of 172.5 million gallons per-day. The department is responsible for the maintenance and operation of more than 1,250 miles of sanitary sewer main and more than 1,460 miles of water main.

Arlington Water is made up of seven divisions – Customer Care and Business Services, Operations, Treatment, Engineering and Support Services, Administration, Financial Services, and Communications. Some key tasks for the department include forecasting financial needs for rate setting, water treatment, water and sewer line construction and maintenance, and water conservation initiatives. City of Arlington civil engineers designed 30,187 feet of water and sewer mains in 2021, saving the city \$330,000 in design consultant costs. Field Op crews cleaned 22.5% of the City's public sewer mains (size 6"-15"), clearing city sewer lines of roots, grease buildup and other debris. Regular maintenance of sanitary sewer lines

prevents sewer backups in neighborhoods or homes. In November 2021, City of Arlington officials kicked off a nearly \$112.5 million improvements project at the Pierce-Burch Water Treatment Plant. The construction will be the largest plant rehabilitation project in the history of the Arlington Water Utilities treatment division. Over the next four years, the construction company will build two new underground clear wells, where a total of 8 million gallons of finished water can be stored. High service pumps that send water out from the plant will also be updated.

Arlington Water Utilities won the Annual Best Tasting Surface Water State Award from the Texas Water Utilities Association for the third time. Industry professionals judged water samples from the four regions of the state represented during the Association's 103rd Annual School in Corpus Christi in September. Arlington was previously selected to represent North Central Texas Region in the 2021 contest. Arlington also took home the statewide honor in 2014 and 2015.

Business Plan

Build Unity

Goal 1: Implement Strategies to Eliminate Racism and Other Forms of Discrimination and to Advance Unity in Arlington

Objective 1: Address General Disparities

Project	Performance Measure(s)	Department(s)
BU 1.1.1 Unity Council Recommendation – Via Nonprofit Partnership and Reduced Fare Pilot Program	Program Use and Quantification of Impacts on Eligible Population	Transportation

Summary:

This item supports the Council's "Enhancing Regional Mobility" priority and the Unity Council's recommendations by improving affordability on the Via On-Demand Rideshare service.

The Unity Council Report recommended a free or reduced fare pilot program on the Via rideshare service in several sections. Per this recommendation, the City is working with Arlington nonprofit organizations to provide promo codes for free rides on Via, which the nonprofit partners can distribute as needed to their clients.

A one-year Reduced Fare Pilot Program is proposed to reduced fares to qualifying individuals (likely low-income residents, children aged 13-18, seniors 65 and over, people with disabilities, and veterans). Riders will complete an application process including proof of eligibility and then receive a promo code that will offer them reduced fares on all Via rides.

Prior to rollout, the City Council will be briefed on the program details. Once City Council has directed staff to move forward, it is anticipated that the Reduced Fares Pilot Program will launch in January 2023.

Socio-economic and demographic data on riders enrolled in the pilot will be collected and analyzed. Enrollment and rides taken as part of the pilot program will also be analyzed and reported to Council.

Milestone	Estimated Completion	Actual Completion
Finalize Reduced Fare Pilot	Fall 2022	
Launch Reduced Fare Pilot	Jan. 2023	
6-Month Report to Council	Summer 2023	
1-Year Report to Council	Spring 2024

BU 1.2.1 Unity Council Recommendation – UDC Amendment: Infill and Redevelopment Standards	Project Completion	Planning & Development Services

Summary:

Recent cases coming before City Council have shown that the latest residential subdivision formats and housing product trends are unable to meet the City's lot dimensional or design standards. Council asked staff to take a surgical approach to the UDC provisions and make amendments such that some flexibility is created for infill developments/redevelopments and reduce barriers to development.

At the Council Retreat held on April 30, 2021, Council discussed the project scope in greater depth.

Scope:

- Allowing flexibility for small, infill lot development
- Allowing flexibility for redevelopment /additions/renovations to homes /developments built earlier than 1984
- Citywide: encouraging teardowns of “under-demolished” properties/ incentives/covenants for long-term maintenance
- Encouraging homeownership
- Developing attainable neighborhoods
- “Aging in place” philosophy
- Allowing different ownership models all on one parcel

The Focus Group consists of nine persons representing the Planning Commission, the Unity Council, the Arlington Board of Realtors, the HANA neighborhood, Downtown Arlington, production homebuilders, and multi-family developers.

Summary:

The goal of the Annual Homeownership Fair is to provide a community event for current and potential homeowners. The event provides resources to assist current homeowners with improvements to their property and prospective homeowners with information to help them navigate the buying process. Information about fair housing will also be a focus of this event. Homeownership stabilizes neighborhoods and helps families access an important investment in which they can take pride.

Project		Performance Measure(s)	Department(s)
BU 1.3.1	Unity Council Recommendation – Private Investment – SiFi Network	Completion of Citywide Broadband Network	Asset Management, Planning & Development Services, and Economic Development

Summary:

In Summer 2021, the City Council approved a license agreement with SiFi Networks to that grants it access to use the Public Right-of-Way to install, operate, and maintain a citywide fiber optic network system. Additionally, SiFi will seek and contract with Internet Service Providers to offer internet service over the system to residents and businesses.

The network system would be comprised of 10.2 million linear feet of fiber, underground chambers, above-ground cabinets, and shelters. SiFi projects installing fiber optic cable adjacent to approximately 156,000 residential and 16,000 business premises once the network is complete. When a homeowner or business owner becomes a paid subscriber, then connection is made from the network to the premises.

BU 1.3.8	Chromebook/Hotspot Checkout & Digital Literacy	<ul style="list-style-type: none"> Number of Programs Number of Attendees Circulation of Technology 	Library

Summary:

As a new service launched in FY 2021, this business plan item is a continuation into FY 2023. Closing the digital divide is essential to provide economic opportunities for residents. Year 1 focused on the residents with the greatest needs living in the 76010-zip code. Year 2 will expand this initiative to provide secure, reliable computer and Wi-Fi access at all library locations.

In FY 2021, the Innovation Zone grant funded the purchase of 200 Chromebook laptops currently available for checkout by the public at ELARC. A second grant from IMLS to purchase an additional 100 hotspots. Hotspots are now available to check out at all library locations. The Emergency Connectivity Fund (ECF) has also awarded \$149,558 that will be used to expand this service even more. This service is accessible to anyone with a library card.

The library team will also continue to provide digital literacy programs to help people move beyond just social media and google. Workshops will help participants learn how to:

- locate trustworthy and reliable information.
- understand good digital citizenship (appropriate, safe, and responsible use of the internet and technology).
- unlock new learning potentials and explore a wide range of topics.
- learn new workforce skills to help better their job opportunities.

The initial project offered access to technology, but access to knowledge a person previously did not have is the secondary focus of this service. The marriage of these two facets will help them achieve their desire to learn and improve their access to new opportunities.

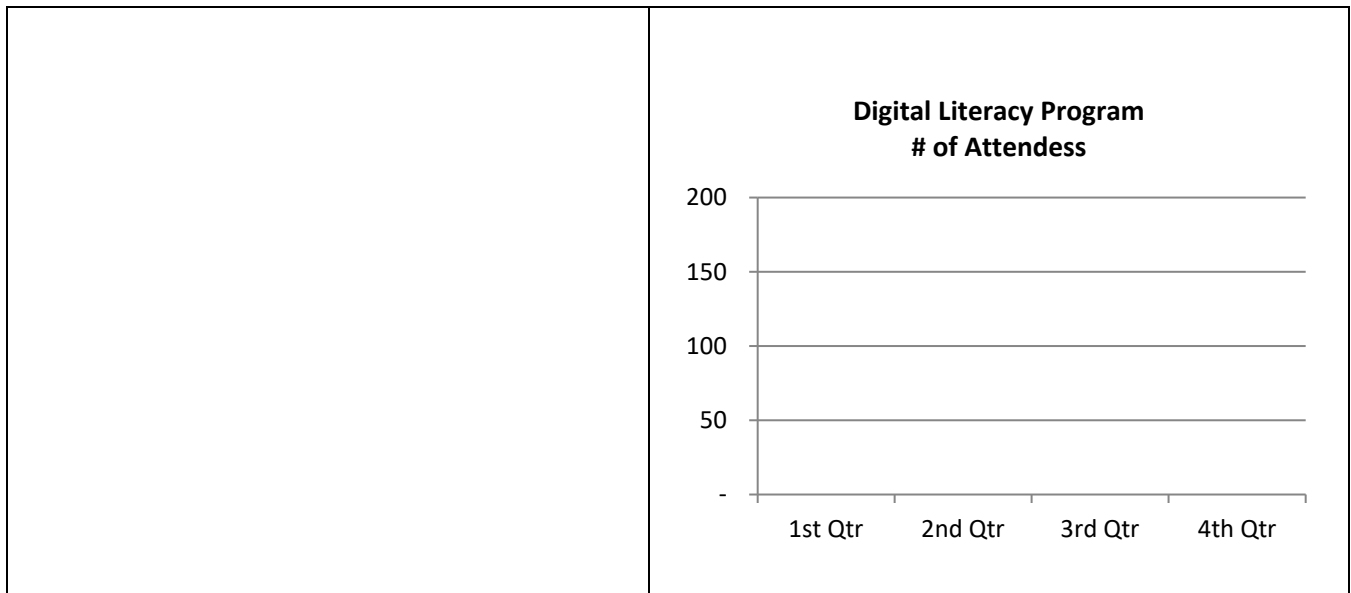

Circulation of Chromebooks Kits

Digital Literacy Programs Offered

BU 1.4.1 Unity Council Recommendation – Address Healthcare Gaps		City Manager’s Office

Summary:

On June 23, 2020, the Arlington City Council created the Unity Council made up of the fifteen (15) members of the City’s Community Relations Commission and fifteen (15) additional members appointed by the Mayor and Council members. The Unity Council began meeting in July of 2020 and presented its recommendations to the City Council in February 2021.

Recommendation 4.1.A focused on creating a dedicated city staff position of Chief Equity Officer to implement and monitor strategies targeted to erase disparity in healthcare for residents of Arlington. This position will report directly to the Arlington City Manager and work in collaboration with health care providers.

Chief Equity Officer will work with Fire Department to track key health data. The City is also working to expand the existing relationship with Tarrant County Public Health, JPS, THR and MCA to increase health resources available to Arlington residents.

BU 1.5.1	Unity Council Recommendation – Youth Investment Programs	Volunteer and Participation Hours	Police
<p><u>Summary:</u></p> <p>In the last several years, the national media has highlighted stories showing the lack of trust between communities, especially the youth, and their police departments. Nationally, youth mentoring programs consisted with effective implementation of the President’s Task Force on 21st Century Policing offer promising approaches to building trust. The department is one of 15 cities selected to participate in the 21st Century Policing program to serve as a model of community policing for other police departments. The department continues to be focused on youth engagement and has increased programs to directly engage youth.</p> <p>The following programs in the department dedicated to increasing youth engagement:</p> <ul style="list-style-type: none"> • Police Explorer: Program aimed at giving teens exposure to law enforcement careers through competition headed up by local law enforcement officers. • Police Activities League (PAL): Youth crime prevention program that uses recreational activities to create trust and understanding between youth and police officers. • Coach 5-0 Program: In partnership with AISD, officers assist in coaching athletics and regularly attend students’ games. • Mentoring Arlington Youth (MAY) Program: Mentoring program for middle school boys and girls. • Hometown Recruiting Program (HRP): Based in AISD high schools, this program relies on volunteers from the department to assist in real training scenarios for future APD officers. • Geographic/Community Partnerships: Providing neighborhood-centric opportunities allows for communities to tailor education and mentorship activities within various areas of the city. Partnerships with groups like AISD Elementary School Mentoring and the Boys and Girls Club of Arlington are examples of such partnerships.

BU 1.5.2	Unity Council Recommendation – Enhance Community Policing		Police
<p><u>Summary:</u></p> <p>The department regularly attends events in the community, and they are highlighted weekly with calendar invites so officers and leaders have awareness and can attend various community events. Newly hired officers participate in community projects throughout their academy instruction experience. Upon graduation, they are assigned to field training. As a revamp to the department's field training program, the department will look for ways to have recruit officers and their training officers participate in more community events, visit stores and restaurants in the beat areas that they will be assigned to develop deeper relationships with community members and businesses. We have added community contact mark outs to the dispatch system to track officer activity. We are also re-emphasizing the Community Service Award Bar.</p>

Objective 5: Address Policing and Criminal Justice Disparities			
Project		Performance Measure(s)	Department(s)
BU 1.5.3	Unity Council Recommendation – Pair Officers with Members of the Community from Another Race		Police
<p><u>Summary:</u></p> <p>The Police Department strives to recruit diverse officers to serve in field training roles. This commitment to diversifying training options for field training officers will continue. More importantly, cultural diversity and relational policing priorities will be developed in officers who serve the community. Newly hired officers participate in community projects throughout their academy instruction experience. Upon graduation, they are assigned to field training. As an update to the department's field training program, the department will look for ways to have recruit officers and their training officers participate in more community events, visit stores, and restaurants in the beat areas that they will be assigned in order to develop deeper relationships with community members and businesses.</p>

Project		Performance Measure(s)	Department(s)
BU 1.5.4	Unity Council Recommendation – Community Immersion Program		Police
<p><u>Summary:</u></p> <p>This recommendation remains under review; one option would be to produce a program that would create regular opportunities for recruit officers to have non enforcement interaction with local community members during their initial police academy experience. The Police Department and the City Manager’s Office will review this recommendation and bring policy and budgetary change requests to Council, as needed, while also keeping the Council and the community up to date on progress towards this goal. The Police Department places an emphasis on holding beat officers accountable for knowing their beat and stakeholders.</p>

BU 1.5.5	Unity Council Recommendation – Officers Mental Health and Wellness		Police																				
<p><u>Summary:</u></p> <p>APD offers multiple programs to serve its officers with mental health and physical wellness services. The three primary programs are Peer Support, Blue Fit, and Blue Chip.</p> <p>Peer Support is a peer counseling program composed of employees of the department that are trained in Critical Incident Stress Management and Peer Support.</p> <p>Blue Fit is a unique program created to support the physical and mental well-being of APD’s officers. The program is led by a professional licensed fitness trainer and includes 90-minute health and wellness classes over the span of 14 weeks. The classes including but not limited to exercise, nutrition, mental health topics, and more.</p> <p>Blue Chip is a no-cost program to generate awareness and serve as a way for our employees and family members to access the services of mental health providers. The services are anonymous and confidential.</p> <p>In addition to the three primary programs, APD started the Mindfulness Project, an 8-week long course that will be offered numerous times in FY 2023. The Mindfulness Project course focuses on reducing stress, increasing resilience, improving sleep, lowering anxiety and depression.</p>		<p>Peer Support Services Provided</p> <table border="1"> <caption>Peer Support Services Provided</caption> <thead> <tr> <th>Quarter</th> <th>Services Provided</th> </tr> </thead> <tbody> <tr> <td>1st Qtr</td> <td>0</td> </tr> <tr> <td>2nd Qtr</td> <td>0</td> </tr> <tr> <td>3rd Qtr</td> <td>0</td> </tr> <tr> <td>4th Qtr</td> <td>0</td> </tr> </tbody> </table> <p>Blue Chip Counseling Sessions Provided</p> <table border="1"> <caption>Blue Chip Counseling Sessions Provided</caption> <thead> <tr> <th>Quarter</th> <th>Sessions Provided</th> </tr> </thead> <tbody> <tr> <td>1st Qtr</td> <td>0</td> </tr> <tr> <td>2nd Qtr</td> <td>0</td> </tr> <tr> <td>3rd Qtr</td> <td>0</td> </tr> <tr> <td>4th Qtr</td> <td>0</td> </tr> </tbody> </table>		Quarter	Services Provided	1st Qtr	0	2nd Qtr	0	3rd Qtr	0	4th Qtr	0	Quarter	Sessions Provided	1st Qtr	0	2nd Qtr	0	3rd Qtr	0	4th Qtr	0

CGN 2.1.1	Neighborhood Engagement Program	NMG Program Progress	Office of Strategic Initiatives															
<p><u>Summary:</u></p> <p>The Neighborhood Engagement Program seeks to engage Arlington citizens with their neighborhoods and with the City. The goals of the program are to help residents Know Your City through communication and education initiatives; Know Your Neighbors through growing social capital; and Build-Up Neighborhoods Together through investing in neighborhood infrastructure.</p> <p>Initiatives include the Champion Great Neighborhoods newsletter, expanding the use of NextDoor and other social media to reach residents, hosting Neighborhood Leadership Network meetings, the Block Party Trailer program, the Arlington Home Improvement Incentive program, and the Neighborhood Matching Grant Program.</p> <p>The goal of the Neighborhood Matching Grant (NMG) Program is to provide financial support for resident and community-based programs and activities that foster civic pride, enhance, and beautify neighborhoods, and improve neighborhood vitality and participation. The program benefits the City of Arlington by making neighborhoods more attractive, raising the level of community pride, increasing civic participation by residents, and encouraging collaboration and formal organization of and among neighbors, neighborhoods, and city government.</p>		<table border="1"> <thead> <tr> <th>Milestone</th> <th>Estimated Completion</th> <th>Actual Completion</th> </tr> </thead> <tbody> <tr> <td>Issue Call for Projects</td> <td>Aug. 2022</td> <td></td> </tr> <tr> <td>Council Approval of Grants</td> <td>Jan. 2023</td> <td></td> </tr> <tr> <td>Execution of Contract</td> <td>Mar. 2023</td> <td></td> </tr> <tr> <td>All Funds Granted</td> <td>May. 2023</td> <td></td> </tr> </tbody> </table>		Milestone	Estimated Completion	Actual Completion	Issue Call for Projects	Aug. 2022		Council Approval of Grants	Jan. 2023		Execution of Contract	Mar. 2023		All Funds Granted	May. 2023

Project		Performance Measure(s)	Department(s)
CGN 2.1.2	Animal Socialization & Enrichment Program	<ul style="list-style-type: none"> Increase Volunteer Hours Increase Live Release Rate 	Code Compliance Services

Summary:

During the 2020 COVID-19 pandemic, volunteerism was very limited at the shelter. Since re-opening, volunteer hours have not recovered. The Animal Socialization and Enrichment Program is designed to address this issue by engaging volunteers and promoting volunteer retention. Additionally, socialization and enrichment programs are proven to shorten the length of stay and increase the live release rate by reducing kennel stress in animals because they are provided a variety of sensory and intellectual activities.

Animal Services will utilize online training modules to provide additional training opportunities for the volunteer team. As volunteers progress through the program, their designated work areas will expand from meet and greet rooms, to the play yard, to trail walking and finally to the dog park, as well as all levels assisting with an enrichment program schedule.

Project		Performance Measure(s)	Department(s)
CGN 2.2.1	Park Improvement Projects	Overall Satisfaction with Programs and Facilities	Parks & Recreation

Summary:

Julia Burgen Park Trail – UTA Connection

There is an existing 1.06 miles of trail currently in Julia Burgen Park. This project involves adding approximately .3 miles of concrete trail that will provide a connection from the existing trail to the on-street bike path along Pecan Street, ultimately linking to the UTA campus. Project includes the preparation of bid documents and construction of new trail along with some trail lighting.

River Legacy Park Trail Replacement:

Realignment of approximately 1.3 miles of 12' wide concrete trail due to river encroachment. Project includes the preparation of bid documents and construction of new trail.

River Legacy Park Trail West Connection Development

Extension of 12' wide concrete trail westward to meet Fort Worth's Trinity Trail system. Project includes the preparation of bid documents and construction of new trail.

River Legacy Park Trail Replacement – Phase 2:

Realignment of approximately 1.1 miles of 12' wide concrete trail due to river encroachment. Project includes the preparation of bid documents and construction of new trail.

Mineral Well Plaza:

Development of a new monument in the downtown City Plaza. Project includes the preparation of bid documents and construction of new monument.

Veterans Park Korean War Memorial and Memorial to the Fallen:

Development of a new monument in Veterans Park. Project includes the preparation of bid documents and construction of new monument.

Richard Simpson Park Improvements – Phase 2:

Improvements at Richard Simpson Park. Project includes the preparation of bid documents and construction of new improvements.

ERM 1.1.1	Via On-Demand Rideshare	Ridership	Transportation																				
<p><u>Summary:</u></p> <p>This item supports the Council's "Enhancing Regional Mobility" priority by improving access between Arlington and the rest of the North Texas region. The Via on-demand rideshare service was launched on December 11, 2017, to offer an additional mobility option for residents, employees, and visitors. The service expanded to serve the entire City of Arlington and the CentrePort TRE Station in January of 2021.</p> <p>The app-based rideshare service uses six-passenger vehicles, a smart phone application and dynamic routing to provide efficient on-demand trips and access to a wide range of destinations.</p> <p>The turn-key operation is operated and maintained by Via, Transportation, Inc. through a contract based on City Council approval. The contract may be reapproved every two years for up to a total of ten years. Partial funding is provided through the Federal Transit Administration.</p>		<p style="text-align: center;">Via Ridership</p> <table border="1"> <caption>Via Ridership Data</caption> <thead> <tr> <th>Quarter</th> <th>Ridership</th> </tr> </thead> <tbody> <tr> <td>1st Qtr</td> <td>~50,000</td> </tr> <tr> <td>2nd Qtr</td> <td>~75,000</td> </tr> <tr> <td>3rd Qtr</td> <td>~100,000</td> </tr> <tr> <td>4th Qtr</td> <td>~125,000</td> </tr> </tbody> </table> <p style="text-align: center;">Via Cummulative Accounts</p> <table border="1"> <caption>Via Cummulative Accounts Data</caption> <thead> <tr> <th>Quarter</th> <th>Cummulative Accounts</th> </tr> </thead> <tbody> <tr> <td>1st Qtr</td> <td>~50,000</td> </tr> <tr> <td>2nd Qtr</td> <td>~125,000</td> </tr> <tr> <td>3rd Qtr</td> <td>~200,000</td> </tr> <tr> <td>4th Qtr</td> <td>~275,000</td> </tr> </tbody> </table>		Quarter	Ridership	1st Qtr	~50,000	2nd Qtr	~75,000	3rd Qtr	~100,000	4th Qtr	~125,000	Quarter	Cummulative Accounts	1st Qtr	~50,000	2nd Qtr	~125,000	3rd Qtr	~200,000	4th Qtr	~275,000

Objective 1: Promote Regional Connectivity																		
Project		Performance Measure(s)	Department(s)															
ERM 1.1.2	RAPID On-Demand Autonomous Vehicle Pilot	Trips Completed	Transportation															
<p><u>Summary:</u></p> <p>This item supports the Council's "Enhancing Regional Mobility" priority by improving access within Arlington while complementing the Via On-Demand Rideshare service.</p> <p>The Arlington RAPID (Rideshare, Automation, and Payment Integration Demonstration) project combines the City's expertise with on-demand rideshare and AV testing to integrate a shared, dynamically routed Level 4 AV fleet into an existing public rideshare transit system. Via continues to provide the rideshare service and May Mobility provides the AV technology and fleet. Both the rideshare fleet and the AV fleet include a wheelchair accessible vehicle, making this service more widely accessible. In partnership with the University of Texas at Arlington, the service operates in coordination with UTA's fare payment system, allowing students to ride for a discounted rate. This project creates a one-stop-shop for mobility needs in the service area concentrated around UTA's campus and Downtown, providing a seamless trip planning, booking, and payment experience across modes.</p> <p>The City of Arlington funded the first year of service through a competitive \$1.7M grant from the Federal Transit Administration. The North Central Texas Council of Governments (NCTCOG) has provided additional funding, to be available in fall 2022, in the amount of \$ 4,538,552, for the service to continue operations for two additional years. May Mobility and Via Transportation, Inc. are absorbing most of the cost for gap service until the NCTCOG funding is available. The City is contributing \$150,000 to fund the gap service. The project will include analysis and evaluation of the service outcomes and reporting on lessons learned.</p>		<table border="1"> <thead> <tr> <th>Milestone</th> <th>Estimated Completion</th> <th>Actual Completion</th> </tr> </thead> <tbody> <tr> <td>Execution of COG Funding</td> <td>Dec. 2022</td> <td></td> </tr> <tr> <td>Expanded RAPID Service Starts</td> <td>Jan. 2023</td> <td></td> </tr> <tr> <td>Service Completion</td> <td>Dec. 2024</td> <td></td> </tr> <tr> <td>Evaluation and Reporting Completion</td> <td>Mar. 2025</td> <td></td> </tr> </tbody> </table>		Milestone	Estimated Completion	Actual Completion	Execution of COG Funding	Dec. 2022		Expanded RAPID Service Starts	Jan. 2023		Service Completion	Dec. 2024		Evaluation and Reporting Completion	Mar. 2025

Objective 1: Optimize Effectiveness and Efficiency of Existing Transportation System

Project	Performance Measure(s)	Department(s)
ERM 2.1.1 Update Street Condition	<ul style="list-style-type: none"> Citizen Perception of Overall Road Condition as “Good” or “Excellent” Lane Miles with Overall Condition Index (OCI) <50 	Public Works

Summary:

Since FY 2013, the City has utilized a “Do Worst First” street condition philosophy which focused on addressing streets with an Overall Condition Index (OCI) rating below 50. Beginning in FY 2023, the city will shift to a prevention-based philosophy that will emphasize the maintenance of “yellow” streets, those streets with an OCI rating 50-69, as well as continuing to address the “red” streets through the Capital Improvement Program.

With an additional focus on preventative maintenance, the target is to reduce the FY 2022 baseline to prolong the life of the roadways and achieve a more balanced network.

ERM	Project	Performance Measure(s)	Department(s)
2.1.3	TxDOT Southeast Connector Project (I-20 / I-820 / US-287) Interchange	Overall Satisfaction with the Management of Traffic Flow During Peak Hours	Public Works

Summary:

The purpose of this TxDOT project is to improve mobility and safety and provide transportation options for travelers through the area. The project will reconstruct the interchange of Interstates I-20, I-820, and Highway US-287. The new infrastructure will include additional main lanes, bi-directional or reversible barrier separated express or managed lanes, entrance and exit ramp adjustments, frontage road intersection improvements and bicycle and pedestrian accommodations.

- The first public meeting was held July 19, 2018. Information collected during the public meetings and hearing was used to develop safe transportation solutions that minimize impacts to the communities
- A virtual public hearing was held on June 4, 2020, to present the proposed reconstruction and widening of I-20, I-820 and US-287 including the three major interchanges. The meeting allowed citizens and communities to voice their concerns via e-mail.
- Following the meeting on June 4, TxDOT, the compiled questions and comments were used to modify the Environmental Assessment (EA).
- A Finding of No Significant Impact (FONSI) was issued on September 4, 2020.
- Have requested for TxDOT to host a town hall meeting for Council Districts 2 and 4.

IOE 1.2.4	Economic Development Projects	<ul style="list-style-type: none"> Recruitment Leads Leads to Prospects 	Economic Development

Summary:

To build and sustain Arlington’s tax base, Economic Development staff will remain focused on developing Arlington’s remaining greenfield sites with the highest and best uses. Additionally, redevelopment efforts will continue within the Entertainment District, Great Southwest Industrial Park, and Downtown and Lamar-Collins areas, among other areas identified as suitable for redevelopment. Per the Economic Development Strategy, redevelopment projects will be supported and prioritized when considered as transformational and having high community impact, both being primary economic development goals for the City. These projects must be game changers, introducing new product into an unproven area, can stimulate future change, and must be a desired use.

Urban Union

Type: Redevelopment of buildings near the intersections of Division St., East St., and Front St in Downtown Arlington
 Capital Investment: \$20 million
 Size: 60,000 sq. ft.
 Deal: Located in Tax Increment Reinvestment Zone #1, the project will receive TIRZ #1 funding to assist in the public improvement costs associated with the development.

Columbia Medical Center of Arlington Subsidiary, LP (MCA) (Healthcare/Medical)

Type: Medical Hospital
 Capital Investment: \$90 million
 Size: 20,000 sq. ft. expansion
 Employees: 50
 Deal: The City provided a real property tax abatement to offset some of MCA’s construction costs.

General Motors (Assembly)

Type: Assembly Plant Renovation and Expansion
 Capital Investment: \$1.4 billion
 Size: 1,200,000 sq. ft. expansion
 Employees: 4,000+ retained
 Deal: To assist GM, the City offered an incentive package including tax abatements to real and business personal property and fee waivers.

Urban Union (Phase 3)	Date
Building Permit Issued	May 2018
Certificate of Occupancy Issued	Sept. 2019
Urban Front (Phase 4)	Date
Agreement Drafted	Mar. 2020
Agreement Approved by TIRZ Board.	June 2020
Agreement Approved by Council	June 2020
First Amendment to Purchase Option Agreement	Sept. 2020

Business Plan

Medal of Honor Museum

Type: Museum

In October 2019, the NMOH Museum announced that Arlington would be the home of their new museum. The site will be in the Entertainment District.

Main 7

Type: Housing Development

Capital Investment: \$14.7 million

Townhomes: 53

Deal: The Arlington City Council approved a Tax Increment Reimbursement Agreement by and between Savannah Main 7, LLC relative to the construction of the development at the corner of W. Main Street and Cooper Street in June 2020.

Southwest Restaurant Equipment, Inc. (Phase 2)

Type: Speculative Industrial Building

Capital Investment: \$5-10 million

Size: 45,000 sq. ft.

Employees: TBD

Deal: Arlington City Council approved a 5-year tax abatement on real property, Developer Participation and Chapter 380 agreements to support public improvements for the overall project (Phases 1 & 2) located at 2909 & 3001 E. Arkansas Ln. respectively.

Canales Furniture

Type: HQ and distribution center relocation and expansion

Capital Investment: \$3 million

Size: 200,000 sq. ft.

Employees: 70

Deal: Chapter 380 Performance Agreement to include a hiring grant of \$1,000 per Arlington employee up to \$100,000, and reimbursement up to \$1.5 million for assistance with renovation costs.

Bowery Farming, Inc.

Type: Indoor modern farming operation

Capital Investment: \$20 million

Size: 205,000 sq. ft.

Employees: 90

Deal: Chapter 380 Grant Agreement of 35% for 7 years on City taxes paid on business personal property and waiver of building permit fees for the cost of installation of equipment, machinery, and furnishings in the building.

Southwest Restaurant Equipment, Inc.	Date
Three-way Contracts Fully Executed	Underway
Building Permit Issued	
Project Complete (CO Issued)	

Canales Furniture	Date

Bowery Farming, Inc.	Date

Wallbox USA, Inc.	Date

Wallbox USA, Inc.

Type: First North American and U.S. manufacturing operation

Capital Investment: \$70 million

Size: 129,000 sq. ft.

Employees: 144 up to 250

Deal: Arlington City Council approved a Chapter 380 Grant Agreement at 80% for 7 years on business personal property and building permit fee waivers to reduce the costs to retrofit the facility and ramp up the operation.

Goal 1: Ensure Availability of Information, Programs, and City Services

Objective 1: Provide for the Efficient Access and Appropriate Management of the City's Data

Project		Performance Measure(s)	Department(s)																					
PTW 1.1.5	Enterprise IT Project (FY 2022) – AMANDA Redesign for Planning	Project Completion	Information Technology and Planning & Development Services																					
<p><u>Summary:</u></p> <p>The AMANDA system was created in 2006 to automate inspections, capture reviews and track projects through the development process. Since implementation in 2006, minimal updates have occurred. As a result, the business procedural changes have not been captured in AMANDA, to align with changes made to the Unified Development Code, adopted in 2014, and State Legislation (Local Government Code). Due to the lack of updates to the AMANDA system, City staff manually adjusts business processes in AMANDA to mirror the current process. PDS would like to update Zoning Case (ZC), Plat (PL), Site Plan (SP) and Public Improvement (PI) folders in AMANDA and arlingtonpermits.com (ap.com). The updates will include changes, deletions, and updates to AMANDA folders, reporting, fees, and ap.com. PDS would also like to create folders/work types for processes not currently captured in AMANDA including zoning verification letter applications and Plat Pre-Application meetings. Both processes require an application fee and are manually tracked via spreadsheets.</p> <p>While updating the existing PDS Land Development folders (ZC, PL, SP and PI) in AMANDA, this project will also provide an opportunity to define, document, change, and prioritize PDS business processes aligned with the AMANDA system best practices. This will require the support of a third-party consultant that will lead the mapping of current and future state business processes, facilitate stakeholder engagement, identify gaps, and process improvements that will result in the development of the AMANDA folders master plan.</p>		<table border="1"> <thead> <tr> <th>Milestone</th> <th>Estimated Completion</th> <th>Status</th> </tr> </thead> <tbody> <tr> <td>Project Charter</td> <td>1st Qtr. PTW 1.2.3	Traffic Management Technology Improvements	<ul style="list-style-type: none"> Implementation: Installing Devices at Locations and Bringing them Online. Use Crowdsourced Data and GIS database for Travel Time Data Collection and Evaluation Management: Using Device Data to Improve Traffic Flow 	Public Works

Summary:

Implementing smart traffic management technology will assist the city in developing a more efficient transportation system that enhances regional mobility and increases the quality of life for residents and visitors.

Some of the benefits resulting from implementing new technology include:

- Reduced traffic congestion
- Prioritized traffic based on real-time conditions
- Quicker response to traffic incidents
- Reduced pollution

During FY 2023, work to implement new traffic management technology will focus on the following projects:

- Installation of additional connected vehicle devices on major corridors
- Installation of additional CCTV cameras for traffic monitoring
- Increasing the number of intersections evaluated by the *Automated Traffic Signal Performance Measures (ATSPMs)* monitoring system.
- Use of Waze crowdsourced data and GIS database to analyze travel time data and detect congestion.

Corridor Travel Time Goals	Actual Travel Time

PTW 1.2.6	Enterprise IT Project (FY 2023) – PD Law Enforcement Internal Records and Performance Solution	Project Completion	Information Technology and Police

Summary:

The Police Department (APD) utilizes Administrative Investigations Management (AIM) to collect, manage, track, and analyze multiple agency items including use of force incidents, pursuits, accidents, awards, Internal Affairs matters, etc. Benchmark Analytics has recently acquired AIM, and they intend to sunset (end of life) the AIM solution. Benchmark plans to migrate AIM clients to their product, which is significantly more expensive. Therefore, APD would like to investigate options to replace AIM as Benchmark's product does not meet their needs nor current budget. Through the City's procurement process, this project will expand on the APD's business requirements as selection criterion to identify and acquire a solution.

PTW 1.2.7	Enterprise IT Project (FY 2023) – PW Floodplain and Environmental Notices of Violation (NOV) in AMANDA	Project Completion	Information Technology and Public Works																					
<p><u>Summary:</u></p> <p>Recent floodplain map updates have increased the total acreage of mapped floodplain and total number of insurable structures within the FEMA regulated floodplain. The City is required by federal regulations to ensure that these structures and areas follow the Flood Damage Prevention Ordinance. These regulations are mandatory for continued participation in the National Flood Insurance Program which allows all property owners and tenants in the City to be eligible to purchase a flood insurance policy.</p> <p>The recently updated Stormwater Pollution Control Ordinance will result in additional property owners needing permits to correct deficiencies and NOV infractions. Including the NOV items within AMANDA will facilitate coordination between PDS and PW as the information will be tied to the address/property. If the Violations are in AMANDA, notices will pop up alerting users of the NOV situation when permits are pulled. This ensures teamwork between PDS, PW and the property owners/contractors to resolve the NOV correctly.</p>		<table border="1"> <thead> <tr> <th>Milestone</th> <th>Estimated Completion</th> <th>Status</th> </tr> </thead> <tbody> <tr> <td>Project Charter</td> <td></td> <td></td> </tr> <tr> <td>Planning Phase</td> <td></td> <td></td> </tr> <tr> <td>Procure Phase</td> <td></td> <td></td> </tr> <tr> <td>Design Phase</td> <td></td> <td></td> </tr> <tr> <td>Implementation Phase</td> <td></td> <td></td> </tr> <tr> <td>Project Closure</td> <td></td> <td></td> </tr> </tbody> </table>		Milestone	Estimated Completion	Status	Project Charter			Planning Phase			Procure Phase			Design Phase			Implementation Phase			Project Closure

Project		Performance Measure(s)	Department(s)
PTW 1.2.8	Enterprise IT Project (FY 2023) – PW Storm Drain Hydrology	Project Completion	Information Technology and Public Works

Summary:

Public Works (PW) has identified the Bentley OpenFlows StormCAD and OpenFlows Flowmaster software as the solution they need to begin developing the level of service storm drain models. The consequence of failure analysis requires in-depth analysis of overland flow using a software with 2D hydraulic modeling capability. The 2D modeling software identified for evaluation include Innovyze, InfoWorks ICM and XPSWMM software packages.

This project will use PW’s business requirements to validate that Bentley OpenFlow StormCAD and OpenFlow Flowmaster, XPSWMM and InfoWorks ICM will meet their needs, and use the City’s purchasing process to obtain the necessary software.

PTW 1.3.3	Enhanced Online Jury Services	Project Completion	Municipal Court

Summary:

The right to a trial by jury is one of the fundamental rights afforded to those charged with a criminal offense in the United States. Article 45.027(a) of the Code of Criminal Procedure requires the judge to issue a writ of venire, commanding the clerk to summon a venire from which six qualified persons shall be selected to serve as jurors in the case.

The City of Arlington Municipal Court holds jury trials three days a week and summons over 1,000 jurors every month. The Municipal Court's current jury services does not allow for potential jurors to request and exemption or submit their questioners online and they must return their jury service forms by mail or in person. The Municipal Court's current Jury software has the capacity to provide for online access to the jurors to complete questionnaires and request exemptions.

Project		Performance Measure(s)	Department(s)
SYF 2.1.2	Family Self-Sufficiency Program	Increase the Number of Participating Families in the Family Self-Sufficiency Program	Housing
<p><u>Summary:</u></p> <p>The Family Self-Sufficiency (FSS) Program is a voluntary component of the Housing Authority's Housing Choice Voucher (HCV) program.</p> <p>Households or individual who enroll in the FSS program have five years to achieve goals they establish while working alongside a case manager. Their goals are unique to themselves, but often relate to savings, education, credit score and employment. HUD mandates two goals, being off welfare and being employed full time to graduate.</p> <p>Participants in FSS enter into a contract of participation for five years but can graduate early if they've achieved their goals. When they enter the FSS program, staff takes a snapshot of their income as a baseline. As they progress through their contract of participation, if their income increases, as with all HCV participants, their share of rent also increases. Participants pay 30% of their income toward rent, and the housing voucher pays the balance. As the housing authority's portion of rent is reduced, that savings in rent is put in an escrow account to be held for the FSS participant until they graduate. If they graduate from the program, they balance in the escrow account is given to the FSS graduate with no restrictions on its use (however they are given guidance about paying off debt, increasing savings accounts, and other smart decisions related to the funds).</p> <p>The FSS program has been largely underutilized and is being revamped in advance of establishing new enrollment goals for FY 2023.</p> <p>Housing's goal is to enroll 6 new FSS participants each quarter in FY 2023.</p>

Project	Performance Measure(s)	Department(s)
Core CRE 1.1.1	<ul style="list-style-type: none"> Number of Participants Customer Surveys Revenue Generation to Maintain the Program 	Parks & Recreation

Summary:

The Parks and Recreation Department offers a weekly themed, full-day camp program for Arlington youth, ages 5-12. Campers enjoy games, crafts, swimming, field trips and much more. Lunch and an afternoon snack are provided. Camp Dream launched the summer of 2017 at Hugh Smith Recreation Center. Camp DREAM is aimed at children whose guardians are not financially able to afford the registration fee for such an activity.

There is no monetary requirement for the program, but each family is required to attend a minimum of three days per week. Parks and Recreation collaborates with AISD's Office of Student Development and Support Services (SDSS) to identify children who are in transition and without Camp Dream likely remain alone during the summer workday. Applications are collected at EAST Library and Recreation Center and through the SDSS liaison.

Summary:

In a special election on May 6, 2017, Arlington voters approved obligation bonds to build an Active Adult Center. This new facility for residents 50 years of age and older will be located on the southwest corner of the Pierce Burch Water Treatment site on Green Oaks Boulevard between W. Arkansas Lane and W. Pioneer Parkway.

In April 2019, the City investigated alternative construction delivery methods for the project. A determination was made to proceed with a Request for Qualifications (RFQ) for a Construction Manager at Risk. However, with the onset of the COVID-19 pandemic, this RFQ was ultimately canceled.

In July 2019, the City issued an RFQ for Architectural/Engineering firms to design the new facility. Parkhill, Scott, and Cooper were selected as the A/E firm for the project and began verification of the project program.

Core CRE 1.1.5	Implement Library Three-Year Strategic Plan	Citizen Satisfaction with Overall Library Services	Library

Summary:

This business plan item has been extended from FY 2022 due to unforeseen delays during the feedback gathering phase. The Strategic Plan is designed to position the Library as a relevant public service organization incorporating services and programs to improve the quality of life of Arlington residents and library users for the next three years.

A comprehensive approach and communication strategies will inform and involve all levels of the library team to support a unified direction and gain the support of the guiding initiatives outlined in the new plan. The Library will utilize various channels to brand and communicate the new strategic plan to elevate the Library's presence and visibility to the community. The strategic plan goals aim to create places and experiences for our users and make meaningful connections through engagement and partnerships in our community.

Project		Performance Measure(s)	Department(s)
Core CRE 1.1.6	Pilot Homebound Library Services	<ul style="list-style-type: none"> Number of Participants Number of Materials Circulated Number of Participants Who are "Very Satisfied" with the Service 	Library

Summary:

The Library is working to develop a pilot program to provide services to our homebound patrons who cannot come in person for library services due to mobility issues or transportation issues, including temporary health issues impairing mobility. Though the Arlington Public Library offers a variety of online resources for the community including e-content, not all residents have the technology or the knowledge to access these resources. While providing access to materials is a big need, creating opportunities for social interaction is a critical component. Recent studies on cognitive health suggest that keeping the mind active and connecting socially helps with daily living for seniors. This program would help on both fronts by offering these homebound seniors the chance for social interaction and access to library materials.

The recent effects of a nearly two-year lockdown due to pandemic has amplified the overwhelming impacts of feelings of depression, isolation, and fear among senior and homebound populations. The Library seeks to mitigate this effect in a small way by providing opportunities for social interaction with people and resources. By connecting with this underserved, homebound population, we hope to bridge the gap and provide engaging opportunities for these participants to expand their social networks and connections.

Depending on funding we will launch a pilot program to provide services to homebound:

- Two locations staffed by volunteers with grant funded staff promoting and recruiting volunteers and participants (TSLAC, one year)
- Citywide service using contract employees to canvass the city to reach homebound residents where they are. Four contract workers will visit doctors' offices, senior centers, senior-living facilities, and homes to provide information about homebound delivery and get residents signed up for the service. A fifth contractor will coordinate all contractor activities and ensure efficient and effective marketing. Additionally, we will hire two part-time couriers, who will

Homebound Participants

Homebound Items Circulated

Business Plan

provide services directly to homebound residents. The couriers will deliver books and other library materials to residents' homes, pick up items to return, and provide information to as needed, including information on assistive technologies such as Talking Books and technological assistance for digital content access. Upon completion of the pilot period, Library staff will analyze output and outcome data, including anecdotal evidence and survey responses to determine how best to continue the program (ARFA, 21 months).

Core FED 1.2.2	Open Records Requests/ Intergovernmental Agency Requests	<ul style="list-style-type: none"> Number of Open Records Requests Number of Intergovernmental Agency Requests 	Police

Summary:

The Records Services division serves as the repository for the official records that document the activity of the Police Department. The Texas Public Information Act is a state law that gives a person the right to submit a written request for any record related to official city business. Records may include but are not limited to criminal offense reports, crash reports, 911 calls for service, photos, and audio/visual (A/V) recordings.

The division handles both ORR (Open Record Requests) from the public and IRR (Interagency Record Requests) from other law enforcement agencies or segments of the criminal justice system. A large majority of ORRs are submitted by data mining companies, such as LexisNexis, usually requesting crash reports and related documents.

The Records Services division must provide a response to the requestor within 10 business days regarding the status of a request, including if it was submitted to the Attorney General to rule whether the information is exempt from disclosure. Records for pending cases and those containing certain protected information are not released. Other records may be partially released with some information redacted.

Redactions to A/V material, including body worn camera (BWC) and dash cam video footage and 911 audio, are extremely labor and time intensive. Each minute of BWC video footage takes approximately 10 minutes to redact. Records Services works closely with the City Attorney Office Police Legal Advisor to ensure all records responsive to a request are released and certain information is redacted as required.

Project		Performance Measure(s)	Department(s)
Core FED 2.1.1	Organizational Succession Planning	Phase III: Expansion of Implementation FY 2022	Human Resources

Summary:

Succession planning is one of the most important HR strategic processes. It identifies key roles and mapping out ways to ensure the city has the right people with the right skills, capabilities, and experiences, in the right place at the right time. The FY 2020 plan was to establish and implement a city-wide succession plan. However, as the team worked through the process, it was determined that a city-wide launch was not the best rollout of the program as there were too many aspects of the process that needed to be established before a city-wide implementation.

The Human Resources shifted from the original plan to focus on establishing the process and implementation of a succession plan in the HR department first, to allow the team the opportunity to work out all the nuances of the process.

In FY 2020, Human Resources established the protocol and process to implement and sustain an Organizational Succession Plan for the City of Arlington

HR Leadership has shelved this program for Human Resources and is no longer active; remains active with other participating departments.

Project		Performance Measure(s)	Department(s)
Core FED 2.1.2	Comprehensive Learning and Development Program	<ul style="list-style-type: none"> Participant Numbers Participant Feedback 	Human Resources

Summary:

Organizational development is a key layer to different aspects of the Human Resources fabric. The comprehensive view of employee training is broken into phases. In FY 2020, COVID-19 interrupted the training plan because much of the Organizational Development team had to shift its focus on developing communication pieces for the pandemic.

The Organizational Development team revisited the training plan and reworked the comprehensive plan to align with the changes in the workplace, staffing levels, emerging needs, and changes in the philosophy of how learning and development is offered.

AEEP:

- Candidates selected/Schedule Finalized; course begins February 2022.
- The course began in February and will be ongoing with monthly classes.

Arrow Program:

- 3 teams/projects selected to move forward; course begins February 2022.
- This program is now in its sustainment phase with three well-formed project teams executing on their vision and commitments. This group meets monthly for classroom instruction and engages in homework after their sessions.

Supervisor Basics:

- Content to begin rolling out FY 2022 2nd quarter.
- Supervisor Basics – Ongoing content development. Deployment of material has been delayed due to the upcoming implementation of Workday.

Workday Training	Ongoing through FY 2022	In Progress

Workday Training:

- The OD Team will lead the training, communication and change management processes for Phase II of the ERP implementation.

Business Plan

Financial/Economic Development

Goal 2: Promote Organization Sustainability by Recruiting, Retaining, and Developing Outstanding Employees

Objective 1: Foster and Maintain a Work and Learning Environment that is Inclusive, Welcoming, and Supportive

Project		Performance Measure(s)	Department(s)
Core FED 2.1.3	Communication and Workforce Engagement	Completion of Milestones	Human Resources

Summary:

In the past two years, the Human Resources had a goal to play a more central role in communicating HR information, and providing integrated resources, to employees with a focus on customer service excellence. The Human Resources rebrand was Phase I of this plan.

The next phase is for Human Resources to establish a palette of communication channels, specifically for our internal customers, that will highlight important information for employees to know and engage with; provide situationally based communications regarding programs and policies that specifically affect employees; and provide access to an organized, easy to access platforms. Items related to this are noted in the Milestone section.

Due to upcoming Workday implementation and other associated projects, some items have been delayed while others will roll into the training and communication plan.

Agents of Change and Engagement – Agents of Change and Engagement (ACEs) is our Change Manage Program for the Phase II launch of Workday. This program highlights 20 employees from about 15 different departments. This is a well-formed communication and launch strategy with the implementation team acting as the information Hub, and our ACEs (departmental representatives) acting as the spokes, disseminating necessary information to their departmental colleagues. Our program kick-off is April 28, 2022. This program will include training collateral, workday implementation resources and monthly sessions to update ACEs on the progress of the implementation and to answer any questions they or their departments may have.

Milestone	Target Date	Status

ACEs – Workday Change Management	3 rd Qtr. FY 2022	In Progress
Organizational Stay Survey	3 rd Qtr. FY 2022	In Progress
Document Translation	3 rd Qtr. FY 2022	In Progress

Stay Survey – The OD team began the development of an organizational wide Stay Survey to understand what motivates employees to continue working for the City and explore suggestions they have for improvement. After multiple meetings and research, the initial draft of this survey has been completed and will undergo revision by executive staff. The survey is designed to take a holistic approach at the employee experience to fully understand how we can continue to retain our workforce. The survey launch is planned to occur in the 3rd quarter.

Document Translation – The OD team received multiple requests for translation during the 1st and 2nd quarter from new employees. In an effort to be more inclusive, the OD team has created a plan to translate the employee benefits guide and new hire paperwork to Spanish to meet the need expressed in the employee population. The translation tool to be used and timeline for completion has been identified. Translation is planned to begin in the 4th quarter.

Project		Performance Measure(s)	Department(s)
Core FED 2.1.4	Compensation and Classification Structural and Strategic Review	Modification or Validation of Various Compensation and Classification Components	Human Resources

Summary:

The Organizational Development Team, specifically the OD Manager and Compensation Specialist, will conduct a full and comprehensive review of all current pay structures, strategies, and philosophies. This will include an examination of comparative benchmark organizations, reviews of the City's current pay philosophies and relatedness to strategy and execution, recalibration of structures or strategies to align with benchmark organizations, definitive guidelines on pay adjustments and reclassifications, and other items that would be of significant impact for a successful, equitable and sustainable compensation program.

The Compensation Team has met with multiple departments to determine their hiring/recruitment/retention struggles specifically with the Technical/Craft family. New sources of market information are being identified, analyzed, and evaluated against City classifications. The Compensation Team will compile all relative information and present a recommended strategy to CMO.

Upon an in-depth analysis of the current pay structure, a strategy has been established to include the identification of multiple job positions to benchmark and restructure the current salary structure that will allow for employees to remain competitive in the market, creating equitable pay and employee retention.

Milestone	Estimated Completion	Status
Identification of Comparative Market Sources (Benchmark Cities and Organizations)	4 th Qtr. FY 2021	Complete/ Ongoing

Project		Performance Measure(s)	Department(s)
Core FED 2.2.1	Drug and Alcohol (D&A) Communication & Training for Safety Sensitive Positions	Completion of Milestones	Human Resources

Summary:

To ensure compliance with City policy and US-DOT regulations, Risk Management began a project in 3rd quarter FY 2020 to ensure that every covered employee receives the appropriate drug and alcohol training.

Human Resources continues to research the possibility of using technology to establish an automated reporting process. A scheduled upload from Lawson to Cornerstone is being developed to capture new hires and changes in safety sensitive positions with current employees. Cornerstone will generate an email assigning the appropriate training module(s).

This process will reduce the amount of time it takes to identify employees that need D&A training, track the completion, and maintain the database for FMCSA and FTA purposes.

This process will need to be considered during Workday implementation.

IT is working on the configuration between Lawson and Cornerstone.

Core INF 1.1.1 Airport Lighting Control Panel Upgrade	Total Aircraft Operations	Transportation

Summary:

Numerous airport visual aides are available to provide information and guidance to pilots maneuvering around airports. The main component for navigation on the airport is the airfield lighting and control circuit. The current airport lighting control panels were installed in 2012 and are no longer supported by the manufacturer with parts or tech support. A new airport lighting control panel system is necessary to provide pilots with reliable navigational assistance needed during low-visibility and night operations.

Project		Performance Measure(s)	Department(s)
Core PS 1.1.1	Crime Reduction	<ul style="list-style-type: none"> Crimes Against Person Crimes Against Property Crimes Against Society 	Police

Summary:

The City of Arlington has experienced a reduction in crime for the past eight years. Sustaining this reduction continues to be at the forefront of the mission for the Police Department. Geographic accountability, technology, intelligence, and community engagement all play a vital role when implementing a sustainable and conducive crime reduction strategy.

Beginning in January 2017, the Police Department began reporting data as part of the National Incident-Based Reporting System (NIBRS). This system captures more detailed information for each single crime occurrence rather than the traditional Summary Uniform Crime Report (UCR), which is based on a hierarchy summary reporting system. NIBRS data identifies with precision when and where a crime takes place, what type of crime occurred, and the characteristics of its victims and perpetrators. While the UCR data will be used for historical and overall benchmarking of crime statistics, NIBRS data will provide us with more defined, granular detail of the crime in our city. This will help the department's overall crime reduction goal by giving crime analysts more data and allowing for more targeted, proactive policing. The department submits crime data in NIBRS format to the Texas Department of Public Safety and receives a Summary UCR (Part I) report in response.

Charts show the three crime code categories used in NIBRS. Data extracted on 7/6/2022

Objective 1: Improve Quality of Life and Place

Project	Performance Measure(s)	Department(s)
Core PS 1.1.2	<ul style="list-style-type: none"> Injury Crashes DWI Crashes CMV Inspections 	Police

Summary:

Every year, millions of people travel the roadways throughout the city. Reaching their destination safely is of the utmost concern. In 2021, a total of 7,086 crashes occurred within Arlington city limits, a significant decrease of 9.8% from 2020 (12,945).

In order to continue crash reduction in the city, the department will continue using a new, multi-faceted approach that will overlay crash information with crime information. This approach is called the Data-Driven Approaches to Crime and Traffic Safety (DDACTS). The goal of utilizing this data analytics approach is to decrease the number of vehicle crashes in the city. Effective enforcement and education efforts will be complementing factors to the data. The Department continues to receive a comprehensive traffic safety grant through the Texas Department of Public Safety. The purpose of the grant is to have officers act as a visual deterrent for dangerous driving, in the city's highest crash locations.

The Department continues to place emphasis on conducting safety inspections of CMVs (Commercial Motor Vehicles) as part of the Traffic Safety plan. The CMV inspection and enforcement program consists of a full time CMV unit. The CMV enforcement program is supplemented by a CMV grant through the Texas Department of Public Safety and United States Department of Transportation.

Core PS 1.1.3	Victim Services Response to Crime Victims	<ul style="list-style-type: none"> Total Crime Victims Served On-scene Crisis Response 	Police

Summary:

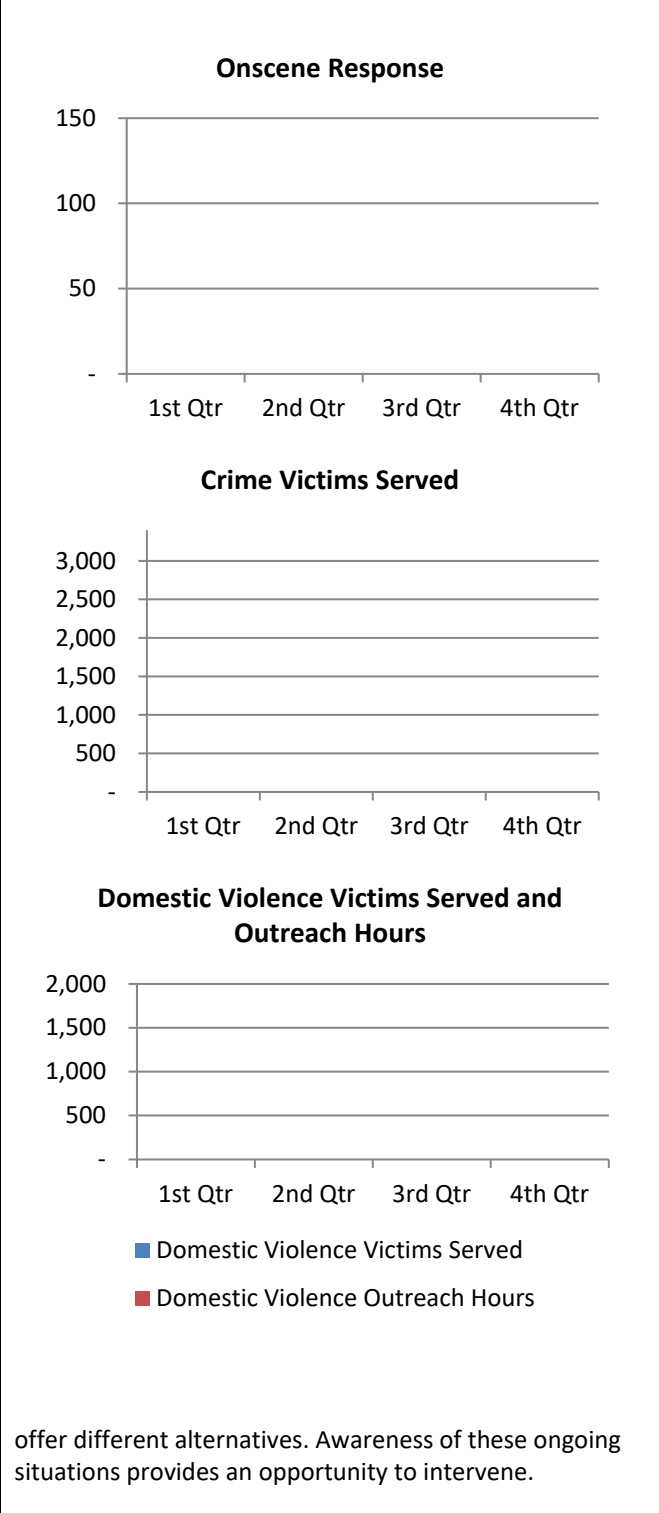

Victims of crime, including domestic violence, may be of any gender, age, sexual orientation, race, religion, or ethnicity. Victimization may happen to an individual, family, group, or community. The impact of crime on an individual victim, their loved ones, and their community depends on a variety of factors, but often crime victimization has significant emotional, psychological, physical, financial, and social consequences.

Department investigators work quickly to expedite the most serious cases and those with high-risk indicators. While investigators work the criminal aspect of the case, the Victim Services Unit provides resources to victims and family members with the goal of lessening the short and long-term trauma experienced as a direct result of the victimization. Victim Services provides crisis intervention and counseling, criminal justice support and advocacy, information and referral, notification of rights and transportation to shelters to all victims of violent crime reported to the Arlington Police Department.

Victim Services counselors are on duty 7 days a week to respond to requests for immediate crisis intervention for victims of domestic violence and other traumatic crimes.

Project RAISE (Risk, Assessment, Intervention, Safety, and Engagement) consists of a victim centered Multi-Disciplinary Team of social service, community, and criminal justice agencies partnering together to address the issues that high-risk family violence victims face. Project RAISE offers a professional support system to help develop a safe and healthy climate for the victim.

Project RAISE focuses on the intervention of the high-risk intimate partner violence (IPV) locations within each geographic district per month. The safety risk of each location is evaluated by monitoring the number of calls, history of violence, and the severity of violence. An in-depth assessment is completed for the victim including a history of violence, barriers to service, needs assessment, and previous resources. This is accomplished through a Co-Responder Team onsite visit. The team consists of a Victim Services Crisis Counselor and a patrol officer. Safety planning, crisis intervention, is provided to the victim to

offer different alternatives. Awareness of these ongoing situations provides an opportunity to intervene.

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 1: Improve Quality of Life and Place

Project		Performance Measure(s)	Department(s)
Core PS 1.1.4	Behavioral Health Calls for Service and Special Response Units	<ul style="list-style-type: none"> • Calls for Service with a Behavioral Health Component • CRT and CIT Response • NED 	Police

Summary:

Individuals with behavioral health challenges are vulnerable members of our community who deserve to be treated with dignity and respect.

Police agencies are often the front-line responders to those struggling with a behavioral health crisis. In addition to staff time and resources, these are dynamic environments that have potential for harm to both staff and those involved. APD has three programs focused on police response to behavioral health crisis in the community.

The Behavioral Health Law Enforcement Unit (BHLEU) will staff four Crisis Intervention Specialists (civilian) paired with four Behavioral Health Response Officers. The unit will respond to calls identified as having a behavioral health component. They will work with patrol to mitigate crisis, identify solution-focused interventions, divert from jail, and connect citizens with available resources.

Our continued partnership with the MHMR Law Liaison program provides APD an opportunity to inject another team of mental health professionals into these encounters and work in conjunction with specialized officers to achieve stabilization, develop positive rapport with law enforcement and provide connectivity to services.

The Arlington Police Department utilizes a hybrid approach in which Behavioral Health Response Officers (BHRO) on patrol are partnered with MHMR Law Liaisons to form a Co-Responder Team. They conduct follow-ups and engage individuals struggling with behavioral health issues by providing resources. BHROs are also paired together to form a Crisis Intervention Team for calls and follow-ups.

Core PS 1.1.6	Police Department Storefront	<ul style="list-style-type: none"> Reduction of Crime in Police Reporting Area Surrounding Storefront Number of Citizen Contacts at Storefront Citizen Perception of Crime and Safety 	Police
<p><u>Summary:</u></p> <p>The Arlington Police Department has four police stations that are geographically aligned to provide service delivery to residents. Due to the recent population growth and expansion of single and multi-family housing in the south district, the Police Department must evaluate decentralized cost-effective models to improve community-police relations, customer service and reduce the fear of crime. One decentralized model is implementing police storefronts in commercial business complexes adjacent to residential neighborhoods.</p> <p>Police storefronts are a community resource that provides a centralized location to engage residents, business owners and other city departments to discuss safety concerns, share intelligence, develop crime prevention strategies, and address quality of life issues. In addition to providing an alternative space to build community partnerships, implementing storefronts increases the frequency of police presence and visibility resulting in reduced citizen fear and increased safety.</p>

Objective 2: Protect Public Well-being

Project		Performance Measure(s)	Department(s)
Core PS 1.2.1	Vision Zero	Reduce Traffic Related Fatalities and Serious Injuries	Public Works

Summary:

Vision Zero is a traffic safety concept whose goal is to reduce fatalities and serious injuries on roadways to zero. An action plan including engineering, planning, education, enforcement, and prosecution was developed. Analysis actions, evaluation actions, engineering actions, other departmental actions, preparation actions, and safety preventative actions are included in the action plan. These actions lead into the ongoing development of the crash profiles and crash mitigation strategies.

In FY 2023, work will continue to implement the Safe Route to School (SRTS) Program, crash mitigation measures, and traffic calming measures to reduce the FY 2017 baseline number of 6,085 city roadway crashes. Staff will also conduct a reassessment the baseline data.

Objective 1: Plan and Implement Stormwater Projects

Project		Performance Measure(s)	Department(s)
Core PS 2.1.2	Council Environmental Taskforce – Update Stormwater Pollution Prevention Ordinance and Implementation of Private Stormwater Infrastructure Inspection Program	Establish a Private Stormwater Infrastructure Inspection Program	Public Works

Summary:

In 2020, the Environmental Task Force (ETF) completed a report that included recommendations for Stormwater Management to update the Stormwater Pollution Control Ordinance (SWPCO) to align with federal and state requirements and implement an inspection program of private stormwater infrastructure. Updating City stormwater rules to align with federal and state requirements allows the City to mitigate flood risks, protect stormwater infrastructure, educate citizens, and protect water quality.

Staff presented an overview of the code updates to the Municipal Policy Committee in June 2021. Regulated stakeholder outreach for the SWPCO updates began in July 2021.

The Environmental Task Force Report Recommendations for Stormwater Management include the following tasks:

- Task 1: Migrate structural controls database to third party inspection software for tracking and inspections.
- Task 2: Review of structural controls annual reports submitted by qualified professionals and provide feedback for deficient inspections or inspections with inconsistencies.
- Task 3: Identify an additional ten (10) properties with post-construction structural controls (platted after 2003).
- Task 4: Establish a reporting tool for residents to report structural controls that are in disrepair or require maintenance.

Task	Estimated Completion	Actual Completion

Core PS 2.1.3	Airport South Drainage Improvements	Operating Cost Recovery	Transportation																		
<p><u>Summary:</u></p> <p>The Airport, in conjunction with TxDOT Aviation and City of Arlington Public Works, completed a drainage study in FY 2022. The existing storm drain infrastructure has deficiencies in capacity on the south end of the airport. Model results indicate ponding to the south of the airfield during all storm events, with runoff overtopping Green Oaks Boulevard during the 25-year and 100-year storm events. Flooding in this region can be attributed to undersized pipes that convey runoff below the vehicle service roads, as well as the volume of the runoff directed to this outfall location. New, increased drainage infrastructure is needed to control stormwater and prevent future flooding from continuing to cause issues.</p>

Core PS 2.2.2	Stream Gauge Infrastructure Upgrade and Communication	Implement a Flood Hazard Notification System Based on Stream Gauge Data	Public Works												
<p><u>Summary:</u></p> <p>The City of Arlington currently has six stream gauges. These gauges collect important information such as rainfall accumulation, rainfall increments, and water levels. The stream gauge uses the ALERT (Automated Local Evaluation in Real Time) 1 system which needs an upgrade as hardware improves. This real time data will assist in response time for activating barricade infrastructure, emergency operations, and engineering assessments.</p> <p>During FY 2023, the Floodplain Group will perform the following three tasks:</p> <ul style="list-style-type: none"> • Task 1: Upgrade two existing stream gauges to Automated Local Evaluation in Real Time 2 (ALERT 2) system to increase the accuracy and performance of flood detection systems. • Task 2: Install two (2) new stream ALERT 2 gauges at identified low crossings based on watershed studies and Emergency Operations to determine two new locations to install stream gauges. • Task 3: Implement fully functional application that provides citizens with roadway flooding information and meets the requirements for Activity 610 in Community Rating System Program. <p>This data collected by the stream gauges benefits the citizens of Arlington by informing them about active flood risks to take appropriate action. The implementation of a flood hazard notification system will reduce the potential loss of life or injury due to flood hazards from overtopped roadways. The collected data also assists in identifying flood protection projects to be incorporated into the Stormwater Capital Improvement Plan.</p>		<table border="1"> <thead> <tr> <th>Milestone</th> <th>Estimated Completion</th> <th>Actual Completion</th> </tr> </thead> <tbody> <tr> <td>Task 1</td> <td>Nov. 2022</td> <td></td> </tr> <tr> <td>Task 2</td> <td>Feb. 2023</td> <td></td> </tr> <tr> <td>Task 3</td> <td>July 2023</td> <td></td> </tr> </tbody> </table>		Milestone	Estimated Completion	Actual Completion	Task 1	Nov. 2022		Task 2	Feb. 2023		Task 3	July 2023

Core PS 2.2.3	Develop and Substantial Damage Management Plan (SDP)	Implementation of the Substantial Damage Management Plan	Public Works												
<p><u>Summary:</u></p> <p>The City of Arlington participates in the National Flood Insurance Program’s Community Rating System (CRS). As the CRS Program rewards communities for exceeding FEMA’s minimum requirements by offering discounted flood insurance rates to all residents. The substantial damage plan (SDP) is the plans and actions that a community takes before a flood or hazard event to be prepared for managing and mitigating substantial damaged structures. The SDP increases awareness of flood-risk areas, identifies vulnerable structures and neighborhoods, and ensures there is a strategy in place for making damage determinations and enforcing the substantial damage requirements before a disaster occurs. The implementation of the SDP enforces long-term actions to mitigate properties and reduce future losses.</p> <p>During FY 2023, the Floodplain Group will perform the following three tasks:</p> <ul style="list-style-type: none"> • Task 1: Coordination with State and FEMA to receive directives and pertinent data for the development of SDP. • Task 2: Create the basic property database to collect structural information of high flood risk properties to upload into FEMA’s Substantial Damage Estimator tool so that it is ready to use prior to a disaster. • Task 3: Submit SDP to City Council for adoption. 		<table border="1"> <thead> <tr> <th>Milestone</th> <th>Estimated Completion</th> <th>Actual Completion</th> </tr> </thead> <tbody> <tr> <td>Task 1</td> <td>Oct. 2022</td> <td></td> </tr> <tr> <td>Task 2</td> <td>Feb. 2023</td> <td></td> </tr> <tr> <td>Task 3</td> <td>Sept. 2023</td> <td></td> </tr> </tbody> </table>		Milestone	Estimated Completion	Actual Completion	Task 1	Oct. 2022		Task 2	Feb. 2023		Task 3	Sept. 2023

Balance on September 30, 2022	\$ 8,651,503	\$ 24,031,957	\$ 4,062,075	\$ 17,151,326	\$ 1,717,904
Appropriations/Mid-Year Adjustments	-	-	-	-	-
Transfers In/(Out)	-	-	-	-	-
Balance on September 30, 2023	\$ 8,651,503	\$ 24,031,957	\$ 4,062,075	\$ 17,151,326	\$ 1,717,904

Unallocated Reserve

This reserve is the City's fund for emergencies and unanticipated expenses. The balance in this reserve is equal to at least three percent of General Fund recurring expenditures and will be \$8,651,503 at the beginning of FY 2023.

Working Capital Reserve

The purpose of the Working Capital Reserve is to set aside at least one month of recurring General Fund expenditures and will be \$24,031,957 at the beginning of FY 2023.

Business Continuity Reserve

This reserve of one-time funding represents amounts available to support the City's core services in the event of a significant economic downturn or other unforeseen circumstances.

Landfill Lease Reserve

This funding was provided as part of the original lease agreement executed by the City in March of 2005.

Other Post-Employment Benefits Reserve

This reserve was established in FY 2004 to address funding the liability for post-employment benefits, other than pensions, which will be recognized upon implementation of the Governmental Accounting Standards Board Statement 45.

Total Reserve Level for FY 2023

In the aggregate, the reserves described above represent 19.6 percent of the General Fund's recurring expenditures in FY 2023.

General Fund Summary

As the primary operating fund of the City, the General Fund is used to account for resources associated with core government services. These services include Police, Fire, Code Compliance, Park Operations that are not self-supporting, Libraries, Public Works, and other traditional government activities. Property taxes, sales taxes and franchise fees are the primary revenue sources for the General Fund. In FY 2023, General Fund revenues and transfers are budgeted at \$296,134,065 and expenditures are budgeted at \$296,097,883.

General Fund Summary

GENERAL FUND REVENUES

General Fund revenue classifications range from Taxes (primarily Sales and Property), which comprise 73.9 percent of General Fund revenues, to Miscellaneous Revenues, which comprise less than 0.5 percent.

Taxes

The largest single revenue source for the General Fund is Ad Valorem taxes, also known as property taxes. The adopted property tax rate for FY 2023 is \$0.5998 per \$100 valuation. Of this tax rate, 67.2 percent, or \$0.4030, will be used for General Fund activities. The remaining 32.8 percent, or \$0.1968, will be used for debt service. General Fund property tax revenue for FY 2023 is estimated to be \$125,399,016 from the total tax base of \$35,743,713,630. The General Fund's portion of the sales tax rate is 1 percent. Sales tax revenue for FY 2023 is estimated at \$86,368,836. Other taxes include the Criminal Justice Tax, Bingo Tax, and State Liquor Tax, which comprise 0.9 percent of General Fund revenues.

Franchise Fees

Franchise Fees are those fees paid by utilities for the use of City streets, alleys, and property in providing their services to citizens, and account for 12.8 percent of the General Fund revenues. The largest of these is the Electric Franchise Fee, at \$12.56 million. Other Franchise Fees include the Telephone, Water, Cable Television, and Gas utilities, and royalties from the Landfill.

Service Charges

Service Charges account for 6.1 percent of General Fund revenues, at \$17,634,909. These fees are charged by the City for the use of City facilities or services. This includes selected code compliance fees, various reviews and inspections conducted by City personnel, and transfers from other City funds to reimburse the General Fund for services rendered.

All Other Revenues

The other revenue sources for the General Fund include Fines and Forfeitures, Licenses and Permits, Leases and Rent, and Miscellaneous. Fines and Forfeitures account for 2.5 percent of General Fund revenue, at \$7,218,390. Municipal Court fines account for all Fines and Forfeitures. Licenses and Permits account for 2.5 percent of General Fund revenue, and include development-related permits such as building, mechanical, electrical, and plumbing permits, and certificates of occupancy. Also included in this category are health and safety items such as fire and childcare permits. Total revenue for this category is \$7,205,392. Leases and Rents are estimated at \$5,266,712, or 1.8 percent of total revenues in the fund. The City's landfill lease, at \$2.48 million, is the largest revenue source in this category. The final revenue category is Miscellaneous at \$1,324,943, or 0.4 percent.

INTERFUND TRANSFERS

Interfund transfers for FY 2023 include three broad categories. The first of these is indirect costs, which are payments by non-General Fund departments for services received from the General Fund. These services include payroll, human resources, accounting, and building use. Indirect costs total \$5,665,860 for FY 2023. Support for other funds includes amounts paid by the General Fund to the Special Transit Fund (\$1,000,000), the Street Maintenance Fund (\$7,206,266), the Information Technology Fund for one-time projects (\$300,000), the Communication Services Fund (\$1,750,281), the Park Performance Fund (\$700,000), and amounts set aside for selected reserves (\$2,629,392). The transfers also include the receipt of funds for one-time expenditures, expense reimbursements, or savings from the prior year; these include \$254,250 from the Economic Development Corporation, \$4,247,721 from the Parks Gas Fund, \$891,361 from prior year ending balance, \$5,500,000 in CARES Act savings, \$2,804,780 of carryforward from FY 2022, and \$88,699 from the Storm Water Fund. In the aggregate, the net impact of interfund transfers in FY 2023 is \$5,866,732 transferred into the General Fund.

General Fund Summary

General Fund

As the primary operating fund of the City, the General Fund is used to account for resources associated with core government services. These services include Police, Fire, Code Compliance, Park Operations that are not self-supporting, Libraries, Public Works, and other traditional government activities. Property taxes, sales taxes and franchise fees are the primary revenue sources for the General Fund.

Asset Management	Business Diversity Office	City Attorney's Office
City Auditor's Office	City Manager's Office	Code Compliance Services

General Fund

ASSET MANAGEMENT: Nora Coronado, Director

Department Narrative

The Office of Asset Management is responsible for the construction and maintenance of City buildings, administration of the fleet maintenance service contract as well as solid waste collection and recycling contracts. To effectively accomplish this work, the department is comprised of the following divisions: Building Design and Construction, Facility Services, Fleet Management, and Waste Management. In support of the City's mission, the Office of Asset Management ensures that the City's assets are put to the highest and best use and minimize the cost of operations while delivering user-defined service levels. The budget for the Department includes funds from the General Fund and Fleet Services Fund.

At A Glance

- 40 Authorized Positions

BUSINESS DIVERSITY OFFICE: Erica Thompson, Manager

Department Narrative

The Office of Business Diversity oversees the Minority Woman Business Enterprise Program – the program is part of the City's efforts to increase participation with minority and woman-owned companies as suppliers, prime vendors, and subcontractors. The City views these Council initiatives as steps to reduce race- and gender-based barriers that limit MWBE utilization on contracting and procurement opportunities.

Budget Highlights

- Increased Recurring Funding for B2GNOW Software \$43,775

ECONOMIC DEVELOPMENT: Bruce Payne, Director

Department Narrative

The Office of Economic Development strives to grow and diversify the economy, maintain a competitive workforce, redevelop existing areas, enhance Arlington's quality of life, and promote cooperation and inclusiveness in community initiatives. The Office is divided into two functional groups, Economic Development and Land Banking. The Economic Development group aims to attract and retain businesses and developments that create job opportunities and add value to the City's tax base. It negotiates and manages agreements between the City and private developments; provides information, assistance, and resources to businesses; and markets the City as a destination for investment. The Land Banking group works to acquire property rights for public projects, administer activities related to the management of the City's mineral interests, and conduct right of way permitting review and inspections. Additionally, Land Banking purchases and manages public land for future economic development projects.

JUDICIARY: Stewart Milner, Presiding Judge

Department Narrative

The Municipal Court Judiciary provides a number of services to citizens and other departments of the City. The primary function of the Judiciary is the administration of justice in the Arlington Municipal Court. The main focus of this administration of justice includes the adjudication of Class "C" misdemeanor cases. Additionally, responsibilities include the issuance of felony and misdemeanor arrest warrants, issuance of search and inspection warrants, issuance of emergency mental health commitment warrants, and the arraignment or magisterial administration of all prisoners arrested in the City. The Judiciary also conducts some civil matter hearings involving property, dangerous buildings, dangerous animals, and the disposition of cruelly treated animals.

LIBRARIES: Norma Zuniga, Director

Department Narrative

The Library Department is responsible for providing a broad spectrum of library services for the populace of Arlington. These services offer people from all walks of life free access to a wealth of information and resources for all ages, in a variety of formats and languages. The Library is committed to helping children and adults develop the skills they need to survive and thrive in a global information society. Each location serves as community hub connecting people through welcoming spaces, engaging resources, relevant technology, and captivating programming. In addition to the physical and virtual resources, the Library staff provide quality customer service, fascinating programming, opportunities to make connections and reference and research expertise.

MUNICIPAL COURT: Jake Medrano, Director

Department Narrative

The Municipal Court has jurisdiction over Class C misdemeanors, city ordinances, and civil violations in Arlington. These violations generally include traffic offenses, parking offense, city code violations, and certain criminal offenses involving family violence assaults, public order crimes, and juvenile matters. Municipal court clerks process the clerical work of the court, administer daily operations, maintain court records and dockets, and process fine payments and bonds. The Arlington Municipal Court departmental units are comprised of the following divisions: Administration, Citation Entry, Dockets, Records, Warrants, Customer Service, Mailroom, and Collections. The Arlington Municipal Court's mission is to provide quality customer service to all who appear in the Court while diligently executing the administrative duties of the Municipal Court as set forth by law.

NON-DEPARTMENTAL: April Nixon, Chief Financial Officer

Department Narrative

Within the Finance Department, the Non-Departmental division includes budgeted appropriations for expenditures that are not aligned with any specific department. The major expenditure items included in Non-Departmental are retiree health care, General Fund terminal pay and related benefits, utility costs for certain City buildings, support for the City's Minority Chamber and Life Shelter, armored security services, election costs, unemployment payments, and City memberships in regional, state, and national organizations. Non-Departmental also includes budgets for infrastructure maintenance (which may be approved if revenues in the General Fund are sufficient), and salary and benefit budgets to support expenditures associated with major events.

Budget Highlights

- Carry-forward Funding for Adaptive and Workforce Planning \$630,000
- One-time funding for Phase III ERP Implementation \$573,453
- Increased Recurring Funding for Phase III ERP Implementation \$258,819

PLANNING & DEVELOPMENT SERVICES: Gincy Thoppil, Director

Department Narrative

Our mission is to make Arlington a premier City by engaging in visionary planning, building vibrant neighborhoods, and serving our residents, businesses, and visitors. The department is centered on three key areas – Land Development, Building Inspections, and the One Start Development Center. The department also oversees long range planning studies and corridor plans. Planners and engineers in the Land Development division help realize the developer’s vision through zoning, platting, and site plan approval. Plans examiners, environmental health specialists, the streetscape inspector and building inspectors ensure the structures are constructed to current codes for the safety of its occupants. The Gas Well team is responsible for the permitting and inspections of gas well drilling and production in the City. The Health Services team also manages the mosquito mitigation program. The One Start Development Center assists homeowners, business owners, and the development community with the permitting process including business registrations and permit issuance.

POLICE DEPARTMENT: Alexander Jones, Police Chief

Department Narrative

The Arlington Police Department is a full-service law enforcement agency tasked with providing public safety and protecting property through enforcing state and local criminal laws. The department is comprised of sworn uniformed officers, detectives and supervisors who are supported by professional staff team members. The Chief of Police is directly accountable to the City Manager and directs the operations and administration of the agency. The department is responsible for preservation of the public peace, protection of the rights of all persons and property, prevention and detection of crime, arrest of offenders, enforcement of state laws and local ordinances, building relationships with community members, proactive patrols to deter criminal activity, and traffic enforcement and education to reduce injury and fatal crashes. This is accomplished through a geographic policing philosophy where officers and supervisors are assigned defined boundaries throughout the city to build positive relationships and improve quality of life for residents and businesses.

PUBLIC WORKS: Keith Brooks, P.E., Director

Department Narrative

The Department of Public Works is responsible for the design, construction, maintenance and operation of streets, sidewalks, traffic signals, streetlights, and stormwater collection system. To effectively accomplish this work, the department is comprised of the following divisions: Business Services, Construction Services, Engineering Operations, Floodplain Management, Information Services, Operations Support, Stormwater Management, Stormwater Engineering, Stormwater Operations, Street Maintenance, Traffic Engineering, and Traffic Operations. In support of the City's mission, Public Works has adopted a mission to provide and maintain public infrastructure and assets, improve mobility, and promote a sustainable environment to enhance the quality of life for Arlington's residents and visitors. The budget for the Department includes funds from the Street Maintenance Fund, Stormwater Utility Fund, General Fund, and General Obligation Street (Capital) Bond Funds.

OFFICE OF STRATEGIC INITIATIVES: Lyndsay Mitchell, Officer

Department Narrative

The Office of Strategic Initiatives manages special projects on behalf of the City Manager's Office. OSI is made up of three divisions – Strategic Initiatives, Research and Analytics, and the Arlington Urban Design Center. The Strategic Initiatives team is responsible for implementation of special projects in support of City Council and the City Manager's Office as well as neighborhood engagement efforts. Neighborhood engagement includes the Neighborhood Matching Grant program, the Block Party Trailer, and the Arlington Home Improvement Incentive Program among other efforts. The Research and Analytics Group works towards the efficient and transparent use of data to provide timely and effective analytical support to City programs, services, and citizenry, including growing and maintaining the Open Arlington data portal. The Arlington Urban Design Center aims to create public awareness about the importance of urban design and its impact on the quality of life, environment, and economic investment through conceptual design work for Arlington businesses, neighborhoods, and institutions.

Business Plan Goals and Objectives

- **Goal:** Expand and Enhance the City's Image
 - **Objective:** Promote Community Engagement
- **Goal:** Ensure Availability of Information, Programs, and City Services
 - **Objective:** Provide for the Efficient Access and Appropriate Management of the City's Data
- **Goal:** Partner with Local Organizations to Educate and Mentor
 - **Objective:** Retain Arlington Graduates and Improve Department Recruitment Pools

TRANSPORTATION DEPARTMENT: Alicia Winkelblech, Director

Department Narrative

The Transportation Department aims to support the City Council priorities by using technology and innovation to provide safe, equitable and comprehensive transportation solutions. The department is responsible for programming, managing and operating the City's two public transportation services; Via On-Demand Rideshare and the Handitran paratransit service. The Department also manages the Arlington Municipal Airport to provide corporate, cargo, and recreational pilots a convenient, full-service destination. Additionally, the Department is responsible for long-range transportation planning efforts including Connect Arlington, the Thoroughfare Development Plan and the Hike and Bike System Master Plan. Planning, programming and operations for autonomous vehicle services, urban air mobility and other innovative transportation programs also come from this department.

Enterprise Funds

The City of Arlington's enterprise funds consists of the following funds: [Storm Water Utility Fund](#) and [Water Utilities Fund](#). The enterprise funds embrace the City's vision of being a pre-eminent city by delivering excellent water/wastewater services and overseeing the City's storm water drainage to reduce the potential for damage to public health, safety, property, and the environment. The funds are self-supported via the City's water utility billing.

Enterprise Funds

STORM WATER UTILITY: Keith Brooks, P.E., Director

Department Narrative

The Stormwater Division is responsible for the City's stormwater conveyance systems and protection of the surface water quality in the City of Arlington. The mission of the division is reducing the potential for stormwater damage to public health, safety, life, property, and the environment. Programs associated with achieving this mission include:

- Floodplain management and watershed planning to identify flood risks and preserve and enhance aquatic and riparian environments;
- Planning and implementation of flood mitigation projects;
- Inspection and maintenance of the stormwater conveyance system;
- Protection of water quality from sediment and pollutants; and
- Outreach to the public related to flooding and water quality.

Revenue for this fund is generated through the Stormwater Utility Fee which is paid by owners of commercial and residential property through the City's water utility billing. Grants and revenue bonds may also be used to fund the Stormwater Capital Program.

The Storm Water Utilities fees are paid by owners of commercial and residential property for the maintenance of the City's storm water drainage system. The fees enable the funding of construction projects and operations and maintenance expenses throughout the City that help alleviate flooding situations and correct problems that might cause negative impacts to water quality in the streams and lakes throughout the area. The Storm Water Utility Fee is structured so that every property owner pays the same unit rate based on the amount of surface area that is resistant to infiltration by water on the property. Examples of these types of surface areas include asphalt or concrete pavement, parking lots, driveways, sidewalks and buildings.

Enterprise Funds

WATER UTILITIES: Craig Cummings, Director

Department Narrative

The Water Utilities Department is responsible for treating and delivering drinking water and collecting wastewater for Arlington residents and businesses. The Water Utilities Department administers the billing system to support these services. The mission of the department is to provide a continuous supply of high-quality drinking water and ensure safe disposal of wastewater in a responsive, cost-effective manner while improving service to citizens and planning for future needs. In addition, the Water Utilities Department coordinates water conservation programs and education, as well as provides geographic information support to other City departments. Divisions in the department include Customer Care and Business Services, Operations (Field Operations, Meter Reading, and Meter Services), Treatment (Water Treatment, Laboratory, and Water Resource Services), and Engineering and Support Services (Engineering – Operations, Engineering – Planning, Engineering – Design, Engineering – Treatment, and Operations Support Services). The divisions are supported by the Administration, Financial Services, and Communications staff.

The two largest revenue sources for the Water Utilities Department are the Water Sales and Sewer Charges, \$88,595,770 and \$79,243,035 respectively, comprising 93% of the total revenue generated by the department. Water Sales are revenues generated by customers of the Water Utilities Department for purchase of water and the various fees associated with the transactions. Sewer Charges are based upon the amount and strength of the wastewater a customer discharges to the sewer system.

Enterprise Funds

Special Revenue Funds

The City of Arlington's special revenue funds consists of the following funds: [Convention & Event Services Fund](#), [Park Performance Fund](#), and [the Street Maintenance Fund](#). The special revenue funds receive at least part of their funding from direct revenues for their services or via dedicated portions of the City Sales Tax.

Special Revenue Funds

CONVENTION & EVENT SERVICES FUND: Keri Parker Berry, Director

Department Narrative

The Arlington Expo Center drives economic development and enhances the quality of life in the community by providing facilities, equipment, and support services to the organizers of expositions, trade shows, consumer shows, esports events, and local events and celebrations. These activities generate economic impact to the City's hospitality, entertainment, and retail sectors. Direct revenue generated by the Center is a component of the Convention and Event Services Fund.

The staff is organized into three program areas: Business Administration, Event Coordination, and Facility Operations and Maintenance. The primary mission is to operate and maintain outstanding facilities and provide support services to the users and attendees of events in a manner that sets us apart from our competitors and enhances the City's reputation for excellence.

PARK PERFORMANCE FUND: James Orloski, Director

Department Narrative

The Park Performance Fund provides for the City's recreation and rental programs. Park Performance Fund divisions include: Athletics, Aquatics, Recreation Centers, Rental and Lake Services, Golf, and Tennis.

Performance Fund resources are managed and deployed in accordance with the following strategic focus areas:

- Building a Thriving Community
- Coordinate programs to support youth, seniors and families
- Facility investment and programming aimed at revenue generation, and
- Cost recovery

Each year the goal of cost recovery is more difficult to attain. Socioeconomic changes, competition in the marketplace and increasing labor rates pose the greatest challenges.

STREET MAINTENANCE FUND: Keith Brooks, P.E., Director

Department Narrative

The Field Operations Division is responsible for the maintenance of street and traffic infrastructure within the City of Arlington. The goal is to keep all assets free of hazards and operating as designed for the safety of the public. Street and Traffic Divisions are funded within the Street Maintenance Fund. The Street Maintenance quarter cent Sales Tax provides funding for all major street maintenance programs. Programs associated with Street Maintenance include:

- Street Resurfacing and preventative maintenance programs
- Concrete repair of pavement, sidewalks, curb and gutter
- Emergency Operations in response to severe weather, snow, or ice
- Multiple other activities to assist the public.

The Traffic Division is also supported with capital bond funds for construction of new signals. Maintenance programs performed by this group include the following:

- Maintenance of signals for rebuilds and new construction, controllers, wiring, loops, mast arms, and cameras.
- Streetlight maintenance to include replacing bulbs, repair wiring, and replacing poles knocked down by vehicular traffic.
- Sign maintenance program to maintain Texas Manual on Uniform Traffic Control Devices (TMUTCD) sign inventory standards and replacement of damaged poles and signs.
- Street markings maintenance program to ensure compliance with TMUTCD specifications.

Internal Service Funds

The City of Arlington's internal service funds consist of the following: [Communication Services Fund](#), [Document Services Fund](#), [Fleet Services Fund](#), and the [IT Support Fund](#).

Internal Service Funds

COMMUNICATION SERVICES FUND: Don Crowson, Fire Chief

Department Narrative

As part of the Fire Department, the Communication Services Division provides public safety dispatch operations and radio/wireless data installation and maintenance. The primary sources of revenue to the fund are charges to the Police and Fire Departments for dispatch and radio services. The largest expenditure in the fund is for personnel costs, primarily 9-1-1 dispatching operations.

Internal Service Funds

DOCUMENT SERVICES: Jay Warren, Director

Department Narrative

The Document Services Fund, part of the Communication and Legislative Affairs Department, provides City departments with printing services, engineering document duplication services, mail and courier services, records management and storage support. A significant portion of the fund's revenues are derived from charges to departments for these services. Divisions in Document Services include Administration, Mail Services, Managed Print Services and Records Management.

Capital Improvement Program

Process for Capital Improvements

Capital Improvement Program

Identification of Needs

The needs for new capital improvements are identified in many different ways:

- calls from citizens,
- City Council priorities,
- inventory reviews,
- the various city-wide master plans,
- new development needs, and
- economic stimulation needs

To facilitate citizen input, The City of Arlington utilizes the Citizen's Bond Committee (CBC), regular town hall meetings, and the Capital Budget Executive Committee.

The Citizen's Bond Committee brings Arlington residents directly into the capital improvement process by facilitating a face-to-face meeting between City staff and citizens. Citizens are selected for the committee by the City Council through an application process. Once selected, the Committee is given comprehensive information regarding City priorities on capital improvements, as well as recommendations from staff. City staff then takes input on needs identification and even offers tours to capital improvement sites. The CBC met in May 2018, for the City's next bond election. The 2018 Bond election was voted on and approved by the voters in November 2018.

The City's Capital Budget Executive Committee consists of directors of departments who utilize bond funding, and representatives of the Finance Department, and the City Manager's Office. For more description on the Capital Budget Executive Committee, please see the "Capital Budget" section on the next page.

Citizen Bond Election

After stakeholder input is gathered, a comprehensive list of capital improvement projects is identified. As necessary, in May or November of a given year, a bond election is held to allow the general public to vote on the City's ability to sell general obligation bonds to fund this list of projects. The result of the election is a specific dollar amount in general obligation bonds and certificates of obligation that the City is authorized to sell. The City will then use this authorization to sell bonds each year, within the constraints of the City's financial policies, until the authorization has been exhausted. The City held a bond election on November 2018, which gave authorization to sell \$189.5 million in general obligation bonds. The City currently has \$99.5 million in remaining authorization.

Capital Improvement Plan

The Capital Improvement Plan represents a three- to five-year fiscal plan that prioritizes and schedules all projects included in the bond elections. Through discussions with City staff, Council, and citizens, the Capital Improvement Plan considers the appropriate timing of the construction of projects, the City's ability to facilitate the construction, financial constraints in repaying indebtedness, and the increased cost of operation and maintenance. The Capital Budget is derived, on an annual basis, from the Capital Improvement Plan. Because the Capital Improvement Plan is affected by changes in Arlington's economy and is revised annually, it should be viewed as a working document.

Capital Budget

Each year a capital budget is presented to City Council for approval. The Capital Budget provides the city staff with budgeted funds and authorization to begin or continue working on capital projects that were programmed year-by-year on the Capital Improvement Plan.

Capital Improvement Program

Arlington's Capital Budget cycle spans from October to March, when the Capital Budget is adopted. This process begins with the City's Capital Budget Executive Committee. The Committee last met in October 2021 to discuss a priority project list for the use of the remaining City's 2014 Bonds and the 2018 New Bond authorization. In developing the capital budget, the Capital Budget Executive Committee considered a variety of factors on the decision-making process, including:

- City Council Priorities
- Neighborhood Needs
- Infrastructure Investment
- Financial Policies
- Debt Ratio Targets
- Sector Plan Strategy
- Master Plan, Thoroughfare Plan, etc.
- Appropriate timing of the project
- Projected O&M costs
- Efficient use of bond funds

Once the Committee has prioritized its capital projects for the coming fiscal year, City staff prepares the capital budget for Council to adopt.

Bond Sales

A bond sale occurs annually, the amount of which dictates the appropriation approval of the Capital Budget. In this action, the City sells bonds on the open market and incurs debt to finance the cost of building the capital projects as identified on the Capital Budget. Voter-approved general obligation bonds and non-voter-approved certificates of obligation serve as the primary sources of funding for general capital projects. These include capital initiatives such as parks construction and improvements, land acquisition, public works projects, building construction for public safety, and airport improvements, among others. The City's ability to sell bonds depends on the remaining authorization from bond elections, the City's tax rate and property values that support the bonds, and the ability for the City to meet its stated debt management ratio targets, found in the financial policies section of this document. The City most recently sold bonds to fund capital projects in June of 2022 for \$119 million, utilizing authorization from bond elections held in the most recent Bond Election in 2018.

Debt Service

As the City incurs debt for the acquisition and construction of capital projects, the City also makes annual payments to repay the bonds previously issued. General obligation bonds are funded wholly through a designated portion of the City's property tax rate, while certificates of obligation incorporate other various funding sources as well as ad valorem taxes. Of the City's total FY 2023 tax rate of \$0.5998 per \$100 in assessed valuation, \$0.1968 will be used to retire general obligation bonds and certificates of obligation.

Debt Retired

Each year, the City satisfies a portion its debt obligations. This means that the City has completely repaid a portion of its debt from general obligation bonds and certificates of obligation. Currently, the City has a financial policy that requires debt obligations to be repaid on a conservative schedule (level principle) so as not to burden future taxpayers. In general, the City issues twenty-year debt with an average life of nine years. On average, the City retires approximately \$26 million in general obligation and certificates of obligation debt principle annually. As this debt is retired, it allows the City the capacity to issue more bonds to fund new capital projects for future bond elections.

Capital Improvement Program

Capital Budget vs. Operating Budget

Although the City's Capital Budget and Operating Budget are adopted in two separate cycles during the fiscal year, they are nonetheless connected. The City's bifurcated tax rate is the most prominent example of this. As stated above, the City's total FY 2023 tax rate of \$0.5998 is divided between an operating levy (\$0.4030) and a debt service levy (\$0.1968). In addition, both the capital and operating funds are profoundly impacted by an increase or decrease in housing values. Additionally, it is imperative to remember that most capital projects will increase the City's operating budget expenditures as well, since the short-term maintenance and operations of new capital is budgeted in the City's operating funds.

While the debt service property tax levy does comprise the primary source of funding for the capital budget, the City supplements these funds with other sources, such as impact fees, aviation fees, interest earnings, gas revenues, and park fees. These other sources can either directly fund capital projects or help to fund debt service for certificates of obligation. For example, the Convention and Event Services Fund and the Park Performance Fund both make transfers into the Debt Service Fund in order to service certificates of obligation debt used for capital projects. For more information, a list of funding sources can be seen in the individual capital project summaries.

Conversely, capital funds will annually make payments to operating funds for service charges. These service charges occur when departments provide services that are paid for out of operating funds, such as building inspections or surveys, in conjunction with ongoing capital projects. For Fiscal Year 2023, the City is currently budgeting for approximately a \$2.4 million in transfers from capital funds for service charges.

In addition to general obligation bonds and certificates of obligation, the City utilizes commercial paper, a short-term financing instrument that typically matures within nine months, to assist in short-term cash flow for the immediate funding of capital projects. After commercial paper has been utilized, the City will use a portion of its general obligation bond sale to refund the commercial paper, effectively turning it into longer-term debt.

Capital Improvement Program

The City of Arlington has several funds for investing in the City's infrastructure. The funds are separated by use and are managed by the corresponding department. In general, the funding for infrastructure comes from bond elections which occur at 3 to 5-year intervals. The funds have several revenue sources such as general obligation bonds, certificates of obligations, impact fees, interest earnings, grants, funding from other governmental entities, gas leases, and transfers from other operating funds.

AIRPORT CAPITAL PROJECT FUNDS (4025, 4085) – The primary purpose of this fund is to account for terminal expansion, runways, or other airport construction and related projects. Funds are provided primarily through bond sales, interest earnings, and grants.

FIRE CAPITAL PROJECT FUNDS (4020, 4075) – The primary purpose of this fund is to account for construction and other capital project expenditures related to building fire stations and funding other fire prevention related projects. Funds are provided primarily through bond sales and interest earnings.

LIBRARY CAPITAL PROJECT FUNDS (4080, 4081) – The primary purpose of this fund is to account for construction and other capital project expenditures related to building branch libraries, acquiring additions to the library collection and funding library related projects. Funds are provided primarily through bond sales and interest earnings.

MUNICIPAL OFFICE FACILITIES and INFORMATION TECHNOLOGY CAPITAL PROJECT FUNDS (4045, 4050, 4051) – The primary purpose of this fund is to account for expenditures connected with the planning, construction, and refurbishing of various municipal office buildings. Funds are provided primarily through bond sales and interest earnings.

PARK CAPITAL PROJECT FUNDS (4000, 4002, 4003) – The primary purpose of this fund is to account for parkland acquisition, construction of swimming pools, and other park and recreation related construction, as well as various other park and recreation related projects. Funds are provided primarily through bond sales, interest earnings, and impact fees.

POLICE CAPITAL PROJECT FUNDS (4055, 4105) – The primary purpose of this fund is to account for construction and other capital project expenditures related to building police stations and funding other police related projects. Funds are provided primarily through bond sales and interest earnings.

TRAFFIC CAPITAL PROJECT FUNDS (4040, 4100) – The primary purpose of this fund is to account for construction of the City's streetlight and traffic signal systems, to perform thoroughfare analysis and to design and install various other traffic related projects. Funds are provided primarily through bond sales and interest earnings.

STORMWATER CAPITAL PROJECT FUNDS (5011, 5012) – The primary purpose of this fund is to account for improvements to the City's storm water drainage system. Funds are provided through a combination of available stormwater fees and bond sales.

STREET CAPITAL PROJECT FUNDS (4035, 4036, 4037) – Street Capital Projects Fund accounts for the purchase of rights of way and land, construction of streets and related facilities, and to account for various other projects related to street construction. Funds are provided primarily through bond sales, interest earnings, and impact fees.

WATER CAPITAL PROJECT FUNDS (5003, 5004, 5005, 5006, 5007) – The primary purpose of this fund is to account for improvements and extensions to the City's water, wastewater and reclaimed water system. Funds are provided through a combination of available pay-go and bond sales.

Asset Forfeiture Fund FY 2023 Operating Position

The Arlington Police Department receives funds from the sale of assets seized in certain law enforcement activities in which the department has assisted state and federal law enforcement agencies. The process of liquidating and distributing seized assets is commonly called "asset forfeiture", and each asset received by the department is considered an "awarded asset". The state asset forfeiture program is authorized by Chapter 59 of the Texas Code of Criminal Procedure. This chapter requires that the annual budget be submitted to the governing body (Mayor and Council) for adoption. The two federal asset forfeiture programs the department participates in are overseen by the Department of the Treasury (DOT) and the Department of Justice (DOJ). The DOT program is authorized by Title 31 U.S.C 9703 and distributes funds seized during the work of the Internal Revenue Service task force. The second program administered by the DOJ, and authorized by 28 U.S.C 524, distributes funds seized during the work of the Federal Bureau of Investigations and Drug Enforcement Agency task forces. The department currently participates in all three federal task forces and thus receives funds from both asset forfeiture programs.

The main goals of both the state and federal asset forfeiture programs are to deprive criminals of property used in or acquired through illegal activities, to encourage joint operations among law enforcement agencies at various levels of government, and to strengthen law enforcement. Recipient law enforcement agencies must use the assets solely for law enforcement purposes and assets are to be held in a special fund, subject to audit and review by the appropriate authorities. The Arlington Police Department is responsible for the receipt, expenditure, and oversight of award assets.

Other Budget Information

Ambulance Services Liquidated Damages Fund FY 2023 Operating Position

The City of Arlington provides ambulance service through contract with American Medical Response (AMR), the City's sole ambulance service provider. The City pays no subsidy to the ambulance contractor. The contract establishes fees for AMR's use of the 9-1-1 Dispatch Center. The contract also establishes penalties, known as liquidated damages, for emergency and non-emergency ambulance response times that do not meet contractual performance requirements.

Funds received from the ambulance contractor are deposited into a Special Revenue account established to maintain the stability of Arlington's non tax-subsidized EMS system. Funds in this account are used to ensure the stability and performance of the Arlington EMS System. This account funds enhancements to EMS response equipment; professional development training for Fire EMS responders; maintenance costs for the Fire/EMS record management system; funds the City's Public Health Authority; and retains an industry consultant who supports the Fire Department's Medical Operations Section. In addition, the Liquidated Damages account funds the salary and benefits costs for two occupied EMS Coordinator positions, transferred to the fund in FY 2010. The Fire Department's intent is to eventually return these positions to the General Fund Budget.

The beginning balance in the account is estimated at \$2,520,638. Revenue is projected at \$4,008,955; expenses are projected at \$1,917,679.

Beginning Balance on October 1, 2022:	\$ 2,520,638
Revenues:	
Liquidated Damages Oct-Dec 2021	1,626,890

Other Budget Information

Innovation / Venture Capital Fund FY 2023 Operating Position

The Innovation / Venture Capital Fund (IVCF) was established in FY 2007 in the General Gas Fund with \$2m in Gas Well Revenues. Beginning in FY 2013, the IVCF was made a stand-alone fund, transferring it out of the General Gas Fund, and transferring in \$784k in Parks Performance funds. The Fund's revenues include Gas Well revenues, Parks Performance funds, Property Tax revenues, Arlington Tomorrow Foundation, Convention Center revenues, entrepreneurial water sales, and funds recaptured from terminated agreements.

From FY 2009 through FY 2022, expenditures totaling \$126.1m, including \$50m for Texas Live!, have been made in support of various Chapter 380 agreements, interlocal agreements, and other contracts. Among these are major development/redevelopment projects including, D.R. Horton headquarters relocation, Arlington Commons multi-family housing redevelopment project, Six Flags world headquarters, AISD Natatorium, Park Place student housing redevelopment project, Lincoln Square redevelopment, Spark Arlington and other developments in the Entertainment District. Additionally, IVCF expenditures continue to fund projects that spur economic development in the City such as, Summit Racing, Williams Sonoma, GM Financial, L-3 Technologies, General Motors-Arlington Logistics Center and UPS. Upcoming projects include Prologis, Front Street redevelopment, Canales Furniture, Bowery Farming, Wallbox USA, and other economic development projects.

Future Obligations (FY 2024 - FY 2056):	\$ 45,264,782

Other Budget Information

General Gas Fund FY 2023 Operating Position

The City has established three funds to receive revenues from natural gas operations that do not go to the Arlington Tomorrow Foundation (ATF). The ATF will reach its capped corpus amount of \$100 million from scheduled reimbursements; these three funds receive lease bonus and royalty revenues associated with natural gas operations net of those scheduled reimbursements. The policies and procedures concerning expenditures by, and transfers to and from, the General Gas Fund 3095 are outlined below.

In 2016, a total of \$50 million from the ATF corpus was transferred to the Innovation/Venture Capital Fund to support the development of "Texas Live" adjacent to Globe Life Field. The ATF corpus will be recapitalized to the \$100 million level through future reimbursements from the gas funds.

The General Gas Fund receives revenues that are not specifically designated for the Parks or Airport Gas Funds. Within this fund, a total of four accounting units are available from which expenditures may be authorized, including:

- 910102 - Neighborhood Grants, with an amount designated for expenditure
- 910105 - Redevelopment Initiatives
- 910106 - Land Banking, with an amount designated for expenditure
- 910107 - Arlington Home Improvement Incentive Program

Periodically, fiscal conditions may necessitate transfers from the General Gas Fund to the General Fund to offset revenue shortfalls or to cover one-time costs. All proposed interfund transfers involving gas funds will require approval by the City Manager's Office prior to implementation.

Other Budget Information

Parks Gas Fund FY 2023 Operating Position

The City has established three funds to receive revenues from natural gas operations that do not go to the Arlington Tomorrow Foundation (ATF). The ATF will reach its capped corpus amount of \$100 million from scheduled reimbursements; these three funds receive lease bonus and royalty revenues associated with natural gas operations net of those scheduled reimbursements. The policies and procedures concerning expenditures by, and transfers to and from, the Parks Gas Fund 3096 are outlined below.

The Parks Gas Fund receives natural gas revenues derived from drilling operations beneath the City's park land. Accounting unit 910201 is available to account for one-time expenditures from the fund, but resources may also be transferred to other funds to more appropriately track and account for expenditures. No expenditures that are in lieu of ongoing expenditures typically made from the Parks Department's operating budget may be incurred without prior approval from the City Manager's Office. Because the Parks Gas Fund is designated for specific purposes, expenditure amounts in the fund are not appropriated on an annual basis as they would be in the City's operating funds.

Periodically, fiscal conditions may necessitate transfers from the Parks Gas Fund to other funds to cover specific one-time costs. All proposed interfund transfers involving gas funds will require approval by the City Manager's Office prior to implementation.

In addition, transfers of gas revenues from the Parks Gas Fund cash account into various operational activity codes or other spending accounts may be requested by the Parks and Recreation Department in order to facilitate the encumbrance and disbursement of these resources. All requests for transfers of this type must be submitted in writing to the City's Chief Financial Officer, and may not proceed without his/her written approval.

Other Budget Information

Airport Gas Fund FY 2023 Operating Position

The City has established three funds to receive revenues from natural gas operations that do not go to the Arlington Tomorrow Foundation (ATF). The ATF will reach its capped corpus amount of \$100 million from scheduled reimbursements; these three funds receive lease bonus and royalty revenues associated with natural gas operations net of those scheduled reimbursements.

The Airport Gas Fund receives gas revenues derived from drilling operations beneath the City's airport. Accounting unit 910301 is available to account for one-time expenditures from the fund, but resources may also be transferred to other funds to more appropriately track and account for expenditures. No expenditures that are in lieu of ongoing expenditures typically made from the Airport's operating budget may be incurred without prior approval from the City Manager's Office. Because the Airport Gas Fund is designated for specific purposes, expenditure amounts in the fund are not appropriated on an annual basis as they would be in the City's operating funds.

Periodically, fiscal conditions may necessitate transfers from the Airport Gas Fund to other funds to cover specific one-time costs. All proposed interfund transfers involving gas funds will require approval by the City Manager's Office prior to implementation.

Beginning balance, available cash:	\$ 4,166,799
Less:	
Reserved for increase/decrease in investment value	\$ 269
Airfield maintenance, FY 2021	85,000

Other Budget Information

Court Technology Fund FY 2023 Operating Position

The Court Technology Fund (Tech Fund) was established in 2002 to receive revenues from citations adjudicated by the City's Municipal Court. The Tech Fund receives \$4.00 from each citation, assessed as an additional fee at the time of final disposition of the case. The revenues generated by this fee may be used to cover expenditures for the following types of items:

1. Computer systems
2. Computer networks
3. Computer hardware and software
4. Imaging systems
5. Electronic kiosks
6. Electronic ticket writing devices
7. Docket management systems
8. Items or services related to the Court's technology systems that are not prohibited by law.

Projected beginning balance, available cash:	\$ 280,250
Revenues:	
Court Technology fees	\$ 120,000
Civil Technology fees	2,600
Total Revenues	\$ 122,600
Total available resources	\$ 402,850
Expenditures:	
Maintenance of Incode Software	\$ 105,140

ADOPTED BUDGET ORDINANCE

Ordinance No. 22-037

An ordinance approving and adopting the operating budget for the City of Arlington, Texas, for Fiscal Year 2023, beginning October 1, 2022, and ending September 30, 2023, in accordance with Chapter 102 of the Texas Local Government Code and becoming effective from and after its passage

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ARLINGTON, TEXAS:

I.

That the Operating Budget for the City of Arlington, Texas, prepared under the direction of the City Manager and incorporated herein by reference as if copied verbatim, and modified from the Proposed Budget that was presented to the City Council on August 2, 2022, is hereby approved and adopted for the operation of the municipal government of the City of Arlington, Texas, during Fiscal Year 2023, beginning October 1, 2022, and ending September 30, 2023, in accordance with Chapter 102 of the Texas Local Government Code. The Fiscal Year 2023 Operating Budget, as proposed and presented to the City Council on August 2, 2022, has been modified as follows:

General Fund:

- Increase expenditures by \$1,628,526 to provide appropriations for mid-year compensation adjustments effective on April 3, 2023. This funding is available from the following sources:
 - Increase sales tax revenues by \$247,959
 - Decrease interfund transfers to the Street Maintenance Fund by \$980,567
 - Decrease the budgeted ending balance for Fiscal Year 2023 by \$400,000, from \$436,182 to \$36,182.
- Increase the number of authorized full-time positions by one for a Fire Investigator.

Other Operating Funds:

Appropriations in the other funds included in the Fiscal Year 2023 Operating Budget are revised as shown below to provide funding for mid-year compensation adjustments effective on April 3, 2023.

- Increase expenditures in the Water Utilities Fund by \$175,814. Interfund transfers from the fund will be reduced by the same amount, resulting in no change to the fund's ending balance of \$59,488.
- Increase expenditures in the Park Performance Fund by \$60,834. The fund's ending balance will be reduced by the same amount, from \$64,177 to \$3,343.
- Increase expenditures in the Convention and Event Services Fund by \$20,042. The fund's ending balance will be reduced by the same amount, from \$264,380 to \$244,338.

Appendices

- Decrease expenditures in the Street Maintenance Fund by \$954,387. The impact of the mid-year compensation adjustment is offset by reducing appropriations for contracted street maintenance, reducing the fund's ending balance by \$26,180, from \$159,750 to \$133,570, and reducing the budgeted interfund transfers from the General Fund by \$980,567.
- Increase expenditures in the Storm Water Utility Fund by \$29,629. The fund's ending balance will be reduced by the same amount, from \$35,377 to \$5,748.
- Increase expenditures in the Document Services Fund by \$3,094. The fund's ending balance will be reduced by the same amount, from \$81,725 to \$78,631.
- Increase expenditures in the Fleet Services Fund by \$1,118. The fund's ending balance will be reduced by the same amount, from \$445,348 to \$444,230.
- Increase expenditures in the Communication Services Fund by \$77,224. Revenues to the fund from interfund chargebacks will increase by the same amount, resulting in no change to the fund's ending balance of \$1,207,376.
- Increase expenditures in the Information Technology Support Fund by \$68,542. Revenues to the fund from interfund chargebacks will increase by the same amount, resulting in no change to the fund's ending balance of \$114,249.

II.

Further, the City Manager is hereby given authority to effect interfund transfers necessary to accomplish the budgeted transactions.

III.

This ordinance shall become effective from and after its passage, as provided by law.

PRESENTED AND GIVEN FIRST READING on the 6th day of September, 2022, at a regular meeting of the City Council of the City of Arlington, Texas; and GIVEN SECOND READING, passed and approved on the 13th day of September, 2022, by a vote of 8 ayes and 0 nays at a regular meeting of the City Council of the City of Arlington, Texas.

ATTEST:

ALEX BUSKEN, City Secretary

JIM R. ROSS, Mayor

APPROVED AS TO FORM:
MOLLY SHORTALL, City Attorney

Wed., Sept. 14	File Approved budget with CSO and post on website

Appendices

BUDGET PROCESS

The following describes the preparation, development and adoption of the City's annual budget.

Pre-Planning Phase: After the first quarter of the fiscal year, departments submitted current-year revenue and expenditure estimates to the Office of Management and Budget (OMB), which prepared a first quarter Budget Analysis Report (BAR). This is the first look at current-year expenditures and revenue estimates compared to budgeted amounts. After the first quarter BAR, departments begin to set priorities for the next fiscal year including preparation of preliminary new program requests and justifications.

Council Planning Session: Staff hold a day-long retreat with Council members to determine what their priorities for the upcoming fiscal year will be.

Budget Kick-off: At this late April/early May meeting, departments received an overview of the financial position of the City, and forms and reports necessary to prepare formal new business plan requests. They also received a Target Number, which is the maximum amount they are authorized for their base budget submissions. Additionally, departments received a calendar indicating significant dates for budget meetings and deliberations.

Third Quarter Budget Analysis Report: After budget submittal, departments submitted third quarter revenue and expenditure estimates. The OMB prepared a second quarter BAR analyzing variances for the City Manager's Office.

City Manager's Review: The City Manager met with the Deputy City Managers and the OMB. The City Manager reviewed BPs and determined which ones to include in his proposed budget.

City Manager Presentation to City Council: On the first Tuesday in August, the City Manager presented his proposed budget to City Council. The Manager's Message outlines business plan additions.

Public Hearings: During August, Town Hall meetings were held to receive public comments regarding the proposed budget. A public hearing was conducted in September on the proposed budget, in accordance with applicable provisions of state law.

City Council Deliberations: Over the summer the City Council reviewed the budget. During this time, citizens were able to address Council about specific issues. Also, during this time, Council was able to amend the budget to include programs considered a high priority.

Tax Rate: State law requires the calculation of "no-new-revenue" and "voter-approval" tax rates. The "no-new-revenue" rate is that rate which generates the same revenue in the proposed year as in the current year from properties on the tax roll in both years (excludes new property). The "voter-approval" rate is a rate that represents a 3.5 percent increase in the operations/maintenance portion of the total tax rate. A public election must be held if the "voter-approval" rate is exceeded. These rates were provided to Council.

Adoption: Upon meeting notice and hearing requirements, City Council voted to adopt the budget and the tax rate. In accordance with City ordinance, a majority of the Council must approve the ordinance adopting the budget; adoption of the tax rate requires a two-thirds majority. The budget and the tax rate are adopted by ordinance, requiring two readings.

Amending the Budget: Upon adoption of the budget, the OMB may approve the transfer of appropriations within a department. Transfer of appropriations between departments within the General Fund requires the approval of the City Manager's Office. Formal Council approval is required to move appropriations from one fund to another fund, or to increase authorized appropriations in any fund.

Comprehensive Financial Forecast FY 2023 - FY 2027

Introduction

The purpose of the Comprehensive Financial Forecast is to direct the organization to look forward, consider our future and gauge the City's ability to continue to effectively provide current services, meet goals set by the City Council, and to ensure the City's long-term fiscal health. It is important to stress that this forecast is not a budget, but a planning tool to identify financial trends, potential shortfalls, and arising issues so that we can make informed decisions and take proactive measures to address these items strategically. Additionally, the forecast is a foundation to begin discussions of the upcoming FY 2023 budget process and to assist Council as they consider their future priorities. Ultimately, every annual budget adopted by the City Council is statutorily required to be balanced; therefore, any presentation of unbalanced projected numbers reflect work which must be done every year to get expenditures in line with revenues.

Current Economic Challenges and Revenue Projections

Substantial progress has been made in meeting the challenges of the Covid-19 pandemic. The projected declines in several of the City's major revenues, particularly sales and hotel occupancy taxes, were less severe and shorter in duration than initially feared. However, projecting revenue is an inexact science in the best of times, requiring a variety of methodologies and analyses applied to historical trends while factoring in the potential impacts of new City programs and changes in the statutory or regulatory environment. These traditional approaches are more effective in producing reliable revenue estimates in times of relative economic stability; much less so in times of great instability, particularly when change is both dramatic and sudden. As the effects of the pandemic have subsided, the resurgence of revenues provides a measure of optimism, but caution remains the guiding principle in building our projections. The revenue projections contained in this forecast present our best estimates for going forward in FY 2023 and beyond.

Process

The annual Comprehensive Financial Forecast process begins in January, and all City departments are charged with reviewing the revenues they are responsible for and considering three scenarios. For each of the major operating funds, departments prepared revenue projections for the period FY 2023 through FY 2027 based on three different assumptions.

1. A **best-case scenario** which would assume that all, or most, of the variables that affect the particular revenue will be favorable.
2. A **worst-case scenario** which should assume that all, or most, of the variables that affect the particular revenue will be unfavorable.
3. A point between the first two scenarios that is considered **most likely**.

Departments traditionally spend the most time developing most-likely scenarios; however, the dramatic changes in economic climate during the pandemic refocused the projections toward what would be considered "worst-case" during more stable financial periods. Renewed optimism when compared to last year's forecast is warranted, but nonetheless revenues in this forecast were developed using FY 2022 base revenues with conservative "most-likely" percent changes applied in the out-years.

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

As has been the Financial Forecast practice in the past, departments considered two different types of future expenditure needs.

1. **Current services expenditures** are based on existing programs, service levels and expenses to which the City is already committed. Examples would include cost increases associated with population growth, automatic CPI increases built into certain contracts, and the costs of programs or services covered by grants that are expiring.
2. **New program expenditures** are the costs of new or expanded services. New programs would include adding personnel, anticipated costs of opening and operating new facilities, and anticipated new technology.

For proposed expenditures with an impact on the FY 2023 budget, departments were instructed to focus on two areas: programs with CPI adjustments required by long-term contracts or other ongoing commitments, and costs associated with the remaining unfunded portion of programs that were partially funded in FY 2022.

General Fund Revenues

Within the General Fund, 87 percent of all FY 2022 budgeted revenues are contained in the following categories: *ad valorem* (property) taxes, sales taxes, franchise fees, and Municipal Court revenues. If we include certain other specific revenues such as the Water Utility and Stormwater Utility PILOT (Payment in Lieu of Taxes), AISD payments to the City for the SRO (School Resource Officer) program, the payments received for the City's landfill lease, along with building permits and state liquor taxes, the total exceeds 93 percent of all General Fund revenues. It becomes clear that projections in these areas, particularly for taxes, franchise fees and Court revenues, are the critical revenue components for determining the resources that will be available to the General Fund in the coming years.

Property taxes are the single largest revenue to the General Fund and as the primary revenue to the Debt Service Fund, they are the foundation of what the City is able to accomplish in the capital budget. In considering the three possible scenarios for Ad Valorem revenues (AV), we analyzed historical trends over the past 25 years.

The worst-case scenario for property tax utilizes a combination of the 2008-2009 recession as its benchmark mixed with the last time the federal government was

shut down. Revenue declines in M&O from \$114M in 2022 down to a low of \$94M in 2024. It will take several more years of growth beyond 2027 before AV returns to 2022 levels. Over the 5-year time horizon \$82M debt is issued.

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

The best-case repeats the five-year period from 1998-2002 in which the City experienced its best rate of growth from 1993-2020. Revenues increase 44% in 2027 vs. 2022 in M&O. Taxable value will reach \$44B by 2027. Over the 5-year time horizon \$423M in debt is issued.

The most-likely case assumes two years of above average growth before returning to a steady growth pattern in values similar to what the City experienced from 2005-2009. Revenues vary in M&O between \$5M to \$9M per year, with an accumulated increase over five years of \$32M. Over the 5-year time horizon \$196M in debt is issued. After issuance in 2022, the City has \$100M remaining in voter-approved bond authorization.

Increase in Property Values	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Best Case	9.80%	7.65%	5.47%	4.62%	7.80%
Worst Case	-7.48%	-2.70%	1.34%	3.40%	3.40%
Most Likely	5.70%	4.50%	3.40%	3.50%	3.50%

The amount of debt issued was adjusted to maximize the funding available for capital projects. While an increase or decrease in property values directly impacts revenues, revenues are not impacted at the same percentage due to several factors that include items such as TIRZ growth, Chapter 380 agreements and the amount of debt issued.

At the outset of the pandemic in the spring of 2020, the City's **sales taxes** were considered the most threatened of all our revenue sources, due to the loss of retail activity attributable to business closures and capacity restrictions. The recovery of sales tax revenue during FY 2021 was as sudden and dramatic as the decline during FY 2020, resulting in FY 2021 receipts that were far above what was anticipated. The City's General Fund received

\$73.8 million in sales tax revenues for the year, an increase of \$9.6 million (14.9%) over FY 2020 and \$12.2 million (19.8%) over budget for the year. Trends through the first few months of FY 2022 indicate a continuation of strong growth, with a current-year estimate of \$76.1 million, which is \$2.7 million higher than budget for the year. Although it was noted in last year's forecast that "... it will likely be FY 2023 or 2024 before our forecast projections return to the FY 2020 budget level", this level (\$68.4 million) was easily surpassed in FY 2021.

Our most likely projections for sales taxes show a 9.7% increase above the FY 2022 budget in FY 2023 (which is 5.9% above our current BAR estimate for FY 2022), then growth gradually returning to its historical averages: 3.2% growth in FY 2024, 2.9% in FY 2025, 2.6% in FY 2026, and 2.4% in FY 2027. Over the five-year period, this projection would result in FY 2027 revenues that are 22.4% above the FY 2022 budget level. The graph above shows the results of all three growth scenarios over the five-year forecast period.

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

In the aggregate, the FY 2023 projection for **franchise fee revenues** shows no increase from the FY 2022 budgeted level, then increasing by 0.2% in FY 2024, 0.4% in FY 2025, 0.2% in FY 2026, and no increase in FY 2027. This results in FY 2027 revenues that are 0.8% higher than the 2022 budget.

Franchise fees for electricity, gas, and water usage are largely determined by weather conditions during the winter and summer

months; these fees can vary significantly in any given year if we experience extreme cold or extreme heat and drought. Franchise fees are also affected by the continuing evolution of new business models in the telephone and cable television industries. The growth of subscriber streaming services that are not subject to franchise fees will result in declining revenues in these areas; however, the decline anticipated from recent legislation that limits cable and telephone access line fees has not been as steep as originally projected.

The most likely scenario for **Municipal Court revenues** includes a 4.0% decline in FY 2023 from the FY 2022 budget. In order to ensure public health and safety, pandemic restrictions have remained in place at the Court, including recommendations regarding masks and social distancing. The primary factor affecting Court revenues continues to be the steady decline in number of citations. The accompanying bar chart shows the Court's revenue history since FY 2011.

Revenues are projected to improve somewhat in FY 2024 and beyond, rising by 2.4% each year in FY 2024 and 2025 and then by approximately 3.0% each year in FY 2026 and 2027. However, these projections would still not return the Court's revenues to their FY 2020 levels by FY 2027.

The number of citations filed at the Court has continued to decline; FY 2021 citations were 28% below the FY 2020 level and are on pace to be approximately 60,000 in FY 2022.

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

The remaining General Fund revenues are carried forward in the forecast using projections based on historical averages and consideration of the three revenue scenarios.

In the aggregate, the three projection scenarios for the General Fund would result in revenues as follows for the five years of the forecast:

	FY 2022 Budget	FY 2023 Projected	FY 2024 Projected	FY 2025 Projected	FY 2026 Projected	FY 2027 Projected
Best Case	265,488,878	295,647,243	309,609,781	321,099,304	330,714,290	349,067,908
Worst Case	265,488,878	251,463,262	248,078,035	252,458,755	259,287,256	268,645,821
Most Likely	265,488,878	281,073,092	289,936,098	298,806,909	306,656,276	316,986,253
Change from prior year		15,584,214	8,863,006	8,870,811	7,849,367	10,329,977
Percent change from prior year		5.9%	3.2%	3.1%	2.6%	3.4%

The strengthening recovery from the COVID pandemic is evident throughout these projections, particularly the anticipated growth in FY 2023 when compared to the FY 2022 budget level. The resurgence of sales tax revenues has been beyond even our most optimistic projections from one year ago. Overall growth is projected to return to more moderate levels in the out-years of the forecast; however, funds from the American Rescue Plan provide significant additional resources through FY 2025.

The baseline General Fund operating position on the next page assumes projected FY 2023 revenues submitted by departments and includes no new programs or additional funding in FY 2023. One-time funds used in FY 2022 are removed from the forecasted years. Additionally, a complete list of all General Fund revenues projected using the most-likely scenario follows.

Comprehensive Financial Forecast FY 2023 - FY 2027

General Fund Expenditures

The cost of employee health insurance and compensation adjustments will affect all the City's operating funds. The projected costs for these items in the General Fund are discussed below. They are also included in the accompanying operating positions for all funds included in the Financial Forecast.

Health insurance costs for employees and retirees are projected to increase over the forecast period. In the General Fund and internal service funds directly supported by the General Fund, these costs are budgeted at \$22.4 million in FY 2022. Based on information provided by the Human Resources Department, the table below shows the projected amounts needed for employee health insurance in the General Fund over the next five years, assuming no changes to plan provisions and benefits.

	Budgeted FY 2022	Projected FY 2023	Projected FY 2024	Projected FY 2025	Projected FY 2026	Projected FY 2027	Cumulative Increase
Employee Insurance	22,448,133	23,795,021	24,960,977	26,308,870	27,755,858	29,310,186	
Increase from prior year		1,346,888	1,165,956	1,347,893	1,446,988	1,554,328	6,862,053
Percent Increase from prior year		6.0%	4.9%	5.4%	5.5%	5.6%	

Employees are the City's most valuable resources and Arlington has invested accordingly in salaries and benefits over the past several years. Beginning in FY 2017, employee compensation was targeted to close the gap between average compensation at the City for the various employee job families (clerical, professional, technical, etc.) and the compensation granted in the surrounding market of comparable employers and jobs. Since the compensation gap varied by category, raises were targeted accordingly. During the FY 2017 budget development process, management and Council chose a compensation philosophy that provided for market average plus 5% spread over a three-year period with FY 2019 being the final year of the plan. No increase was originally budgeted in FY 2021 due to the economic climate surrounding the pandemic; however, a 2% across-the-board increase was provided in June 2021 as revenues improved throughout the year. The FY 2022 adopted budget included a 3% across-the-board compensation increase. This forecast assumes an average 3% raise will be provided in each year of the forecast.

	Budgeted FY 2022	Projected FY 2023	Projected FY 2024	Projected FY 2025	Projected FY 2026	Projected FY 2027	Cumulative Increase
Compensation Increases	-	5,267,343	5,425,364	5,588,125	5,755,768	5,928,441	27,965,041
Cumulative Compensation Increases	-	5,267,343	10,692,707	16,280,831	22,036,600	27,965,041	

As part of the FY 2022 Budget, the City of Arlington proposed a plan to use American Rescue Plan (ARP) grant funding to replace the lost revenue experienced during the height of the Covid pandemic. In the FY 2022 Adopted Budget, \$19.7M of ARP grant funding was used to restore budget reductions taken in the FY 2020 and FY 2021 budgets, including restoring frozen positions and cuts to maintenance and repair budgets as well as new investments in public safety. Approximately \$14.1M of those expenses are recurring and as a result, the next four budget cycles will move \$3.5M in recurring expenses annually from the grant fund to the General Fund until all positions and expenditures are fully funded in the General Fund in FY 2027.

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

The General Fund Operating Position below assumes the mostly likely scenario for revenues and includes additional funding for forecasted employee health insurance, compensation increases and the plan to absorb American Rescue Plan grant funds back into the operating budget. As addressed earlier, every annual budget adopted by the City Council is statutorily required to be balanced; therefore, any presentation of unbalanced projected numbers reflect work which must be done every year to get expenditures in line with revenues.

Comprehensive Financial Forecast FY 2023 - FY 2027

Proposed Expenditures by Department

To further develop the expenditure side of the Comprehensive Financial Forecast, City departments were asked to prepare five years of future budget requests. Departments were tasked with developing proposals that would address the council priorities as well as maintain day-to-day operations. Departments put together two different types of future expenditure projections: Current Services and New Programs. Current services expenditures were defined as the future cost associated with continuing to provide existing programs, services, and staffing. Expenditure increases in current services would include such items as:

- CPI increases for goods and services contracts,
- maintenance and replacement of existing equipment,
- absorbing the cost of services, programs or personnel tied to expiring grant funds.

Departments were also asked to develop expenditure projections for future proposed new programs, services, and equipment. These include such items as:

- Program expansion,
- Additional personnel,
- Costs of opening and operating new facilities,
- Anticipated new technologies, etc.

The following tables include a complete list of forecasted expenditure requests by department.

Comprehensive Financial Forecast FY 2023 - FY 2027

Other Funds

Non-General Fund departments were also tasked with developing revenue forecasts using the same three scenarios as previously discussed for the General Fund, as well as considering anticipated Current Services or New Program expenditure requests. It should again be noted that every annual budget adopted by the City Council is statutorily required to be balanced, therefore any presentation of unbalanced projected numbers reflect work which must be done every year to align expenditures with revenues.

The following pages are the forecasted operating positions for other operating funds.

Comprehensive Financial Forecast FY 2023 - FY 2027

The **Debt Service Fund** is used to account for the resources needed for payment of principal and interest on the City's general long-term debt not financed by proprietary funds. The fund's primary revenue source is *ad valorem* taxes. The operating position shown below assumes the most-likely revenue scenarios for FY 2023 through FY 2027.

Comprehensive Financial Forecast FY 2023 - FY 2027

Future Capital Considerations

The City of Arlington successfully passed bond project packages on the ballot in November 2018. The 2018 five-year bond program totals \$189.5 million. Major requests approved on the ballot list included \$137.8 million for streets and \$24.5 million for public safety facilities.

In November 2020 the citizens of Arlington voted to approve a 0.25-cent increase in the City's sales tax rate, which took effect on April 1, 2021. This increase raised Arlington's sales tax rate to 8.25 percent, the maximum allowed under state law.

The additional quarter-cent will support the activities of the Arlington Economic Development Corporation and is expected to generate approximately \$20 million in annual revenues.

Assets

As published in the most recently completed CAFR for the year ending September 30, 2020, the City has capital assets currently valued at \$3.8B and some of these components will be addressed outside of the capital bond program. The City-wide fleet inventory is currently operated with 15% of the vehicles beyond their standard life cycle. The current fleet maintenance contract covers repairs to vehicles that are within life cycle only; repairs to vehicles beyond their life expectancy are outside of contract pricing and more expensive to maintain. Funding is necessary to address the beyond-life status for all fleet vehicles to reduce non-target repair expenditures.

Additionally, City-owned buildings require ongoing maintenance and many building systems and components have either reached or exceeded their service lives. The replacement of roofing systems is needed to protect interior furnishings from water and mold damage and prevent replacement expense for those furnishings. The replacement or enhancement of building interior elements, such as worn carpeting and wall surfaces, will provide a more suitable atmosphere for public users and visitors. Additional funding will be needed to address the backlog of building component replacements.

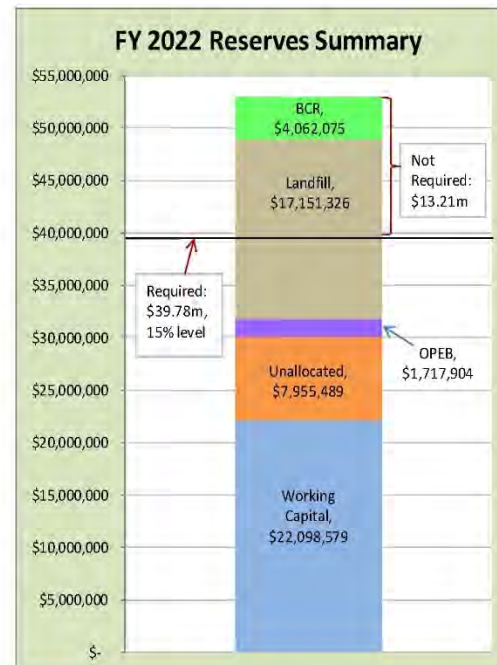

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

Reserves and Available Funding

In accordance with the City's Financial Policies, several cash reserves are maintained to mitigate the impact of a significant economic downturn on our ability to maintain service levels to our citizens. These reserves are an important consideration by bond rating agencies in determining the City's overall credit-worthiness. The reserves include:

- **Unallocated Reserve:** \$7,955,489 in FY 2022. This reserve is maintained at 3.0 percent of recurring General Fund expenditures (net of one-time costs).
- **Working Capital Reserve:** \$22,098,579 in FY 2022. This reserve is maintained at one month's worth (8.33 percent) of recurring General Fund expenditures.
- **Business Continuity Reserve:** \$4,062,075 at the outset of FY 2022. This reserve was established during the financial challenges experienced by the City during the economic downturn of 2008-2010 and was initially created to support the Challenge Grant Program. It does not have a specified minimum funding level. Use of the reserve is restricted to one-time expenditures or to cover costs necessitated by unforeseen circumstances.
- **Landfill Lease Reserve:** \$17,151,326 in FY 2022. This payment was received from Republic Waste Services when the City leased the Landfill in 2005. A total of \$4.34 million was spent from this reserve in FY 2013 to purchase recycling bins.
- **Other Post-Employment Benefits Reserve:** \$1,717,904 in FY 2022. This reserve was established in 2004 to set aside resources to support post-employment benefits other than pensions.

In the aggregate, the reserves described above total \$52,985,373 at the beginning of FY 2022. This amount is 20.0 percent of recurring General Fund expenditures budgeted for the year. Our Financial Policies stipulate that the City maintain reserves equal to 15 percent of General Fund expenditures. The amount necessary for this reserve level would be \$39,777,443. Therefore, the reserves outlined above currently have a total of \$13,207,931 in excess of the required amount (as shown in the graph above), which is available to support one-time expenditures should the City Council wish to do so.

It is important to note that the City continues to fund the Working Capital Reserve (one month, or 8.33 percent, of General Fund recurring expenditures) and the Unallocated Reserve (3.0 percent of General Fund recurring expenditures) at their respective specified levels each year. In the aggregate, these two reserves total 11.33 percent of General Fund expenditures. The need to fully fund these reserves presents challenges during the annual budget development process, which requires setting aside an additional amount equal to 11.33 percent of

Appendices

Comprehensive Financial Forecast FY 2023 - FY 2027

all new, recurring spending included in the budget to fund the reserves. In the past, funding for these reserves has been available from year-end balances from the prior fiscal year. However, as we continue to tighten our expenditure budgets, this process gradually reduces the likelihood that sufficient year-end balances will be available to fully fund our reserve requirements at the level specified in the City's Financial Policies. The effects of this approach are illustrated in the accompanying chart.

In addition to the reserves outlined above, the City also has funding available in the natural gas funds. In mid-March 2022, there is \$3.25 million in cash in the General Gas Fund; however, all available resources in this fund are reserved for specific purposes. The Airport Gas Fund

shows \$3.94 million in available cash, which may be spent only on improvements at the City's airport. The Parks Gas Fund shows no available balance; all resources above the amounts reserved for other purposes are set aside for the reimbursement of future debt payments for the Texas Rangers Golf Club.

Appendices

FINANCIAL POLICIES

Accounting, Budgeting, and Financial Reporting

1. The City will maintain its accounting records in accordance with state and federal laws and regulations. The City will report its financial condition and results of operations in accordance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board.

In Compliance: Yes	Comments: FY 2021 Annual Comprehensive Financial Report issued June 7, 2022, with an unmodified "clean" opinion.
--------------------	--

2. An independent certified public accounting firm will annually perform the City's financial and compliance audits in accordance with required applicable laws, regulations, and standards. The audit reports (and management letters, if issued) will be issued no later than 6 months following the fiscal year end.

In Compliance: No	Comments: FY 2021 Annual Comprehensive Financial Report was presented to Finance and Audit Committee on June 28, 2022, with report out to City Council the same day. The report was issued later than the 6-month requirement due to the implementation of a new financial system/ERP, a significant turnover of senior staff in Accounting, and Covid-related issues and absences. The audit was completed and submitted within the required deadline of 9 months to the Federal Audit Clearinghouse. The FY 2022 report is on-track to be submitted by the usual deadline.
-------------------	--

3. The audit opinion will be presented as part of the Annual Financial Report and will be issued no later than 6 months following fiscal year end.

In Compliance: Yes	Comments: Audit opinion included in FY 2021 Annual Comprehensive Financial Report.
--------------------	--

Budget and Financial Planning

1. The City shall prepare an Annual Operating budget and submit it to the City Council in August, providing adequate time for Council's consideration prior to approval and adoption by Sept. 15th and in accordance with V.T.C.A, Local Government Code, Sections 102.001 et seq.

In Compliance: Yes	Comments: The FY 2022 Proposed Budget was presented to Council on Aug. 3 rd and adopted by two readings of the ordinance on Sept. 7 th and 14 th .
--------------------	---

2. The Annual Operating Budget shall be prepared such that recurring revenues plus net operating transfers will be sufficient to support recurring expenditures.

In Compliance: Yes	Comments: The FY 2022 Budget balanced with recurring revenues and net operating transfers supporting recurring expenditures in all funds.
--------------------	---

3. Budgets are adopted at the fund level and expenditures from all operating funds shall not exceed the budgeted appropriations (as amended) for these funds. Internal service funds are considered an exception, where available balances are a result of expenditures that were lower than adopted and budgeted in prior years.

In Compliance: Yes	Comments: Expenditures under budget in all funds in FY 2021, except the Fleet Services fund, which is an internal service fund and thus exempt as described above.
--------------------	--

Appendices

FINANCIAL POLICIES (CONTINUED)

4. A Budget Analysis Report (BAR) will be prepared quarterly and presented to Council or made available on the City's website. The BAR will include estimated year-end revenue and expenditures for operating funds, as well as business plan progress. The 3rd Quarter BAR will be presented as part of the proposed annual operating budget.

In Compliance: Yes

Comments: Budget Analysis Reports are completed quarterly. The 1st Quarter BAR was presented to Council at the Spring Planning Session in April. The 2nd Quarter BAR is available on the City's website. The 3rd Quarter BAR is included in the proposed budget document. The 4th Quarter BAR will be available on the website and presented to the Finance and Audit Committee in February.

5. Maintenance and replacement funding will be prioritized each year to ensure that capital facilities and equipment are sufficiently maintained to avoid service disruptions.

In Compliance: Yes

Comments: In FY 2022, funding is available in the Asset Management department budget as well as the Capital Budget.

6. Operating expenditures resulting from the Capital Improvement Program will be prioritized each year.

In Compliance: Yes

Comments: In FY 2022, funding was approved to open new Parks facilities.

7. Charges for services and other revenues will be annually examined by the responsible department and adjusted as deemed necessary to respond to cost increases or any other changing circumstances. The City shall revise user fees and charges when necessary, as part of the budget process.

In Compliance: Yes

Comments: Departments are responsible for reviewing and adjusting fees in their purview annually. Fee increases are included as part of the annual budget process.

8. A 5-year financial forecast shall be prepared annually projecting revenues and expenditures for all operating funds. This forecast shall be used as a planning tool in developing the following year's operating budget.

In Compliance: Yes

Comments: The 5-year Financial Forecast was presented to Council at the Spring Council Planning Session on April 5, 2022.

9. A formal water rate study will be conducted when any one of the following criteria has been met in the water fund:
- The cumulative change in system revenue requirements since the last study is 20% or greater;
 - Capital expenditures for any one function (i.e. treatment, transmission, storage, customer service, etc.) change by 20% of total capital costs;
 - The customer base changes materially due to annexation, changes in wholesale or other large customers, or other similar circumstances such that revisions to existing customer class definitions or cost allocations are required to preserve cost-of-service based rates;
 - new contracts for service to major customers (5 percent or more of total system usage) and new or substantially modified contracts for wholesale service from other public entities are signed; or
 - The City's policies change in such a way that a revised rate structure is necessary to meet stated objectives.

In Compliance: Yes

Comments: The Water Department is currently conducting a formal rate study with a consulting firm.

Appendices

FINANCIAL POLICIES (CONTINUED)

Procurement

1. The primary governing authority for the City of Arlington's Procurement Policy shall be the City's Charter in conjunction with Local Government Code Chapter 252, Purchasing and Contracting Authority of Municipalities.

In Compliance: Yes	Comments: Procurement staff facilitates and reviews all purchases that fall under TLGC 252 per Policy.
--------------------	--

2. All procurement activity shall be governed by the Purchasing Manual, in accordance with applicable state and local government codes.

In Compliance: Yes	Comments: Manual will be updated to reflect changes made to Policy.
--------------------	---

3. Professional and consulting contracts anticipated to be greater than \$50,000 shall be governed by the Purchasing Manual, through the Finance Department and must have City Council approval before executed.

In Compliance: Yes	Comments: Staff is working to amend the Purchasing Policy to include Professional Services with the anticipated goal to begin in FY 2023.
--------------------	---

4. The City Manager or designee has the authority to approve a Request for Proposal process for estimated expenditures below \$1,000,000 for the length of the initial term of the contract.

In Compliance: Yes	Comments: Staff is working to amend the Purchasing Policy to include this provision with the anticipated start date of FY 2023.
--------------------	---

Investments

1. The governing authority for the City of Arlington's Investment Policy shall be Chapter 2256 of the Texas Government Code, cited as the Public Funds Investment Act and Chapter 2257 of the Texas Government Code, cited as the Collateral for Public Funds.

In Compliance: Yes	Comments: Investments comply with Ch. 2256.
--------------------	---

2. Investments shall be made in conformance with the City's Investment Policy, with the primary objectives of:

- Safety – preservation of capital in the investment portfolio;
- Liquidity – portfolio remain sufficiently liquid to meet operating requirements;
- Yield – goal of rate of return of exceeding TexPool fund

In Compliance: Yes	Comments: All investments were secure, incurring no losses while meeting all City cashflow needs.
--------------------	---

3. The Investment Policy shall be approved by City Council each fiscal year.

In Compliance: Yes	Comments: Policy was approved September 14, 2021, for FY 2022
--------------------	---

Appendices

FINANCIAL POLICIES (CONTINUED)

Grants

1. The City shall seek a fair share of available State and Federal financial support unless conditions attached to that assistance are contrary to the City's best interests. Prior to applying for and accepting intergovernmental aid, the City will examine the matching requirements so that the source and availability of these funds may be determined before grant application is made and that the application complies with City Administrative Policy #4.

In Compliance: Yes	Comments: Grant matching requirements are considered as part of the budget process. No grant match requests were received for the FY 2022 budget.
--------------------	---

2. All grants and other federal and state funds shall be managed to comply with the laws, regulations, and guidance of the grantor, and all gifts and donations shall be managed and expended according to the wishes and instructions of the donor.

In Compliance: Yes	Comments: FY 2021 Single Audit complete by required due date of June 30, 2022.
--------------------	--

Property Tax Collection

1. The City shall contract with the County for collections and encourage the Tax Assessor-Collector to follow an aggressive policy of collecting property tax revenues.

In Compliance: Yes	Comments: The County continues to collect greater than 94% of all current year collections while pursuing delinquent collections.
--------------------	---

2. The City shall contract with the Tarrant Appraisal District (TAD), as required by state statute, for appraisal services of all property (real, business, and mineral). The City will also work with TAD on the economic development incentives including, but not limited to, abatements, Ch 380, TIRZ, PIDs, MMDs, etc.

In Compliance: Yes	Comments: The City and TAD have worked together regarding the appraisals and economic development incentives. The City attends monthly meetings with TAD.
--------------------	---

3. The City shall contract with a third party for the collection of delinquent property tax. The collection fee shall be determined by the competitive process but will not exceed 20%.

In Compliance: Yes	Comments: The City has contracted with Linebarger to continue pursuing delinquent collection with a 15% collection fee
--------------------	--

4. Finance will monitor collection efforts by the County and third party, and report results to Council as part of the Budget Analysis Report.

In Compliance: Yes	Comments: The City monitors collections on a monthly basis. Results are reported to Council as part of the Budget Analysis report which is available on the City's website.
--------------------	---

Self-Insurance & Retirement Funds

1. All retirement and self-insurance funds will be examined annually to ensure that adequate balances are maintained. Unfunded actuarial liabilities in a retirement program are to be amortized in accordance with GASB and actuarial requirements. The self-insurance program for workers' compensation and self-insurance programs shall be funded at the Actuarial Central Estimated confidence level.

In Compliance: Yes	Comments: Reviewed at least annually as part of most recent financial audit, actuarial report(s), internal management reports, and budget reporting.
--------------------	--

Appendices

FINANCIAL POLICIES (CONTINUED)

- The funding status of all self-insurance funds will be reported annually.

In Compliance: Yes	Comments: Included in most recent Annual Comprehensive Financial Report footnotes.
--------------------	--

- Full-time employee retirement funds will be administered by Texas Municipal Retirement System (TMRS). Contributions will be made, at a minimum, in the amount determined by TMRS.

In Compliance: Yes	Comments: Reviewed at least annually; contributions updated in system for most recent fiscal year based on TMRS correspondence.
--------------------	---

Fund Balance and Reserves

- The City will maintain general fund reserves equivalent to 15% of recurring annual general fund expenditures. Reserves will be calculated and presented as combined, with the source footnoted.

In Compliance: Yes	Comments: For FY 2022, the City's reserves total 20.0% of recurring General Fund expenditures, which is \$13.21 million in excess of the 15% requirement.
--------------------	---

- The Business Continuity Reserve for budget stabilization shall be maintained to provide financial stability for the General Fund during an economic downturn, separate from General Fund reserves.

In Compliance: Yes	Comments: The current balance Business Continuity Reserve is \$4,062,075.
--------------------	---

- The City will maintain reserves in the Water Utilities Fund, Storm Water Utility Fund and Street Maintenance Fund equal to a minimum of 60 days of operating and maintenance expenses (excluding debt).

In Compliance: Yes	Comments: For FY 2022, the Water Utilities Fund's reserves total 61.4 days of operating and maintenance expenses (excluding debt), which is \$0.45 million in excess of the minimum of 60 days. Operating reserves in the Street Maintenance Fund and Storm Water Utility fund are \$3,420,902 and \$980,104 respectively, which represents 60 days of expenses in those funds excluding debt and one-time expenses.
--------------------	--

- The City will maintain a Rate Stabilization Fund to assist in offsetting temporary increases to the budget and increases from mid-year settle-ups from Trinity River Authority (TRA) and Tarrant Regional Water District (TRWD). The fund shall not exceed 5% of the total Water Utilities expenditure budget. Use of this Fund will be authorized as part of the annual operating budget.

In Compliance: Yes	Comments: For FY 2022, Rate Stabilization Fund balance is currently 5% of the total Water Utilities expenditure budget.
--------------------	---

- The City's general fund unassigned ending balance may only be used for one-time purchases like capital equipment.

In Compliance: Yes	Comments: Prior year balance in the amount of \$64.83M was used in the FY 2022 budget for one-time purchases.
--------------------	---

- All governmental and proprietary funds will have positive cash balances.

In Compliance: Yes	Comments: All funds reported positive cash balances as of 9/30/21.
--------------------	--

Appendices

FINANCIAL POLICIES (CONTINUED)

7. The fund balance in the debt service fund shall be maintained at a minimum level of 4.0% of annual debt service expenditures and a maximum level of 10%.

In Compliance: Yes	Comments: Fund balance was 6.8% of expenditures in FY 2021
--------------------	--

8. The fund balance in the Water Utility Interest and Sinking Fund and Storm Water Interest and Sinking Fund shall be maintained to ensure debt service payments.

In Compliance: Yes	Comments: Both Funds had cash above the FY 2021 debt service. Water has 2.43x coverage in net revenues / debt service. Stormwater has 3.97x coverage in total revenues / debt service.
--------------------	--

9. The Water Utility Debt Service Reserve and Storm Water Debt Service Reserve shall be maintained in accordance with the covenants of the outstanding debt issues.

In Compliance: Yes	Comments: Water DS Reserve met bond covenants with 3.67x revenues / annual debt service. Storm Water had a coverage of 3.97x revenues vs maximum debt service expenditures greater than the required 1.25x by the bond covenants that require a DS Reserve.
--------------------	---

Debt Management

1. Debt financing which includes permanent improvement bonds, revenue bonds, certificates of obligation, lease/purchase agreements and other obligations allowed under Texas law shall be used to acquire or construct land and improvements that cannot be funded by current revenues. The term of debt shall not exceed the expected useful life of the capital asset being financed and in no case shall it exceed 30 years. An exception will be made if refunding Section 334 debt (venue) to the State maximum is determined to be necessary or advantageous.

In Compliance: Yes	Comments: All debt financings have met this standard.
--------------------	---

2. Interest earned on bond funds will be determined on an allocation basis and deposited to its respective fund to be used for approved projects. Interest earnings are considered appropriated when allocated.

In Compliance: Yes	Comments: Interest is calculated and appropriated on a monthly basis.
--------------------	---

3. Debt will not be used to fund current operating expenditures.

In Compliance: Yes	Comments: No debt was used for current operating expenditures.
--------------------	--

4. Each year the City will adopt a capital improvement plan. The plan will recommend specific funding of projects for the current fiscal year and will identify projects for further consideration in years two through five.

In Compliance: Yes	Comments: The most recent CIP was adopted March 22, 2022.
--------------------	---

5. The City will obtain a rating from at least one nationally recognized bond-rating agency on all issues being sold on the public market. Required information will be presented to the rating agency(s) at least annually to maintain ratings on outstanding debt.

In Compliance: Yes	Comments: The City met with Moody's (Aa1), S&P (AAA), and Fitch (AAA) in April 2022.
--------------------	--

6. All professional service providers shall be selected in accordance with the City's Procurement policy.

In Compliance: Yes	Comments: All providers selected were in accordance with the policy.
--------------------	--

Appendices

FINANCIAL POLICIES (CONTINUED)

7. An advance or current refunding of outstanding debt shall only be considered when present value savings of at least 3.0% of the principal amount of the refunded bonds are produced, unless a debt restructuring, or bond covenant revisions are necessary. Savings from refundings are expected to be distributed evenly over the life of the refunded bonds.

In Compliance: Yes	Comments: No refundings have been identified that produced enough savings, so no refunding has occurred.
--------------------	--

8. The City shall obtain a clear opinion from qualified legal counsel that the City is not liable for the payment of principal and/or interest in the event of default by a conduit borrower. If no such opinion can be obtained, the conduit borrower will be required to purchase insurance or a letter of credit in the City's name in the event of default. Examples of a conduit issuer are special authorities, tax-increment financing districts, public improvement districts, or industrial development issuers.

In Compliance: Yes	Comments: Bracewell continues to be the City's Bond Counsel. They have issued opinions on every issuance.
--------------------	---

9. It is the City's priority to fund capital expenditures with cash or voter approved debt. However, non-voter approved debt may be used for capital expenditures or risk management funding as an alternative to lease/purchase or other financing options if the capital expenditure is:

- Urgent;
- Necessary to prevent an economic loss to the City;
- Revenue generating and expected to cover debt service out of the revenue source;

In Compliance: Yes	Comments: The City continues to limit the issuance of COs. The last CO issuance was in FY 2020.
--------------------	---

Debt Management – Ratio Targets

1. The ratio of tax-supported debt to total taxable assessed valuation shall not exceed 2.0%. This excludes debt of overlapping jurisdictions. The City shall structure its bond issuance to achieve and maintain a debt-to-assessed-value of 2.0% or less.

In Compliance: Yes	Comments: FY 2021 ratio was 1.47%
--------------------	-----------------------------------

2. The ratio of debt service expenditures to total expenditures (general fund operating expenditures and debt service combined) shall not exceed 20%.

In Compliance: Yes	Comments: FY 2021 ratio was 17.62%
--------------------	------------------------------------

3. The ratio of outstanding tax-supported debt to population shall not exceed \$1,265 (as of Feb 2021). The per capita amount will be revised matching CPI growth at least every three years. The new amount shall be presented to Council for approval in conjunction with the Capital Budget.

In Compliance: Yes	Comments: FY 2021 ratio was \$1,118
--------------------	-------------------------------------

4. The Finance Department shall prepare an analysis of the impact of proposed tax-supported debt prior to the issuance of the additional debt. The analysis shall project the debt ratios described in numbers 1, 2, and 3 above as well as any other applicable debt ratios. The analysis shall project the debt ratios described above both including and excluding Pension Obligation Bonds as well as any other applicable debt ratios. The ratio limits in numbers 1, 2, and 3 above are exclusive of the Pension Obligation Bonds.

In Compliance: Yes	Comments: All ratios were projected and presented to Council with the FY 2022 CIP on February 22, 2022.
--------------------	---

Appendices

FINANCIAL POLICIES (CONTINUED)

Disclosure

1. The City is committed to providing continuing disclosure of certain financial and operating data and material event notices as required by Securities and Exchange Commission (SEC) Rule 15c2-12 and state statutes. The Finance Department shall be responsible for the preparation of all disclosure documents and releases required under Rule 15c2-12 and state statutes.

In Compliance: Yes	Comments: All continuing disclosure requirements were met. FY 2021 Disclosure was posted on EMMA on March 31, 2022.
--------------------	---

2. Continuing disclosure will be reviewed by CMO, Financial Advisor, Bond Counsel, and Disclosure Counsel prior to release. The filing shall be issued no later than 6 months following year-end. The filing shall be uploaded to EMMA (Electronic Municipal Market Access website) and the City website.

In Compliance: Yes	Comments: All continuing disclosure requirements were met. FY 2021 Disclosure was posted on EMMA on March 31, 2022, after sign-off by CMO, FA, Bond Counsel, and Disclosure Counsel.
--------------------	--

3. All material event notices (defined by the SEC) shall be filed according to SEC regulations after the occurring event.

In Compliance: Yes	Comments: All material event notices were filed.
--------------------	--

Financial Transparency and External Reviews

1. The City is a recipient of the Texas Comptroller of Public Accounts Transparency Stars program that recognizes local governments for going above and beyond their transparency efforts. The City has been awarded stars for each of the following areas:

- Traditional Finances
- Contracts and Procurement
- Economic Development
- Public Pensions
- Debt Obligations

The City will annually update the website data to maintain the star designations.

In Compliance: Yes	Comments: FY 2021 data complete; FY 2022 data to be updated by 7/31/2022.
--------------------	---

2. As an additional independent confirmation of the quality of the City's financial reports, the City will annually seek to obtain the following awards from the Government Finance Officers Association:

- Certificate of Achievement in Financial Reporting for AFR
- Popular Annual Financial Reporting Award for PAFR
- Distinguished Budget Presentation Award for Annual Budget

In Compliance: Yes	Comments: Received for FY 2020. Applications for FY 2021 submitted 6/2022.
--------------------	--

3. As an additional independent confirmation of the quality of the City's procurement practices, the City will annually seek to obtain the Achievement of Excellence in Procurement Award from the National Procurement Institute.

In Compliance: No	The FY 2021 budget was impacted by pandemic related budget cuts and staff was unable to complete all the training. The Purchasing Division is on track to complete the training and receive the award in FY 2023.
-------------------	---

Appendices

FINANCIAL POLICIES (CONTINUED)

4. As an additional independent confirmation of the quality of the City's Investment Policy, the City will seek to obtain the Certificate of Distinction from the Government Treasurers' Organization of Texas.

In Compliance: Yes	Comments: Currently the City's Treasurer is the President of GTOT, as well as the official reviewer of Investment Policies for GTOT. Thus, a conflict of interest. The Investment Policy will be submitted to GTOT once the Treasury is no longer President.
--------------------	--

Adopted by City Council on September 13, 2022.

Appendices

FUND ACCOUNTING INFORMATION

Governmental Funds

General Fund: The General Fund is the principal fund of the City. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the General Fund are paid the general operating expenditures and the capital improvement costs that are not paid through other funds.

Special Revenue Funds: The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Special Revenue Funds include Community Development Block Grants, Home Investment Partnership, Federal Aviation Administration, Federal Transit Administration, Automobile Theft Protection, Texas Department of Community Affairs, Police Restricted, Texas Department of Transportation, Park Performance, Convention and Event Services, and other special revenue funds.

Debt Service Fund: The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal and interest on the general long-term debt not being financed by proprietary funds. The fund's primary source of revenue is ad valorem taxes, which are levied by the City.

Capital Projects Funds: The Capital Projects Funds are used to account for the acquisition or construction of capital facilities being financed from bond proceeds, contributed capital, assessments levied or transfers from other funds, other than those recorded in Proprietary Funds. The Capital Projects Funds include Municipal Office Building, Police, Fire, Library, Airport, Park, Street, Traffic, Community Development, and Fleet.

Proprietary Funds

Enterprise Funds: The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The Enterprise Funds include the Water and Sewer Fund and the Stormwater Utility Fund.

Internal Service Funds: The Internal Service Funds are used to account for the financing of materials and services provided by one department of the City to other departments of the City on a cost-reimbursement basis. The Internal Service Funds include General Services, Fleet Services, Technology Services, and the City's self-insurance activities consisting of the Arlington Property Finance Authority, Workers' Compensation and Group Health Funds.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All of the City's governmental fund types are accounted for using a current financial resources measurement focus. Under this measurement focus, generally only current assets and liabilities are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

All proprietary funds and trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity is segregated into contributed capital and retained earnings components for proprietary funds and fund balance for trust funds. Operating statements present increases and decreases in net total assets.

Accrual basis: The accrual basis of accounting is utilized by the Enterprise Funds, the Internal Service Funds, and Pension Trust Funds. Accordingly, revenues and expenses are recognized in the accounting period in which they are earned and incurred, respectively.

Appendices

FUND ACCOUNTING INFORMATION (CONTINUED)

Modified accrual basis: The modified accrual basis is used for all other funds. Modifications in the accrual basis for these funds include the following:

1. Revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Primary revenue sources treated as susceptible to accrual include property taxes collected within 60 days of year-end and sales taxes collected and held by the state at year end of behalf of the City. Revenue sources from licenses, fines and forfeitures, service charges and other miscellaneous revenues are generally recognized as the cash is received.
2. Expenditures are recognized when the related fund liability is incurred, except for interest and principal on general long-term debt which are recorded when due or otherwise payable.
3. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration.

Basis of Budgeting

The City Council adopts an annual legal budget which covers the General Fund, Debt Service Fund, Enterprise Funds, Internal Service Funds, and certain Special Revenue Funds (Park Performance, Street Maintenance, and Convention and Event Services). All appropriations lapse at fiscal year-end. The budgets for the General Fund, Debt Service Fund and Special Revenue Funds are prepared on the modified accrual basis except for encumbrances, which are treated as budgeted expenditures. The budgets for the Enterprise Funds are prepared on the modified accrual basis and include encumbrances, debt principal retirements and capital outlays as expenditures. Additionally, the Enterprise Funds do not include depreciation as a budgetary expense. Budgetary level of control is exercised at the departmental level. The City Manager, or his designee, is authorized to transfer budgeted amounts within and among departments; however, any revisions that alter total appropriations of the fund must be approved by the City Council.

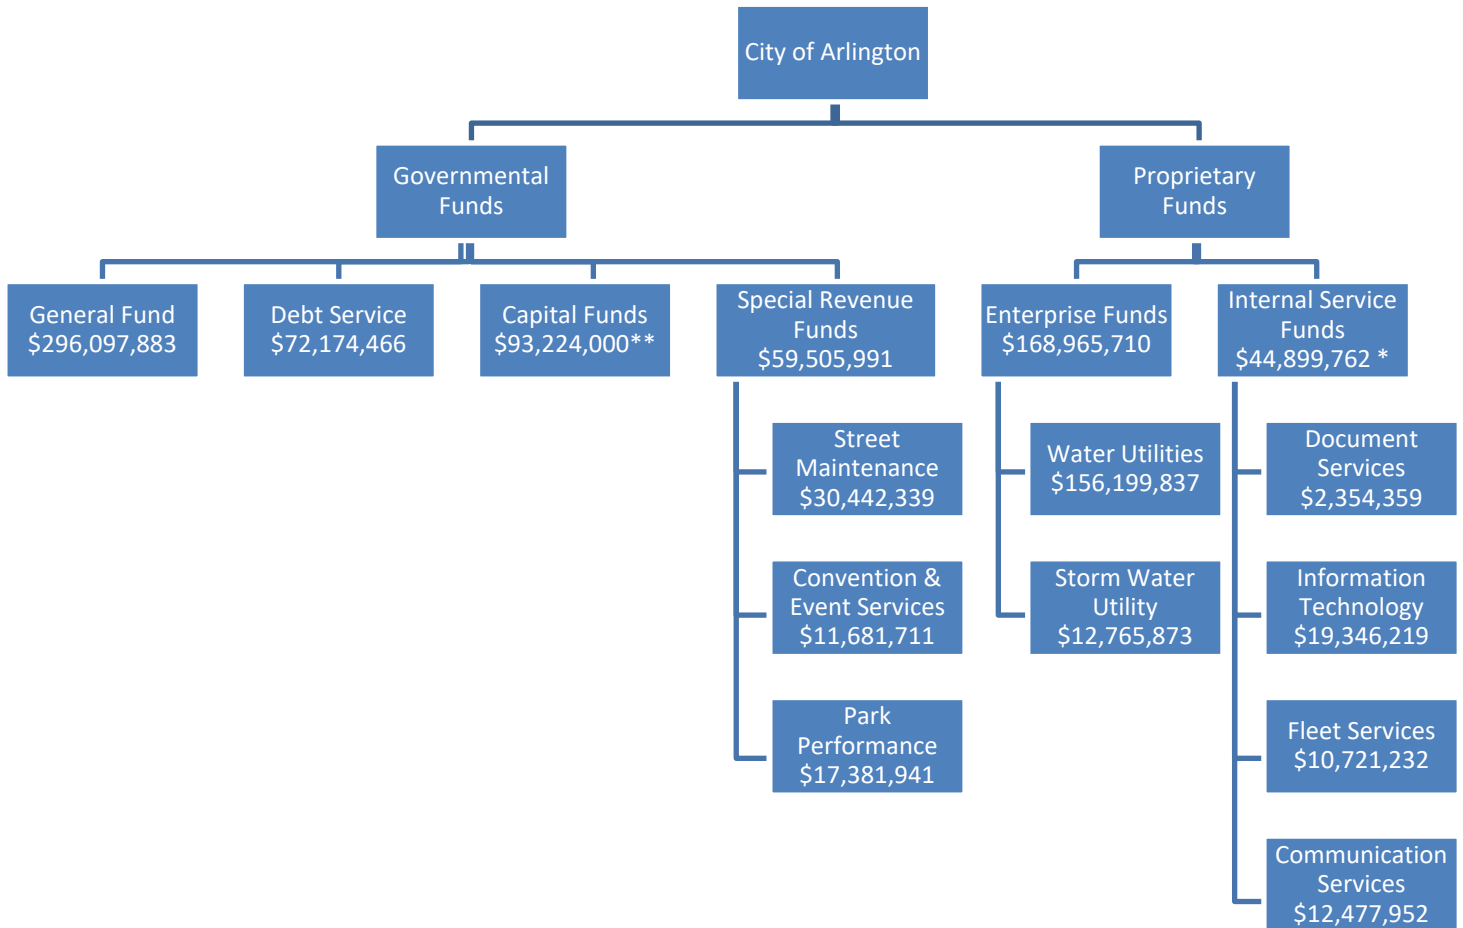

Appendices

FUND STRUCTURE

City of Arlington funds are by definition either governmental or proprietary and are structured in the manner shown below. All funds are appropriated except for Internal Service Funds

**Internal Service Departments are funded via chargebacks from other Operating Departments*

***Does not include the capital budget for the two Enterprise Funds*

Appendices

FUND BALANCES

The table below shows the FY 2023 budgeted ending balances for the funds listed, as well as the difference from the previous year. Any fund with a change in balance greater than 10% includes an explanation for the change.

Fund	FY 2022	FY 2023	Variance	% Change
General Fund Given the FY 2023 expenditure budget of over \$296 million in the General Fund, it's difficult to identify any one factor that led to the slightly larger ending balance in FY 2023 compared to FY 2022. Additionally, General Fund ending balance is swept at year-end annually and used in subsequent years for one-time expenditures.	\$5,237	\$36,182	\$30,945	590.9%
Water Utilities Fund At year-end any remaining fund balance is transferred to Water's cash funded capital account; the beginning balance starts over at \$0 each year.	\$70,180	\$59,488	-\$10,692	-15.2%
Convention and Event Services Fund The COVID-19 pandemic led to significant decreases in hotel occupancy tax (HOT) revenue in recent years. The increase in fund balance from FY 2022 to FY 2023 is largely due to the return of HOT receipts to near pre-pandemic levels.	\$56,818	\$244,338	\$187,520	330.0%
Park Performance Fund The decrease in ending balance is the result of the fund appropriating prior-year savings in FY 2023.	\$244,333	\$3,343	-\$240,990	-98.6%
Street Maintenance Fund A large portion of the FY 2022 ending balance was appropriated in order to fund a greater number of needed street maintenance/repair projects.	\$3,281,080	\$133,570	-\$3,147,510	-95.9%
Storm Water Utility Fund At year-end, most remaining fund balance is transferred into Storm Water Pay-Go Capital Project funding.	\$305,103	\$5,748	-\$299,355	-98.1%
Debt Service Fund	\$3,086,952	\$3,231,537	\$144,585	4.7%

Appendices

GLOSSARY OF TERMS

Activities: Discrete tasks accomplished by Departments on an on-going basis.

Accrual Basis: A method of financial accounting whereby revenues and expenses are recognized in the accounting period in which they are earned and incurred. The City's enterprise and internal service funds utilize this basis of accounting.

Ad Valorem Tax: Property taxes based on assessed valuation of property and collected from property owners.

AFR: see Annual Financial Report.

Annual Financial Report: A report designed to present the financial position and results of operations of various funds of the City.

Appropriation: An authorization made by the City Council that permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are made for fixed amounts and are granted, in the operating budget, for a one-year period.

Assessed Valuation: A value that is established for real or personal property for use as a basis for levying property taxes. Property values in Arlington are established by the Tarrant Appraisal District. The assessed value in Arlington for FY 2023 is \$35.74 billion. This is an increase of 11.04% percent from the assessed value of \$32.19 billion for FY 2022.

Assumptions: Items assumed to be true for a given budget cycle and/or built into budget projections or analysis of a program or budget.

AV Tax: see Ad Valorem Tax.

BAR: see Budget Analysis Report.

Bifurcated Tax Rate: The City of Arlington has a bifurcated tax rate, meaning that the tax rate is divided into two smaller tax rate subsets. For example, the adopted FY 2023 tax rate is 59.98¢ per \$100 of valuation. The tax rate is then bifurcated in to two smaller groups, the general fund portion and the debt service portion, which are 40.30¢ and 19.68¢ respectively.

Balanced Budget: As required by law, revenues and interfund transfers must equal or exceed expenditures for all funds. Additionally, one-time funds cannot be used for recurring expenditures.

Bond Election: A special election held in order that citizens may cast a ballot for or against a proposal to perform a given capital improvement project. Elections may include approval for the City to issue General Obligation Bonds.

Bond Rating: A rating assigned by outside credit rating companies which gives investors an idea of the creditworthiness of the City.

Bond Sales: The sale of General Obligation bonds and other debt instruments in the public market, proceeds from which allow the funding of various capital improvement program (CIP) projects.

Budget: A financial plan for a specified period of time (fiscal years) that matches all planned revenues and expenditures for various municipal services.

Budget Analysis Report (BAR): A quarterly report compiled to show fiscal year-end revenue and expenditure projections, which may allow for adjustments in expenditures as needed so as not to exceed the City's annual operating budget.

Appendices

GLOSSARY OF TERMS (CONTINUED)

Budget Document: The instrument used by the budget-making authority to present a comprehensive financial program to the City Council.

Budget Proposal: A document used by departments to provide information relating to desired outcomes; this form includes information regarding the goals and objectives, and request budget dollars and personnel needed to accomplish any given outcome.

Business Plan: A summary of how the departments comprising the City of Arlington organization plan to achieve outcomes in relation to the priorities of the City Council. The Business Plan is a working document that includes information related to departmental goals and objectives, program-related budgets, and performance measures.

Capital Budget: A budget designated solely for Capital Improvement Program, and which gives details about infrastructure improvements throughout the City.

Capital Expenditure: An expenditure for equipment or infrastructure costing in excess of \$5,000.

Capital Improvement Program: A plan of action for the establishment and/or maintenance of the City's infrastructure and other capital investments.

Certificate of Obligation: A type of debt instrument that is issued for the funding of certain capital improvements, or portions of total cost for those projects. Proceeds from the sale of this debt may be used to fund cost overruns or unexpected expenses associated with depreciable assets.

CIP: see Capital Improvement Program.

City Manager's Message: A general discussion of the budget presented in writing as a part of or supplement to the budget document. The message explains principal budget issues against the background of financial experience in recent years.

Commercial Paper: A type of short-term debt instrument issued to fund capital projects.

Convention and Event Services Fund: Supports the operation of the Arlington Convention Center, the Convention and Visitors Bureau, and debt service on the Convention Center and Convention and Visitors Bureau building. The fund also provides support for the Fielder Museum and downtown Arlington. Revenues are from hotel occupancy taxes and fees at the Convention Center.

Debt Service: The City's obligation to pay the principal and interest on all bonds and other debt instruments according to a pre-determined payment schedule.

Deficit: A situation where expenditures exceed revenues

Depreciation: A type of expense associated with the use of fixed assets other than land. The annual depreciation of fixed assets is reported on the financial statements of funds using the accrual basis of accounting.

Enterprise Fund: A governmental accounting fund in which the services provided are financed and operated similarly to those of a private business. The rate schedules for these services are established to ensure that revenues are adequate to meet all necessary expenditures. In Arlington, the Water and Sewer Fund and the Sanitary Landfill Fund are enterprise funds.

Expenditure: The outflow of funds paid, to be paid for an asset obtained, or goods and services obtained regardless of when the expense is actually paid. This term applies to all funds.

Appendices

GLOSSARY OF TERMS (CONTINUED)

Fiscal Year: The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Arlington has specified October 1 to September 30 as its fiscal year.

Franchise Fee: A fee paid by public service businesses for use of City streets, alleys and property in providing their services to the citizens of a community. Services requiring franchises include electricity, telephone, water, natural gas, cable television and sanitation.

Fund: In governmental accounting a fund may be described as representing a distinct phase of the activities of government and is controlled by a self-balancing group of accounts in which all of the financial transactions of the particular phase are recorded.

Fund Balance: The unencumbered cash remaining in a fund at the end of a specified time period, usually the end of the fiscal year.

General Fund: The largest fund within the City, the General Fund accounts for most of the financial resources of the government. General Fund revenues include property taxes, licenses and permits, local taxes, service charges, and other types of revenue. This fund usually includes most of the basic operation services, such as fire and police protection, parks and recreation, libraries, public works, transportation, and general administration.

General Obligation Bonds: Bonds that finance public projects such as streets, municipal facilities, and park improvements. The repayment of these bonds is made from property taxes, and these bonds are backed by the full faith and credit of the issuing government.

Governmental Funds: Funds generally used to account for tax-supported activities.

Homestead Exemption: A deduction from the total taxable assessed value of owner-occupied property. For FY 2023, the exemption in Arlington is 20%, with an additional \$60,000 for the elderly and disabled.

Internal Service Fund: Funds used to account for the financing of goods or services provided by one department to another department on a cost reimbursement basis. Examples in Arlington include the General Services Fund, the Communication Services Fund, the Information Technology Fund, and the Fleet Services Fund.

Issuing Debt: see Bond Sales, Certificates of Obligation and Commercial Paper.

Modified Accrual Basis: A modified method of accrual basis accounting whereby revenues are recognized when they become both measurable and available for use during the year. For example, certain taxes (Sales and Alcoholic Beverage) are considered measurable when in the hands of intermediary collecting governments (State of Texas) and are recognized as revenue at that time. The City's General Fund utilizes this basis of accounting.

No New Revenue Tax Rate: The tax rate which generates the same revenue in the proposed year as in the current year from properties on the tax roll in both years (excludes new property)

Objective: Performance indicator of a program.

Operating Budget: The budget that pertains to daily operations which provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, supplies, utilities, materials, travel, fuel, and capital equipment.

Outcome: Desired state that will arise from strategically applied resources.

Appendices

GLOSSARY OF TERMS (CONTINUED)

Performance Measures: Quantitative measure of a program's effectiveness or efficiency (e.g., average time to dispatch an emergency 911 call). Often used in conjunction with workload measures (e.g., number of emergency 911 calls received) to evaluate and revise resource allocation strategies.

Position Control: The initiative to fund, monitor and maintain only the number of positions authorized by City Council in any given budget year.

Priority: Certain outcomes that have been selected for a higher level of attention and effort by the City Council

Program: An organized set of related work activities which are directed toward a common purpose or goal and represent a well-defined expenditure of City resources.

Program Budget: A budget which structures budget choices and information in terms of programs and their related activities, (i.e., repairing roads, treating water, etc.), provides information on what each program is committed to accomplish in the long run (goals) and in the short run (objectives), and measures the degree of achievement of program objectives (performance measures).

Program Description: Outlines the function of the program, the various activities involved in the program and other pertinent information about the program. It answers the question, "what does this program do?"

Program Goal: A general statement on the intended effect or purpose of the program's activities. It includes terms such as: to provide (a service), to supply (a given need), to control, reduce, or eliminate (an occurrence), to maintain (standards), or to maximize (quality). A goal is not limited to a one-year time frame and should generally not change from year to year. A goal statement describes the essential reason for the program's existence.

Program Objectives: Objectives are statements of the intended beneficial and/or tangible effects of a program's activities. They are measurable and related to the proposed budget year. They are specific targets toward which a manager can plan, schedule work activities, and make staff assignments. Objectives should quantifiably be addressed in terms such as: to increase an activity, to maintain a service level, to reduce the incidence, or to eliminate a problem.

Project: Discrete tasks accomplished by Departments on a one-time basis.

Proprietary Funds: A class of fund types that account for a local government's businesslike activities.

Reserve: An account used to indicate that a portion of fund equity is legally restricted for a specific purpose.

Revenue: Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines and forfeitures, licenses and permits, and interest income.

Salary and Benefits Schedule (SBS): The table of salaries and associated benefits costs for all budgeted positions citywide. This report is used largely to aid in the development of the City's annual operating budget and is used also for the purpose of Position Control.

Special Revenue Fund: A fund used to account for revenues legally earmarked for a particular purpose.

Street Maintenance Fund: Primarily support by ¼ cent sales tax first approved by the voters of Arlington in September 2002. Other sources include a transfer from the General Fund.

Tax Rate: The amount of tax levied for each \$100 of assessed valuation. The FY 2023 tax rate for the City of Arlington is 59.98¢.

Appendices

GLOSSARY OF TERMS (CONTINUED)

TIRZ: Tax Increment Refinance Zone

TMRS: Texas Municipal Retirement System

UTA: The University of Texas at Arlington

Vacancies Report: Related to Position Control, this report allows the projection of budgeted dollar savings due to unfilled positions citywide.

Voter Approval Rate: The tax rate that represents a 3.5 percent increase in the operations/maintenance portion of the total tax rate. A public election must be held if the “voter-approval” rate is exceeded.

Water and Sewer Fund: Oversees the provision of drinking water and wastewater disposal services to resident and businesses. Expenses are for functions such as Field Operation, Water Treatment, and Customer Service. The fund also pays debt service, purchases water, and contributes to various capital reserves to avoid future debt issuance.

City of Arlington, Texas

817-459-6259

Taxing Unit Name:

Phone (area code and number)

101 S. Mesquite Street, Arlington, Tx 76010

www.Arlingtontx.gov

Taxing Unit's Address, City, State, ZIP Code

Taxing Unit's Website Address

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
1.	2021 total taxable value. Enter the amount of 2021 taxable value on the 2021 tax roll today. Include any adjustments since last year's certification; exclude Tax Code Section 25.25(d) one-fourth and one-third over-appraisal corrections from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2) and the captured value for tax increment financing (adjustment is made by deducting TIF taxes, as reflected in Line 17). ¹	\$ 30,908,631,655
2.	2021 tax ceilings. Counties, cities and junior college districts. Enter 2021 total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. Other taxing units enter 0. If your taxing unit adopted the tax ceiling provision in 2021 or a prior year for homeowners age 65 or older or disabled, use this step. ²	\$ 3,003,364,479
3.	Preliminary 2021 adjusted taxable value. Subtract Line 2 from Line 1.	\$ 27,905,267,176
4.	2021 total adopted tax rate.	\$ 0.619800 /\$100
5.	2021 taxable value lost because court appeals of ARB decisions reduced 2021 appraised value.	
	A. Original 2021 ARB values:.....	\$ 3,844,146,335
	B. 2021 values resulting from final court decisions:.....	-\$ 3,413,173,626
	C. 2021 value loss. Subtract B from A. ³	\$ 430,972,709
6.	2021 taxable value subject to an appeal under Chapter 42, as of July 25.	
	A. 2021 ARB certified value:.....	\$ 450,950,329
	B. 2021 disputed value:.....	-\$ 389,351,902
	C. 2021 undisputed value. Subtract B from A. ⁴	\$ 61,598,427
7.	2021 Chapter 42 related adjusted values. Add Line 5C and Line 6C.	\$ 492,571,136

8.	2021 taxable value, adjusted for actual and potential court-ordered adjustments. Add Line 3 and Line 7.	\$ 28,397,838,312
9.	2021 taxable value of property in territory the taxing unit deannexed after Jan. 1, 2021. Enter the 2021 value of property in deannexed territory. ²	\$ 0
10.	2021 taxable value lost because property first qualified for an exemption in 2022. If the taxing unit increased an original exemption, use the difference between the original exempted amount and the increased exempted amount. Do not include value lost due to freepart, goods-in-transit, temporary disaster exemptions. Note that lowering the amount or percentage of an existing exemption in 2022 does not create a new exemption or reduce taxable value.	
	A. Absolute exemptions. Use 2021 market value:.....	\$ 3,789,817
	B. Partial exemptions. 2022 exemption amount or 2022 percentage exemption times 2021 value:.....	+ \$ 139,271,613
	C. Value loss. Add A and B. ³	\$ 143,061,430
11.	2021 taxable value lost because property first qualified for agricultural appraisal (1-d or 1-d-1), timber appraisal, recreational/scenic appraisal or public access airport special appraisal in 2022. Use only properties that qualified in 2022 for the first time; do not use properties that qualified in 2021.	
	A. 2021 market value:	\$ 23,920
	B. 2022 productivity or special appraised value:	- \$ 35
	C. Value loss. Subtract B from A. ⁴	\$ 23,885
12.	Total adjustments for lost value. Add Lines 9, 10C, and 11C.	\$ 143,085,315
13.	2021 captured value of property in a TIF. Enter the total value of 2021 captured appraised value of property taxable by a taxing unit in a tax increment financing zone for which 2021 taxes were deposited into the tax increment fund. ⁵ If the taxing unit has no captured appraised value in line 18D, enter 0.	\$ 1,408,396,047
14.	2021 total value. Subtract Line 12 and Line 13 from Line 8.	\$ 26,845,356,950
15.	Adjusted 2021 total levy. Multiply Line 4 by Line 14 and divide by \$100.	\$ 166,387,522
16.	Taxes refunded for years preceding tax year 2021. Enter the amount of taxes refunded by the taxing unit for tax years preceding tax year 2021. Types of refunds include court decisions, Tax Code Section 25.25(b) and (c) corrections and Tax Code Section 31.11 payment errors. Do not include refunds for tax year 2021. This line applies only to tax years preceding tax year 2021. ⁶	\$ 418,309
17.	Adjusted 2021 levy with refunds and TIF adjustment. Add Lines 15 and 16. ⁷	\$ 166,803,31
18.	Total 2022 taxable value on the 2022 certified appraisal roll today. This value includes only certified values or certified estimate of values and includes the total taxable value of homesteads with tax ceilings (will deduct in Line 20). These homesteads include homeowners age 65 or older or disabled. ⁸	
	A. Certified values:	\$ 34,425,806,976
	B. Counties: Include railroad rolling stock values certified by the Comptroller's office:.....	+ \$ 0
	C. Pollution control and energy storage system exemption: Deduct the value of property exempted for the current tax year for the first time as pollution control or energy storage system property:.....	- \$ 0
	D. Tax increment financing: Deduct the 2022 captured appraised value of property taxable by a taxing unit in a tax increment financing zone for which the 2022 taxes will be deposited into the tax increment fund. Do not include any new property value that will be included in Line 23 below. ⁹	- \$ 2,352,948,995
	E. Total 2022 value. Add A and B, then subtract C and D.	\$ 32,072,857,981

19.	Total value of properties under protest or not included on certified appraisal roll. ¹³	
A.	2022 taxable value of properties under protest. The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value under protest. ¹⁴	\$ 876,912,658
B.	2022 value of properties not under protest or included on certified appraisal roll. The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about but are not included in the appraisal roll certification. These properties also are not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. Use the lower market, appraised or taxable value (as appropriate). Enter the total value of property not on the certified roll. ¹⁵	+ \$ 551,979,451
C.	Total value under protest or not certified. Add A and B.	\$ 1,428,892,109
20.	2022 tax ceilings. Counties, cities and junior colleges enter 2022 total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. Other taxing units enter 0. If your taxing unit adopted the tax ceiling provision in 2021 or a prior year for homeowners age 65 or older or disabled, use this step. ¹⁶	\$ 3,324,136,704
21.	2022 total taxable value. Add Lines 18E and 19C. Subtract Line 20. ¹⁷	\$ 30,177,613,386
22.	Total 2022 taxable value of properties in territory annexed after Jan. 1, 2021. Include both real and personal property. Enter the 2022 value of property in territory annexed. ¹⁸	\$ 0
23.	Total 2022 taxable value of new improvements and new personal property located in new improvements. New means the item was not on the appraisal roll in 2021. An improvement is a building, structure, fixture or fence erected on or affixed to land. New additions to existing improvements may be included if the appraised value can be determined. New personal property in a new improvement must have been brought into the taxing unit after Jan. 1, 2021 and be located in a new improvement. New improvements do include property on which a tax abatement agreement has expired for 2022. ¹⁹	\$ 440,588,000
24.	Total adjustments to the 2022 taxable value. Add Lines 22 and 23.	\$ 440,588,000
25.	Adjusted 2022 taxable value. Subtract Line 24 from Line 21.	\$ 29,737,025,386
26.	2022 NNR tax rate. Divide Line 17 by Line 25 and multiply by \$100. ²⁰	\$ 0.560930 /\$100
27.	COUNTIES ONLY. Add together the NNR tax rates for each type of tax the county levies. The total is the 2022 county NNR tax rate. ²¹	\$ 0 /\$100

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

Line	Voter-Approval Tax Rate Worksheet	Amount/Rate
28.	2021 M&O tax rate. Enter the 2021 M&O tax rate.	\$ 0.409800 /\$100

SECTION 3: NNR Tax Rate and Voter-Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

Line	Additional Sales and Use Tax Worksheet	Amount/Rate
51.	Taxable Sales. For taxing units that adopted the sales tax in November 2021 or May 2022, enter the Comptroller's estimate of taxable sales for the previous four quarters. ²⁸ Estimates of taxable sales may be obtained through the Comptroller's Allocation Historical Summary webpage. Taxing units that adopted the sales tax before November 2021, enter 0.	\$ <u>0</u>
52.	Estimated sales tax revenue. Counties exclude any amount that is or will be spent for economic development grants from the amount of estimated sales tax revenue. ²⁹ Taxing units that adopted the sales tax in November 2021 or in May 2022. Multiply the amount on Line 51 by the sales tax rate (.01, .005 or .0025, as applicable) and multiply the result by .95. ³⁰ - or - Taxing units that adopted the sales tax before November 2021. Enter the sales tax revenue for the previous four quarters. Do not multiply by .95.	\$ <u>0</u>

57.	2022 voter-approval tax rate, unadjusted for sales tax. ³⁶ Enter the rate from Line 49, Line D49 (disaster) or Line 50 (counties) as applicable, of the <i>Voter-Approval Tax Rate Worksheet</i> .	\$ <u>0</u> /\$100
58.	2022 voter-approval tax rate, adjusted for sales tax. Subtract Line 54 from Line 57.	\$ <u>0</u> /\$100

SECTION 4: Voter-Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

Line	Voter-Approval Rate Adjustment for Pollution Control Requirements Worksheet	Amount/Rate
59.	Certified expenses from the Texas Commission on Environmental Quality (TCEQ). Enter the amount certified in the determination letter from TCEQ. ³⁷ The taxing unit shall provide its tax assessor-collector with a copy of the letter. ³⁸	\$ <u>0</u>

Appendices

SECTION 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the difference between the adopted tax rate and voter-approval tax rate before the unused increment rate for the prior three years.³⁹ In a year where a taxing unit adopts a rate by applying any portion of the unused increment rate, the unused increment rate for that year would be zero.

The difference between the adopted tax rate and voter-approval tax rate is considered zero in the following scenarios:

- a tax year before 2020;⁴⁰
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a);⁴¹ or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval.⁴²

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit.⁴³

Line	Unused Increment Rate Worksheet	Amount/Rate
63.	2021 unused increment rate. Subtract the 2021 actual tax rate and the 2021 unused increment rate from the 2021 voter-approval tax rate. If the number is less than zero, enter zero.	\$ 0.002256 /\$100
64.	2020 unused increment rate. Subtract the 2020 actual tax rate and the 2020 unused increment rate from the 2020 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2021, enter zero.	\$ 0.062582 /\$100
65.	2019 unused increment rate. Subtract the 2019 actual tax rate and the 2019 unused increment rate from the 2019 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2021, enter zero.	\$ 0 /\$100
66.	2022 unused increment rate. Add Lines 63, 64 and 65.	\$ 0.064838 /\$100
67.	2022 voter-approval tax rate, adjusted for unused increment rate. Add Line 66 to one of the following lines (as applicable): Line 49, Line D49 (disaster), Line 50 (counties), Line 58 (taxing units with the additional sales tax) or Line 62 (taxing units with pollution control).	\$ 0.664973 /\$100

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.⁴⁴

This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit.⁴⁵

Line	De Minimis Rate Worksheet	Amount/Rate
68.	Adjusted 2022 NNR M&O tax rate. Enter the rate from Line 39 of the <i>Voter Approval Tax Rate Worksheet</i>	\$ 0 /\$100
69.	2022 total taxable value. Enter the amount on Line 21 of the <i>No-New-Revenue Tax Rate Worksheet</i> .	\$ 0
70.	Rate necessary to impose \$500,000 in taxes. Divide \$500,000 by Line 69 and multiply by \$100.	\$ 0 /\$100
71.	2022 debt rate. Enter the rate from Line 48 of the <i>Voter-Approval Tax Rate Worksheet</i> .	\$ 0 /\$100
72.	De minimis rate. Add Lines 68, 70 and 71.	\$ 0 /\$100

SECTION 7: Voter-Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁴⁶

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁴⁷

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago.

⁴⁵ Tex. Tax Code §26.063(a)(1)
⁴⁶ Tex. Tax Code §26.042(b)
⁴⁷ Tex. Tax Code §26.042(f)

Appendices

This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).

Line	Emergency Revenue Rate Worksheet	Amount/Rate
73.	2021 adopted tax rate. Enter the rate in Line 4 of the <i>No-New-Revenue Tax Rate Worksheet</i> .	\$ 0 /\$100
74.	Adjusted 2021 voter-approval tax rate. Use the taxing unit's Tax Rate Calculation Worksheets from the prior year(s) to complete this line. If a disaster occurred in 2021 and the taxing unit calculated its 2021 voter-approval tax rate using a multiplier of 1.08 on Disaster Line 41 (D41) of the 2021 worksheet due to a disaster, enter the 2021 voter-approval tax rate as calculated using a multiplier of 1.035 from Line 49. - or - If a disaster occurred prior to 2021 for which the taxing unit continued to calculate its voter-approval tax rate using a multiplier of 1.08 on Disaster Line 41 (D41) in 2021, complete the separate <i>Adjusted Voter-Approval Tax Rate for Taxing Units in Disaster Area Calculation Worksheet</i> to recalculate the voter-approval tax rate the taxing unit would have calculated in 2021 if it had generated revenue based on an adopted tax rate using a multiplier of 1.035 in the year(s) following the disaster. ⁴⁸ Enter the final adjusted 2021 voter-approval tax rate from the worksheet. - or - If the taxing unit adopted a tax rate above the 2021 voter-approval tax rate without calculating a disaster tax rate or holding an election due to a disaster, no recalculation is necessary. Enter the voter-approval tax rate from the prior year's worksheet.	\$ 0 /\$100
75.	Increase in 2021 tax rate due to disaster. Subtract Line 74 from Line 73.	\$ 0 /\$100
76.	Adjusted 2021 taxable value. Enter the amount in Line 14 of the <i>No-New-Revenue Tax Rate Worksheet</i> .	\$ 0
77.	Emergency revenue. Multiply Line 75 by Line 76 and divide by \$100.	\$ 0
78.	Adjusted 2022 taxable value. Enter the amount in Line 25 of the <i>No-New-Revenue Tax Rate Worksheet</i> .	\$ 0
79.	Emergency revenue rate. Divide Line 77 by Line 78 and multiply by \$100. ⁴⁹	\$ 0 /\$100
80.	2022 voter-approval tax rate, adjusted for emergency revenue. Objective 1: Address General Disparities

	Project	Performance Measure(s)	Department(s)
BU 1.1.1	Unity Council Recommendation – Establish Permanent Unity Council		City Manager’s Office

Summary:

On June 23, 2020, the Arlington City Council created the Unity Council made up of the fifteen (15) members of the City’s Community Relations Commission and fifteen (15) additional members appointed by the Mayor and Council members. The Unity Council began meeting in July of 2020 and presented its recommendations to the City Council in February 2021.

Recommendations 1.1.A and 5.6.A both called for the establishment of a permanent Unity Council to be a part of the City’s standing boards and commissions.

The permanent Unity Council is a nine-member body which has a membership that aligns with the diversity of the city. The Unity Council will meet monthly and report to the City Council on a bi-annual basis on its work and progress. The City Council also asked that the Unity Council act as the body referenced in recommendation 5.6.B to create an independent MWBE public oversight committee chosen by the City Council.

The City Council has asked the Unity Council to establish performance measures that will allow the City Council to review progress on the work being done on equity in Arlington.

Milestone	Status
Council gives direction to staff on make-up and charge of Unity Council	Completed May 4, 2021
Adopt section 3.09 titled “Unity Council” to the Administration Ordinance	Completed June 15, 2021
Appoint nine Unity Council members	Completed August 24, 2021
First meeting of the Unity Council	Completed October 13, 2021

Objective 1: Address General Disparities

	Project	Performance Measure(s)	Department(s)
BU 1.1.2	Unity Council Recommendation – Citizen Survey Enhancement		Finance

Summary:

On June 23, 2020, the Arlington City Council created the Unity Council tasked with creating an equity plan which includes strategies to eliminate racism and other forms of discrimination and to advance unity in Arlington. The Unity Council began meeting in July of 2020 and presented its recommendations to the City Council in February 2021.

One finding of the Unity Council was that the “City of Arlington needs an adequate data source for monitoring racial and ethnic disparities.” To address this, the Unity Council recommended to “Enhance Arlington’s “City Services Satisfaction Surveys” to include a wider range of important variables such as race/ethnicity, income, and education.”

These efforts will be undertaken in FY 2022 in preparation for the 2021 City Services Satisfaction Survey.

Update:

The final 2021 City Services Satisfaction Survey report was delivered in April and presented to the management team on May 4, 2022. The increased sample size led to a significant increase in responses allowing for nearly all survey questions to be reported out by race/ethnicity.

Milestone	Estimated Completion	Actual Completion
Work with Survey Consultant to Enhance Survey	11/30/2021	09/10/2021
Gather Feedback on Survey Enhancements	12/31/2021	01/03/2022
2021 Survey Preparation	02/28/2022	01/31/2022
Conduct 2021 Survey	03/31/2022	03/14/2022
Present 2021 Survey Response	04/30/2022	05/04/2022

Objective 1: Address General Disparities

	Project	Performance Measure(s)	Department(s)
BU 1.1.3	Unity Council Recommendation – Via Reduced Fare Pilot Program	Launch pilot and monitor use	Office of Strategic Initiatives

Summary:

This item supports the Council's "Enhancing Regional Mobility" priority and the Unity Council's recommendations by improving affordability on the Via On-Demand Rideshare service.

The Unity Council Report recommended a free or reduced fare pilot program on the Via rideshare service in several sections. Per this recommendation, the City is working with Arlington nonprofit organizations to provide promo codes for free rides on Via, which the nonprofit partners can distribute as needed to their clients. Additionally, a draft program for a reduced fare pilot program has been drafted. If approved by City Council, the program will offer reduced fare Via rides to certain individuals who qualify such as low-income residents, children aged 13-18, seniors 65 and over, people with disabilities, and veterans.

Update:

The City is currently working with a number of nonprofit organizations to provide free rides on Via to their clients. At the end of the 4th quarter of FY 2022, a total of 25 nonprofit organizations are participating in the program, and over 900 rides have been taken as part of this program, since launch in March 2021.

Milestone	Estimated Completion	Actual Completion
Launch Nonprofit Partnership	Mar. 2021	Mar. 2021
Develop Reduced Fare Pilot	Spring 2023	
Assess Nonprofit Partnership and Reduced Fare Pilot	Spring 2023	
Report to Council	Summer 2023

Objective 1: Address General Disparities

	Project	Performance Measure(s)	Department(s)
BU 1.1.4	Unity Council Recommendation – Anti-Poverty Programs in Targeted Neighborhoods		City Manager’s Office

Summary:

On June 23, 2020, the Arlington City Council created the Unity Council made up of the fifteen (15) members of the City’s Community Relations Commission and fifteen (15) additional members appointed by the Mayor and Council members. The Unity Council began meeting in July of 2020 and presented its recommendations to the City Council in February 2021.

Recommendation 1.5.A directed the City to establish anti-poverty programs in targeted neighborhoods that focus on job training, community clean-up as well as public and private investments.

This recommendation will be the responsibility of the Chief Equity Officer working with their team, the larger organization, and outside partners. Recruiting for the Chief Equity Officer position began in November 2021 with the final stage of interviews taking place in May 2022.

Update:

The Chief Equity Officer continues to work with Grants Unit to review the City's CDBG and MWBE programs to identify and implement program enhancements. We held our annual grant proposal workshop and had more than 100 attendees, with more than 40% of the attendees being first time applicants, expanding our capacity and reach. The Equity Office also partnered with Housing and the United Way to establish an Arlington Financial Stability Committee, focused on financial education, affordable housing, homeownership, and access to business capital.

Chief Equity Officer is initiating partnerships with the Central South Carpenters & Millwrights Training Trust Fund, to expand career opportunities for underserved.

Build Unity

Objective 1: Address General Disparities

Project		Performance Measure(s)	Department(s)
BU 1.1.5	Unity Council Recommendation – Diversity Communication & Outreach		Communication & Legislative Affairs

Summary:

The City of Arlington is committed to producing communications, marketing and outreach materials that are representative of the 8th most diverse community in the country, according to a report by WalletHub. Led by the City’s Office of Communication, this organizational effort will be implemented through content produced on the City’s website, social media pages and video programming. The City will also continue to promote and encourage greater inclusivity, equity, and access to important services and to make sure we are reaching as many residents as possible through all Office of Communication channels and platforms. This includes Facebook, Twitter, Instagram, Nextdoor, LinkedIn, the government cable channel and the City’s YouTube channel. It also includes in-person communication and relationship building, a key component to building trust with underrepresented groups in our community.

Update:

The Office of Communication delivered a “Budget in Action” series fully in Spanish which included weekly Facebook Lives and several informational graphics. The Hispanic Heritage month coverage from September 15th – October 15th was a success; we delivered several content items in both English and Spanish.

The Office of Communication also launched new programming called “Aging Well Arlington,” a video segment in English and Spanish, that promotes and highlights services, programs, and resources available in the City for residents 50+. We are still working in the intro for the video segment, which will be delivered monthly.

Milestone	Target Date	Status
Create internal working group of staff member representative of Arlington’s diversity	4 th Qtr. FY 2020	100%
Regularly translate and create original content in Spanish and/or Vietnamese	2 nd Qtr. FY 2021	100% and ongoing
Showcase more of Arlington’s cultural diversity in City-produced communication	3 rd Qtr. FY 2021	100% and ongoing
Increase outreach to minority communities to inform them about Board and Commissions applications	3 rd Qtr. FY 2023	100%
Increase distribution of content and information about city services to key advocates in Arlington’s Black, Latino, and Vietnamese community	3 rd Qtr. FY 2022	75%
Improve outreach to people with disabilities and increase the number of stories showcasing their success on the City’s website, social media, and video programming	1 st Qtr. FY 2023	25%
Improve outreach to seniors through the City’s communication channels and support the marketing efforts and promotion of Arlington’s new Active Adult Center	2 nd Qtr. FY 2023	25%

Objective 2: Address Housing Disparities

Project		Performance Measure(s)	Department(s)
BU 1.2.1	Unity Council Recommendation – UDC Amendment for Infill and Redevelopment Standards	Project Completion	Planning & Development Services

Summary:

Recent cases coming before City Council have shown that the latest residential subdivision formats and housing product trends are unable to meet the City's lot dimensional or design standards. Council asked staff to take a surgical approach to the UDC provisions and make amendments such that some flexibility is created for infill developments/redevelopments.

At the Council Retreat held on April 30, Council discussed the project scope in greater depth.

SCOPE:

- Residential standards (SF and MF)
- Redevelopment/additions/renovations to homes/developments built earlier than 1984
- Citywide: encouraging teardowns of “under-demolished” properties/ incentives/covenants for long-term maintenance
- Allowing creativity/flexibility
- Encouraging home ownership
- Generational housing within a development
- Allowing different ownership models all on one parcel

The Focus Group consists of nine persons representing the Planning Commission, the Unity Council, the Arlington Board of Realtors, the HANA neighborhood, Downtown Arlington, production homebuilders, and multi-family developers.

Update:

During the Town Hall findings report back to City Council on August 23, 2022, Council directed Staff to pause the project for six months.

Milestone	Estimated Completion	Actual Completion

Build Unity

Goal 1: Implement Strategies to Eliminate Racism and Other Forms of Discrimination and to Advance Unity in Arlington

Objective 2: Address Housing Disparities

	Project	Performance Measure(s)	Department(s)
BU 1.2.2	Unity Council Recommendation – Affordable Housing Tools	Development of housing strategy to guide which tools to use to achieve City Council’s affordable housing goals	Housing

Summary:

Based on discussions with Community and Neighborhood Development Committee and the Arlington Housing Finance Corporation board, staff was directed to contract with a consultant to provide a menu of tools for use in the development, retention, or conversion of affordable housing. The strategy should include recommendations on which tools are suited to which affordable housing goals.

An ad hoc Council committee on project-based vouchers has asked that the Arlington Housing Authority Board of Commissioners move forward with developing an RFP for Project Based Vouchers (PBV) that will focus on the use of PBVs for demolition and rebuilding of affordable multi-family developments for buildings constructed before 1985 and major renovations on those constructed later.

The City Council may consider the creation of a Housing Strategic Plan.

Update:

During the 4th quarter, staff shared modifications to the application and review process to further the goals of Council and the Task Force.

TIMELINE

1st Qtr. FY 2022:

- ❖ The HTC Task Force was formulated
- ❖ Arlington Housing Authority will develop and issue and RFP for project-based vouchers

2nd Qtr. FY 2022:

- ❖ The HTC Task Force has a series of meetings scheduled to review available affordable housing tools and make recommendations to City Council and the AHFC board about the appropriate time to use each
- ❖ Develop communication for use with the development community related to the housing strategy
- ❖ Develop evaluation tool to use with development proposals to determine recommended housing tools

3rd Qtr. FY 2022:

- ❖ Review HTC Task Force policy recommendations with Community and Neighborhood Development Committee, Arlington Housing Finance Corporation and City Council.
- ❖ Legal recommended achieving the goals of the Task Force through modifications to the application and review process, versus changing the policy so soon after DOJ’s approval.

4th Qtr. FY 2022:

- ❖ Modify the application and review process to achieve City Council and the Task Force’s goals.

Objective 2: Address Housing Disparities

	Project	Performance Measure(s)	Department(s)
BU 1.2.5	Unity Council Recommendation – Determine Possible Reasons for the Results of Current Housing Maps by Race and Ethnicity		Housing
<p><u>Summary:</u></p> <p>During the Housing Subcommittee discussions with realtors, attention was given to maps that were created to show areas by race and ethnicity. Possible causes were identified; however, more research is needed to clarify the underlying causes that resulted in the lack of diversity in some Arlington neighborhoods, and to ensure any barriers to diverse neighborhoods are identified and eliminated.</p> <p><u>Update:</u></p> <p>Research did not identify further or continued root causes resulting in less than diverse neighborhoods that occurred decades ago. With the current shortage of housing and affordable housing in particular, Housing Dept finds that households are renting where they can find vacancies, with less emphasis on making choices between various units or between locations. When Housing clients discuss their housing choices, they often select locations based on where their families are or have been located, to increase the family supports available. The consistent barrier to housing choice, other than supply, is household income. If household income continues to be less than equal among races and ethnicities, choices will continue to be limited as well.</p> <p>Staff updated the Unity Council in June 2022 and council members agreed that no further research was needed at this time on this plan element.</p>		<p>TIMELINE</p> <p>2nd Qtr. FY 2022:</p> <ul style="list-style-type: none"> ❖ Conduct further research into the root causes that resulted in less than diverse neighborhoods. ❖ Determine if any causes still exist today. ❖ If so, develop recommended actions to overcome these barriers.

BU 1.2.6	Unity Council Recommendation – Ensure Adequate Housing Inventory is Available, Affordable and Accessible for all Income Levels	Progress toward affordable housing needs identified in the Housing Needs Analysis	Housing
<p><u>Summary:</u></p> <p>In addition to the more traditional products, the City needs a variety of housing affordability types to included < 30% AMI units and units to meet the needs of the “missing middle” or those over income for more traditional housing services, yet still low income.</p> <p>Additional research into the barriers to affordable housing should be completed, with recommendations and strategies to overcome these barriers.</p> <p><u>Update:</u></p> <p>During the 4th quarter FY 2022: affordability of this existing development.</p> <ul style="list-style-type: none"> • City Council approved a zoning change for land that is proposed to be developed for mixed income housing with 51% of units reserved for households earning less than 80% of the area median income. The developer will continue conversations with the AHFC related to this development in the first quarter of FY 2023. 		<p>TIMELINE</p> <p>1st Qtr. FY 2022:</p> <ul style="list-style-type: none"> ❖ Research the viability of including household debt in the evaluation of housing cost burden. Not viable in the short term. ❖ Research best practices used in other cities to evaluate housing cost burden and report findings to the CND committee. Complete, however, communities in general use the HUD definition of housing cost burden where housing costs exceed 30% of income. ❖ Research the commonality of additional fees required for tenancy in addition to rent to owner and traditional utilities. Ongoing, and thus far, widespread. <p>2nd Qtr. FY 2022:</p> <ul style="list-style-type: none"> ❖ Evaluate possible solutions to the lack of housing affordability through the lens of factors other than rent to owner. ❖ Using data in the Housing Needs Analysis and debt burden data, redefine the housing need and target solutions to the gap between availability and need. The Housing Tax Credit Task Force provided recommendations to the Housing Tax Credit Policy to encourage mixed income developments to include units affordable to households under 50% AMI – a significant need identified by the Housing Needs Analysis. ❖ Implement the use of affordable housing tools in meeting the housing needs identified. The Housing Tax Credit Task Force’s work identifies processes to use available affordable housing tools.

	Project	Performance Measure(s)	Department(s)
BU 1.3.1	Unity Council Recommendation – Private Investment – SiFi Network	Completion of citywide broadband network	Asset Management, Planning & Development Services, and Economic Development

Summary:

In Summer 2021, the City Council approved a license agreement with SiFi Networks to that grants it access to use the Public Right-of-Way to install, operate, and maintain a citywide fiber optic network system. Additionally, SiFi will seek and contract with Internet Service Providers to offer internet service over the system to residents and businesses.

The network system would be comprised of 10.2 million linear feet of fiber, underground chambers, above-ground cabinets, and shelters. SiFi projects installing fiber optic cable adjacent to approximately 156,000 residential and 16,000 business premises once the network is complete. When a homeowner or business owner becomes a paid subscriber, then connection is made from the network to the premises.

Update:

In the 4th quarter, staff continued to work with SiFi and their contractors to assist them with understanding City standards and processes for the project. Additionally, staff proposed implementing a right-of-way permit fee to help with recovering staff's time in reviewing and approving the engineering and construction documents for the installation of the network.

Milestone	Estimated Completion	Actual Completion
City Council Approval of License Agreement	Spring 2021	May 2021
Execution of Agreement	Summer 2021	July 2021
Pilot Project	Summer 2021	Sept. 2021
Creation of Escrow Account	4 th Qtr. FY 2022	
Develop Communications Plan	4 th Qtr. FY 2022

	Project	Performance Measure(s)	Department(s)
BU 1.3.2	Unity Council Recommendation – Arlington Smart Lighting & Municipal Wi-Fi	Project completion by the federal deadline for CARES Act Coronavirus Relief Funds (CRF)	IT and PWT

Summary:

The City has started an initiative to build a Wireless Lighting Controls and Public Access Wi-Fi network to provide free Internet Access to designated areas within the City. Our IT Department will be expanding the City provided Wi-Fi services to the designated neighborhood locations.

Some of the specific requirements of the project are:

- Deploy outdoor Municipal Wi-Fi network
- Remotely control luminaires in a lighting network
- Remote control system for monitoring, metering, and managing a lighting network
- Monitor operating status, energy consumption, and possible failures.

Update:

The project was successfully completed by a joint effort of the Public Works team, the IT Network team, and the vendor, SmartWave. The Wireless Lighting Controls and Public Access Wi-Fi network is currently operational and being actively monitored.

Milestone	Estimated Completion	Status
Network Planning Phase	2 nd Qtr. FY 2021	Complete
Network Design Phase	3 rd Qtr. FY 2021	Complete
Purchase Equipment	3 rd Qtr. FY 2021	Complete

Project		Performance Measure(s)	Department(s)
BU 1.3.3	Unity Council Recommendation – Chromebook/Hotspot Checkout & Digital Literacy	<ul style="list-style-type: none"> • Circulation of technology • #of Programs • #of Attendees 	Library

Summary:

Closing the digital divide is essential to provide economic opportunities for residents, and the residents with the greatest needs are those living in the 76010 zip code. ESRI Electronics and Internet Market Potential study on the four main census tracts in this area, only 51% of households own a computer. Library data on internet usage by library branch also shows that 16% of all computer sessions among the seven library locations were at the East Library and Recreation Center (ELaRC), confirming that this community uses the library as a place with secure, reliable computer access.

The final phase of the FY 2021 Innovation Zone grant funded the purchase of 200 Chromebook laptops currently available for checkout by the public at ELaRC. The ability to offer hotspots for check out are under investigation and it's hoped that this can be included in the Chromebook kit. This service is accessible to anyone with a library card.

Getting technology into their hands is only the first step. The Library will also provide digital literacy programs to help people move beyond just social media and google. Workshops will help participants learn how to:

- locate trustworthy and reliable information.
- understand good digital citizenship (appropriate, safe, and responsible use of the internet and technology).
- unlock new learning potentials and explore a wide range of topics.
- learn new workforce skills to help better their job opportunities.

While this is only 200 laptops, the marriage between providing access to technology and knowledge a person previously did not have access can only help them achieve their desire to learn and improve their access to new opportunities.

Circulation of Chromebooks Kits

Digital Literacy Programs Offered

Update:

Circulation of Chromebook kits = 299 checkouts
Hotspot checkout = 444 checkouts

In the 4th quarter, the library continued to share information about Digital Literacy classes and programs at several community events and locations, including Canales Furniture, Vietnamese Martyrs Catholic Church, Arlington Urban Market, and Mid-Autumn Festival in Asia Times Square. In addition to the stand-alone classes, Digital Literacy instruction was incorporated into the existing Adult Education classes to support the students who lacked digital literacy skills. Digital Literacy instruction was included in Citizenship classes, Workplace Literacy, and English as a Second language.

A total of 12 programs with a total attendance of 51 students.

DigitAll: Computers. Work Skills. Life

- Getting Started with Google Drive
- Digital Literacy – NorthStar
- Learning how to type for beginners
- Graphic Design Basics
- Busqueda de trabajo
- Seguridad en internet
- Conceptos basicos de la computadora

BU 1.3.4	Unity Council Recommendation – Creating Centralized Location for Educational Resources and Assistance		City Manager’s Office

Summary:

On June 23, 2020, the Arlington City Council created the Unity Council made up of the fifteen (15) members of the City’s Community Relations Commission and fifteen (15) additional members appointed by the Mayor and Council members. The Unity Council began meeting in July of 2020 and presented its recommendations to the City Council in February 2021.

Recommendation 3.2.A suggested the creation of the Community-Outreach-Networking-Empowerment-Communication-Tool (CONNECT) – a centralized location for resources and assistance.

Chief Equity Officer will convene a working group of K-12 to explore this recommendation. Recruiting for the Chief Equity Officer position began in November 2021.

Mayor Jim Ross also convened an Education Coalition meant to provide a conduit for sharing thoughts and ideas, tearing down barriers and building relationships among community educators. Their four goals include raising academic achievements, reinforcing educational possibilities, connecting every child and family to equal educational opportunities, and establishing a citywide recognition and campaign to demonstrate the community’s commitment to education.

Update:

The Chief Equity Officer met with AISD in September 2022. The Chief Equity Officer has also met with the Mayor’s Education Coalition and is building relationships to advance these objectives.

Summary:

On June 23, 2020, the Arlington City Council created the Unity Council made up of the fifteen (15) members of the City’s Community Relations Commission and fifteen (15) additional members appointed by the Mayor and Council members. The Unity Council began meeting in July of 2020 and presented its recommendations to the City Council in February 2021.

Recommendation 3.7.A focused on adding programs and resources such as college advisors and internship programs.

The Chief Equity Officer will convene a working group of K-12 and higher education institutions to explore this recommendation and examine ways to work with the NLC Post-Secondary Basic Needs group, composed of the City, United Way, TCC and UTA. This group is looking at this and is connecting with ISDs that serve Arlington. Their work will continue for another 12-18 months with a goal to meet the needs of post-secondary students and keep them in school so they can graduate with degrees or certificates.

Mayor Jim Ross also convened an Education Coalition meant to provide a conduit for sharing thoughts and ideas, tearing down barriers and building relationships among community educators. Their four goals include raising academic achievements, reinforcing educational possibilities, connecting every child and family to equal educational opportunities, and establishing a citywide recognition and campaign to demonstrate the community’s commitment to education.

	Project	Performance Measure(s)	Department(s)
BU 1.5.1	Unity Council Recommendation – Implement Formal MWBE Program	MWBE Participation	Office of Business Diversity

Summary:

Based on the recommendations from the City’s Availability & Disparity Study consulting firm CH Advisors, the city is implementing a MWBE Program Policy and Administration manual. The manual will provide information on the city department’s role to increase MWBE participation, City’s overall and project specific goals, MWBE contract compliance, prime contractor/consultant’s MWBE utilization, payment, etc.

Additional staff will be hired, and a MWBE compliance tracking & reporting software implemented to ensure prime meet their committed MWBE goals throughout the project.

Update:

MWBE compliance tracking, and reporting software has been implemented. All formal contracts are reported through the system. OBD has also hired a third MWBE coordinator, completing the team.

There have been increased outreach efforts to encourage participation and responsiveness to bid opportunities. OBD has initiated scheduled debriefings with the vendor community to discuss their approach and encourage future participation. Monthly webinars on financial literacy, bonding capacity and upcoming opportunities have been incorporated, as well as a quarterly “Lunch & Learn” series focusing on various topics. OBD has also contracted SSP Consulting to assist with the external outreach efforts.

The team is also in the process of working with city departments on training opportunities and implementing best practices to include MWBE’s in the city’s procurement policies.

Milestone	Estimated Completion	Actual Completion
All formal contracts with project specific goals will be reported on B2Gnow	Mar. 2022	Dec. 2021
Host MWBE Program Introductory event	Dec. 2022	Jan. 2022
Conduct Doing Business workshop with minority chambers and business advocacy groups once a year	Sept. 2022	Ongoing – Initiated Jan. 2022
Work with Parks, PWK and Water Dept. to host Proposal Preparation workshop prior to Annual RFQ	Aug. 2022	Oct. 2022

Build Unity

Goal 1: Implement Strategies to Eliminate Racism and Other Forms of Discrimination and to Advance Unity in Arlington

Objective 6: Address Policing and Criminal Justice Disparities

Project		Performance Measure(s)	Department(s)
SYF 1.6.1	Unity Council Recommendation – Youth Investment Programs	Volunteer and participation hours	Police
<p><u>Summary:</u></p> <p>In the last several years, the national media has highlighted stories showing the lack of trust between the community, especially the youth, and their police departments. Nationally, youth mentoring programs consisted with effective implementation of the President’s Task Force on 21st Century Policing offer promising approaches to building trust. The department is one of 15 cities participating in the 21st Century Policing program to serve as a model of community policing for other police departments. The department continues to be focused on youth engagement and has increased programs to directly engage the youth of the City.</p> <p>The following are the programs in the department dedicated to increasing youth engagement: Police Explorer: Program aimed at giving teens exposure to law enforcement careers through competition headed up by local law enforcement officers.</p> <ul style="list-style-type: none"> • Police Activities League (PAL): Youth crime prevention program that uses recreational activities to create trust and understanding between youth and police officers. • Coach 5-0 Program: In partnership with AISD, officers assist in coaching athletics and attend the students’ games. • Mentoring Arlington Youth (MAY) Program: Mentoring program for middle school boys and girls. • Hometown Recruiting Program: Based in AISD high schools, this program relies on volunteers from the department to assist in real training scenarios for future APD officers. • Geographic/Community Partnerships: Providing neighborhood-centric opportunities allow for communities to tailor education and mentorship activities within areas of the city. Partnerships with groups like AISD Elementary School Mentoring and the Boys and Girls Club of Arlington are examples of such partnerships. 		<p>Explorers – In July, 7 Explorers assisted with the 4th of July Parade, ensuring that traffic flowed in and out of the UTA parking lots south of the parade float staging area. Their assistance was vital to the overall success of the parade traffic plan. Explorers also participated in Rescue Task Force training, serving as actors for the joint exercise with APD and AFD.</p> <p>Four Explorers also participated in Southeastern Law Enforcement Explorer Academy, in Gulfport, Ms. These Explorers, Josue and Naylet Tafoya, William Hodges, and Abigail Mize, were challenged both physically and intellectually. The Explorers participated in daily PT, drill and marching, law enforcement related classes, and an introductory level competition. This academy is an excellent leadership development opportunity for the Explorers. They develop skills, relationships and memories that will last a lifetime.</p> <p>PAL – 31 campers from the summer camps were selected for the year-round PAL program. The campers were selected based on recommendations from the School Resources Officers of campers that might need a little extra attention. This could be due to behavioral problems, confidence issues, depression, home life, etc. 24 of these campers attended the first year-round activity in August. The event was held at Trinity United Methodist Church and participants played team-building games, volleyball, basketball, and hockey. The event ended with a discussion about challenges and expectations for the start of the new school year. The second event is scheduled for Saturday, October 15th.</p> <p>Hometown Recruiting – The partnership with AISD, UTA and TCC continues to provide youth enrolled in the Hometown Recruiting Program with a unique opportunity to learn about the law enforcement profession.</p> <p>During the 4th quarter, The APD Hometown Recruiting Program has focused on the introductory curriculum to the course. The remainder of the summer workouts were completed during July. Upon school starting, students have focused on completing the introductory material for the course. This includes Constitutional Law, Penal Code, ASP</p>	

	<p>Handcuffing, Search & Seizure, and Gracie Survival Tactics Training.</p> <p>HRP is scheduled to begin using the East Library and Recreation Center for physical training this fall. The Parks and Rec Department has allowed HRP to use their exterior HIIT Training area and equipment, weight room, and pool. HRP members will be volunteering with this facility for events planned this fall.</p> <p>Boys and Girls and APD – On August 4th, the second session of Boys and Girls Club and APD culminated with a graduation at the Kromer Branch. Over 100 kids participate in the summer program. Each child received a certificate for their participation in the program. There were 9 total events from June 8-August 4 consisting of several different topics such as: 911 Topic/Different jobs in policing, K9 Display, Crime Scene Day, Fire and EMS Display, Traffic Enforcement/DWI/Motors, Activities Day- Dodgeball and games, Career Exploration, Kick off/Closing Events including SWAT and Mounted Unit. SRO leadership is meeting with a Boys and Girls Club director this month to start planning our Spring Program that will be held at the East Branch.</p>

Goal 1: Implement Strategies to Eliminate Racism and Other Forms of Discrimination and to Advance Unity in Arlington

Objective 6: Address Policing and Criminal Justice Disparities

Project		Performance Measure(s)	Department(s)
BU 1.6.2	Unity Council Recommendation – Enhance Community Policing		Police
<p><u>Summary:</u></p> <p>The department regularly attends events in the community, and they are highlighted weekly with calendar invites so officers and leaders can attend them. Newly hired officers participate in community projects throughout their academy instruction experience. Upon graduation, they are assigned to field training. As a revamp to the departments’ field training program, APD will look for ways to have recruit officers and their training officers participate in more community events, visit stores, and restaurants in the beat areas that they will be assigned to, developing a deeper relationship with community members and businesses.</p> <p>The Police Department strives to recruit diverse officers to serve in field training roles. This commitment to diversifying training options for field officers will continue. More importantly, cultural diversity and relational policing priorities will be developed in officers who serve the community. Newly hired officers participate in community projects throughout their academy instruction experience. Upon graduation, they are assigned to field training.</p> <p><u>Update:</u></p> <p>APD recruit class 59 attended a panel on policing in African American Communities, and Class 60 is scheduled to receive the same panel plus policing in Hispanic communities including a session with a guest speaker from Arlington NAACP.</p> <p>Class 60 had the following 3 community panels all designed to expose the recruits to different cultures and backgrounds:</p> <ul style="list-style-type: none"> • NAACP – Policing in minority communities • LULAC – Policing in Hispanic communities • Dallas Holocaust Museum – We continue to take our recruits to the Dallas Holocaust Museum where we do a full day of training on Human Rights. 			<p>APD partnered with One Community USA to bring Shop Talk to Arlington. This program focuses on community meetings held at local barber shops to encourage open dialogue and relationship building. We currently have six barber shops participating, and we had the first round of meetings at each shop and one lunch for all of the shop owners.</p> <p>APD has joined OneCop. OneCop pairs an officer with a church, and the officer acts as a liaison between the church and the department to increase communication, plan activities, and build relationships between the church and the officers. Currently, 37 churches are participating to this initiative.</p> <p>The department has a Training Advisory Board that reviews training, curriculum, and processes. The board meets quarterly and is composed by training center employees and community members. The board has two representatives from the Unity Council.</p>

BU 1.6.3	Unity Council Recommendation – Mental Health Initiatives		Police
<p><u>Summary:</u></p> <p>APD offers multiple programs to serve its officers with mental health and physical wellness services. The three primary programs are Peer Support, Blue Fit, and Blue Chip.</p> <ul style="list-style-type: none"> Peer Support is a peer counseling program composed of employees of the department that are trained in Critical Incident Stress Management and Peer Support. Blue Fit is a unique program created to support the physical and mental well-being of APD's officers. The program is led by a professional licensed fitness trainer and includes 90-minute health and wellness classes over the span of 12 weeks. The classes include exercise, nutrition, mental health topics, and more. Blue Chip is a no-cost program to generate awareness and serve as a way for our officers to access the services of mental health providers. The services are anonymous and confidential. <p><u>Update:</u></p> <p>During the 4th quarter, the department started its fifth Blue Fit wellness session. Several success stories were reported among those that attended Blue Fit sessions, including officers that lost substantial body fat and gained a new sense of confidence.</p> <p>During the year, APD has increased its Peer Support Team, hired a full time Police Chaplain and a Health and Wellness Coordinator. In addition, APD recently trained all of our peer support group members to act as online Peer Support Members through the State of Texas Law Enforcement Peer network using an app called <i>Green Light Balance</i> where a police officer can confidentially request peer support and be connected with a peer counselor.</p>		<p>The department has now a strong Blue Chip Program where officers can receive confidential mental health counseling at no cost to the officer.</p> <p>The Chaplain frequently interacts with Officers, responds to traumatic scenes, follows up with officers and routinely does ride outs. He has logged over 100 ride outs with Officers.</p>	

Build Unity

Goal 1: Implement Strategies to Eliminate Racism and Other Forms of Discrimination and to Advance Unity in Arlington

Objective 6: Address Policing and Criminal Justice Disparities

Project		Performance Measure(s)	Department(s)
BU 1.6.4	Unity Council Recommendation – Police Transparency, Process, and Data		Police
<p><u>Summary:</u></p> <p>The Police Department is committed to building trust within the community by improving transparency through the deployment of new technology and the utilization of data analysis tools.</p> <p>Every year the department presents to City Council and to the public its Annual Report, a Racial Profiling Report, a Use of Force Report, in addition to ad-hoc items.</p> <p><u>Update:</u></p> <p>APD expanded the existing scope of services with a law enforcement subject matter expert to analyze placement, use, and results from the implementation of Flock Automated License Plate Readers (APLR), This will allow for third party review to identify any disparities of use. To ensure policy compliance and integrity of the program, we expanded mandated supervisory audits to include the Flock Safety fixed APLR devices. The purpose of the audits is to confirm that use of the ALPR system is consistent with our policy.</p>			

Champion Great Neighborhoods

Goal 1: Foster Healthy and Attractive Neighborhoods

Objective 1: Gain Compliance of Property Maintenance, Health, and Animal Codes

	Project	Performance Measure(s)	Department(s)
CGN 1.1.1	Tool Sharing Program	Increase percent of cases resolved through voluntary compliance	Code Compliance

Summary:

Code Compliance Services implemented a Tool Sharing Program in late FY 2021. The goal of this program is to encourage citizens to improve their properties by providing the tools and equipment needed free of charge. The program makes it possible for homeowners who don't have a vehicle large enough to transport equipment, or who don't have the funds to purchase/rent equipment to complete beautification projects at their home. The Tool Sharing Program offers a variety of tools and equipment that Arlington residents may rent free of charge to assist with property cleanup and improvement. Tools and equipment are available for mowing, yard maintenance, fence repair, landscaping, tree and shrub trimming, pressure washing, painting and household repairs. Code Compliance Services will contact local businesses to expand inventory to increase voluntary compliance and beautification efforts.

Update:

During the 4th quarter of FY 2022, there were 100 reservations/beautification efforts completed through the Tool Sharing Program. Through these reservations, 321 tools were checked out including lawn mowers, pressure washers and painting equipment. For FY 2022 in total, there were 977 tools utilized through 255 reservations and 196 potential code violations corrected. The Tool Sharing Program was featured in a bi-lingual episode of Ask Arlington, which was posted on YouTube, then shared to the City's social media and embedded on the Tool Sharing webpage. Code Compliance attained an 85% voluntary compliance rate during this quarter and an 81% voluntary compliance for the entire year.

Milestone	Estimated Completion	Percent Complete

	Project	Performance Measure(s)	Department(s)
CGN 1.1.2	UDC Amendment – Ballfield Lighting & Vertical Banners	Project Completion	Planning & Development Services

Summary:

At the City Council Work Session related to the Annual UDC Update on April 13, the City Manager mentioned two outstanding items that may require UDC amendments. Council directed staff to look at those two items separately from the annual UDC update project and to go back through the Municipal Policy Committee for a recommendation. One of those items was the height of proposed light poles in AISD’s ballfields.

After meeting with AISD on June 8, staff found concerning items related to the proposed improvements in their ballfields, per the approved Bond Package. Staff will start working on the draft ordinance in July & August.

The MPC has recommended a change to allow light poles exceeding the maximum with residential adjacency to be approved with a 3:1 setback from the residential property.

Update:

The UDC amendment was adopted by Council in November 2021. This project is complete.

Milestones	Estimated Completion	Actual Completion
Municipal Policy Committee Session 1	May 2021	May 2021
Municipal Policy Committee Session 2	June 2021	June 2021

Project		Performance Measure(s)	Department(s)
CGN 1.1.3	2021 International Codes and 2020 NEC Code Adoption	Completed adoption of the codes and any local amendments deemed appropriate	Planning & Development Services

Summary:

We will be working to adopt the 2021 family of International Codes along with the 2020 National Electrical Code. This code adoption will also include any appropriate and allowable amendments.

We strive to adopt codes every other code cycle to be fiscally responsible to our development community while also maintaining the proper level of minimum code standards for life and health safety. We normally do not deviate from this code adoption practice unless State law mandates a code be adopted out of sequence.

Also, with the adoption of each new code addition, new materials and processes are included that can ultimately benefit the development community.

Update:

The draft ordinances were completed during the early part of the summer and presented to CAO to start their review. During this time a meeting was held with the BCBOA and FCBOA to discuss the proposed amendments, the proposed amendments were passed unanimously.

We were unable to obtain a quorum for the other boards therefore the amendments were publicized for 21 days to allow for comments from the public. During this time, we did not receive any comments or questions from the public.

The code change summary and amendments were presented to the MPC for consideration and comments, MPC approved the presentation, and the City Council first reading is scheduled for October 25, 2022.

Milestone	Estimated Completion	Actual Completion

First reading of the ordinance	Nov. 2022	Oct. 2022
Second reading of the ordinance	Dec. 2022	Nov. 2022
Implementation date set with ordinance reading	Jan. 2023	

Champion Great Neighborhoods

Goal 1: Foster Healthy and Attractive Neighborhoods

Objective 2: Provide for a Variety of Housing Options

	Project	Performance Measure(s)	Department(s)
CGN 1.2.1	Eviction Prevention	Fully utilize available resources to assist families avoiding eviction	Housing

Summary:

During the COVID-19 pandemic, additional federal and state funding were received by the City to assist families facing eviction. Funds are used to pay past due and future rent and utility bills. Housing used Texas Emergency Rental Assistance Program funding and Community Development Block Grant funds for this purpose. In FY 2021, the City also received \$21,587,852 in Emergency Rental Assistance Program (ERAP) funds from the US Treasury and utilized \$2,725,491 for eviction prevention.

Update:

During the 4th quarter, Treasury responded that Arlington would receive only \$388K of the \$4M request and would receive no allocation from the \$6M request. Funds are largely depleted.

Goal 2: Expand and Enhance the City's Image

Objective 1: Promote Community Engagement

	Project	Performance Measure(s)	Department(s)
CGN 2.1.1	Annual Homeownership Fair	Connect Arlington households to homeownership resources and opportunities	Office of Strategic Initiatives

Summary:

The goal of the 6th Annual Homeownership Fair is to provide a community event for current and potential homeowners. The event provides resources to assist current homeowners with improvements to their property and prospective homeowners with information to help them navigate the buying process. Information about fair housing will also be a focus of this event. Homeownership stabilizes neighborhoods and helps families access an important investment in which they can take pride.

Update:

The 2022 City of Arlington Homeownership fair was held during this past June in conjunction Hispanic Realtors Association (HREBA), Arlington Board of Realtors (ARBOR), National Association of Realtors (NAR) and Canales Furniture. An estimated 300 patrons attended. Since the launch of the Annual Homeownership Fair, resources have been provided to assist homeowners with property improvements and navigate the buying process.

Staff hosted community liaison consultation meetings to better understand barriers to housing those who are most in need. Additionally, staff has consulted with local realtors on potential strategies for revamping the Arlington Homeowners Assistance Program (AHAP). To fund this program, the City utilizes its HOME grant funds to provide down payment and closing cost assistance to first time homebuyers. Although this does not directly impact housing inventory, it provides individuals access to homes that they could not previously afford

Project		Performance Measure(s)	Department(s)
CGN 2.1.2	Neighborhood Engagement Program	<ul style="list-style-type: none"> Communication with neighborhoods Impressions via social media 	Office of Strategic Initiatives

Summary:

The Neighborhood Engagement Program seeks to engage Arlington citizens with their neighborhoods and with the City. The goals of the program are to help residents Know Your City through communication and education initiatives; Know Your Neighbors through growing social capital; and Build-Up Neighborhoods Together through investing in neighborhood infrastructure.

Initiatives include the Champion Great Neighborhoods newsletter, expanding the use of Nextdoor and other social media to reach residents, creating a Neighborhood Leadership Network, hosting semi-annual Neighborhood Leadership summits, the Block Party Trailer program, the Arlington Home Improvement Incentive program, the Neighborhood Matching Grant program, among other efforts. OSI anticipates at least 35,000 impressions on Nextdoor each quarter.

Update:

In the final quarter of FY 2022, the Neighborhood Engagement Program hosted a Neighborhood Leadership Network quarterly meeting, released the FY23 Neighborhood Matching Grant cycle and held 3 information sessions, and operated the Block Party Trailer program, which continues to be popular with neighborhoods. In the fourth quarter, there were 52,036 impressions on Nextdoor, above the target of 35,000. The Neighborhood Engagement Program exceeded the annual target for Nextdoor impressions by more than 26,000.

Project		Performance Measure(s)	Department(s)
CGN 2.2.1	Neighborhood Matching Grant Program	Grants awarded (number and funding amount)	Office of Strategic Initiatives

Summary:

The goal of the Neighborhood Matching Grant (NMG) Program is to provide financial support for resident and community-based programs and activities that foster civic pride, enhance, and beautify neighborhoods, and improve neighborhood vitality and participation. The program benefits the City of Arlington by making neighborhoods more attractive, raising the level of community pride, increasing civic participation by residents, and encouraging collaboration and formal organization of and among neighbors, neighborhoods, and city government.

Update:

In the 2nd quarter of FY 2022, all six proposals were approved by the City Council in January 2022. By March 31, 2022, all contracts have been executed and projects are underway. In the 3rd quarter of FY 2022, all projects were underway, and two projects have been completed. In the 4th quarter of FY 2022, three projects have been completed and three are still working. These projects were delayed due to the high summer temperatures, which were not appropriate for landscaping activities.

CGN 2.2.2	Park Improvement Projects	Overall satisfaction with programs and facilities	Parks & Recreation

Summary:

Julia Burgen Park Trail – UTA Connection

There is an existing 1.06 miles of trail currently in Julia Burgen Park. This project involves adding approximately .3 miles of concrete trail that will provide a connection from the existing trail to the on-street bike path along Pecan Street, ultimately linking to the UTA campus. Project includes the preparation of bid documents and construction of new trail.

Update:

TxDOT needed extra time to review plans. Project set to go for bid in the Spring.

River Legacy Park Trail Replacement:

Realignment of approximately 1.3 miles of 12’ wide concrete trail due to river encroachment. Project includes the preparation of bid documents and construction of new trail.

Update:

Staff is reviewing 90% plans Project still on target for Spring 2023 to begin construction.

River Legacy Park Trail West Connection Development

Extension of 12’ wide concrete trail westward to meet Fort Worth’s Trinity Trail system. Project includes the preparation of bid documents and construction of new trail.

Update:

Staff awaiting 100% design plans from FW in February 2023.

River Legacy Park Trail Replacement – Phase 2:

Realignment of approximately 1.1 miles of 12’ wide concrete trail due to river encroachment. Project includes the preparation of bid documents and construction of new trail.

Update:

Archeological survey revealed artifacts relevant in the immediate alignment and very shallow in depth. Consultant is working a slight realignment and possible boardwalk.

Enhance Regional Mobility

Goal 1: Explore Creative, Alternative Transportation Opportunities

Objective 1: Promote Regional Connectivity

	Project	Performance Measure(s)	Department(s)
ERM 1.1.1	Via On-Demand Rideshare	Ridership	Office of Strategic Initiatives

Summary:

This item supports the Council's "Enhancing Regional Mobility" priority by improving access between Arlington and the rest of the North Texas region. The Via on-demand rideshare service was launched on December 11, 2017, to offer an additional mobility option for residents, employees, and visitors.

The app-based rideshare service uses six-passenger vehicles, a smart phone application and dynamic routing to provide efficient on-demand trips and access to a wide range of destinations. As of January 19, 2021, Via serves the entire City of Arlington and the CentrePort TRE Station. The turn-key operation is operated and maintained by Via, Transportation, Inc. through an annual contract based on City Council approval. Partial funding is provided through the Federal Transit Administration.

Update:

Via ridership increased during the 4th quarter of FY 2022 with a total of 184,385 rides given in this quarter. 1,438,723 total rides have been taken from program launch through the end of the quarter. A total of 157,825 accounts have been created through the end of fiscal year. There are currently 68 6-passenger vehicles available for the service, and 14 of these vans are wheelchair accessible. Fares range from \$3 to \$5, depending on trip distance. The weekly ViaPass cost is \$25 per week, and the monthly ViaPass cost is \$80 for unlimited rides during a 30-day period. Trips to and from the CentrePort TRE Station are currently set at \$3.

Via Ridership

Via Cummulative Accounts

Enhance Regional Mobility

Goal 1: Explore Creative, Alternative Transportation Opportunities

Objective 1: Promote Regional Connectivity

Project		Performance Measure(s)	Department(s)
ERM 1.1.2	RAPID On-Demand Autonomous Vehicle Pilot	Trips completed	Office of Strategic Initiatives

Summary:

This item supports the Council's "Enhancing Regional Mobility" priority by improving access within Arlington while complementing the Via On-Demand Rideshare service. The City of Arlington was awarded a \$1.7M grant from the FTA for this project (60% federal, 40% local match including in-kind participation).

The Arlington RAPID project will combine the City's expertise with on-demand rideshare and AV testing to demonstrate the integration of a shared, dynamically routed Level 4 AV fleet into an existing public rideshare transit system. Via will continue to provide the rideshare service and May Mobility will provide the AV technology and fleet. Both the rideshare fleet and the AV fleet will include a wheelchair accessible vehicle, making this service more widely accessible. In partnership with the University of Texas at Arlington, the service will operate in coordination with UTA's fare payment system, allowing students to ride for free. This project will create a one-stop-shop for mobility needs in the service area concentrated around UTA's campus and downtown, providing a seamless trip planning, booking, and payment experience across modes.

The project will span two and a half years, with the first year dedicated to programming, route mapping, testing, and customer education. The second year will include a 12-month deployment of the integrated services, along with continued customer education, data sharing and analysis, ridership surveys, and service evaluation. The final six months of the project will wrap up evaluation and focus on final reporting and widely sharing lessons learned.

Update:

The RAPID service funded by the FTA concluded on March 18, 2022, with a total of 28,140 rides taken during the one-year deployment. A full evaluation of the service is being performed and a final report is being drafted.

Milestone	Estimated Completion	Actual Completion
Project Kickoff	Mar. 2020	Mar. 2020
AV Route Mapping	Oct. 2020	Oct. 2020
Service Testing	Feb. 2021	Feb. 2021
Begin Rideshare Operations	Mar. 2021	Mar. 2021
Project Completion	Aug. 2022	

The City received notification in March 2022, that the NCTCOG will be awarding funds for an additional two-year RAPID deployment, and these funds are anticipated to be available in late 2022. The City and its partners are continuing the RAPID service in the interim with reduced service hours and a change in the fare structure for UTA students, moving from free rides to \$1 off fare rides. Rider feedback and data collection activities are continuing during this interim period.

Enhance Regional Mobility

Goal 2: Plan, Manage, and Maintain Public Transportation Infrastructure

Objective 1: Optimize Effectiveness and Efficiency of Existing Transportation System

Project	Performance Measure(s)	Department(s)
ERM 2.1.1	<ul style="list-style-type: none"> Citizen perception of overall road condition as “good” or “excellent” Lane Miles with Overall Condition Index (OCI) <50 	Public Works

Summary:

In February 2013, City Council approved a new “Do Worst First” street condition philosophy through which to prioritize street projects. Fundamental elements of this philosophy are:

- Streets with an Overall Condition Index (OCI) below 50, called red streets, are in failure, and should be addressed first
- Street maintenance work will be prioritized toward the worst streets first
- Rebuild work will be done on both thoroughfares and residential streets, with thoroughfares given higher priority when choices between the two must be made

With the passage of the 2018 Bond Election and continued focus on maintenance of red streets, the target is to reduce the FY 2015 baseline number of 326 red lane miles to achieve a more balanced network.

Update:

The overall number of lane miles with an OCI <50 increased from 418 to 459. This change is due to 41 lanes miles falling from yellow to red condition.

OCI Progress – Current and Previous Fiscal Years

OCI Progress – Three Year History

Distribution of Total Lane Miles by OCI Category

Goal 2: Plan, Manage, and Maintain Public Transportation Infrastructure

Objective 1: Optimize Effectiveness and Efficiency of Existing Transportation System

	Project	Performance Measure(s)	Department(s)
ERM 2.1.2	IH-30 and SH-360 Interchange	Overall satisfaction with the management of traffic flow during peak hours	Public Works

Summary:

The purpose of this project is to improve traffic safety and reduce traffic congestion at the interchange of Interstate 30 and State Highway 360. Formerly a toll road loop interchange, the new infrastructure will include main lane improvements and direct connection ramps to each facility.

This project is split into the following five construction phases:

- Package A: Reconstruction of the Six Flags Drive Bridge over IH-30
- Package B: IH-30/SH-360 interchange improvements
- Package C: Great Southwest Industrial District railroad bridge crossing just south of Randol Mill Road
- Package D: Randol Mill Road interchange improvements
- Package E: Improvements from Abram Street to IH-20

Update:

TxDOT has revised the estimated completion date for Packages A and B from spring 2022 to spring 2023.

Milestone	Estimated Completion	Actual Completion
Package A Construction	Spring 2023	
Package B Construction	Spring 2023	
Package C Construction	Pending	
Package D Construction	Pending	
Package E Construction	Summer 2020	Apr. 2021

Enhance Regional Mobility

Goal 2: Plan, Manage, and Maintain Public Transportation Infrastructure

Objective 1: Optimize Effectiveness and Efficiency of Existing Transportation System

	Project	Performance Measure(s)	Department(s)
ERM 2.1.3	TxDOT Southeast Connector Project (I-20 / I-820 / US-287) Interchange	Overall satisfaction with the management of traffic flow during peak hours	Public Works

Summary:

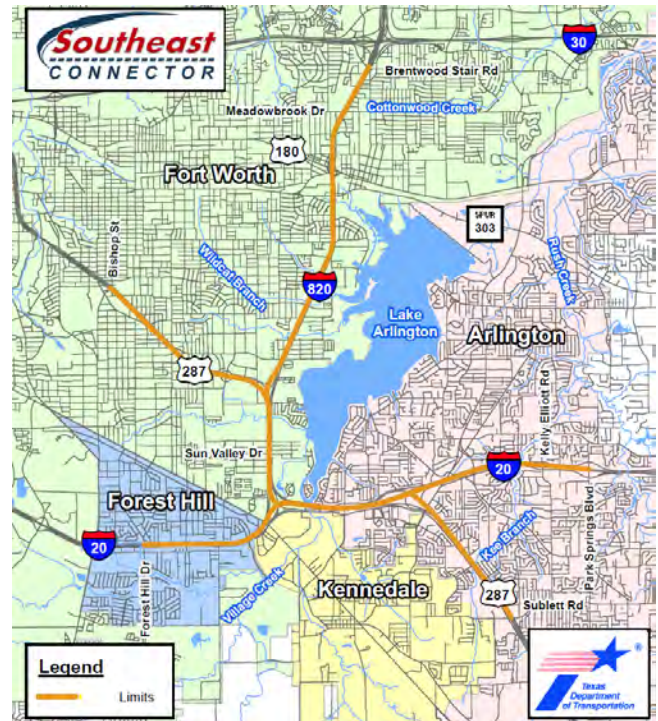

The purpose of this TxDOT project is to improve mobility and safety and provide transportation options for travelers through the area. The project will reconstruct the interchange of Interstates I-20, I-820, and Highway US-287. The new infrastructure will include additional main lanes, entrance and exit ramp adjustments, frontage road intersection improvements and bicycle and pedestrian accommodations.

- The first public meeting was held July 19, 2018. Information collected during the public meetings and hearing was used to develop safe transportation solutions that minimize impacts to the communities
- A virtual public hearing was held on June 4, 2020, to present the proposed reconstruction and widening of I-20, I-820 and US-287 including the three major interchanges. The meeting allowed citizens and communities to voice their concerns via e-mail.
- Following the meeting on June 4, TxDOT, the compiled questions and comments were used to modify the Environmental Assessment (EA).
- A Finding of No Significant Impact (FONSI) was issued on September 4, 2020.
- Have requested for TxDOT to host a town hall meeting for Council Districts 2 and 4.

Update:

As of May 2022, the project is in the design phase and on schedule to begin construction in March 2023. Relocation of public utilities is in progress.

Southpoint Constructors and TxDOT Main Office is located at 5354 E Loop 820 S near the intersection of David Strickland Rd and East Loop 820 S. The testing and laboratory facilities for the project will be located at the Park Springs Road and Interstate 20 intersection. More information can be found at www.southeastconnector.com.

Enhance Regional Mobility

Goal 2: Plan, Manage, and Maintain Public Transportation Infrastructure

Objective 1: Optimize Effectiveness and Efficiency of Existing Transportation System

Project		Performance Measure(s)	Department(s)
ERM 2.1.4	Thoroughfare Development Plan Update	Completion of Update	Office of Strategic Initiatives

Summary:

The Thoroughfare Development Plan (TDP) is a long-range plan that identifies the location and types of roadway facilities that are needed to meet projected long-term growth within the City of Arlington. The project will use an updated travel demand model to re-evaluate street classifications and cross sections and update the Thoroughfare Development Plan map. The project will also include a detailed traffic analysis of two specific areas: The Mesquite Street/Center Street one-way pair and the section of Matlock Road between Pioneer Parkway and Cooper Street.

Update:

The TDP Review process began in April with contract execution and traffic analysis performed by the consultant team, led by Kimley Horn and Associates. A kickoff meeting with City staff was held in May 2022. Modeling and analysis work is largely complete, and a draft presentation and plan document have been created.

Milestone	Estimated Completion	Actual Completion
Issue Request for Qualifications	Jan. 2022	Jan. 2022
Select and Contract with Consultant	Mar. 2022	Apr. 2022
Draft Update	Sept. 2022	
Final Update	Dec. 2022

Objective 2: Complete Construction Projects in a Timely Manner

	Project	Performance Measure(s)	Department(s)
ERM 2.2.1	Street Rebuild Projects	Overall satisfaction with the management of traffic flow during peak hours	Public Works

Summary:

Capital street projects are funded with Street Bonds and are funded through inclusion in the annual capital budget.

The projects listed to the right are expected to receive construction funds in March 2021. The projects listed below include carry-over projects funded in prior years that have not completed construction, as well as the planned FY 2021 projects. Project milestones listed in the table will be updated as they occur during the year.

Update:

Construction of the 2019 Residential Rebuild project was completed in September 2022.

The bid opening for the construction contract for the Sublett Road (City limits to Joplin Road) project was held in September 2022. Construction scheduled to begin in late November 2022.

Completion of Harris Road has been delayed until May 2023 due to issues encountered during the relocation of franchise utilities.

IOE 1.1.1	TIRZ Districts	<ul style="list-style-type: none"> • Recruitment Leads • Leads to Prospects 	Economic Development

Summary:

There are four Tax Increment Reinvestment Zones (TIRZ) in Arlington:

(TIRZ) #1 – Downtown

2021 Taxable Value: \$405,387,819

Update:

In May 2021, the TIRZ #1 Board and City Council approved a request for \$240,000 to offset the tenant improvement costs for a grocery store at 101 Center Street. The business owner has completed all improvements and the store opened for business on April 8th. Groundbreaking for the new 21,000 sq. ft. Sutton Frost Cary office building was held on December 15th. In June 2021, the Board authorized a Chapter 380 agreement with Sutton Frost Cary LLP to build a 21,000 square foot building at the corner of Front Street and Mesquite Street. The proposed agreement would run until December 31, 2030 and provide the company with a performance grant of \$500,000.

The Main 7 townhouse development on the west side of Cooper St. north of Abram St. has completed 14 units is presently under construction for 8 more.

(TIRZ) #5 – Entertainment District

2021 Taxable Value: \$984,054,981

Update:

The TIRZ #5 project & financing plan update has been completed. Participation agreements with Tarrant County and Tarrant County College District have been completed and approved by the respective governing bodies. Construction of the 900 room Loews convention hotel began in June 2021.

(TIRZ) #6 – Viridian

2021 Taxable Value: \$1,013,070,073

Update:

The first phases of new multifamily units in Viridian have been completed and are presently leasing. Additional new multifamily construction is underway. Also, the infrastructure and lot layout for the viridian townhome development on the west side of Collins Street (Collins

IOE 1.1.2	South SH-360 Corridor Development Strategy	Completion of Plan	Office of Strategic Initiatives

Summary:

The South SH-360 Corridor Development Strategy will establish a vision for SH-360 from I-20 to the southern City Limit. The terminal build-out of SH-360 is an eight-lane divided highway, and this plan will develop a vision with the community for the optimal use of remaining development opportunities along the corridor, while protecting established residential areas.

Update:

In the 2nd quarter of FY 2022, the project team presented the draft plan to the public, the P&Z Commission, and the City Council for review. A public hearing with the P&Z Commission was held on February 16th, where they recommended approval of the plan. The City Council held a public hearing to consider the plan on March 8th and approved the plan by ordinance with a final reading and vote on March 29, 2022. (Ord. 22-013)

Milestone	Estimated Completion	Actual Completion
Issue Request for Qualifications	Jan. 2021	Jan. 2021
Select and Contract with Consultant	Apr. 2021	Mar. 2021
Draft Plan	Jan. 2022	Jan. 2022
Final Plan	Mar. 2022	Mar. 2022

Invest in Our Economy

Goal 1: Enhance Economic Impact Through Development and Redevelopment Efforts, Partnerships, and Investment Opportunities

Objective 2: Build a Strong and Diverse Business Community

	Project	Performance Measure(s)	Department(s)
IOE 1.2.1	Business Recruitment and Retention	<ul style="list-style-type: none"> • Recruitment Leads • Leads to Prospects 	Economic Development

Summary:

The Office of Economic Development is participating in recruitment efforts related to the City’s identified targeted industry clusters. The adopted clusters are 1) Aerospace, 2) Automotive Products, 3) Business and Professional Services, 4) Medical Devices, and 5) Industrial Machinery and Manufacturing.

As outlined in the Economic Development Strategy, the Office works to generate leads and recruit companies within these industry clusters, which will assist in reaching one of the City’s primary economic development goals – competitive positioning, allowing the City to capture a larger share of high-wage, high-impact growth.

As recruitment leads are generated and projects arise, they will be identified and tracked on a hit list reported to the City Management Office every month. The list will track potential capital investment, jobs created and details about each project in order of priority. Staff will continue to develop knowledge of the business climate that may lead to a compelling case for industry prospects to locate in Arlington.

Update:

Approved Agreements	Date

Targeted Industry Leads	Aerospace	Automotive Products	Medical Devices	Industrial Manufacturing	Business and Professional

Objective 2: Build a Strong and Diverse Business Community

	Project	Performance Measure(s)	Department(s)
IOE 1.2.3	Expansion of Foreign Direct Investment Promotion	Recruitment Related Events Attended	Economic Development

Summary:

Economic Development Staff continues to conduct research, gain industry intelligence, and forge relationships with international industry decision makers, as well as site selectors in the targeted international markets.

Within the past few years, Staff has expanded foreign direct investment efforts by attending trainings, conferences and expos known to result in the generation of viable leads. Staff will also work to establish partnerships with affiliate organizations and local brokers to assist in the promotion of Arlington as a prime location for global investment.

Staff's progress in the expansion of its international efforts will be tracked and reported, and any resulting relocation or recruitment projects will be identified.

Update:

The OED staff has renewed memberships with key international organizations for the upcoming year. This will allow continued participation in various education and networking events to stay abreast of the latest updates and information related to foreign direct investment (FDI). Staff looks to strengthen relationships and increase involvement with all international partners to include organizations such as Select USA, IEDC, TBIC, NASCO, BREI and others, while working to promote the city to foreign investors and for attraction of international businesses. Wallbox, a Spain-based electric vehicle charging station manufacturer is a recent example of success in this area.

	Project	Performance Measure(s)	Department(s)
IOE 1.2.4	Targeted Marketing Campaign	Marketing Partnership Visits	Economic Development

Summary:

Based on the Economic Development Strategy, the City continues to focus its marketing efforts on targeted industries, aiming at these businesses through their trade associations, related publications, and attendance and sponsorship of trade shows/expos. Additionally, enhanced general marketing efforts will promote the city at the regional, state, and international levels, through participation and increased involvement in key marketing and corporate real estate groups.

In keeping with the City's brand, advertisements will be designed with a consistent theme for placement in a variety of print and electronic publications. An assortment of materials will be produced in keeping with this theme.

The Office's webpage is an effective marketing tool for the City and will continue to be updated to reflect the service/incentives provided by the City as well as highlighting Arlington businesses making significant investments in the economy.

ED Staff will track their outreach efforts via presentations and partnership events with local organizations.

Update:

The economic development strategic plan has been finalized, and OED staff is collaborating with the EDC to develop a new marketing strategy for the city to prioritize ad placements, collateral, and recruitment events.

IOE 1.2.5	Economic Development Corporation	All Economic Development Measures	Economic Development

Summary:

On November 3, 2020, Arlington voters approved the adoption of an additional quarter-cent City sales and use tax during the General Election. The quarter-cent sales and use tax will fund Arlington's Economic Development Corporation to undertake such projects as authorized by Chapter 505 of the Texas Local Government Code. The sales tax will become active in April 2021 and is estimated to generate \$15-17 Million per year.

Update:

EDC Executive Director, Broderick Green, started with the city in December.

Incentive Application Updated.

The EDC continues to review new opportunities for development.

Project		Performance Measure(s)	Department(s)
IOE 1.2.6	Economic Development Projects	<ul style="list-style-type: none"> Recruitment Leads Leads to Prospects 	Economic Development

Summary:

To build and sustain Arlington’s tax base, Economic Development staff will remain focused on developing Arlington’s remaining greenfield sites with the highest and best uses. Additionally, redevelopment efforts will continue within the Entertainment District, Great Southwest Industrial Park, and Downtown and Lamar-Collins areas, among other areas identified as suitable for redevelopment. Per the Economic Development Strategy, redevelopment projects will be supported and prioritized when considered as transformational and having high community impact, both being primary economic development goals for the City. These projects must be game changers, introducing new product into an unproven area, can stimulate future change, and must be a desired use.

Urban Union

Type: Redevelopment of buildings near the intersections of Division St., East St., and Front St in Downtown Arlington
 Capital Investment: \$20 million
 Size: 60,000 sq. ft.
 Deal: Located in Tax Increment Reinvestment Zone #1, the project will receive TIRZ #1 funding to assist in the public improvement costs associated with the development.

Update:

The developer for Urban Front has been working to identify new tenants for the new spaces that will be created. A new professional office building has been approved by the TIRZ #1 Board will serve as a catalyst for the completion of the Urban Front Development.

Columbia Medical Center of Arlington Subsidiary, LP (MCA) (Healthcare/Medical)

Type: Medical Hospital
 Capital Investment: \$90 million
 Size: 20,000 sq. ft. expansion
 Employees: 50
 Deal: The City provided a real property tax abatement to offset some of MCA’s construction costs.

Urban Union (Phase 3)	Date
Building Permit Issued	May 2018
Certificate of Occupancy Issued	Sept. 2019

Lease Agreement	Jan. 2021
Zoning Approved	Pending
Building Permit Issued	Pending
Certificate of Occupancy Issued	Pending

Update:

MCA is continuing to make repairs and have expanded renovation projects to include all critical areas throughout the facility to enhance more services. On July 6, 2022, a commercial building permit was issued for a phased cosmetic renovation of 32 existing patient rooms and will consist of heavy renovation to convert 3 patient rooms to accessible patient rooms. This project is underway on the north side of the main building and the capital investment is estimated to be about \$4M covering approximately 16,000 square feet of space. As new projects are identified and as funding allows, the company plans to continue until the building is completely renovated. Due to the expanded scope of work, as well as prep work for a new phase, the estimated completion time is now mid-to-late Fall.

General Motors (Assembly)

Type: Assembly Plant Renovation and Expansion
Capital Investment: \$1.4 billion
Size: 1,200,000 sq. ft. expansion
Employees: 4,000+ retained
Deal: To assist GM, the City offered an incentive package including tax abatements to real and business personal property and fee waivers.

Update:

The General Motors assembly plant continues to operate three shifts per day, six days per week, with one shift on Sundays. Even at that pace, they are still reportedly not fully meeting demand for their products. The City water department is coordinating with GM for the construction of a new sewer line to support the plant. Staff is presently working with GM and NCTCOG on creation of a conveyor system to deliver finished product to the rail head for shipment.

Medal of Honor Museum

Type: Museum
In October 2019, the NMOH Museum announced that Arlington would be the home of their new museum. The site will be in the Entertainment District.

Update:

Friday, March 25, 2022, marked the date of the official groundbreaking ceremony for the Museum in Arlington, Texas. The groundbreaking was held on the same day America recognizes National Medal of Honor Day.

PHC Equities, LLC.

Type: Industrial Warehouse and Office Facility
Capital Investment: \$15-20 million
Size: 162,000 sq. ft.
Employees: 50
Deal: The Arlington City Council approved a Chapter 380 grant agreement that provides a tax rebate of 80% over seven years on real property.

Update:

After the grand opening and successful launch of their new consolidated operation, the company is now also contemplating adding another division onsite and creating additional jobs. Staff recently worked closely with the company to resolve some unexpected issues related to certain performance requirements in the Chapter 380 agreement. Staff was later updated and informed that all issues have been resolved and look to forge an even stronger working relationship with the company moving forward. In addition to adding more capacity to the facility, the company is also positioning itself for future expansion opportunities and further investments to continue to enhance their local operation. Staff will continue to monitor their progress and provide needed assistance to support their future growth in Arlington.

<p>Deal: The Arlington City Council approved a Chapter 380 grant that provides a tax rebate of 85% over seven years on business personal property.</p> <p><u>Update:</u> After the successful designation as an Enterprise Project Designation by the State of Texas and Office of the Governor, the company has begun work on the various components needed to enhance and innovate the facility. Improvements will include projects such as necessary drive aisle repairs, the Autonomous Guided Vehicle (AGV) pilot program, repairs to existing machinery and equipment in the truck wash, upgrades to the conference rooms, modifying the variable frequency drive (VFD) wiring and enclosures and purchasing additional matrix modules. These projects will all be initiated over the next year or so to fortify UPS's integrated delivery network in North Texas and address growing customer needs across a variety of industries. As the company continues to experience growth in both employees and overall business, the plan to add a new parking structure remains a viable option.</p> <p>Main 7 Type: Housing Development Capital Investment: \$14.7 million Townhomes: 53 Deal: The Arlington City Council approved a Tax Increment Reimbursement Agreement by and between Savannah Main 7, LLC relative to the construction of the development at the corner of W. Main Street and Cooper Street in June 2020.</p> <p><u>Update:</u> The first 14 units of the Main 7 townhouse development are presently under construction are expected to be completed in August 2021. Post COVID-19 building materials shortages have significantly slowed down construction schedules. Developer has submitted plans to the City for the next 16 units (phase 2).</p>	<p>Boss Office Type: Flexible Office Space Capital Investment: \$25 million Size: 69,200 sq. ft. Deal: The City offered an incentive package of tax abatements to real and business personal property and fee waivers</p> <p><u>Update:</u> Boss Office Centers intends to demolition two existing buildings and construct a new building with four stories and 32,000 square feet of office space. The new building will accommodate an estimated 200 separate companies, and result in a projected property value of \$18,750,000 after construction.</p> <p>Park Place Type: Mixed Use Capital Investment: \$38 million Size: 14,777 sq. ft. commercial space Deal: The City offered an incentive package including a Chapter 380 agreement to offset the cost of necessary public improvements during the initial development of the site.</p> <p><u>Update:</u> The developer has successfully completed the redevelopment of the two-block project area extending from the intersection of Mesquite and Abram Streets south to UTA Boulevard, at a cost of over \$38 million dollars. Currently, the residential space is 93% occupied. However, the 14,777 square feet of commercial space on the first floor, primarily facing Abram Street, remains unfinished and unoccupied. The incentive will be used toward the cost to install HVAC system which will serve the entire commercial space and foundational floor to the portion of the commercial space on the ground floor facing Abram Street, where owner has letters of intent from prospective commercial lessees. The foundation for the retail space has recently been poured.</p>

Goal 1: Enhance Economic Impact Through Development and Redevelopment Efforts, Partnerships, and Investment Opportunities

Objective 2: Build a Strong and Diverse Business Community

	Project	Performance Measure(s)	Department(s)
IOE 1.2.7	Land Banking		Economic Development

Summary:

Land Banking (previously Real Estate) is part the Economic Development department. Staff manages minerals and leasing, city-owned property, cell tower leasing, easement acquisitions for PWT and WU, right-of-way permit approvals and small cell right-of-way permits which includes inspections and management of the public right-of-way.

Small Cell Permits

Staff manages applications/yearly fees from public service providers such as AT&T, T-Mobile, and Verizon. Shot clocks are enforced under this program.

Right-of-Way Permits

With the help of IT, ROW permits, including traffic control permits are now 100% in the Amanda System. Goals will always be to collect past due damages from current contractors and public service providers.

Update:

During the 4th quarter, staff issued 203 right-of-way permits and 11 small cell permits. There is a total of 583 issued small cell permits.

Small Cell Right-of-Way Permits	Submitted
1 st Quarter	16
2 nd Quarter	32
3 rd Quarter	2
4 th Quarter	11

Right-of-Way Permits	Submitted
1 st Quarter	186
2 nd Quarter	295

IOE 1.2.8	Workforce / Small Business / Entrepreneur Support Services	<ul style="list-style-type: none"> • #of Programs • #of Attendees • #of IET training opportunities • #of Completions 	Library

Summary:

The Library provides resources and services to support workforce readiness and upskilling, small business and entrepreneurship and digital literacy. These are provided to patrons through hands-on skill building classes, programs with experts, adult education, one on one appointments and database resources, and job training fairs. The Library seeks to support individuals in achieving economic stability and the opportunity for advancement through increased job skills or entrepreneurship. Working in partnership with other City departments, community organizations and support agencies to facilitate access to job resources.

Update:

During the 4th quarter, the East Library and Recreation Center hosted a Job and Resource Fair. Attendees explored employment opportunities in fast-growing job fields. The fair featured a LinkedIn workshop, resume help, and the chance to gain interviewing experience. The fair had 24 vendors and two adult education organizations participated. Surveyed participants and vendors were very complimentary of the Job and Resource Fair, especially the number and quality of vendors and the diversity of the job seekers.

- 300 attended the fair overall
- 20 attended the LinkedIn workshop
- 20 attended the resume workshop
- 17 received a headshot for their online profile

In addition to the fair, these classes were offered during the 4th quarter.

- **Computer classes** (Microsoft Excel, Word) – 20 classes, 57 attendees
- **Job Now open lab** – 1 program 1 attendee
- **Resume Refresh** – Resume refresh 2 programs, 12 attendees (in person and virtual)

During the 4th quarter, the library continued its partnership with the Tarrant County Adult Education Literacy Consortium with opportunities for Integrated

Business Programs Offered

Number of Attendees

Education Training (IET) courses, including a session in Certified Translator and Interpreter (CTI). Unfortunately, this session had to be canceled due to low student enrollment and will be rescheduled in the next fiscal year. We had one student participate and complete their IET in EKG.

IET Training Opportunities Offered

Put Technology to Work

Goal 1: Ensure Availability of Information, Programs, and City Services

Objective 1: Provide for the Efficient Access and Appropriate Management of the City's Data

	Project	Performance Measure(s)	Department(s)
PTW 1.1.1	Enterprise IT Project (FY 2019) – Right-of-Way Process Improvements in AMANDA	Project Completion	Information Technology and Economic Development

Summary:

Permitting and tracking work in the City's right-of-way is managed with a combination of multi-department meetings and information recorded in AMANDA. This project will update the process in AMANDA and improve documentation of work in the right-of-way areas.

This project will deliver required functionality in two parts:

- Business Registration (BR) Changes: Changes to the BR in AMANDA and ArlingtonPermits.com (Ap.com) will identify businesses and their subcontractors working in the right-of-way. This will be implemented before the Right-of-Way (ROW) permit process allowing businesses to apply for their BR prior to the launch of the ROW permitting process.
- ROW Permit process: Development will include ROW folder in AMANDA and ROW Permit application in Ap.com. A key feature planned for the permit application is the ability to select the street segments where work will be performed from an ESRI GIS map of Arlington.

Update:

The ROW folder in AMANDA and permit application in AP.com are in production and no longer using paper forms. The ESRI virtual map has been developed to display ROW permits. This project has been completed.

Milestone	Target Date	Status

Notes:

Schedule refinement extended the overall timeline for project deliverables and closure.

Put Technology to Work

Goal 1: Ensure Availability of Information, Programs, and City Services

Objective 1: Provide for the Efficient Access and Appropriate Management of the City's Data

	Project	Performance Measure(s)	Department(s)
PTW 1.1.2	Enterprise IT Project (FY 2019) – Tyler Content Management (Laserfiche replacement)	Project Completion	Information Technology and Municipal Court

Summary:

The Court Tyler Content Management project will oversee the planning and implementation of Tyler Content Manager (TCM) application suite, the conversion and migration of millions of Court records to the new system and to retire the Courts Laserfiche system.

Update:

The Document Conversion proof of concept (POC) is nearing 95% complete with the migration of the GAP created documents. Tyler created a data modification utility that was used to update previously converted magistrate related court documents.

TCM project activity was suspended in July 2022 to focus efforts on performing an Incode technology refresh initiative to a newer server operating system version. During the technology refresh effort, it was discovered that the Tyler batch document processor did not store documents properly in the Laserfiche 9 repository. Tyler updated the batch processor software and DocuNav upgraded and migrated the document repository to Laserfiche 10.4. The Incode Technology refresh POC will resume testing efforts in early 1st quarter FY 2023.

The TCM POC completion effort will resume after the Incode technology refresh has gone live.

Milestone	Target Date	Status
Charter Development	1 st Qtr. FY 2019	Complete
Staff Report Approval by Council	4 th Qtr. FY 2019	Complete
Procurement	4 th Qtr. FY 2019	Complete

System implementation and configuration	1 st Qtr. FY 2022	In Progress
Proof of Concept and system validation	4 th Qtr. FY 2022	Suspended
Document Conversion and Migration	2 nd Qtr. FY 2023	Planned
Staff Training / Go Live	2 nd Qtr. FY 2023	
Project Close	2 nd Qtr. FY 2023	

Notes:

This schedule refinement extended the overall timeline to achieve project closure.

Put Technology to Work

Goal 1: Ensure Availability of Information, Programs, and City Services

Objective 1: Provide for the Efficient Access and Appropriate Management of the City's Data

Project		Performance Measure(s)	Department
PTW 1.1.3	Open Arlington	Open Data Users / Quarter	Office of Strategic Initiatives

Summary:

The goal of Open Arlington is to provide the public with a platform for accessing, visualizing, and interacting with City data. It acts as a conduit between technical and non-technical users and increases transparency between the City and the public.

The Open Arlington Open Data Portal provides residents with interactive web maps as well as downloadable datasets in spreadsheet or geospatial format. To provide the public with relevant and insightful information about the City, the Office of Strategic Initiatives continues to research opportunities for developing and publishing new datasets and/or interactive web maps onto the Open Data Portal.

To assess the use and effectiveness of the Open Arlington Open Data Portal, the Office of Strategic Initiatives tracks use metrics through Google Analytics. By understanding patterns of use such as number of page views, user patterns, top datasets, etc., OSI can continuously augment the ease and usefulness of Open Arlington.

Update:

3,798 users visited the Open Data Portal in 4th quarter of FY 2022, an average of 1,266 users per month. This represents an increase of 3,241 users from the prior quarter. The Open Data Portal underwent a complete redesign in April 2022 and now has 46 total datasets.

Open Data Portal Users

Put Technology to Work

Objective 1: Provide for the Efficient Access and Appropriate Management of the City's Data

	Project	Performance Measure(s)	Department(s)
PTW 1.1.4	Phase 2 ERP System Implementation – HCM & Payroll Modules		Information Technology and Human Resources

Summary:

In FY 2020, the City issued an RFP for a new Enterprise Resource Planning (ERP) system. Phase 1 Implementation of the new system started/was completed in FY 2021. Phase 3 is scheduled to begin in FY 2023.

Phase 2 – Human Capital, Payroll, and Budget Modules (1/03/2022 – 04/30/2023) – Includes HCM, Benefits, Compensation, Absence, and Payroll

Update:

The Architecture (Design) Stage is complete. The requirements from Architecture were used in the building of the Configuration Tenant environment. During the Configure and Prototype Stage, our project team refined configurations, performed unit testing, and held Customer Confirmation Sessions (CCS). The project team is finalizing End-to-End Test Scenarios and preparing to move to the End-to-End Testing Stage.

Due to project constraints a decision was made to move the Phase 2 go live from January 2, 2023, to March 20, 2023.

Objective 1: Provide for the Efficient Access and Appropriate Management of the City's Data

	Project	Performance Measure(s)	Department(s)
PTW 1.1.7	Enterprise IT Project (FY 2022) – Content Management System for Police	Project Completion	Information Technology and Police

Summary:

This project will expand use of the City's enterprise document management solution Laserfiche Rio by engaging DocuNav to configure a Laserfiche Rio environment for the Police Department (APD). This will be a multi-phased/multi-year project that will also include configuring Laserfiche to manage,

- Structured and unstructured data
- A Citizen-facing portal for data submissions
- Forms and workflows
- Request and issue management
- Asset management, and
- Training and file management.

APD currently stores over 60 terabytes of unstructured data in the City's file shares. For data stored in an unstructured manner, there is not an effective search solution, document hold process or enforceable retention policy.

Update:

The IT & PD technical teams are working with the vendor, DocuNav, created the Enterprise Laserfiche environment based on the vendor proposed configuration. The vendor created an Architecture Diagram of the Enterprise Laserfiche environment. This diagram along with the City's Network Summary diagram will be submitted for CJIS compliance.

Conducted requirements gathering sessions with the PD Project Stakeholders for the repository, folder structure, document templates, and security. The RTCC-Bulletins document template was created based upon these sessions.

Conducted additional requirements gathering sessions with the PD Project Stakeholders for the Citizen's Evidence Portal.

	Project	Performance Measure(s)	Department(s)
PTW 1.1.8	Enterprise IT Project (FY 2022) – AMANDA Redesign for Planning	Project Completion	Information Technology and Planning & Development Services

Summary:

The AMANDA system was created in 2006 to automate inspections, capture reviews and track projects through the development process. Since implementation in 2006, minimal updates have occurred. As a result, the business procedural changes have not been captured in AMANDA, to align with changes made to the Unified Development Code, adopted in 2014, and State Legislation (Local Government Code). Due to the lack of updates to the AMANDA system, City staff manually adjusts business processes in AMANDA to mirror the current process. PDS would like to update Zoning Case (ZC), Plat (PL), Site Plan (SP) and Public Improvement (PI) folders in AMANDA and arlingtonpermits.com (ap.com). The updates will include changes, deletions, and updates to AMANDA folders, reporting, fees, and ap.com. PDS would also like to create folders/work types for processes not currently captured in AMANDA including zoning verification letter applications and Plat Pre-Application meetings. Both processes require an application fee and are manually tracked via spreadsheets.

While updating the existing PDS Land Development folders (ZC, PL, SP and PI) in AMANDA, this project will also provide an opportunity to define, document, change, and prioritize PDS business processes aligned with the AMANDA system best practices. This will require the support of a third-party consultant that will lead the mapping of current and future state business processes, facilitate stakeholder engagement, identify gaps, and process improvements that will result in the development of the AMANDA folders master plan.

Update:

The project team held recurring requirements gathering work sessions with the partner vendor. Created the process flowcharts, and user stories for the PDS Land Development folders (PAM, PL, SP, PI, and ZC) and the Multifamily Recycle Program (MRP) folder.

The AMANDA team conducted technical review and development effort for the PDS Land Development folders (PAM, PL, SP, PI, and ZC) and the Multifamily Recycle Program (MRP) folder. Performed a Go Live for the PAM folder.

Objective 2: Implement New Technology

	Project	Performance Measure(s)	Department(s)
PTW 1.2.1	Enterprise IT Project (FY 2020) – Fire Staffing Solution	Project Completion	Information Technology and Fire

Summary:

To deal with the growing demand of Fire and EMS service more effectively in the City of Arlington, the Arlington Fire Department has partnered with Information Technology to purchase a new staffing software. Telestaff will offer a modern software solution to assist in staffing the Department’s daily operations, schedule vacation, and manage unscheduled leave. The current solutions used by AFD are based on spreadsheets which are more than 10 years old.

Update:

UKG (Kronos) restarted solution development workshops in April and continues to adapt the application to meet current operational business requirements. Dispatch determined that their existing scheduling tool (CrewSense) was a better fit for their operations. A change order was issued in early August to remove Dispatch from the project proposal. When considering future Kronos Work Force Central (WFC) integration with Workday, it was determined that all Fire (Firefighters, Prevention and Support staff) would need to use Telestaff to manage time off and leave requests. UKG reconfigured Telestaff to include all Fire divisions (excluding Dispatch). Preliminary Telestaff to Kronos WFC crosswalk code testing has been underway for several weeks.

Objective 2: Implement New Technology

	Project	Performance Measure(s)	Department(s)
PTW 1.2.3	SCADA Integrator	Update Treatment Production Facilities – SCADA	Water Utilities

Summary:

As the Water Department Treatment Division is substantially updating its production facilities over the next five years, the need for a comprehensive Supervisory Control and Data Acquisition (SCADA) integration project was identified. This project will set programming and hardware standards and modernize the Human Machine Interface (HMI) platform utilized for all water treatment operational processes.

Update:

SCADA standards and governance have been finalized and are being implemented through several capital projects. The new SCADA servers have been installed. Many of the projects have begun transitioning to the new HMI graphics. JKWTP Chemical Project substantial completion has been moved to the end of September 2022; testing and corrections currently being performed to finalize and schedule the Functional Demonstration Test. The JKWTP Backwash Improvement project substantial completion date is late April 2023; for this project, SCADA initial programming has been completed, and Witness Factory Test is to be scheduled on or after November 2022.

Milestone	Estimated Completion	Actual Completion
PBWTP Hydrogen Peroxide System	Nov. 2020	July 2021

PTW 1.2.4	Traffic Management Technology Improvements	<ul style="list-style-type: none"> Implementation: Installing devices at locations and bringing them online Management: Using device data to improve traffic flow 	Public Works

Summary:

Implementing smart traffic management technology will assist the city in developing a more efficient transportation system that enhances regional mobility and increases the quality of life for residents and visitors.

Some of the benefits resulting from implementing new technology include:

- Reduced traffic congestion
- Prioritized traffic based on real-time conditions
- Quicker response to traffic incidents
- Reduced pollution

During FY 2022, work to implement new traffic management technology will focus on the following projects:

- Installation of additional connected vehicle devices on major corridors
- Installation of additional CCTV cameras for traffic monitoring
- Increasing the number of intersections evaluated by the *Automated Traffic Signal Performance Measures* (ATSPMs) monitoring system.

Update:

The connected vehicle project is expanding onto Matlock Road from Pioneer Parkway to Turner Warnell Road. Delivery of devices occurred in the 4th quarter. Staff began planning the installation of the devices that will begin in FY 2023.

A new traffic monitoring CCTV camera was installed at the intersection of Fielder Road and Sanford Street.

Corridor Travel Time Goals	Actual Travel Time
NB Cooper St. (Turner-Warnell Rd. to IH-30) 23:21 (+/- 2 min 20 sec)	21:37
SB Cooper St. (IH-30 to Turner-Warnell Rd.) 22:07 (+/- 2 min 13 sec)	22:40
NB Collins St. (Mansfield Webb Rd. to Mosier Valley Rd.) 28:31 (+/- 2 min 51 sec)	25:31
SB Collins St. (Mosier Valley Rd. to Mansfield Webb Rd.) 26:16 (+/- 2 min 38 sec)	26:30
EB Division St. (West City Limit to East City Limit) 15:57 (+/- 1 min 36 sec)	15:17
WB Division St. (East City Limit to West City Limit) 15:46 (+/- 1 min 35 sec)	15:27

Objective 2: Implement New Technology

Project		Performance Measure(s)	Department(s)
PTW 1.2.6	Enterprise IT Project (FY 2022) – Electronic Dashboards for Police	Project Completion	Information Technology and Police

Summary:

This project will identify and acquire a solution that will ingest/analyze data from the sources listed above and others to provide dashboards and reporting tools to APD. This solution will

- Connect to multiple active data sources
- Monitor data sources and provide alerts
- End-user friendly allowing simple configuration of dashboards, and
- Allow for separation of APD data from City data.

APD is a client of Tyler Technologies unitizing their Records Management System. During the pandemic, Tyler offered one of their projects, Socrata, to cities and agencies free for dashboarding and tracking of COVID-19 issues (Tyler acquired Socrata – a data analytics and storage system in 2018). APD is in the process of implementing Socrata for use in their COVID-19 reports and dashboards.

Update:

Conducted reference calls with customers of Tyler Technologies and SAS Institute as part of the vendor evaluation and selection process.

Conducted vendor demonstrations with Tyler Technologies and SAS Institute as part of the vendor evaluation and selection process.

Based upon the selection team’s evaluation, the recommended vendor is Tyler Technologies.

Started contract negotiation and rewriting the Statement of Work (SOW) with Tyler Technologies.

Notes: The Project Charter draft was delayed due to the review and validation of the project scope. The project stakeholders held a meeting on April 26, 2022, to finalize the Project Charter.

Put Technology to Work

Goal 1: Ensure Availability of Information, Programs, and City Services

Objective 2: Implement New Technology

	Project	Performance Measure(s)	Department(s)
PTW 1.2.7	Phase II ILS Platform Implementation	Complete Milestones	Library

Summary:

In FY 2021, an in-depth study was conducted of the Library's current integrated library system (ILS) platform to consider improvement opportunities and possible challenges. The ILS platform handles all the core business processing for the Library, including circulation, inventory control, catalog, and customer account management. Phase I research included working in concert with the two cooperative library partners (Mansfield Public Library and Kennedale Public Library) and City IT staff. Phase II will formalize and implement the outcome of the (ILS) platform research project completed in FY 2021. Based on the results from Phase I, Library will review the structures and features of the ILS to ensure the integrity of data and implementation of applicable features, with a focus on extracting maximum value from the product implemented.

Update:

In the 4th quarter, Library staff deleted over 800,000 bibliographic and item records associated with old withdrawn materials from the system. This helped to increase efficiency by minimizing the number of irrelevant results in staff searches. Library staff also reviewed and modified staff permissions to ensure that all positions have the level of access appropriate for their position. Library staff also reviewed and modified all primary database tables to ensure that patron loan limits were set correctly across the system. This process will continue into the beginning of the new fiscal year.

Milestone	Estimated Completion	Status
Review available ILS features (back end and front end) and determine applicability to Library.	Dec. 2021	100%
Implement or modify functionality to improve efficiency and usability of staff client and public catalog.	Sept. 2022	75%
Review system structure of ILS to ensure proper integration of APL data with consortium partners. Initiate training of partner libraries to empower them to manage tasks related to their systems.	Sept. 2022	100%
Review and clean up ILS data to ensure consistency and accuracy	Sept. 2022	100%

Put Technology to Work

Goal 1: Ensure Availability of Information, Programs, and City Services

Objective 3: Increase Convenience for the Customer

	Project	Performance Measure(s)	Department(s)
PTW 1.3.1	Update the PDS Customer Service Survey Tool	Increase the number of survey responses from our customers	Planning & Development Services

Summary:

During the current year, we will be evaluating and updating our customer service survey tool. The current Planning and Development Services survey tool has remained unchanged since 2009. The highest number of surveys returned occurred during FY 2012 with 625 responses. The number of survey responses dropped dramatically in FY 2020 to 91 surveys returned. Additionally, during the 4th quarter of FY 2020, PDS launched an ePlan Review Survey which performed much better with an average of 31 responses per month. However, the placement of the survey on ArlingtonPermits.com had applicants using the survey for non-ePlan Review responses. PDS will be working to improve the placement, method, and questions to better understand our customer needs to improve our service levels. As outlined in our department three-year workplan the primary focus will be in four main areas:

- Speed – Response time for conducting plan reviews and inspection requests; staff quickness in response to inquiries
- Certainty – Applicants flowing through the plan review and inspection process as expected
- Customer Experience – Clear direction and explanations of the plan review and inspection process to customers; PDS staff assistance through the process
- Quality of the Service – Staff credibility and competency; knowledge of codes, ordinances for plan reviews and inspections

Update:

During the 4th quarter the Engineers Plan Review survey was launched in September. Survey links are provided in the Site Plan review acceptance letter to the applicant.

Only two worktype surveys are outstanding (planning and health) and will be added in FY 2023.

Milestone	Estimated	Actual
PDS internal meetings held to develop an overall plan for better survey placement at different points in the development process	Mar. 2021	Apr. 2021
Research survey tools and develop draft survey questions	Apr. – July 2021	July 2021
Finalize survey questions and phased implementation by workgroup:	July 2021	Nov. 2021
Building Permits Issued (Plans Examiners)	July 2021	Jan. 2022
Building Inspections Performed	Aug. 2021	Jan. 2022
Land Development Zoning, Platting, Site Plans – (Planners/Engineers)	Sept. 2021	Sept. 2022
Business Services	Oct. 2021	May 2022
Health Services	Nov. 2021	

Performance Metric*	Target	Actual
Reporting of the survey results will begin three months after survey is launched beginning with Building Permits Issued Plans Examiners	Nov. 2021	Apr. 2022
Increased number of responses received quarterly beginning Jan. - Mar. 2022 (Building Inspections and Plans Examiners)	100 surveys returned each quarter	126 surveys returned
July-Sept. (4 th quarter) Building Inspections, Plans Examiners, and Business Services	100 surveys returned each quarter	158 surveys returned

*More metrics will be added as the project moves along.

The total number of survey responses received has significantly improved over this fiscal year and equals 316 responses received.

All surveys launched have tailored questions for each worktype/group on a scale of 1-5, with 5 being the best rating. The following % reflects the combined 4 and 5 ratings for specific categories:

WORK TYPE SURVEY RESULTS - YTD **4+ RATING %**

WORK TYPE	YTD RESPONSES RECEIVED	SPEED	COMMUNICATION	SERVICE QUALITY	OVERALL EXPERIENCE
 BUILDING INSPECTIONS	53	88.7%	86.8%	90.6%	86.8%
 BLDG. PERMIT PLAN REVIEW	49	73.5%	71.4%	75.5%	75.5%
 BUSINESS SERVICES	56	96.4%	94.6%	94.6%	94.6%

	Project	Performance Measure(s)	Department(s)
PTW 1.3.2	Post COVID-19 Jury Trial Implementation	In-Person Jury Trial Reimplementation	Municipal Court

Summary:

The Texas Supreme Court and Office of Court Administration have issued Emergency orders and guidance to Courts in response to the COVID-19.

In its Seventeenth Emergency Order Regarding the COVID-19 State of Disaster issued on May 27, the Supreme Court prohibited courts from holding jury proceedings, including jury selection or a jury trial, prior to August 1. This prohibition was extended and was lifted in the 36th Emergency order that lifted restrictions on in-person hearings and Jury trials but had to follow certain safety protocols.

Over the past year, the Municipal Court has over 1,000 cases waiting to be scheduled for Jury Trial hearings. The Court will follow the Supreme Court's authority and OCA guidance in reimplementing in-person Jury Trials.

Update:

The Office of Court Administration estimated that Court backlogs due to the pandemic would last anywhere from 3-5 years. The Arlington Municipal Court has fully resumed and re-implemented all pre-COVID-19 dockets. The Court and Judiciary continues to aggressively schedule and work through not only Jury trial backlogs but all dockets.

The Court conducted 219 In-person Jury trials since reintroducing these dockets back into the rotation and have resolved more than 928 cases of COVID-19 backlogs. Currently, jury appearance rates are at 25% compared to 30% pre-COVID-19 numbers.

Although the Municipal Court continues to operate under Emergency Orders, the Court has worked through the challenges and resumed dockets and hearings. Court Management and the Judiciary will continue to monitor any new COVID-19 restrictions and make the necessary adjustments should the safety and emergency needs arise again.

Milestone	Target Date	Status
Incorporate Stakeholders (Judges, prosecutors, Clerks, and Bailiffs) into a Jury committee to create a Jury implementation Plan.	4 th Qtr. FY 2021	Complete
Implement any physical/social distancing needs for courtrooms	4 th Qtr. FY 2021	Complete
Conduct Jury trial runs with limited dockets to create best practices.	1 st Qtr. FY 2022	Complete
Highlight and promote Jury Trials reintegration with attorneys and defendants.	1 st Qtr. FY 2022	Complete
Resume Jury trials increased capacity	2 nd Qtr. FY 2022	Complete
Reevaluate and Adjust	4 th Qtr. FY 2022	Complete

Objective 3: Increase Convenience for the Customer

	Project	Performance Measure(s)	Department(s)
PTW 1.3.3	Enterprise IT Project (FY 2022) – Inspection Scheduling Phase II	Project Completion	Information Technology and Planning & Development Services

Summary:

Planning & Development Services (PDS) would like to enhance the inspections process in AMANDA and arlingtonpermits.com (ap.com) by grouping inspections by phases, to provide a simplified, mobile-friendly view to enhance the overall customer experience.

Enhancements would include collapsing, adding, or renaming inspections in AMANDA to minimize the number of categories in the customer viewing list and auto-populate certain minimum required inspections in Residential Permits (RP), Commercial Permits (CP) and trade permits (Mechanical, Electrical and Plumbing).

Update:

The AMANDA team performed development based upon the requirements previously gathered.

Performed User Testing of the changes to AMANDA and AP.COM.

Conducted Go Live for AMANDA and AP.COM.

Started project closure activities.

Milestone	Estimated Completion	Status
Project Charter	1 st Qtr. FY 2022	Complete

	Project	Performance Measure(s)	Department(s)
PTW 1.3.4	Enterprise IT Project (FY 2022) – Citizen Reporting Tool Replacement	Project Completion	Information Technology and Communication & Legislative Affairs

Summary:

Support for the City’s citizen reporting mobile application, Ask Arlington, will be dropped by the vendor, Accela, sometime in 2021 (we have not been provided a specific date). This project is to replace the Ask Arlington app with a new mobile application that is usable on Apple and Android devices and provide web platform and texting capabilities. The tool will interface with the City’s existing applications that the Action Center (AC) agents utilize for their daily business operations.

Update:

The RFP was released on February 16, 2022. The RFP evaluation team reviewed six (6) vendor proposals. The evaluation team selected a vendor. Contract negotiations have been suspended. Operational requirements have changed. The project will reevaluate requirements and pursue purchasing software through a cooperative agreement, pending approval of a request to Council to reject all bids relative to Project #22-0025.

Milestone	Estimated Completion	Status

Project		Performance Measure(s)	Department(s)
PTW 1.3.5	Enhanced Interactive Development Process Guide (EIDPG)	Project Completion	Planning & Development Services

Summary:

With the changes that happened in the last few years concerning technology and COVID-19 restrictions, all permitting activity is now online. Many of our customers can conduct business with the City at the tips of their fingers and in the convenience of their homes/offices. However, we still receive several phone calls regarding how to move through the permitting process. Our staff are always willing and able to help these customers.

Currently, we have technical bulletins and short videos in different locations across our website. However, there still seems to be a disconnect with our customers and these resources. With the Interactive Development Process Guide, we plan to bring all the how-to videos for each process together in a very streamlined process flowchart thereby making it more easily available on google searches so that our customers can get to the specific item they are looking for. We will seek input from our customers and DRT concerning what would be most helpful. We will also be seeking guidance from OOC both on which tools to utilize for the website and for the shooting/editing of some of our how-to videos and interviews.

Update:

The script for two of the five videos (What We Do and Land Development Process) have been submitted and should be completed by November/December. Script on the remaining three videos is being worked on and will be forwarded to OOC monthly beginning November.

Milestone	Estimated Completion	Actual Completion
Department brainstorming session – Defined the problem/discussed the outcome	Aug. 2021	Aug. 2021
Informed Developers Round Table information on the project and request for their assistance	Jan. 2022	Jan. 2022

Support Youth and Families

Goal 1: Partner with Local Organizations to Educate and Mentor

Objective 1: Strengthen Education and Enrichment Programs

Project		Performance Measure(s)	Department(s)
SYF 1.1.1	AISD Natatorium Partnership	<ul style="list-style-type: none"> Percent of classes filled Customers Served Overall satisfaction with programs and facilities 	Parks & Recreation

Summary:

In partnership with the AISD, the City of Arlington produced an aquatics facility equipped with a 50-meter pool, a diving area, warm-up pool, and seating for up to one thousand spectators.

The joint use agreement provides an opportunity for considerable expansion to the already high level of aquatics programming offered by the Parks and Recreation Department. The agreement will allow over 2,500 annual usage hours in the 50-meter and warm-up pools. A variety of year-round programs such as swim lessons, water aerobics, and lifeguard training classes will be held at the natatorium.

Update:

There is not an update for the 4th quarter. Due to the lifeguard shortage, management decided to open the facility once additional lifeguards were on staff. The goal is to re-open AISD by the last week of October next quarter.

AISD Quarterly Update

Support Youth and Families

Goal 1: Partner with Local Organizations to Educate and Mentor

Objective 1: Strengthen Education and Enrichment Programs

	Project	Performance Measure(s)	Department(s)
SYF 1.1.2	Coordinate with United Way to Improve 211 Outreach and Referrals in Arlington	Number of 211 calls and referrals from Arlington residents	Office of Strategic Initiatives

Summary:

City staff will work with United Way Arlington to improve the 211 Information and Referral hotline for Arlington residents. Improvements will include:

- increased number of providers in the 211 database that serve Arlington residents;
- improved quality and accuracy of the database resources;
- increased number of Arlington residents using the 211 system for assistance; and
- increased number of callers from Arlington receiving referral matches.

Update:

The 211 Information and Referral hotline received a total of 8,489 referrals during the 4th quarter of FY 2022. The City of Arlington worked with United Way to ensure improvements to 211 were included to ensure calls were routed to the appropriate service providers. 211 has been a resource in providing valuable information about rental assistance, utility assistance, COVID-19 testing and vaccination sites.

Milestone	Estimated Completion	Status
UWA will include 211 improvements in their PY21 Work Plan	May 2021	Complete
City's CDBG agreement with UWA will include 211 improvement metrics	June 2021	Complete
UWA Program Year Begins	July 2021	Complete
Track and report metrics on a quarterly basis	July 2021 – June 2022	Complete

	Project	Performance Measure(s)	Department(s)
SYF 1.2.1	Arlington Urban Design Center (AUDC)	Number of projects completed	Office of Strategic Initiatives

Summary:

The Arlington Urban Design Center, a partnership between the University of Texas at Arlington and the City of Arlington, opened in June 2009. The Design Center provides conceptual renderings to businesses and neighborhoods in Arlington free of charge. Since 2009, the Design Center has completed over 473 projects and has employed 64 interns. OSI anticipates completing an average of 3 projects per quarter.

Update:

The AUDC is currently staffed with 2 interns and continues to work on multiple different types of projects at all times. A total of 3 projects were completed in the 4th quarter of FY 2022.

Culture/Recreation/Education

Goal 1: Provide Activities, Educational Opportunities, and Services that Meet the Needs of the Community

Objective 1: Develop and Implement Programming Based on the Needs of the Community

Project	Performance Measure(s)	Department(s)
Core CRE 1.1.1	<ul style="list-style-type: none"> Number of participants Customer surveys Revenue generation to maintain the program 	Parks & Recreation

Summary:

The Parks and Recreation Department offers a weekly themed, full-day camp program for Arlington youth, ages 5-12. Campers enjoy games, crafts, swimming, field trips and much more. Lunch and an afternoon snack are provided. Camp Dream launched the summer of 2017 at Hugh Smith Recreation Center. Camp DREAM is aimed at children whose guardians are not financially able to afford the registration fee for such an activity.

There is no monetary requirement for the program, but each family is required to attend a minimum of three days per week. Parks and Recreation collaborates with AISD's Office of Student Development and Support Services (SDSS) to identify children who are in transition and without Camp Dream likely remain alone during the summer workday. Applications are collected at EAST Library and Recreation Center and through the SDSS liaison.

Update:

Camp DREAM 2022 completed its fifth year. Important to note is that DREAM is offered at multiple centers to maximize the community benefit. Attendance numbers per week are in the existing chart. The data reflects increased camp capacity as the community adjusts to post-pandemic life. Overall, the total percentage fill rate for Camp 2021 was 84%. DREAM was 13.5% of participants; EAST's camp had the most significant DREAM participation at 44%.

Camp DREAM Participants

Core CRE 1.1.2	Active Adult Center	<ul style="list-style-type: none"> • Overall satisfaction of project management • Project completion on time and at budget • Citizen satisfaction with overall quality of parks and recreation programs and classes 	Asset Management and Parks & Recreation

Summary:

In a special election on May 6, 2017, Arlington voters approved obligation bonds to build an Active Adult Center. This new facility for residents 50 years of age and older will be located on the southwest corner of the Pierce Burch Water Treatment site on Green Oaks Boulevard between W. Arkansas Lane and W. Pioneer Parkway.

In April 2019, the City investigated alternative construction delivery methods for the project. A determination was made to proceed with a Request for Qualifications (RFQ) for a Construction Manager at Risk. However, with the onset of the COVID-19 pandemic, this RFQ was ultimately canceled.

In July 2019, the City issued an RFQ for Architectural/Engineering firms to design the new facility. Parkhill, Scott and Cooper were selected as the A/E firm for the project and began verification of the project program.

Update:

In the 4th quarter of FY 2022, Parkhill Architect completed 100% of the construction documents phase of the project. Manhattan Construction issued plans to sub-contractors for bidding. The guaranteed maximum price will be developed in October and will be presented to City Council at the 11-1-22 City Council meeting.

Milestone	Estimated Completion	Actual Completion
Initial Project Schedule/Development Phase	Jan. 2019	Jan. 2019
Architect/Engineer RFQ	July 2019	July 2019
Architect/Engineer RFQ	July 2019	July 2019
Architect/Engineer Selection Process	Oct. 2019	Dec. 2019
Council Approval of Architect Contract	Dec. 2019	Mar. 2020
CMAR approved delivery method to Council	Fall 2021	Jan. 2020
Finalize construction documents	Fall 2022	Fall 2022
Permit Process	Fall 2022	Fall 2022
Guaranteed Maximum Price to Council	Fall 2022	Fall 2022
Construction begins	Winter 2022	
Finalize selection of furniture and equipment	Fall 2023	
Construction complete	Winter 2024

Project	Performance Measure(s)	Department(s)
Core CRE 1.1.3	<ul style="list-style-type: none"> Number of participants Customer surveys Revenue generation to maintain the program 	Parks & Recreation

Summary:

The Beacon is a new facility in Southeast Arlington. FY 2021 will be the first full year of operation for The Beacon. The facility will provide an opportunity for considerable expansion to the already high level of center programming offered by the Parks and Recreation Department. The Beacon will offer private rentals and a variety of year-round programs such as fitness classes, league play, party services, summer camp, after school activities, and fine arts classes.

Update:

The 4th quarter closes summer programs and begins fall programming. Beacon began the second year for its after-school program during the 4th quarter.

Customer survey results for the quarter (17 total) ascribed an excellent rating to the facility's overall quality (88.24%), cleanliness of the facility (88.24%), maintenance of the grounds (82.35%), safety and security of the facility (82.35%), and quality of equipment and amenities (88.24%).

Summary:

The EAST is a new facility in East Arlington. FY 2021 will be the first full year of operation for EAST. The facility will provide an opportunity for considerable expansion to the already high level of center programming offered by the Parks and Recreation Department. The EAST is a unique facility because it is the only center in the system with an indoor pool and a partnership with Library services. It will offer private rentals and a variety of year-round programs such as fitness classes, party services, summer camp, after school activities, fine arts classes, and a full range of aquatics programming.

Update:

The 4th quarter closes summer programs and begins fall programming. EAST restarted its after school program during the 4th quarter. The EAST Indoor Pool is also one of two indoor aquatic locations the city operates

Customer survey results for the quarter (6 total) ascribed a satisfied to very satisfied rating to the facility's overall quality (83%), cleanliness of the facility (100%), maintenance of the grounds (100%), safety and security of the facility (100%), and quality of equipment and amenities (100%).

Objective 1: Develop and Implement Programming Based on the Needs of the Community

Project	Performance Measure(s)	Department(s)
Core CRE 1.1.5	<ul style="list-style-type: none"> # of passport applications Activity based revenue generated 	Library

Summary:

In FY 2020, the George W. Hawkes Downtown Arlington Public Library received pre-approval from the U. S. Department of State Passport Services to serve as a Passport Acceptance Facility. In FY 2022, the library will implement and market the new service.

The application process includes accepting in-person applications, submitting the paperwork for approval to the correct entities, monitoring and tracking documents regularly, and providing photographs when requested. A processing fee and photo fee, if requested, will be paid by the applicant generating new library revenue. Trained and certified Library staff will work in concert with the passport agency's assigned Passport Customer Service Manager.

Once implemented, this service will provide the community with quick and convenient access to obtaining a passport, even during evenings and weekends. This new project will complement and enhance the services already provided by other local sources such as the U. S. Post Office and the Tarrant County Sub-Courthouse. This new value-added service will also bring new people to the library, providing the serendipitous opportunity to learn about other services at their library that can meet their needs.

Update:

In the 4th quarter, we responded to the public's desire to have their time and travel efforts valued and ensure they are being seen by implementing an appointment-based system. This change involved incorporating an online system through, What's Next, which allows interested parties to create a reservation online, and was launched on August 1, 2022. The webpage was revised with information to support the public in preparation for their appointments. Additional information was added to inform people of the new student passport scholarship program, funded by a \$10,000 donation from the Otis and Rosie Brown Foundation.

Passport Applicants Processed

A total of 696 passport applications were processed in the 4th quarter. This decrease was directly associated with patrons not making appointments after their reservations were secured. In late September, library staff incorporated reminder calls the day before to cancel or confirm the appointments for the next day. This allowed others to use the unfilled time slots and support increased attendance. Staff continues to adapt and modify aspects of the passport service based on best practices.

Project		Performance Measure(s)	Department(s)
Core CRE 1.1.6	Implement Library Three-Year Strategic Plan	Citizen satisfaction with overall library services	Library

Summary:

The Strategic Plan is designed to position the Library as a relevant public service organization incorporating services and programs to improve the quality of life of Arlington residents and library users for the next three years. A comprehensive approach and communication strategies will inform and involve all levels of the library team to support a unified direction and gain the support of the guiding initiatives outlined in the new plan. The Library will utilize various channels to brand and communicate the new strategic plan to elevate the library's presence and visibility to the community. Initiatives undertaken to support this project will include alignment with Council priorities, Library Advisory Board input, staff and leadership feedback and community engagement. The strategic plan goals aim to create places and experiences for our users and to make meaningful connections through engagement and partnerships in our community.

Update:

The data and feedback have been gathered but the formal strategic plan is not yet complete. This project will continue into the next fiscal year.

Core FED 1.2.1	Internal Engineering Services for Water Utilities	Design 30,000 Linear Feet in FY 2022	Water Utilities

Summary:

The City of Arlington Water Utilities has historically outsourced design phase services to private professional engineering firms. It has been determined that utilizing internal engineering staff for design of specific projects would result in a lower design cost per foot of water and/or sanitary sewer lines. In FY 2014, Water Utilities began performing design utilizing internal engineering staff. The projects proposed for the internal design team consist of small diameter water and sanitary renewal projects.

Update:

The In-house Design team has provided sealed plans 16,957 linear feet in the 4th quarter. The total amount designed to date in FY 2022 is 32,020 linear feet.

Core FED 1.2.2	Open Records Requests/Intergovernmental Agency Requests	<ul style="list-style-type: none"> • Number of Open Records Requests • Number of Intergovernmental agency requests 	Police

Summary:

The Records Services Unit serves as the repository for the official records that document the activity of the Police Department. The Texas Public Information Act is a state law that gives any person the right to submit a written request asking for any document related to official city business. The department handles both ORR (Open Record Requests) from the public and IRR (Inter-Agency Record Requests) from other law enforcement agencies or segments of the criminal justice system. The department must provide a response within 10 business days regarding the status of a request, including if it was submitted to the Attorney General to rule whether or not the material is exempt from disclosure. The department continues to look for ways to expedite information for citizens when possible, to provide information publicly without waiting for a specific request.

Update:

Fourth quarter FY 2022 saw a slight increase over the third quarter in the number of Open Records Requests (ORR) and Interagency Records Requests (IRR).

ORRs increased 6.9% from 2,159 to 2,307 and IRRs increased 2.2% from 1,222 to 1,249. As in previous reports, the majority of ORRs comes from LexisNexis (40%) and the Department of Family and Protective Services (DFPS) submits the highest number of IRRs (23%). Other governmental agencies making requests for records include Tarrant County and the FBI.

Core FED 1.3.3	Rental and Lake Services – APARD Special Event Permit Application	<ul style="list-style-type: none"> • Number of Special Events Applications processed • Number of applications approved • Rental & lease revenue generated 	Parks & Recreation

Summary:

The Rental and Lake Services (R&LS) Division receives many requests to host special events in our park system from outside organizations. These events include fundraising and community type events, but do not reach the attendance numbers to warrant the City’s Special Event Application. To streamline the process and recover administrative costs associated with processing such requests, R&LS will create the Arlington Parks and Recreation Department (APARD) Special Event Permit Application to process events meeting certain criteria.

Application creation process will include:

- Establish fees for the processing of the Special Event Application.
- Establish special event parameters that would warrant an APARD Special Event Application requirement.
- Develop the process for application submission, payment of fees, application review, and notification for approval or rejection.
- Creation of the document with City Attorney’s Office approval.

Update:

The development of the application template is complete and received Legal approval. The application fee is set at \$75. Guidelines have been established for an event to require the special event permit application, as well as which internal stakeholders are responsible for reviewing the application and authorizing the event. The Special Event Permit Application process is now fully implemented.

Description	Estimated Completion	Actual Completion

	Project	Performance Measure(s)	Department(s)
Core FED 2.1.1	Organizational Succession Planning	Phase III: Expansion of Implementation FY 2022	Human Resources

Summary:

Succession planning is one of the most important HR strategic processes. It identifies key roles and mapping out ways to ensure the city has the right people with the right skills, capabilities, and experiences, in the right place at the right time. The FY 2020 plan was to establish and implement a city-wide succession plan. However, as the team worked through the process, it was determined that a city-wide launch was not the best rollout of the program as there were too many aspects of the process that needed to be established before a city-wide implementation.

The Human Resources shifted from the original plan to focus on establishing the process and implementation of a succession plan in the HR department first, to allow the team the opportunity to work out all the nuances of the process.

In FY 2020, Human Resources established the protocol and process to implement and sustain an Organizational Succession Plan for the City of Arlington

Update:

HR Leadership has shelved this program for Human Resources and is no longer active; remains active with other participating departments.

Financial/Economic Development

Goal 2: Promote Organization Sustainability by Recruiting, Retaining, and Developing Outstanding Employees

Objective 1: Foster and Maintain a Work and Learning Environment that is Inclusive, Welcoming, and Supportive

	Project	Performance Measure(s)	Department(s)
Core FED 2.1.3	Communication and Workforce Engagement	Completion of Milestones	Human Resources

Summary:

In the past two years, the Human Resources had a goal to play a more central role in communicating HR information, and providing integrated resources, to employees with a focus on customer service excellence. The Human Resources rebrand was Phase I of this plan.

The next phase is for Human Resources to establish a palette of communication channels, specifically for our internal customers, that will highlight important information for employees to know and engage with; provide situationally based communications regarding programs and policies that specifically affect employees; and provide access to an organized, easy to access platforms. Items related to this are noted in the Milestone section.

Update:

Agents of Change and Engagement – ACEs met virtually in July to prepare for upcoming Customer confirmation sessions where they were all able to preview Phase II of Workday and provide feedback. Email updates have been provided monthly following the sessions. Monthly meetings will resume once Phase II testing begins.

Stay Survey – The city-wide Stay Survey was launched at the start of July and remained open for participation for one month. A total of 1,213 employees responded from which 1,083 completed responses were used for analysis. Quantitative and qualitative responses were analyzed and presented to City leadership at the 3rd quarter meeting. Following the quarterly presentation, individual departmental debriefs were scheduled and have been started. Departmental debriefs will continue into the new fiscal year.

Document Translation – Ongoing document translation. Review by staff has been delayed.

Milestone	Target Date	Status

Objective 1: Foster and Maintain a Work and Learning Environment that is Inclusive, Welcoming, and Supportive

	Project	Performance Measure(s)	Department(s)
Core FED 2.1.4	Planning Commission Training	Project Completion	Planning & Development Services

Summary:

Training can improve decisions of the Planning Commission and help commissioners provide best-practice recommendations to the Council. The goal is to both inform and expand the thinking of commissioners about urban planning and the development process.

Planners and other professionals will conduct a series of training sessions ranging from “how to” topics to cutting-edge thinking. Training will take place during P&Z work sessions.

The dates for training may be adjusted depending upon the caseload scheduled for a particular day.

Training began after new commissioners were appointed in August.

Update:

Milestones	Estimated Completion	Actual Completion
Nuts & Bolts of Plats	Aug. 2021	Aug. 2021
Gas Well Regulation	Sept. 2021	Sept. 2021
Arlington Comprehensive Plan	Oct. 2021	Oct. 2021

Objective 1: Foster and Maintain a Work and Learning Environment that is Inclusive, Welcoming, and Supportive

	Project	Performance Measure(s)	Department(s)
Core FED 2.1.5	Compensation and Classification Structural and Strategic Review	Modification or validation of various compensation and classification components.	Human Resources

Summary:

The Organizational Development Team, specifically the OD Manager and Compensation Specialist, will conduct a full and comprehensive review of all current pay structures, strategies, and philosophies. This will include an examination of comparative benchmark organizations, reviews of the City's current pay philosophies and relatedness to strategy and execution, recalibration of structures or strategies to align with benchmark organizations, definitive guidelines on pay adjustments and reclassifications, and other items that would be of significant impact for a successful, equitable and sustainable compensation program.

Update:

A comparative market analysis was presented to CMO in the 4th quarter recommending the methodologies to evaluate benchmarked positions to public/private market equivalents.

Market equity and salary structures were adjusted based on the comparative market data analysis. Note that market equity increases will be adjusted after the approved 6% COLA which is scheduled to take effect in 1st quarter FY 2023 and all positions whose pay is below the 90% of the midpoint pay range will be adjusted to move to 90% of the midpoint's pay range to recognize equitable market pay.

Milestone	Estimated Completion	Status
Identification of Comparative Market Sources (Benchmark Cities and Organizations)	4 th Qtr. FY 2021	Complete/Ongoing
Review of the City's most recent compensation philosophy and its relative effectiveness or utility	1 st Qtr. FY 2022	Complete
Identification and confirmation of City's official pay philosophy, strategy, and equity	2 nd Qtr. FY 2022	Complete
Review of the City's current pay structures and how they relate to pay strategy and identified goals	2 nd Qtr. FY 2022	Complete
Examine recommendations for creating equitable pay policies or practices	2 nd Qtr. FY 2022	Complete
Development of official guidelines for Compensation and Classification-related practices	3 rd Qtr. FY 2022	Complete
Finalize compensation philosophy and its relative effectiveness or utility	4 th Qtr. FY 2022	Complete

Implement new process in Workday	2 nd Qtr. FY 2023	Not Started

Infrastructure

Goal 1: Plan, Manage, and Maintain Public Assets

Objective 1: Maintain City Standards for all Equipment

	Project	Performance Measure(s)	Department(s)
Core INF 1.1.1	Reduce Percentage of Fleet Beyond Service Life	Percentage of Fleet Beyond Service Life	Asset Management

Summary:

The City has set a target of having no more than 15% of its fleet operating beyond recommended service life at any one time. Vehicles and equipment that are beyond recommended service life may have more down time and may have less functionality compared to what is currently available on the market. After the service life ends, maintenance and repair are at an extra cost. The City pays an extra, hourly rate for mechanical failures and wear and tear which increase with vehicle age.

Update:

At the end of the 4th quarter our fleet is at 30% out of life cycle. City has received 50 new Police patrol units. However, we have only had 1 new unit go into service. From FY 2021 through FY 2022 there has been 42 new units that have been order that we have not received. This includes Parks, Public Works and PD, Code Compliance and non-patrol Police units. All 93 units go into services, this will lower out of life cycle to 19%.

Percentage of Fleet Beyond Life
(Goal is 15% or less)

Contracted Service Life – Summary

Criteria in Years	Criteria in Units	Vehicle
7	150,000 miles	Marked Police Vehicle
10	120,000 miles	Sedan, Compact & Midsize
10	150,000 miles	SUV, Light Truck, Van
10	150,000 miles	Truck, 3/4 Ton-1 Ton
10	150,000 miles	4x4 Truck, 3/4 Ton-1 Ton
10	120,000-150,000 miles	Mid-sized Truck (ex. Bucket Truck, Dump Truck)
12	200,000 miles	Fire Engine, Quint
15	8000 hours	Equipment (ex. Backhoe, Loader, Gradall)

Infrastructure

Goal 1: Plan, Manage, and Maintain Public Assets

Objective 2: Maintain City Standards for all Municipal Buildings

	Project	Performance Measure(s)	Department(s)
Core INF 1.2.1	Fire Station #1 Rebuild	<ul style="list-style-type: none"> Overall satisfaction of project management Project completion on time and at budget 	Asset Management and Fire

Summary:

In November 2014, Arlington voters approved general obligation bonds for the reconstruction of Fire Station #1. The Arlington Fire Department has partnered with Asset Management to re-design the existing facility located at 401 W. Main St. The station is at the heart of the City's Downtown and one of the oldest facilities currently managed by the Fire Department and was most recently remodeled in 1987.

Update:

In the 4th quarter of FY 2022, foundation and slab work were completed. Additionally, masonry walls and structural steel work began.

Milestone	Estimated Completion	Actual Completion
Initial Project schedule/development phase	Dec. 2018	Dec. 2018

Project		Performance Measure(s)	Department(s)
Core INF 1.2.3	Animal Services Center Generator	<ul style="list-style-type: none"> • Overall satisfaction of project management • Project completion on time and at budget 	Asset Management and Code Compliance

Summary:

In November 2020, City Council approved an Arlington Tomorrow Foundation Grant in the amount of \$474,550 to design and install a new generator at the Animal Services Center located at 1000 SE Green Oaks Blvd. This project involves designing and installing a new generator and automatic transfer switch to assure electrical and mechanical systems in the kennel areas do not fail during electrical outages. This amenity is needed to make sure animals housed in this facility are not left without air conditioning or heating in the event power is lost during a storm event. Code Compliance has partnered with Asset Management for this project.

Update:

As of the 1st quarter of FY 2022 this project has been completed.

Milestone	Estimated Completion	Actual Completion
Initial Project Schedule/Development Phase	Jan. 2021	Jan. 2021
Design and Order Generator	Apr. 2021	Apr. 2021
Generator Delivery	Sept. 2021	Sept. 2021
Generator installation	Nov. 2021	Nov. 2021
Project completion	Dec. 2021	Jan. 2021

Infrastructure

Goal 1: Plan, Manage, and Maintain Public Assets

Objective 3: Maintain City Standards for all Public Infrastructure

Project		Performance Measure(s)	Department(s)
Core INF 1.3.1	Airfield Pavement Marking Rehabilitation	Total Aircraft Operations	Aviation

Summary:

Rehabilitate all airport pavement markings to provide enhanced safety during low-visibility and night operations. The existing pavement markings have faded and begun to chip away due to normal degradation and are no longer in compliance with the latest FAA Advisory Circular. New pavement markings are necessary to provide pilots with the navigational assistance needed during low-visibility and night operations.

Update:

Airport staff began the process of obtaining a grant from TxDOT Aviation, but due to material shortage and a strained labor force, the estimated budget necessary for this project dramatically reduced the feasibility. Airport staff are currently looking at alternative options.

Airfield Pavement Marking Rehabilitation

Infrastructure

Goal 2: Support and Expand Programs to Reduce Environmental Impacts

Objective 1: Mitigate Operating Costs and Impact on Environment

	Project	Performance Measure(s)	Department(s)
Core INF 2.1.1	Advanced Metering Infrastructure	Install 10,000 meters and MIUs in FY 2022	Water Utilities

Summary:

The City of Arlington Water Utilities will install 10,000 meters and MIU's in 2022 through an ongoing meter replacement program and water line renewals.

The MIU receives input from the meter register and remotely sends data to a fixed base data collector, located at one of five elevated storage tanks around the City. Top of the hour readings and other diagnostics are instantly forwarded to the network allowing for a greater awareness of the distribution system and possible on property leak conditions. In addition, the MIU stores up to 35 days of hourly consumption, providing the utility with the ability to extract detailed usage profiles for consumer education, such as water conservation, and billing dispute resolution.

Update:

Even in a supply chain challenged environment, AWU has installed 8,704 AMI units, exceeding our expected goal by 33.9%. The total is 96.7% of the non-controlled annual productivity. Manufacturing issues have caused a delay in production of AMI units. AMU has not received the requested number of units since April 2021. The supply issues still exist but we expect to receive an increased number of units in the next fiscal year, allowing for full deployment of our annual pre pandemic production level.

Milestone	Estimated Completion	Actual Completion
Wrap up FY 2021 Installs	Sept. 2021	Sept. 2021
Begin MUI/Meter Installs	Oct. 2021	Oct. 2021
Council Approval of Meter Replacement funding	Feb. 2022	Feb. 2022
Council Approval of Annual Meter Supply Contract	June 2022	Mar. 2022
Complete MIU/Meter Installation for FY 2022	Sept. 2022	

Infrastructure

Goal 2: Support and Expand Programs to Reduce Environmental Impacts

Objective 1: Mitigate Operating Costs and Impact on Environment

	Project	Performance Measure(s)	Department(s)
Core INF 2.1.2	Water Conservation Program	Maintain metered ratio rolling average above 88%	Water Utilities

Summary:

The City of Arlington Water Utilities will maintain a metered ratio rolling average above 88%. In FY 2022, Arlington Water Utilities will proactively evaluate 25,000 linear feet of water line for leaks to catch them in the early stages before significant water loss occurs. Arlington Water Utilities will also evaluate and make recommendations to purchase additional leak detection technologies to accomplish this goal.

Update:

The metered ratio for the 4th quarter is 89.57% AWU is fielding a 3-person team to initiate leak detection on a more active scale and to determine areas in which drought conditions affect more often water main leaks resulting in water main replacement. AWU experienced a 300% increase in water main breaks over the previous year.

Metered Ratio

Infrastructure

Goal 2: Support and Expand Programs to Reduce Environmental Impacts

Objective 1: Mitigate Operating Costs and Impact on Environment

	Project	Performance Measure(s)	Department(s)
Core INF 2.1.3	Wastewater Collection Initiatives	Clean 20% of sewer lines 6" through 15"	Water Utilities

Summary:

The City of Arlington Water Utilities entered into the Sanitary Sewer Overflow (SSO) Voluntary Initiative established by the Texas Commission on Environmental Quality (TCEQ) in 2005. To participate, the City of Arlington agreed to evaluate its sanitary sewer system and develop an action plan that includes a schedule of dates detailing when corrective or preventative maintenance will occur. Arlington Water Utilities has also established a goal of cleaning 20% of sewer lines 6" through 15" annually.

Update:

AWU has exceeded the stated target cleaning goal by 12 % and our estimated goal by 10.3 % this fiscal year. The addition of the large line cleaning truck has increased the capability of the section and allowed for cleaning of large outflow sewer lines greater than 15".

**6" - 15" Sewer Lines Cleaned
(Linear Feet vs. Total Footage)**

Infrastructure

Goal 2: Support and Expand Programs to Reduce Environmental Impacts

Objective 1: Mitigate Operating Costs and Impact on Environment

	Project	Performance Measure(s)	Department(s)
Core INF 2.1.4	Recycling Services	Residential Recycling Collected (Tons)	Asset Management

Summary:

The City of Arlington continues to educate residents on proper recycling to lessen contamination rates, increase participation and improve the quality of residential recycling materials. Staff has actively been participating in a Regional Recycling Campaign through the North Central Texas Council of Governments, and along-side other regional stakeholders, to decrease curbside contamination of residential recyclables and present a unified recycling message across the region. The City also provides recycling drop-off locations at each library, which can be used by residents who live in multi-family developments that may not provide recycling services.

Update:

In the 4th quarter of FY 2022, Republic Services collected 5,597.9 tons of recyclables in July, August and September from Arlington residents. The number of tons collected for October will be available in mid-November. 37.68 tons of recyclables were collected in July, August and September from the library recycling drop-off locations. The number of tons collected for October will be available in mid-November.

Project		Performance Measure(s)	Department(s)
Core INF 2.2.1	Council Environmental Task Force Recommendation – Reduce Carbon Footprint	<ul style="list-style-type: none"> Reduction in Building Energy Consumption Reduction in City Vehicle Fuel Consumption 	Asset Management

Summary:

As part of the Council’s Environmental Task Force recommendations in July 2020, staff is working towards:

- Continuing to build new facilities and integrate new building components into existing facilities to reduce energy consumption;
- Including green energy sources in newly constructed facilities;
- Electrifying fleet services by replacing conventional fuel vehicles with electric vehicles when they are due for replacement, and installing new vehicle charging stations.

Update:

Installation of 4 electrical charging stations has been completed. The next set of charging station to be installed is at Ott Cribs Safety Center, which should be completed by the end of the 1st quarter of FY 2023. Staff is moving forward with 2 other locations for electrical vehicle charging stations - East and West Police substations.

Milestone		Estimated Completion	Actual Completion
BUILDING CONSTRUCTION	New Facilities and Major Building Components to Comply with the 2017 International Energy Code	Ongoing	
	Include Alternative Energy Source in At Least One Newly Constructed Facility	2023	
FLEET	Install up to 10 New Electric Vehicle Charging Stations	2022	
	Seek Grants & Partnerships to Electrify Fleet	2023	
	Replace Beyond-Service-Life Vehicles with Electric Vehicles*	2028	

*Replacement of vehicles that are beyond service life is dependent upon funding availability.

Objective 2: Protect and Preserve the Natural Environment

	Project	Performance Measure(s)	Department(s)
Core INF 2.2.3	Council Environmental Task Force Recommendation – Wildlife Reporting Outreach	Citizen Perception of Animal Services	Code Compliance

Summary:

In 2014 Animal Services created a GIS map for residents to report animal sightings to bring awareness to the City’s native wildlife. Arlington citizens can report animal sightings through the Ask Arlington app where they are able to report wildlife such as bobcats, alligators, coyotes, feral hogs, beavers, opossums, and a whole host of different birds (including birds of prey).

Animal Services has joined, along with other City departments, the Council’s Environmental Task Force (CETF) to focus efforts to implement a wildlife program to educate and bring awareness of the City’s native wildlife. With marketing efforts, Animal Services plans to increase wildlife reports through the Ask Arlington app.

Update:

Animal Services is promoting the wildlife program “Keep Wildlife Wild” as well as encouraging citizens to report wildlife sightings through the website and Ask Arlington application. In December, a story map was created on the website detailing the Sustainable Wildlife Program that educates citizens about sightings, trapping, reducing wildlife at home, protecting your pets, and handling orphaned/injured wildlife. The website has been viewed over 250 times. During the 4th quarter, Animal Services received 40 wildlife reports resulting in an 8% total increase over the previous year.

	Project	Performance Measure(s)	Department(s)
Core INF 2.2.6	Council Environmental Taskforce – Balance Habitat Protection and Community Needs		Public Works and Code Compliance

Summary:

This recommendation from the Council Environmental Task Force connects to several programs that the organization has in progress or is planning to begin. Those programs are briefly described to the right.

Update:

Arlington Citizen Science Program: Data from the first iNaturalist workshop and bio-survey conducted in October 2021 was used to develop the taxa parameters for the Pollinators of Arlington project. Additional bio-surveys are scheduled for April, June, and July 2022 and will include members of the Bee City Committee, Texas Master Naturalists, high school plant club, and local nature enthusiasts.

Launch iNaturalist App for Arlington Citizen Science Program: The Pollinators of Arlington project was implemented in March 2022 with 325 known pollinator species identified from over 1,200 observations from Bee City Committee members, Texas Master Naturalists, and local nature enthusiasts. To date, the iNaturalist program has identified 647 pollinator species with over 3,662 observations.

The launch date for the Aquatic Life Program, which uses the iNaturalist app to identify species found in Arlington waterways, has been revised from summer 2022 to fall 2023. Under this program, data will be collected from current iNaturalist users, local Texas Master Naturalists, and other citizen scientists. Species data will also be gathered from specific locations utilizing some of the Stream Team monitoring sites that have been set up by the Environmental Management group. This data will provide material for use in the stormwater education outreach programs and presentations.

Dept.	Project	Status
PWK	Consideration of impact to and ways to re-establish native habitats (including Cross Timbers Ecoregion) on all projects	Implemented
PWK	Implement native and adaptive plant outreach program	Implemented
PWK	Establish Arlington Citizen Science Program	Nov. 2021
PWK	Launch iNaturalist app for Arlington Citizen Science Program	Mar. 2022
Planning	UDC amendment to include Cross Timbers Tree Preservation Standards	Implemented
Code	Implement Wildlife Education Program	Oct. 2021

Milestone	Estimated Completion	Percent Complete
Host 4 educational wildlife classes	Sept. 2022	100%
Complete 52 #WildlifeWednesday educational outreach posts	Sept. 2022	52%
26,000 engagements via educational wildlife outreach	Sept. 2022	100%

Animal Services collaborated with outside agencies such as Texas Parks and Wildlife and River Legacy to improve the wildlife program. During the 4th quarter, Animal Services shared 18 #WildlifeWednesdays on social media platforms

Additionally, Animal Services partnered with River Legacy to educate summer camp students on urban wildlife and attended six classes.

Public Safety

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 1: Improve Quality of Life and Place

Project		Performance Measure(s)	Department(s)
Core PS 1.1.1	Crime Reduction	<ul style="list-style-type: none"> Crimes Against Person Crimes Against Property Crimes Against Society 	Police

Summary:

The City of Arlington has experienced a reduction in crime for the past seven years. Sustaining this reduction in crime continues to be at the forefront of the mission for the Police Department. Geographic accountability, technology, intelligence, and community engagement all play a vital role when implementing a sustainable and conducive crime reduction strategy.

Beginning in January 2017, the Police Department began reporting data as part of the National Incident-Based Reporting System (NIBRS). This system captures more detailed information for each single crime occurrence rather than the traditional Summary Uniform Crime Report (UCR), which is based on a hierarchy summary reporting system. NIBRS data identifies with precision when and where a crime takes place, what type of crime occurred, and the characteristics of its victims and perpetrators. While the UCR data will be used for historical and overall benchmarking of crime statistics, NIBRS data will provide us with more defined, granular detail of the crime in our city. This will help the department's overall crime reduction goal by giving crime analysts more data and allowing for more targeted, proactive policing. The department submits crime data in NIBRS format to the Texas Department of Public Safety and receives a Summary UCR (Part I) report in response.

Update:

In the 4th quarter compared to the previous quarter, Crimes Against Person decreased by 6%, Aggravated Assaults decreased by 2%. Crimes Against Property increased by 2%, driven by an 8% increase in Robbery Offenses, and an 8% increase in Vehicle Thefts. Burglaries of Motor Vehicle decreased by 2%. Crimes Against Society increased by 5% overall.

Crime Rate Reduction Project: Crimes Against Person*

Crime Rate Reduction Project: Crimes Against Property*

Crime Rate Reduction Project: Crimes Against Society*

* Charts show the three crime code categories used in NIBRS. Data extracted on 10/10/2022

Crime Reduction Efforts for this quarter include:

1. The Violent Crimes Unit continues its focus on investigating crimes committed with firearms. In the 4th quarter, the unit was assigned 140 cases. In support of gun-related investigations, the Crime Scene Unit made 440 entries of shell casings into the National Integrated Ballistic Information Network (NIBIN) and received 77 investigative leads. Overall, the department booked 13% less firearms than the previous quarter.
2. Detectives referred 3 cases to APD's federal partners for prosecution.

Public Safety

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 1: Improve Quality of Life and Place

Project		Performance Measure(s)	Department(s)
Core PS 1.1.2	Traffic Safety	<ul style="list-style-type: none"> Injury Crashes DWI Crashes CMV Inspections 	Police

Summary:

Every year, millions of people travel the roadways throughout the city. Reaching their destination safely is of the utmost concern. In 2019, a total of 13,111 crashes occurred within Arlington city limits, a slight increase of 1.28% from 2018 (12,945).

To continue crash reduction in the city, the department will continue using a new, multi-faceted approach that will overlay crash information with crime information. This approach is called the Data-Driven Approaches to Crime and Traffic Safety (DDACTS). The goal of utilizing this data analytics approach is to decrease the number of vehicle crashes in the City. Effective enforcement and education efforts will be complementing factors to the data. The Department continues to receive a comprehensive traffic safety grant through the Texas Department of Public Safety.

The Department continues to place emphasis on conducting safety inspections of CMVs as part of the Traffic Safety plan. The CMV inspection and enforcement program consists of a full time CMV unit. The CMV enforcement program is supplemented using a CMV grant through the Texas Department of Public Safety and United States Department of Transportation.

Update:

The traffic unit continues to focus our efforts on safe driving in our city, with some significant reductions in fatality crashes. Fatality Crashes have been reduced by 42% compared to 2021.

We continue to support Operation Connect and focused our efforts in the North District violent crime reduction initiative in this quarter. The Traffic Unit assisted with directive patrols and enforcement. In last month of the quarter, the Traffic Unit began to respond to traffic related calls for service to reduce call volume on patrol. The Unit now responds to

Injury Crashes

DWI Crashes

CMV Inspections

crashes, assist motorists, and other calls that relate to traffic. This has resulted in a positive response from patrol.

Traffic Unit continues its community engagement partnership with Safe Kids International. We hosted several events that coincided with the end of the school year to remind kids about safety over the summer. A major component of these events was water/pool safety. During the summertime we see an increase in water-related incidents involving young children. Additionally, officers have continued to provide safety seat education to elementary schools and through its partnership with Seasons of Change Inc. These efforts include providing free safety seats and the installation of the seats in vehicles.

The Commercial Vehicle Enforcement Unit continues to pro-actively do enforcement on commercial vehicles that travel in our City. The unit partners with other municipal, county, and state agencies to make the roadways safe for the motoring public throughout the region.

The DWI Unit continues its strict enforcement of DWI laws through traffic enforcement and community education. The unit patrols high traffic areas and assists patrol districts to target repeat crash locations. The unit recently completed a 2-week cycle in which presentations were given to high school students. The presentations focused on the dangers and ramifications of driving while intoxicated and included testimonials from families impacted by the loss of a loved one to a DWI driver.

Public Safety

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 1: Improve Quality of Life and Place

Project		Performance Measure(s)	Department(s)
Core PS 1.1.3	Victim Services Response to Crime Victims	<ul style="list-style-type: none"> Total Crime Victims Served On-scene Crisis Response 	Police

Summary:

Victims of crime, including domestic violence, may be of any gender, age, sexual orientation, race, religion, or ethnicity. Victimization may happen to an individual, family, group, or community. The impact of crime on an individual victim, their loved ones, and their community depends on a variety of factors, but often crime victimization has significant emotional, psychological, physical, financial, and social consequences.

Department investigators work quickly to expedite the most serious of cases and those with high-risk indicators. While investigators work the criminal aspect of the case, the Victim Services Unit provides resources to victims and family members with the goal of lessening the short and long-term trauma experienced as a direct result of the victimization. Victim Services provides crisis intervention and counseling, criminal justice support and advocacy, information and referral, notification of rights and transportation to shelters to all victims of violent crime reported to the Arlington Police Department.

Victim Services Counselors are on duty 7 days a week to respond to requests for immediate crisis intervention for victims of domestic violence and other traumatic crimes.

Update:

During this quarter, the Victim Services Counselors serviced a total of 2,787 crime victims, with a total of 145 on scene crisis intervention responses for victims of crime. 1,232 dedicated service hours were extended to victims of crimes during this quarter by VS counselors. Victim Services Counselors served 1,459 domestic victims, to include family violence of any type of familial relationship.

Victim Services Counselors serviced a total of 75 victims and family members with emergency transport needs via taxi vouchers.

Onscene Response

Crime Victims Served

Domestic Violence Victims Served and Outreach Hours

The Victim Services Counselors also provided direct case management services to a total of 934 victims of domestic violence, with a total of 288 hours dedicated to case management. The Victim Services Department continues to accommodate victims who require moderate case management interventions, to include safety plans and risk assessments for victims who consistently present as a repeat victim. These case management interventions are done by both, virtual means and by way of direct face to face contact, depending on the risk factors. High Risk cases continues to take priority of managing the case face to face with the victim.

Public Safety

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 1: Improve Quality of Life and Place

Project		Performance Measure(s)	Department(s)
Core PS 1.1.4	Project RAISE (Risk, Assessment, Intervention, Safety, and Engagement)	<ul style="list-style-type: none"> High Risk Intimate Partner Violence (IPV) Victims Outreach Hours Dedicated to IPV Victims 	Police

Summary:

Project RAISE (Risk, Assessment, Intervention, Safety, and Engagement) consists of a victim centered Multi-Disciplinary Team of social service, community, and criminal justice agencies partnering together to address the issues that high-risk family violence victims face. Project RAISE offers a professional support system to help develop a safe and healthy climate for the victim.

Project RAISE focuses on the intervention of the high-risk intimate partner violence (IPV) locations within each geographic district per month. The safety risk of each location is evaluated by monitoring the number of calls, history of violence, and the severity of violence. An in-depth assessment is completed for the victim including a history of violence, barriers to service, needs assessment, and previous resources. This is accomplished through a Co-Responder Team onsite visit. The team consists of a Victim Services Crisis Counselor and a patrol officer. Safety planning and crisis intervention is provided to the victim to offer alternatives to a violence-free household.

Awareness of these ongoing situations provides an opportunity to intervene.

Update:

This quarter, The Victim Services Department identified 1,019 victims of IPV. The Victim Services Department provided responsive interventions with a total of 59 cases identified as high risk (RAISE) for IPV which required a dual response home visit. The VS counselors spent 71 hours serving (RAISE) home visits this quarter. The counselors spent a total of 482 hours working with victims of IPV.

The Victim Services Counselors provided assessments, interventions, and referrals to community stakeholders, with an overall effort in decreasing the risk of further violence within the household.

Domestic Violence Victims

Public Safety

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 1: Improve Quality of Life and Place

Project		Performance Measure(s)	Department(s)
Core PS 1.1.5	Behavioral Health Calls for Service and Special Response Units	Calls for Service with a Behavioral Health Component; CRT and CIT response; NEDs.	Police

Summary:

Individuals with behavioral health challenges are vulnerable members of our community who deserve to be treated with dignity and respect.

Police agencies are often the front-line responders to those struggling with a behavioral health crisis. In addition to staff time and resources, these are dynamic environments that have potential for harm to both staff and those involved.

Our partnership with the MHMR Law Liaison project provides APD an opportunity to interject a mental health professional into these encounters and work in conjunction with officers to achieve stabilization, develop positive rapport with law enforcement and provide connectivity to services.

Arlington Police Department utilizes a hybridized approach in which Behavioral Health Response Officers (BHRO) on patrol are partnered with MHMR Law Liaisons to form a Co.Responder Team. They conduct follow-ups and engage individuals struggling with behavioral health issues by providing resources. BHROs are also paired together to form a Crisis Intervention Team for calls and follow-ups.

Update:

The Behavioral Health Law Enforcement Unit (BHLEU) acquired the new BHLEU uniform. The unit is now fully operational and keeps exploring for ways to assist patrol, specialized units and the jail as well as continue case management with frequent utilizers. The unit has played a vital part in several calls for service that involved barricaded person and other critical incidents.

A core function of the team is training fellow officers in Crisis Intervention Team. They have done several week-long trainings for both recruits and current officers as well as assist in realistic behavioral health scenarios for the academy. The majority of the team

Calls for Service –Behavioral Health Component

CRT

CIT

is also training to become instructors for Valor resiliency training which will be deployed next year.

Community Outreach with the homeless population has focused on frequent problem areas where multiple calls for service and citizen complaints arise. The unit is under development of a system for better collaborative communication.

The unit continues to attend patrol briefings and staff meetings to discuss best practices. The ancillary program consisting of 4 MHMR Tarrant Law Liaisons and specially trained Behavioral Health Response Officers from patrol continues our collaboration with county agencies to direct individuals to the most effective treatment alternative.

Public Safety

Goal 1: Utilize Targeted Initiatives and Industry Best Practices and Policies to Foster a Safe Environment

Objective 2: Protect Public Well-being

Project	Performance Measure(s)	Department(s)
Core PS 1.2.1	Reduce traffic related fatalities and serious injuries	Public Works

Summary:

Vision Zero is a traffic safety concept whose goal is to reduce fatalities and serious injuries on roadways to zero. An action plan including engineering, planning, education, enforcement, and prosecution was developed. Analysis actions, evaluation actions, engineering actions, other departmental actions, preparation actions, and safety preventative actions are included in the action plan. These actions lead into the ongoing development of the crash profiles and crash mitigation strategies.

In FY 2022, work will continue to implement the Safe Route to School (SRTS) Program, accident mitigation measures, and traffic calming measures to reduce the FY 2017 baseline number of 6,085 city roadway crashes.

Staff will also conduct a reassessment the baseline data.

Update:

Vehicle fatalities and suspected serious crashes declined in the 4th quarter. Pedestrian fatalities increased.

The 4th quarter saw the activation of a new signalized pedestrian crossing on Pioneer Parkway (SH-303) between New York Avenue and Sherry Street.

Traffic Related Fatalities

Traffic Related Serious Injuries

Objective 2: Protect Public Well-being

Project		Performance Measure(s)	Department(s)
Core PS 1.2.2	Year 2 of the 2 nd Bunker Gear Set Implementation	Project Completion	Fire

Summary:

The Arlington Fire Department has been working earnestly to implement cancer prevention initiatives to keep the men and women who protect the residents of Arlington safe. Part of those strategy to reduce the risk of employee exposure to harmful chemicals has been to increase the frequency and rigor of how firefighters clean and disinfect their personal protective equipment. FY 2022 will be year 2 of the 3-year project to implement a 2nd set of bunker gear for firefighters and is funded by a grant from the Arlington Tomorrow Foundation.

Update:

Two thirds of the department have now been outfitted in a second set of gear. A fitting is being scheduled prior to the end of the year for the remaining one third of the department. One final fitting is expected early next year to catch any individuals who were unable to be sized at the upcoming. Admin is still deciding when we will purchase second sets for BTS 37, 38, and 39.

Milestone	Target Date	Status
Size Employees	Oct. 2021	Complete
Take Staff Report to Council	Nov. 2021	Complete
Purchase Bunker Gear	Dec. 2021	Ordered
Close out Grant with ATF	TBD	

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 1: Plan and Implement Stormwater Projects

	Project	Performance Measure(s)	Department(s)
Core PS 2.1.1	Stormwater Projects	Implement projects that mitigate flooding concerns	Public Works

Summary:

Stormwater Projects are funded through the Stormwater Utility Fee and are included in the annual capital budget as well as in the Comprehensive Stormwater Master Plan. The projects listed below include projects that began construction prior to FY 2022 as well as the planned FY 2022 projects. Project milestones listed in the table will be updated as they occur during the year. These projects include larger drainage and erosion projects. Maintenance projects and drainage improvement projects with multiple locations are not included in this report because they are typically bid by location rather than pre-planned phases.

Update:

California Lane Drainage Improvements, Phase 1 (Fox Hill, Canongate, Avonhill Estates, California Lane Park, and Westchester) continued property and easement acquisitions. The project is expected to be bid for construction in the Spring of 2023.

The Conditional Letter of Map Revision (CLOMR) for Harvest Hills Phases 1 and 2 was submitted to the City. Once it is approved by the City, it will be submitted to FEMA. The project will not proceed until FEMA has approved the CLOMR application.

Stormwater Capital Improvements Project	Structures Protected
California Lane (All Phases)	60
Harvest Hills (All Phases)	47
Kee Branch Trib 4 (All Phases)	N/A
Matthews Court (All Phases)	74

Kee Branch Tributary 4 Erosion Improvements Phase 2 from Bradley Lane to Andalusia Trail continued construction. Construction has been delayed slightly to revisemake revisions to some of the retaining walls due to field conflicts.

The construction of Matthews Court Phases 1 and 2 was completed in September of 2022.

Matthews Court Phase 3 continued construction. The paving limits for the project were extended to the north to the Randol Mill intersection. This will result in a slight delay of the estimated completion date.

Stormwater Capital Improvement Project	Estimated Bid Dates	Actual Bid Dates	Estimated Completion	Actual Completion
California Lane Drainage Improvements Phase 1	June 2022			
Harvest Hills Drainage Improvements Phase 1	Aug. 2019			
Indian Trail Erosion	Mar. 2020	May 2020	Oct. 2021	Nov. 2021
Kee Branch Trib 4 Erosion Phase 2 – Bradley Lane to Andalusia Trail	Dec. 2020	Aug. 2021	Jan. 2023	
Matthews Court Drainage Improvements Phase 1 and 2	June 2019	Dec. 2019	Mar. 2021	Sept. 2022
Matthews Court Drainage Improvements Phase 3	Dec. 2021	Feb. 2022	June 2023	

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 1: Plan and Implement Stormwater Projects

Project		Performance Measure(s)	Department(s)
Core PS 2.1.2	Council Environmental Taskforce – Update Stormwater Pollution Prevention Ordinance and Implementation of Private Stormwater Infrastructure Inspection Program	Establish a Private Stormwater Infrastructure Inspection Program	Public Works

Summary:

In 2020, the Environmental Task Force (ETF) completed a report that included recommendations for Stormwater Management to update the Stormwater Pollution Control Ordinance (SWPCO) to align with federal and state requirements and implement an inspection program of private stormwater infrastructure. Updating City stormwater rules to align with federal and state requirements, allows the City to mitigate flood risks, protect stormwater infrastructure, educate citizens, and protect water quality.

Staff presented an overview of the code updates to the Municipal Policy Committee in June 2021. Regulated stakeholder outreach for the SWPCO updates began in July 2021.

The Environmental Task Force Report Recommendations for Stormwater Management include the following tasks:

- Task 1: Update Stormwater Pollution Prevention Ordinance to require future maintenance of private stormwater infrastructure.
- Task 2: Identify a minimum of ten (10) properties with post-construction structural controls (platted after 2003).
- Task 3: Develop an outreach program to notify responsible parties of post-construction structural controls responsibilities.
- Task 4: Implement inspection program for private stormwater infrastructure after completion of Tasks 1, 2, and 3.

Update:

Task 1: Completed December 2021.

Task 2: Completed October 2021.

Milestone	Estimated Completion	Actual Completion
Task 1	Dec. 2021	Dec. 2021
Task 2	Mar. 2022	Oct. 2021
Task 3	July 2022	July 2022
Task 4	Sept. 2022	Sept. 2022

Task 3: Environmental Management updated its external website with a page specifically dedicated to structural controls. Annual reporting templates and inspection forms were created, reviewed, and uploaded to the page at the end of July 2022. Additionally, Environmental Management worked with the Office of Communications to create an outreach letter for residents, communities, and commercial properties that have structural controls. A brochure to accompany the letter was developed and completed by the end of July 2022.

Task 4: In-house inspections for structural controls began in September 2022.

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 1: Plan and Implement Stormwater Projects

Project		Performance Measure(s)	Department(s)
Core PS 2.1.3	Council Environmental Taskforce – Implement a Comprehensive Stormwater Plan and Examine Long-Term Financial Needs	Present long-term financial options to City Council to consider possible Stormwater Utility Fee update.	Public Works

Summary:

In 2020, the Environmental Task Force (ETF) completed a report that included recommendations for Stormwater Management to prepare a Comprehensive Stormwater Plan that prioritized stormwater programs and projects. A Comprehensive Stormwater Plan, along with updating City stormwater rules to align with federal and state requirements, allows the City to mitigate flood risks, protect stormwater infrastructure, educate citizens, and protect water quality. The Comprehensive Stormwater Plan was presented to Council in February 2021.

The Environmental Task Force Report Recommendations for Stormwater Management include the following tasks:

- Task 1: Examine long-term financial needs to support the CSP and present fee update options to City Council.

Update:

The stormwater utility fee was increased to \$8.00 per Equivalent Residential Unit in October 2021.

Milestone	Estimated Completion	Actual Completion
Task 1	Oct. 2021	Oct. 2021

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 2: Complete Watershed Studies for Each Watershed within the City

Project		Performance Measure(s)	Department(s)
Core PS 2.2.1	Watershed Studies	Achieve FEMA acceptance of all watershed studies by the end of FY 2022	Public Works

Summary:

Comprehensive watershed studies are important to evaluate current and future flood risk and identify problem areas that will guide the stormwater program. These watershed studies:

- Update the hydrology for current developed conditions
- Update the hydraulic models based on the new flows and current creek conditions
- Identify and prioritize problem areas and generate conceptual solutions for these areas
- Assess the stream bank conditions for erosion
- Update the Flood Insurance Rate Maps based on the new information

This data benefits the citizens of Arlington by informing them of the flood risk for their homes, so they can take protective action. It also identifies flood protection projects to be incorporated into the Stormwater Capital Improvement Plan. Arlington's nine major watersheds have been grouped into six major study areas. The Stormwater Division plans to include watershed studies in its budget each year until all the major watersheds in the City have been studied.

This project will strategically plan mitigation tasks to proactively rectify deficiencies identified in the watershed studies completed in FY 2019. During FY 2021, work will be concentrated on the following three tasks:

- Task 1: Provide community outreach on the City's improvement to the Community Rating System.
- Task 2 Provide community outreach for all FEMA approved LOMR data to be included in FEMA's PMRs.
- Task 3: Provide community outreach on the upcoming Flood Rating 2.0.

Update:

Task 1: Stormwater coordinated with the Office of Communications and published an article in October 2021.

Task 2: Community outreach for all FEMA approved LOMR data is complete. The outreach team waiting on updates from FEMA on the PMR status. Staff held a VC(A)-1 Public Meeting to inform residents of floodplain changes within the VC(A)-1 watershed.

Milestone	Estimated Completion	Actual Completion
Task 1	Dec. 2021	Oct. 2021
Task 2	Jan. 2022	Nov. 2021
Task 3	Mar. 2022	

Task 3: Stormwater Management webpage was refreshed to remove dated information. The webpage refresh included Flood Insurance information with a link to FEMA's Risk Rating 2.0 which is available to the public for viewing. In addition, City staff conducted a presentation that included information on Risk Rating 2.0 Flood Insurance changes to the Independent Insurance Agents of Tarrant County.

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 3: Enhance Awareness of Stormwater Risk

Project		Performance Measure(s)	Department(s)
Core PS 2.3.1	Stormwater Education Outreach	<ul style="list-style-type: none"> Number of public education campaigns conducted Number of stormwater pollution safety presentations given at elementary schools Number of community events attended 	Public Works

Summary:

The Stormwater Education program provides community education about the problems and solutions to stormwater pollution, floodplain development, flood safety and preparedness.

Community education can make a difference in both the quantity and quality of stormwater that reaches our local waterways. Community education includes programming with schools within the city limits to provide stormwater education to students.

Stormwater Education outreach efforts include, but are not limited to, the following:

- Provide the community with information on responsible development
- Provide property owners with information and tools to protect their families and property from flood damage through flood preparedness.
- Education outreach to schools within AISD to provide stormwater education such as "Turn Around Don't Drown".
- Increase awareness of illicit discharges and improper disposal of materials.

Update:

The Stormwater Education Program in coordination with Library Education Staff has increased its outreach efforts to homeschool groups, high school and junior high schools while continuing its outreach to elementary schools.

Outreach to new businesses and apartment complexes increased this year with 3,864 Stormwater Pollution Prevention postcards mailed out this year.

Outreach Task	Number Achieved			
	1 st Qtr.	2 nd Qtr.	3 rd Qtr.	4 th Qtr.
Attend 10 Children's Events (Includes schools, library programs, after school programs, summer camps, etc.)	0	1	10	1
Placement of 360 "No Dumping" storm drain inlet decals	94	93	93	89
Attend 10 community events to provide stormwater education materials	8	7	4	3

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 3: Enhance Awareness of Stormwater Risk

Project		Performance Measure(s)	Department(s)
Core PS 2.3.2	Program for Public Information (PPI)	Develop and implement new projects listed in the PPI Plan adopted by Council and approved FEMA's Community Rating System (CRS) in FY 2020	Public Works

Summary:

City Council adopted the City's Floodplain Program for Public Information (PPI) Plan in FY 2020. This PPI plan improves flood hazard outreach and education initiatives for the City's CRS Program. CRS is a federal program that recognizes, encourages, and rewards – by using insurance premium adjustments – community and state activities that go beyond the minimum requirements of the National Flood Insurance Program (NFIP).

The development and implementation of outreach initiatives listed in the PPI plan will assist in improving flood insurance coverage in the City and strengthen and support the aspects of the NFIP. Developing and implementing PPI outreach projects include but are not limited to:

- Task 1: Update and implement the Flood Response Preparation outreach as identified in the PPI Plan adopted by City Council for CRS.
- Task 2: Prepare a post card for non-flood zone (SHFA) delineated area to be endorsed by the Mayor.
- Task 3: Review flood outreach information to assess including additional languages.

Update:

Task 1: Flood Response Plan outreach material has been updated with three new priority topics. New design for flood brochure is being worked on in coordination with the Office of Communications staff and the Floodplain PPI Committee. Distribution of new brochure begins in FY 2023. PSA topic development for FRP has been completed and development of PSA scripts has started and will continue in FY 2023.

Task 2: 4,622 Mayor's Flood Insurance postcards were mailed out in September. This year included projects from the 2022-2027 Comprehensive Stormwater Plan.

Task 3: The Mayor's Flood Insurance postcard, the Low Water Crossing/Barricade Flood Safety postcard, SW Apartment Complex post card and the SW New Business postcard have been translated into Spanish and Vietnamese. 200 copies of each have been printed and will be distributed at events and in coordination with Code Enforcement's Multi-Family and Business programs.

Outreach Task	Estimated Completion	Actual Completion
Task 1	Oct. 2021	Mar. 2022
Task 2	Dec. 2022	Sept. 2022
Task 3	Mar. 2022	Sept. 2022

Public Safety

Goal 2: Mitigate Flood Risks and Protect Stormwater Infrastructure

Objective 3: Enhance Awareness of Stormwater Risk

Project		Performance Measure(s)	Department(s)
Core PS 2.3.3	Stream Gauge Infrastructure Upgrade and Communication	Implement a flood hazard notification system based on stream gauge data	Public Works

Summary:

The City of Arlington currently has six stream gauges. These gauges collect important information such as rainfall accumulation, rainfall increments, and water levels. The stream gauge uses the ALERT (Automated Local Evaluation in Real Time) 1 system which needs an upgrade as hardware improves. This real time data will assist in response time for activating barricade infrastructure, emergency operations, and engineering assessments. During FY 2021, the Floodplain Group will perform the following three tasks:

- Task 1: Upgrade two existing stream gauges to Automated Local Evaluation in Real Time 2 (ALERT 2) system to increase the accuracy and performance of flood detection systems.
- Task 2: Identify low crossings based on watershed studies and Emergency Operations to determine two new locations to install stream gauges.
- Task 3: Identify grants and possible funding opportunities to assist in installing at least six additional gauges within the City limits.

This data collected by the stream gauges benefits the citizens of Arlington by informing them about active flood risks to take appropriate action. The implementation of a flood hazard notification system will reduce the potential loss of life or injury due to flood hazards from overtopped roadways. The collected data also assists in identifying flood protection projects to be incorporated into the Stormwater Capital Improvement Plan.

Update:

Task 1: Staff has identified system requirements to make repairs and upgrades to the existing network. Staff is drafting an RFP to install ALERT2 equipment at all existing sites in conjunction with a system expansion to the sites identified in Task 2. The RFP will be released in November 2022.

Task 2: Staff has identified three locations to install new stream gauges: Bowman Branch at Mansfield Webb Road, Bowman Branch at Webb Ferrell Road, and Lynn Creek at Silo Road. An RFP will be released in November 2022 to purchase and install equipment for these new sites, in conjunction with the ALERT2

Milestone	Estimated Completion	Actual Completion
Task 1	Nov. 2021	
Task 2	Jan. 2022	Dec. 2021
Task 3	May 2022	

upgrades in conjunction with the equipment required to upgrade existing gauges to the ALERT 2 network.

Task 3: In progress. Staff continues to search and assess opportunities to supplement funding for upgrades to the stream gauge network.
